***Spring: The Ambition to Grow Personally and Professionally***

In this issue of Become More, we are excited to feature several new initiatives that will offer our community more opportunities for personal and professional growth as well as a better experience online.

New Online Registration Experience. This past fall, Continuing Education launched a new online registration system for our community. The system provides a more seamless and intuitive experience, especially as you browse and search our courses and programs. If you have not tried our online registration before, or you have tried it and not been satisfied with the experience, please take the time to check out our new system. We are confident you will see the difference.

Barbering. Continuing education is excited to begin offering a new program this semester in barbering. According to the Bureau of Labor statistics, this job category is expected to grow by 13% between 2016 and 2026. In fact, many people becoming barbers today are women. If you already have a cosmetology license, you can enroll in CE's new 500-hour course, Cosmetology/Barber Crossover in preparation for the Illinois Barber exam.

Data Science and Analytics is a growth industry. Companies are harnessing the power of data and predictive analytics to make good decisions about products, services, and employees. Data provides insights in remaining competitive and guides the development of business strategy. This market will continue to grow with improved computing and processing power that will harness the power of machine learning and AI in the years to come.

Harper College Continuing Education courses which align to this growth industry include:

- Big Data Analytics
- R Programming
- Microsoft Excel
- Python Programming
- Tableau Data Visualization Software (New Spring 2019)

As always, our programming is designed for you. We welcome your feedback and suggestions as we continually develop our program offerings.

ESSENTIAL OILS FOR PET PROFESSIONALS

As a pet professional you encounter stressed pets. When therapeutic grade Essential Oils (EOs) are used properly, they are a very safe and effective modality that may be used alone or in conjunction with other techniques to ease anxiety and promote wellness. The safety and effectiveness of an EO will depend greatly on its quality and how it is used. As with medications, the strength (purity) of the oil, the amount per dose, the frequency of dosage, and the route of administration will all play a role in its effect. Essential oil selection, concerns and use of some of the more common EOs in our four legged companions will be discussed. Pet parents are welcome. Do NOT bring a pet to class.

ACT/SAT PARENT/TEEN INFORMATION NIGHT

Wed., Jan. 9, 6:30 - 7:30 pm,
Harper Main Campus

Join Harper and Sylvan to clarify the ACT/SAT confusion.

TEST PREPARATION

ACT/SAT PRACTICE 101

In this three-hour prerequisite class, students take a full-length ACT or SAT practice exam to establish their baseline score. Sylvan analyzes the score, reviews the results with students and parents, and makes recommendations about preparation options. If a student would like to take both the ACT and SAT in a Practice 101 class, they should enroll in two separate ACT/SAT Practice 101 classes. Students must complete a Practice 101 class to be eligible to enroll in an ACT or SAT Exam Prep course. Classes may meet at Sylvan Centers in Schaumburg or Lake Zurich.

ART AND ARCHITECTURE

IMPRESSIONISM I & II

NEW!

Impressionism -why do we enjoy this period of art so much? With a look at one of the most appreciated periods in art history, we examine the major Impressionist artists during the period of 1855-1886 with a focus on the New Paris - the city of leisure and entertainment. Instead of a chronological viewpoint, major cultural themes current in 19th century Paris are addressed through the beauty of the art. Familiar artists such as Manet, Renoir, Monet will be highlighted due to the artistic merit of their work. Class meets April 16th and April 23rd.

PABLO PICASSO: THE GENIUS WHO CHANGED US

NEW!

The Spanish artist Pablo Picasso was exceptionally gifted. His career spanned most of the 20th century and changed our way of seeing. His exceptional gifts were apparent from earliest childhood. By the time he settled in Paris in 1904, he had produced outstanding works, including those from his Blue Period and Rose Period. In 1907 he shocked the world with his first Cubist painting. Picasso outraged the world with his revolutionary and new visions. His varied lifestyle encompassed a number of locations, several wives, mistresses and children and a series of deep friendships with other artists, poets, and writers.

