The Arts

Be Your Own Artist

As you develop your identity as an artist you must also become more versatile in your ability to draw, paint, sculpt and more. Your creativity emerges as you think about what you want to create and the techniques to use. We will discuss which forms of art are best for you to use on your projects.

Ages 8-11
06/21-06/25   9:00 am-12:00 pm   LKD0125-007 $199.00

Clayology

Let your imagination run wild in this hands-on clay experience. By learning the hand-building techniques of clay sculpture, you will create your own art. You will also learn how clay is glazed and fired in this down and dirty clay class. Harper has a well outfitted three-dimensional art studio where you will make a music box, frame, mask and so much more. New activities and designs in each class.

Minecraft Pillows

It's time for true fans to take their fandom to another level. On a sewing machine, you will create your favorite Minecraft pillows. Prove your devotion by making a Creeper pillow, a TNT pillow, and maybe more. Bring your enthusiasm for Minecraft and be prepared for an experience you will be sharing with your family all summer long.

Ages 8-11
07/26-07/30 1:00 pm-4:00 pm LKD0111-004 $199.00

My Dream Room: Designing Indoor Spaces

Interior design is about the spaces where you live, work, and play. Create a three-dimensional interior scale model of your dream room or fashion studio. Learn contemporary, modern or traditional styles that best fit your personality. You will work with scale and measurements, attend to color and detail, and use various mediums and materials.

Ages 8-11
07/06-07/09 9:00 am-12:00 pm LKD0028-011 $215.00

Origami

In this exciting class you will learn the art of traditional Japanese origami and transform your art from a flat sheet of paper into a finished sculpture. You will create a variety of crafts, some of which include animals and traditional greeting cards.

Ages 8-11
06/21-06/25 9:00 am-12:00 pm LKD0139-007 $189.00
06/28-07/02 9:00 am-12:00 pm LKD0139-008 $189.00

Peace, Love and Macrame

Get ready to get groovy and take a trip back to the 70's with a modern twist on macramé. You will be knotting a cool macramé projects such as plant hanger, a far out wall hanging, and book bag charms. Let the knotting begin!

Ages 11-14
06/28-07/02 9:00 am-12:00 pm LKD0196-003 $199.00

Ages 8-11
08/02-08/06 1:00 pm-4:00 pm LKD0196-004 $199.00

Sew Comfy

Learn to sew an easy pair of shorts with an elastic waist. You will learn to measure yourself to get the right fit, layout a simple pattern, pin and cut out fabric using the pattern, maintain a consistent seam allowance, construct a casing, insert elastic, how to turn up and sew a hem, and so much more! All fabric and notions provided.

Ages 8-11
06/14-06/18   1:00 pm-4:00 pm   LKD0165-004 $199.00

Sewing Circuits

Be a Maker! Learn how to combine sewing and electricity. You will add easy, lively details and a touch of magic when you use safe LEDs, batteries, and conductive thread to add simple circuits to fabric projects you create. All material provided.

Ages 8-11
07/19-07/23   1:00 pm-4:00 pm   LKD0195-004 $199.00

Ages 11-14
06/28-07/02   1:00 pm-4:00 pm   LKD0195-003 $199.00

Spa-tacular Sewing

Everyone loves a good spa day and this class will allow you to be pampered in style. All projects are designed to make the perfect partner for your spa day. Relax at home with a terry hair wrap, soothing eye mask and a microwaveable neck pillow that you make yourself as you learn to sew on a sewing machine. Fabric and lotions provided.

Ages 11-14
08/02-08/06   1:00 pm-4:00 pm   LKD0164-003 $199.00

Weave it, Achieve it

The world of weaving is one that can open your eyes to creativity and art exploration. You will be exposed to projects focusing on textures and colors as you create projects such as your very own dream catcher, a set of cool mug rugs and a Bohemian wall hanging. Guided with expert tips, tricks and techniques you will weave way to a fun art experience and possibly new hobby.

