Who are LLI Students?

Our students come from diverse backgrounds and professions. They share the desire to stay intellectually active, politically savvy and mentally engaged. No one is a stranger for long at LLI. Everyone who joins our group of “forward thinkers” shares the same desire to learn and to become a part of a larger picture.

What does LLI offer?

Classes cover academic subjects in history, journalism, music, political science, writing, literature, global issues, art, horticulture and more. Workshops and seminars are an additional technique used to deliver our intellectual experience. We are proud to announce that we recently established a partnership with The Botanic Garden, which adds to our curriculum and expands our student base.

When are classes held?

Lifelong Learning meets all-year-round. The Fall Semester begins in late August. Spring Semester begins in January and the Summer Semester begins in May. We offer day and evening courses Monday through Saturday to accommodate your schedule.

Who are LLI class instructors?

Classes are taught by retired professionals, Harper College faculty members, and scholars.

How much are the classes?

The classes vary in terms of length, however, a one-day class is typically \$38.00. If a student has an LLI membership, most classes are discounted by fifty percent.

Join the LLI team, enjoy life and all it has to offer.

“The longer I live the more beautiful life becomes. If you foolishly ignore beauty, you will soon find yourself without it. Your life will be impoverished. But if you invest in beauty, it will remain with you all the days of your life.” ~ Frank Lloyd Wright

Since 2002, the Harper College Lifelong Learning Institute (LLI) has provided enriching and entertaining continuing education opportunities to adults age 50+ in our community. LLI's innovative classes appeal to every interest – with no background, homework or grades necessary.

ART

AMERICAN ART FROM THE PHILLIPS COLLECTION

NEW!

The modern city of London, the capital of the United Kingdom, is a sprawling living city of 8.3 million living souls, spread over 610 square miles. It is built on the Thames River and it bursts at the seams with relics and the remains of its 2000 years of rich history. The pageantry of its royal families, its celebrated Buckingham Palace, its institutions, and its repositories of art, literature, and culture draw thousands of tourists each year. They are drawn to the city by its parks, gardens, churches, and even by the reminders of the tragic events that hit the city during WW1 and WW2.

HIGH & LATE RENAISSANCE IN VENICE & THE ITALIAN MAINLAND

NEW!

By the 16th century, Venetian art takes center stage in importance and influence in the artistic world. Three artists, Titian, Tintoretto, and Veronese are leaders in the aesthetic transformation of the culture. Individualism, Internationalism and secularization emerge, and each influence is reflected artistically in a more intimate, erotic and poetic approach to painting. Mythological subjects are in demand in secular painting; religious paintings that reflect Counter-Reformation thinking add to artistic commissions. Be prepared to enjoy this exceptional period of Late Renaissance art.

Ravenna, the city of art, is universally known for its mosaics. Travel to this fascinating Italian city for a highly visual look at its masterpieces of mosaic art and late Roman architecture. During the later 6th century Ravenna hosted a renaissance of biblical Byzantine mosaics, remaining the most important site outside Constantinople. The Church of San Vitale, a UNESCO World Heritage site, is especially celebrated for its extensive and best-preserved mosaic art of the Justinian era (c. 540-750). Examine its great beauty and learn about the signs and symbols of Old and New Testament art.

REMBRANDT: HIS LIFE AND HIS WORK

Rembrandt is one of the towering figures in the history of European art and many would call him the greatest of all painters. From the early 1650's until his death at the age of 69, Rembrandt produced a remarkable body of work. Far from diminishing as he aged and despite personal and professional setbacks, his creativity gathered fresh energy as he constantly searched for a new style that was both expressive and meaningful. No one before Rembrandt made the ordinary stuff of humanity seem so deeply serious and interesting. His perceptiveness is unmatched as a man and as an artist.

VENETIAN RENAISSANCE & THE INTRODUCTION OF OIL: PT 1

NEW!