PAUL GAUGUIN: THE FRENCH ARTIST

NEW!

The Peru born, French artist Paul Gauguin was a man who defied definition. He saw himself as an artist-artisan, one who championed experimentation with unconventional media and techniques ranging from novel approaches to painting, ceramics, and sculptures in wood, to innovative printmaking. Paul Gauguin is known for his extended voyages to the exotic islands of Tahiti and the Marquesas, and was described by those who knew him as a querulous, hard drinking individual. Unable to find the paradise he dimly remembered from early childhood, he created his own vision in art, but only at the cost of self-destruction.

SANTIAGO CALATRAVA: THE POETICS OF MOVEMENT

NEW!

Santiago Calatrava, the Spanish architect whose practice is based in Switzerland, and whose style has been identified as universal, has developed a unique sense of architectural morphology that overlaps structure with what some have expressed as a sense of poetic movement. His designs of bridges, airport terminals, railway stations and art museums are revolutionary, combining a sense of opposing asymmetrical forces with mass that elicit emotional responses from their viewers. Calatrava's most recent work in the United States, the 2016 PATH Transportation Hub in NYC, is a gleaming white asymmetrical structure near Ground Zero and 50 feet below it links New Jersey, Manhattan and John F. Kennedy International Airport.

THE WATERCOLOR OF WINSLOW HOMER & THE COLOR OF LIGHT

NEW!

American born Winslow Homer's watercolors have remained unmatched in their ambition and expression of power. Nearly 700 works in watercolor have survived, and they constitute perhaps the single most important body of work ever created in that medium in America. Late in his life, Homer is said to have written, "You will see, in the future I will be remembered by my watercolors." And so it appears, because today his watercolors are among the prized possessions of many of America's finest art museums. Altogether they represent a remarkable achievement for this artist.

UFFIZI I & II

When we think of the Uffizi, we think of magnificent works of art from the 15th - 16th centuries. However, with a second look, we discover not only a rich artistic heritage of earlier and later periods, but also the magnificent architecture of the Uffizi and its place within the Florentine framework. Many of these works will be familiar: The Annunciation, Simone Martini; The Birth of Venus, Sandro Botticelli; the Doni Tondo, Michelangelo and Bacchus by Caravaggio. With this class, you will gain a better understanding of the significance and value of Western art of which we are the beneficiaries. Class meets twice.

CHECKING IN ON GERMANY'S CURRENT AFFAIRS

Checking in on Germany's current affairs! After the last German elections and their upsetting results, it took almost six months until Chancellor Angela Merkel was able to create a new coalition government. Last spring Europe's most populous nation was taken by surprise when the Trump administration threatened high tariffs on luxury cars and other products made in Germany. Add to that the challenging integration of Muslim refugees and the disappointment of many East Germans over unequal living conditions thirty years after the Fall of the Berlin Wall — no wonder the country is currently experiencing turbulent times. Join Germany Expert Anette Isaacs for a fascinating discussion of her home country's current affairs!

CONTROVERSIES WITH CONJOINED TWINS AND WRONGFUL LIFE

Even with early screening and testing, occasionally a rare medical issue will challenge parents and modern medicine. Hospital policies, doctor's medical opinions and parental love can be in conflict when dealing with these cases. Who decides the final course of action? Instructor, Suzanne Rausch will discuss these cases that have demonstrated such conflicts, including cases of conjoined twins and other rare conditions that challenge the best skilled medical professionals and our notion of a quality of life. This course meets April 3rd and April 10th.

INTRODUCTION TO DECONSTRUCTING THE NEWS

This class is part of the Illinois Press Association's News Literacy/ Civic Engagement project which began in 2015. With the term "fake news" so prevalent, how can we determine what is reliable? With "posttruth" and "truthiness" in our vocabulary, is truth relevant in the news? Learn the secrets to unlocking the truth for yourself. This introductory course provides an overview of news literacy and tools you need to make your own informed analysis of news stories. Laura Ehrke helps you deconstruct a news story and evaluate the elements that make it news (or not).