Ages 11-14
06/14-06/18   1:00 pm-4:00 pm   LKD0167-006 $199.00
08/02-08/06   9:00 am-12:00 pm   LKD0167-007 $199.00

Young Architects: Frank Lloyd Wright

Focusing on the works of legendary architect Frank Lloyd Wright as an inspiration, you will build a three-dimensional scale model of the interior and exterior of your very own home. This will be a great opportunity to develop spatial sensitivity while learning to work with scales and measurements. You will develop your plan using different color schemes, media and materials.

Ages 8-11
06/14-06/18   9:00 am-12:00 pm   LKD0058-009 $215.00

Ages 11-14
07/12-07/16   9:00 am-12:00 pm   LKD0058-010 $215.00

Young Architects: Glass House

Focusing on the works of legendary glass house architect Ludwig Mies van der Rohe as inspiration, you will build a three-dimensional scale model of the interior and exterior of your very own home. This will be a great opportunity to develop spatial sensitivity while learning to work with scales and measurements. You will develop your plan using different color schemes, media, and materials. Glass will not be used on the projects.

Ages 11-14
07/26-07/30   9:00 am-12:00 pm   LKD0080-007 $215.00

Young Architects: Modern Design

Focusing on modern architectural design as inspiration, you will build a three-dimensional scale model of the interior and exterior of your very own home. This will be a great opportunity to develop spatial sensitivity while learning to work with scales and measurements. You will develop your plan using different color schemes, media, and materials.

Ages 8-11
07/19-07/23   9:00 am-12:00 pm   LKD0079-004 $215.00

Math, Science and Games

A Matter Of Chemistry

Elephant Toothpaste? Bath Bombs? What do these have to do with Chemistry? Chemistry is about relationships that matter. Some matter plays nicely together while others create explosive pairings. You become the chemist mixing and measuring to explore physical and chemical reactions in the college chem lab what really causes that explosion? You will be the scientist experimenting with different amounts (variables) to find just the right reaction you like. We will (safely) explore the 4 states of matter (yes, there are really four!), as well as acids bases, and design your own t-shirt using chemistry!

Ages 11-14
08/02-08/06   9:00 am-12:00 pm   LKD0023-007 $249.00

All About Astronomy

Daylight is nice but the night sky can be amazing! Some things can be seen while the sun is up, but the really stellar objects are found after the sun goes down. We will learn how our solar system works and discover how to see other matter on a clear, dark night.

Ages 8-14
07/12-07/16   1:00 pm-4:00 pm   LKD0140-005 $199.00

Biotechnology

Many people may not realize our lives have improved because of biotechnology. We have new medicines, food, and alternative fuels because of work in the fields of biochemistry and bio-engineering. Lots of hands-on activities gets kids involved with the science behind this exciting and burgeoning field. We'll actually capture samples of DNA; learn about what goes into bio-robotic coding that is used to create new medicines; and make exciting chemical reactions that overlap with bio-engineering. Kids love the popular cryptography challenge!

Ages 11-14
07/26-07/30   9:00 am-12:00 pm   LKD0071-007 $249.00

Bones and Blood

How many bones are there in your body? Why is your blood red? Why do you burp? What happens inside you when you get the flu? These are just a few of the questions you will be discovering the answers to in this exciting class. Join our team to discover how the human body is put together and how it works.

Ages 8-11
08/02-08/06   1:00 pm-4:00 pm   LKD0126-004 $199.00

Checkmate Chess

Develop your child's intellect through the royal game of chess! Current research has shown a strong link between chess and academic performance in a variety of areas, including mathematics and language arts. Chess has been proven to enhance children's motivation, concentration, focus, social skills, and creativity. Each class will consist of a fun, interactive teaching period with a live instructor and guided practice time where students can play remotely against other Chess Scholars students. Both beginner and experienced players are welcome and will learn under the guidance of an experienced Chess Scholars coach.