Venetian Renaissance art deserves a unique place in this period of art history. Unfortunately, the contribution of many of its important artists such as Giorgione and the Bellini family has not been emphasized enough. This class explores the city's unique culture and its reliance on the sea, the reliance which at once separated it from other Italian cities and yet created opportunities for artists to reveal its great splendor and mystery. This includes the introduction of oil paint which allowed artists to explore the subtleties and beauty of light and color so important in Venetian Renaissance art.

HENRY DAVID THOREAU: AMERICA'S CONSCIENCE

Thoreau's contemporaries found him prickly, ill mannered, and homely. Ralph Waldo Emerson, his friend and mentor, thought Thoreau frittered away his talent, leading readers "on a huckleberry party." However, in the 150 years since his death, Thoreau has become the patron saint of ecologists, conscientious objectors, non-violent protesters, advocates of simple living, champions of self-discovery, and proponents of limited government. This talk looks at Thoreau the person and his increasingly relevant contributions to American thought. Can anyone resist a dying man who, when asked if he had made his peace with God, replied, "I didn't know we quarreled."

NATHANIEL HAWTHORNE: THE SCARLET LETTER FOR TODAY

Critics debating the great American novel consistently place *The Scarlet Letter* near the top. In Arthur Dimmesdale and Hester Prynne, Nathaniel Hawthorne creates characters wrestling with great issues: law vs. love; intellect vs. heart; social morals vs. individual conscience. Hawthorne, however, offers no answer nor takes any side. Instead, *The Scarlet Letter* challenges the reader to choose the safety of convention or the allure of independent thinking. *The Scarlet Letter* is not about adultery (the novel never mentions the word), but a reflection on patriarchy, feminism, the nature and effect of sin, duplicity, and faithfulness.

THE SPIRITUALITY OF RALPH WALDO EMERSON

Emerson once dreamed that he saw the world, diminished to the size of an apple, floating above him. "Then an angel took it in his hand and brought it to me and said, 'This thou must eat.' And I ate the world." Emerson devoured life. He read voraciously, wrote relentlessly, and averaged 80 lectures a year. His always returned to the same topics: trusting oneself rather than authorities and scriptures, finding the divine within, and realizing that "every natural fact reveals a spiritual fact." This presentation examines the roots of Emerson's American spirituality and the call to the spiritual life found in his major writings.

Perhaps in less than 20 years, 40% of us will be without jobs because of robots. ELIZA JUMEL: FROM THE BOTTOM TO THE TOP

NEW!

"Rags to riches" stories are common in American history, but this one is exceptional. Eliza Jumel was born in a brothel in the year that the Revolutionary War broke out. She went on to become one of the richest women in New York City. She made a killing in business, befriended Napoleon Bonaparte and married -- and divorced -- Aaron Burr. Her remarkable rise shows just how much was possible in the young United States.

It was perhaps one of the greatest adventures in American military history: the Berlin airlift of 1948/49! When Soviet troops closed all access routes to West- Berlin by land, sea, and rail, thus threatening the lives of 2.5 million people and provoking the first major international crisis of the Cold War. American General Lucius D. Clay did not hesitate, and proceeded to build a bold and fantastic bridge across the sky, involving 700 planes and 250 000 flights over a period of 14 months! FREDERIC REMINGTON: AMERICAN ILLUSTRATOR, SCULPTOR, WRITER

For many Americans, the name Frederic Remington is synonymous with the realistic portrayal of our Old West. His works of both fine and commercial art are a unified effort to record a special time and a special place, with great care and enthusiasm, with colorful viral figures and the exciting saga of life against the omnipresent elements of danger and death. From his first trip to the west in 1881 until his death in 1909, Remington produced several thousand paintings and drawings cast 22 bronzes, wrote over 90 magazine articles and 8 books, and provided the illustration for hundreds of magazine articles and books.