WHAT WE ARE LEARNING FROM YELLOWSTONE NATIONAL PARK

Americans can take pride in the initiation of the national park concept. Since its legal beginnings with the introduction of Yellowstone National Park in 1872, Americans have had to deal with issues that have become a national concern and triggered ongoing political conversation with regards to wildlife management. Conservation and recreation have often come into conflict. We will discuss the history and the current state of key issues that we are working through and learning about in our nation's first national park.

**THE 27- AMENDMENTS OF
THE U.S. CONSTITUTION****NEW!**

Over 11,700 proposed amendments have been introduced in the U.S. Congress. Only 27 have been adopted. We have corrected oversights and omissions (e.g. how many terms a President may serve), we have responded to social pressure (e.g. granting women's suffrage), we have clarified delicate situations (e.g. how do we determine if a President is unable to serve) and in one case reversed a mistake (cancelling prohibition). We all know the first 10 as 'The Bill of Rights'; but the stories behind all 27 are fascinating and important. Join Professor Gary Midkiff for a study of our constitutional amendments.

**THE PRESIDENCY OF
HARRY TRUMAN****NEW!**

A compromise choice for Vice President, Truman was pulled onto the international stage with little experience and no preparation. And yet during his nearly two full terms in office he faced every problem head on, made momentous decisions in a collegial manner, acted both tactically (e.g. Berlin airlift) and strategically (e.g. NATO), and when faced with a constitutional crisis (i.e. MacArthur's challenge to his Presidential authority) made the correct decision in the correct way. Truman faced more significant challenges while President than any other President (except Lincoln). Our appreciation of him grows every year. This is a 2-part class running 5/23/19 and 5/30/19.

WHY IS THE NUMBER 12 THE MOST PERFECT NUMBER

The most perfect number is the number 12, and it has a deep significance in our life because this number has been used continuously since ancient times, and even today, in the most amazing and extraordinary manner. Twelve is a composite number, the only number that has a perfect number of divisors: 1, 2, 3, 4, 6 and 12. Twelve forms a whole, a perfect and harmonious unit. It corresponds to plenitude, completion, and the integrity of things. The number 12 is prevalent in all things: time, space, dimensions, weights, light and color, myth, history, law, politics, astronomy and astrology, is a very significant number in many world religions, and is a number of great power and meaning.

MOTOWN: MUSIC THAT MOVED THE WORLD

In Detroit in the 1960's Motown Records produced hits as efficiently as the Ford Motor Company produced automobiles - 110 Top Ten hits to be exact! It was the "Sound of Young America" sung by performers like The Supremes, The Temptations, Marvin Gaye and Stevie Wonder. Using audio and visual content we'll trace the amazing musical journey from the power soul of "Dancing In The Streets" and "I Heard It Through The Grapevine"; to the psychedelic soul of "Cloud Nine" and "What's Going On" to the pop soul of The Jackson 5. Timeless music that moved us then and moves us now. Course meets March 4th and 11th.

MOVIES, MUSIC AND ROMANCE

Ever wonder what it would be like to experience dozens of the most memorable movie scenes, love songs, and dance tandems all in one sitting? Movie Music and Romance is just such an experience: a compilation of 38 classic songs and dances from among the greatest in film history. Familiar faces abound in this new 2-hour presentation, Fred and Ginger, Elvis Presley and Emma Stone among them. It's fresh. It's different. Several scenes are cast in a new light, from a different perspective, re-edited in a new way. And it's peppered with little-known historical facts. Great fun!

