

**Course Name: Pottery: Wheel-Throwing for Beginners (Course number: LEI0164)
Instructor: Janice Kostelny**

This class provides the instruction needed to begin shaping clay on an electric wheel. Although it is the hardest technique to master, when it comes to manipulating clay forms, it can be very gratifying and most definitely FUN. Weekly demonstrations and instructor interaction will help you develop and strengthen the skills needed for success. Experienced students will also benefit from instructor assistance and are encouraged to pursue their own interests and projects.

Please check the supply list to see what tools you will need for the class!