ROGER WILLIAMS AND THE RIGHTS OF NATIVE AMERICANS

Did any of America's colonial settlers actually care about the rights of Native Americans? Roger Williams did. Best known as the founder of Rhode Island and the first advocate of religious liberty, Williams was also an early advocate of Indian land rights. After he was expelled the Massachusetts Bay Colony he hoped to create a new colony where different races and cultures could live together in peace – a vision that ultimately proved to be an illusion.

THE SEARCH FOR THE MILLION DOLLAR EGG

It is 1894, Tsar Alexander III of Russia has died. A decade earlier, he ordered a gold Easter egg as a surprise gift for his wife, who was so captivated by the egg and the surprise inside of the egg, that he continued the tradition every year. His son & successor, Nicholas II, requests two eggs each year: one for his mother and one for his wife from the imperial jeweler, Fabergé. Each egg takes between one and several years to create and each one costs a fortune. Today, any egg is worth tens of millions of dollars. Come hear this thrilling lecture.

THE BATTLE OF ELSENBORN RIDGE

The Battle of Elsenborn Ridge was the only sector of the American front lines during the early stages of the Battle of the Bulge where the Germans failed to advance. While the 101st Airborne's brave defense and Patton's extraordinary relief of Bastogne are more celebrated, the defense of Elsenborn Ridge by the 1st, 2nd and 99th Infantry Divisions ranks as one of most spirited and remarkable feats of military strategy and tactics by the American Army in World War II. With no time to plan a cohesive defense, these three divisions met the German Panzers head-on and won. That victory achieved more success in the Battle of the Bulge than was every publicized and deserves more attention today in hindsight.

A HISTORY OF POPULAR CHRISTMAS CAROLS AND SONGS

Silent Night, The Christmas Song, Rudolph the Red-Nosed Reindeer – we've sung and enjoyed these and countless other Christmas carols and songs for as long as we can remember. The artists whose recordings transformed Christmas carols and songs into Billboard hits also will be featured. Join me as we explore music for "The most wonderful time of the year!"

ROOTS OF COUNTRY MUSIC

The origins of country music reveal a cultural intermingling typical of immigrant-based countries. Though record companies overtly advertised music according to race in the early part of the 20th century, the roots of the music paint a different picture. In fact, there are as many African as Anglo-Celtic influences in the music. Cultural Anthropologist Scott Cashman will examine the music within the fertile cultural landscape of the American south in the 19th and early 20th centuries as you listen to both music played live and on video.

THE MIGRATION OF THE MONARCHS

“Each year the Monarch Butterflies of the northeast and Canada start an amazing migration that will take 4 generations to complete! The migration is spectacular for the distance that a single Monarch Butterfly has to travel to make it to the winter resting ground in Mexico. It also is amazing that we have discovered that it is the 4th generation, born in Canada that flies 5000 miles to the mountain tops around Anganguero Mexico! Scientists are still researching to find an explanation for how these butterflies to know where to congregate together and why it takes three generations for Monarchs to return to Canada.” This class is in partnership with The Chicago Botanic Garden.

NEW!

For most of its history, Chicago produced about one-third of the nation's candy. You probably know some candies made or invented here: Brach's caramels, Snickers and Milky Way bars, Wrigley's gum, Cracker Jack, Baby Ruth, Butterfinger, Tootsie Rolls and Frango Mints. Learn the history of these tasty treats and explore what made Chicago such an ideal location for candy makers. Find out why immigrants played a critical role in confectionery history, discover how Baby Ruth and Milk Duds got their names, and take a fun "candy quiz". It's delicious fun.

CHRISTMAS AT MARSHALL FIELD'S

NEW!

For many Chicagoans, no Christmas season was complete without a visit to Marshall Field's, the city's grand dame of department stores. This illustrated talk traces the store's beloved holiday traditions, including the Walnut Room Christmas tree, the holiday window displays, the toy department, Cozy Cloud cottage and the Christmas catalog. See family photos with Santa Claus over the years and peek behind-the-scenes at the employee party. And of course, meet Uncle Mistletoe and his family.