ROOTS OF COUNTRY MUSIC

The origins of country music reveal a cultural intermingling typical of immigrant-based countries. Though record companies overtly advertised music according to race in the early part of the 20th century, the roots of the music paint a different picture. In fact, there are as many African as Anglo-Celtic influences in the music. Cultural Anthropologist Scott Cashman will examine the music within the fertile cultural landscape of the American south in the 19th and early 20th centuries as you listen to both music played live and on video. Class meets April 26th and May 3rd.

THE ALLURE OF VENICE-ITS HISTORY, ARCHITECTURE AND ART

Venice is the city in the lagoon, an impossibly beautiful city of water, a maze of narrow alleys that wind behind the airy Byzantine, Gothic, Renaissance and Baroque facades, facing each other across the Grand Canal. Venice rises from its own reflection with its incredible churches, the Doge's Palace, narrow canals, gondolas, carnival, and mass tourism. It is located at the north-east corner of the Italian peninsula and faces the Adriatic. Venice's great Late Renaissance and Baroque artists include: Giorgione, Titian, Tintoretto, and Veronese. Venice was surely built to be painted by Canaletto, Turner, John Singer Sargent and many other great artists.

ADULT ART

ART BUSINESS

THE BUSINESS OF MAKING ART

NEW!

Amateur artists have spent a lot of time and money developing their creative skills. This class will share ideas about how to recover some of those costs while deriving the satisfaction of getting your pieces into the hands of consumers. You will explore techniques relevant to today's economy including branding, social media, distribution options and pricing.

ARTS 3-DIMENSIONAL

ARTISTIC WELDING

Have you walked through an art fair and seen ornamental metal sculpture? Some are on tall rods, some wave gracefully in the wind, while others are anchored in place by planters overflowing with colors. Here you will create elements of your own design in steel and copper to make your indoor or outdoor space as individual as you are. This class will provide you with user-friendly instruction in steel handling techniques including MIG welding and plasma cutting. These are the easiest and the safest methods to learn. No previous welding experience is necessary, but basic welding safety will be stressed. The instructor will assist with welding parts of your project as necessary.

BRONZE CASTING

The lost wax method of bronze casting dates back more than 5,000 years and is still regarded as the most precise casting method in existence. The process ensures that there is incredibly accurate reproduction of your original sculpture, with all of the original, exquisite detail recaptured. In this course, designed with the beginner in mind, we will provide demonstration and one-on-one assistance to help you learn this fascinating process. Students will be required to purchase metal.

INTRODUCTION TO GLASS FUSING

Glass fusing is an exciting and liberating glass art which enables artists to create glass designs by fusing compatible glass pieces together in a kiln. You will be introduced to a wide variety of fusing materials and techniques as you create jewelry pendants, a decorative wall tile and a mold-formed bowl, plate or vase. In addition, you will examine various finished projects and discuss how they were made. You will learn basic glass cutting and shaping skills, cleaning and layering techniques, and some basic kiln programming. Previous glass fusing experience is not required. You may only take this class once. Fees include the rental of tools, all supplies, glass, grout, and fusing fees for class projects.

**STAINED GLASS FOR BEGINNERS:
COPPER FOIL METHOD**

You will create your own light masterpiece as you learn how to cut and shape glass and assemble a stained glass panel using the Tiffany copper foil method. The largest rose window in the United States uses more than 10,000 pieces of stained glass to capture light in a glorious array. You will select your project from several beginning patterns provided by the Studio. Please be warned: you may have so much fun in this class that you will develop an overwhelming urge to create more. No previous experience necessary. This class is a prerequisite for the follow-on class, Stained Glass for Beginners: Lead-Came Method. Fees include all class materials and supplies including glass for your projects.

CALLIGRAPHY**COPPERPLATE CALLIGRAPHY**

The style of Copperplate calligraphy showcases grace with rhythm, such as that found in elegant 18th Century sitting rooms. This decorative, lofty calligraphy uses a sharp pointed nib and varied pressure applied by your hand while writing fluidly at a 90-degree angle. Most often used for social correspondence, this script will be perfect for invitations, envelopes and place cards for your next garden party, dinner party or other well-designed soiree.

JAZZ ENSEMBLE

The Jazz Ensemble is a traditional big band of 15-20 players who perform under the direction of renowned Chicago jazz pianist Ken Spurr. Open to all Harper students regardless of major, faculty, staff and community members, the band performs a range of jazz music, from standards to contemporary hits. This course focuses on the study of the standard Jazz ensemble. It is an overview of various techniques and interpretation as applied to Jazz ensemble and performance. Each semester, the band performs a concert in the Performing Arts Center. The group participates in community events and tour performances and frequently features professional guest artists from the Chicago area. A limited number of combo performance opportunities are available to members. Increase your proficiency on an instrument or as a singer while enjoying the opportunity to learn and perform music from the classic jazz repertoire. Utilize sight reading and musicianship while enhancing your skills, musical understanding and enjoyment. An audition is required and is held at the first rehearsal of each fall and spring semester. Sight reading at an intermediate (High School Jazz Band) level is required. For more information and audition music, contact Ken Spurr at kspurr@harpercollege.edu or call 847.925.6568.

THE ALLMAN BROTHERS AND THE GRATEFUL DEAD

Drummers sitting at two drum kits, with guitarists on everyone's best list, have fueled each of these bands. This unique fact, however, is not the only thing that causes us to put these two Hall of Fame bands into the same class. You will discuss the incredible musicianship, the famous concerts, the sharing of audiences and the vast legacy that the bands have shared. In addition, you'll listen to some of our favorite music along the way. With the Allmans it's the truly frightening vocal of Whipping Post and the absolutely swinging rhythm of Don't Want You No More. For the Dead it is their absolute grasp of the entirety of American music fused with a mind-boggling grasp of collective improvisation. Former Tower Records managers Paul Gongola and Scott Cashman will spend 2 evenings discussing these artists and offer their analysis of what uniquely distinguishes these bands and why they will matter to our grandchildren.

LEADBELLY AND THE GRATEFUL DEAD: TRADITIONAL AND MODERN SONGSTERS

Leadbelly's the blues, right? The Grateful Dead - they are rock? Well, yes, but not exactly. A songster collects music from multiple genres and adds them to create an extensive repertoire. We'll examine the idea of the songster and see how it applies to The Grateful Dead and Huddie Leadbetter. So, are The Dead the modern ones? Scott Cashman, an anthropologist and former Tower Records manager, will discuss the music of these two crucial artists while considering the concept of the songster.

PIANO PREPARATORY PIANO PROGRAM

30M PRIVATE LESSONS AND 50M GROUP LESSONS FOR 15 WEEKS

The program consists of a combination of group and private instruction. Group lessons offer peer reinforcement, social interaction, ensemble experience, and group activities. Private lessons provide individual attention for technical development and interpretive and expressive insights. Combining these approaches give you a comprehensive 15-week curriculum. Participate in one 30-minute private lesson and one 50-minute group lesson each week. In addition to learning an instrument, students will enhance playing technique and develop listening skills, intonation, rhythmic accuracy, and expression. Returning students must receive the CRN from their instructors. New students must complete the First-Time Student Application at bit.ly/cmaccprivatelessons. You may register after the Piano Facilitator reviews their application and assesses their level.

CLASS PIANO IV

Develops a rudimentary knowledge of the keyboard and playing skills sufficient to cope with simple, practical situations. Emphasis on tonal notation, harmonization, transposition, sight reading, improvisation, ensemble playing and basic piano literature. Greater emphasis on keyboard harmony, ensemble playing and jazz improvisation.

SOUND RECORDING

SOUND RECORDING I: INTRODUCTION

Learn the core principles of sound recording and apply them in your own projects. Topics include: an overview of recording technology, microphone design and uses, types of recording studios, plus a general study of acoustics. Whether you are beginning to prepare for a career in the audio industry or you are simply looking to enhance your knowledge of the recording process, this course will give you the tools you need. Take the first class on its own, or take it as the first class in our three-level Sound Recording Certificate program. The text, *Modern Recording Techniques* (Eighth edition) by Huber and Runstein is required and is used in each of the classes in the Sound Recording Certificate program.

SOUND RECORDING III: MIXING AND EDITING TECHNIQUES

After the recording sessions are complete, the last step is to create the final track. In this class you will work with previously recorded material, often the material you recorded in Level II. Learn the fundamental principles of good mixing while you get hands-on experience processing the sound on a digital audio workstation, blending and balancing the final mix. You will also discuss effects processors including reverb, delay, limiting, and other time and amplitude processors. Finally, there will be a discussion on mastering. This is the third and final class in the sequence to complete the Sound Recording Certificate program. **PREREQUISITE:** Sound Recording II: Recording Techniques or equivalent experience.

INTRODUCTION TO VOICE OVERS: GETTING PAID TO TALK

If you have been told you have a great voice, you rely on your voice in your occupations, or you are simply curious about the voice over field, then this class is for you. Learn what the pros look for and how to prepare for interviews. You will learn what a voice over is, how they are created and who is involved. You will discuss how to find your specific voice niche, where to look for work opportunities and how to avoid common mistakes. You will hear audio examples from working voice over artists, and then you will record a short commercial script for playback at the end of class. This introduction to voice overs is taught by voice-coaches, a collaborative of voice acting and production professionals.

STRESS MANAGEMENT IN THE WORKPLACE

Stress isn't the enemy. It is our perceptions of stress that amp our anxiety and use up all our steam. Events happen every day. How we interpret those events can set the stage for how we feel and how we react to others. Reducing stress is as easy as understanding what stress is, understanding what stress is to you, and using that knowledge to restructure your thoughts. Turn stress into a stepping stone, not a stumbling block!

WINE**SERIES: WINES OF SPAIN**

Join award-winning wine sommelier Marcel Flori on a virtual tour of Spain through its regional wines. This series course enrolls you in each of the Wines of Spain courses in this semester: Wines of Galicia, Wines of Castilla Y Leon, Wines of Rioja, Navarra, Pais Vasco, Wines of Catalunya, Wines of Castilla-La Mancha, Madrid, Murcia, Valencia and Extremadura, and Wines of Andalucia, Canary and Baleares Islands. Each class includes a tasting. Students must be 21 years of age or older to enroll.

WINES OF SPAIN: GALICIA

Galicia may be the unique region of Spain (more like Ireland than the rest of the Iberian Peninsula). You will cover the sub-regions of Rias Baixas, Ribeiro, Ribera Sacra, Valdeorras and Monterrei. Its cool climate makes it a strong producer of white grapes led by Albarino. You will also experience Godello, and Loureiro grapes. Red wines are present too though in significantly smaller quantities. In addition to tasting the wines, you will learn about grape varieties and their microclimates. Students must be aged 21+ to enroll.

WINES OF SPAIN: CASTILLA Y LEON

Red wine is dominant in this Spanish region, which includes the sub-regions Toro, Rueda, Ribera del Duero, Arlanza, Bierzo, and Tierra de Len. In fact, there is varied soil in this region, helping to create 13 distinct wine growing regions. Tinto Fino is a leader in grapes but, like the other regions in Spain, there is an interesting variety of grapes in this region. In fact, you will get a strong introduction to the famous Tempranillo in this class. At Harper college we are a bit partial to this region not for its wine but because it is home to Europe's oldest University (Universidad de Salamanca) which has been teaching students since 1134! Students must be aged 21+ to enroll.

WINES OF SPAIN: RIOJA, NAVARRA & PAIS VASCO

In the north of Spain cluster 3 regions that produce some of the most important wine in Spain. The Rioja blend is probably the most famous of Spanish wines in America. Here you will again find Tempranillo. Finally, there is some value to be gained for the knowledgeable as Rioja is age worthy and yet not as famous or pricy as wine from Bordeaux and Burgundy. Spain is home to more wineries that any other country in the world and these three regions are a great place to start your appreciation. Students must be aged 21+ to enroll.

WINES OF SPAIN: CATALUNYA

We don't know how long Catalunya will be a region of Spain but we do know that it will always have its wonderful grapes led by the reds Garnacha and Carignan and the white Garnacha Blanca and Xarel-lo. That is not all that is in the region though. You will also find Tempranillo, Trepat, Cabernet Sauvignon, Merlot and Syrah for reds and Parellada and Macabeo that feature in the Spanish sparkling wine Cava! Students must be aged 21+ to enroll.

**WINES OF SPAIN: CASTILLA-LA MANCHA, MADRID, MURCIA, VALENCIA & EXTREMADURA**

Don Quixote may have battled windmills in Castilla-La Mancha but he had some fine wine to retire to when he finished his battle. La Mancha is the largest (and one of the oldest) delimited wine region in Europe. Very hot summers and cold winters produce dramatic climate variation, so it is a hardy grape that survives here. Airen is the most prevalent (it makes a fine brandy) but there are reds including Cencibel (local name for Tempranillo), Cabernet and Merlot though there are many others. Among the whites, you will find Chardonnay, Viognier, Macabeo, Torrontes and Verdejo. The reputation of quality in this area of Spain is on the rise! Students must be aged 21+ to enroll.

WINES OF SPAIN: ANDALUCIA, CANARY & BALEARES ISLANDS

The wines of the Canary and Baleares Islands can be hard to find in America but the reward can be significant. Reds include Callet (think Pinot Noir) and Manto Negro while Prensall Blanc is a local favorite. Some vines are as old as 300 years and never touched by the phylloxera plague. Meanwhile, Andalucia is the home of Sherry and other fortified wines. Students must be aged 21+ to enroll.

FOR ADULTS WITH DISABILITIES

CAREER SKILLS INSTITUTE II

The Career Skills Institute provides an educational experience for students with mild cognitive disabilities, age 18 and above. Career Skills Institute II is the second semester of the program and builds on the skills the students mastered in the first semester. Acceptance into the Institute and completion of LDD8001 (or equivalent as determined by the program coordinator) is required for registration. Career Skills Institute II is composed of 3 modules: English Composition, Computers in the Workplace, and Workplace Communication. These modules are designed to build skills that will create success in this program and later, in the workplace. Students will learn a combination of academic and work related competencies such as how to write formally, how to use a computer in a simulated workplace setting, and how to effectively communicate on the job.

CAREER SKILLS INSTITUTE IV

Career Skills Institute IV is the fourth and final semester of the Career Skills Institute program and builds on skills the students have mastered in the first three semesters. Career Skills Institute IV is composed of two modules: Career Exploration II and Workplace Experience. Career Exploration II focuses on creating resumes, finding work opportunities, filling out applications and interviewing tips. Workplace Experience gives students the opportunity to apply learned skills in a workplace setting. These modules allow for discussion of experiences and workplace practices. They are designed to build skills that will create success in the workplace. Prerequisites: acceptance into the Institute and completion of LDD8001, LDD8002 and LDD8003 (or equivalent as determined by the program coordinator).

THE CAREER SKILLS INSTITUTE

The Harper College Career Skills Institute (CSI) is an educational program for students with mild cognitive disabilities, ages 18 and above. CSI assesses and strengthens basic employability skills and helps students develop realistic career plans.

A Learning Community: Cohorts of not more than fifteen students stay together for two years, trained by professional support staff and instructors. Year One focuses on basic academics and communication. Year Two focuses on career exploration with a guided vocational experience.

How CSI Students Benefit:

- Build academic, vocational, and social skills
- Learn appropriate work behavior and problem-solving skills for the workplace
- Develop career-related interests
- Receive an honest assessment of their career potentials
- Better understand the continuing supports they will require in the workplace.

For More Information, visit ce.harpercollege.edu/csi or contact Linda Hoeck, CSI Coordinator at 847.925.6000 x2076 or lhoeck@harpercollege.edu.

DIALOGHIAMO IN ITALIANO

Non si sente a suo agio delle sue capacità colloquiali? Vuole migliorarle o accelerarle di più? Sente il desiderio di esplorare e conoscere la cultura italiana in modo più completa? Soprattutto se ha recentemente completato il III livello di conversazione presso l'Università di Harper, perché non si unisca ad un gruppo di assoluta conversazione di lingua italiana? In questo corso di otto settimane, la presenza dell'insegnante assicura l'uso corretto di ciò che ha imparato nei corsi precedenti. Inoltre, le darà la conoscenza aggiuntiva sugli aspetti culturali del paese e delle persone usando l'italiano. Potrà immergersi nell'italiano con delle conversazioni su avvenimenti attuali con varie letture, film, arte ed altre materie culturali. La raccomandiamo di unirsi a noi al più presto!

LEARN A NEW LANGUAGE, GAIN A WORLD OF BENEFITS

You already know that learning a new language gains a competitive edge in your career, prepares you for that dream vacation, and cultivates greater social interaction. But, did you know that languages bring a world of lifelong benefits?

Studies have shown that learning a second language helps:

- **Enhance Your Brain Activity:** Improve your attention, memory, and discipline while lowering risks of brain aging, dementia and Alzheimer's.
- **Enhance Your Focus:** Improve your concentration, strategic planning, prioritization and multi-tasking skills.
- **Enhance Your Communication:** Not only will you be able to converse in a new language, you will communicate in your own language more effectively.
- **Enhance Your Business and Personal Relationships:** Learning another's language builds trust and respect, while also developing empathy and insights.
- **Enhance Your Decision-Making Skills:** Thinking of a problem in a second language increases impartial analysis, lessening emotional reactions and impulses.
- **Enhance Your Perception:** Become more observant and see the world more vibrantly.

This fall, take on a fun new challenge with our Conversational French, German, Italian, Japanese, or Spanish courses. Explore the alphabet, numbers, greetings, and how to express yourself and your needs with courses focused on comprehension and conversation for real-life situations.

CONVERSATIONAL SPANISH III

You've completed Conversational Spanish I and II or from another program you've become comfortable engaging in a simple dialogue by using proper grammar with present and past tense. Enroll in Conversational Spanish III for proficiency in past tense and begin to learn future tense. By the end of the eight-week course you will be comfortable in conjugating new words and you should be able to compare how your knowledge in the language grew from 25 percent to at least 45 percent of your conversation.

NATURE

FANTASTIC SPACE EXPLORATION AND CUTTING EDGE DISCOVERIES

The past couple years have been full of remarkable astronomical discoveries made possible by NASA missions: Cassini/Huygens' look at Saturn's dynamic rings and moons system, Curiosity and Opportunity still roving Mars, and New Horizons' successful fly-by of Pluto and flight towards a Kuiper Belt object a billion miles beyond Pluto. Recent discoveries are altering our perspectives on the Solar System and many, possibly habitable, planets beyond. Jim Kovac grew up during the age of the Mercury, Gemini, and Apollo missions. Since 2005, Jim has been an active volunteer in the NASA-administered Jet Propulsion Lab Solar System Ambassador Program.

BACKYARD BAT HOUSING

Backyard bat houses are mutually beneficial for you and local bats! The bat species we see in Northern Illinois are all insect eaters and those mosquitoes we're tired of during the summer are among their favorites to eat. Unfortunately, bat species worldwide are facing decreased populations due to habitat loss. By providing a roost, you can help give them a safe and comfortable place to live. You will learn all about bats while building your own bat house to take home.