Ages 8-14
06/28-07/02   9:00 am-12:00 pm   LKD0038-017 $199.00
07/12-07/16   1:00 pm-4:00 pm   LKD0038-018 $199.00
08/02-08/06   9:00 am-12:00 pm   LKD0038-019 $199.00
08/09-08/13   1:00 pm-4:00 pm   LKD0038-020 $199.00

CSI: Observe, Collect and Inspect

Crime Scene Investigation (CSI) combines the work of many professionals to ensure that all crime scene evidence is collected and no details are overlooked. The class studies professions such as K-9 units that do evidence searches, pathologists for fingerprint analysis, psychiatrists for human profiling, and many more. Learn skills in handwriting and shoe print analysis, and other evidence evaluation techniques as you and your classmates investigate to help process crime scenes in the Harper College Crime Lab. Crime scenes change each year.

Ages 11-14
07/26-07/30   1:00 pm-4:00 pm   LKD0136-010 $199.00

Improv Games

Ever play an old game a new way, with your own rules or no rules? Sometimes we have the most fun when we 'think out of the box' and let our imaginations run wild. That is improv! Improv lets you live in the moment, and it can be very funny to see what comes next. Develop your improv skills through fun techniques and games.

Ages 8-14
06/14-06/18   9:00 am-12:00 pm   LKD0016-012 $199.00
06/21-06/25   1:00 pm-4:00 pm   LKD0016-013 $199.00

Math Edge

Become a Math Whiz and Master Problem Solver through challenging and kid-friendly activities. In partnership with Sylvan Learning, this class will help avoid the "summer slide" in math skills while challenging you to start next school year at a higher level. Math Edge kids increase confidence by building math proficiency and fluency, but also by becoming master problem solvers and independent thinkers. This five-step approach ensures that you will successfully master math concepts while developing self-learning techniques that drive independence. In addition, there are math challenges, puzzles and brainteasers that you work on in small groups to build problem solving, logic, reasoning and collaboration skills. Most importantly, we make it fun! Sylvan will gather parent input prior to the class to customize math topics based on that input.

Ages 8-11
07/12-07/16	9:00 am-12:00 pm	LKD0044-010	$215.00
07/19-07/23	9:00 am-12:00 pm	LKD0044-011	$215.00

Pre-Algebra Edge

Sylvan Learning Center staff helps you build math proficiency and confidence by connecting algebra skills to real-life scenarios and applying skills to word problems.

Ages 11-14
07/26-07/30	9:00 am-12:00 pm	LKD0105-007	$199.00

Pokémon: Mastering the Card Game

Almost every kid has collected "Pokemon Cards" at some point, but few actually know how to play the game the cards are based on. This class will provide a fun environment where you will learn the basics of gameplay, get tips and strategies for deck building, and compete in friendly competitions with other students for small prizes and bragging rights. The goal of this class is to enlighten kids with a fun, robust, and already popular game; while also promoting healthy and respectful competition. Pokemon cards will be supplied during class, but you are encouraged to bring your own collection as well.

Ages 8-14
06/21-06/25	9:00 am-12:00 pm	LKD0018-012	$189.00
07/26-07/30	9:00 am-12:00 pm	LKD0018-011	$189.00

Music

Group Guitar All Levels and Point and Shoot Photography I

Group Guitar All Levels
Never played any instruments before? No worries. Play guitar but need a little more push? Join in! Learn or enhance your picking technique and strumming skills. Learn or get better at reading sheet music and chord charts. Hone your right and left-hand techniques. In a fun, relaxed, and supportive environment, our instructors will help you grow as a musician. You must have a guitar (acoustic or electric) to enroll in this class. An update will be provided regarding the ability to provide musical instruments for individuals who require this service.

Point and Shoot Photography I
Point and Shoot Photography I, is a beginner digital photography course tailored for kids ages 8-14. Kids will have fun learning about their cameras as well as the basics of photography, including lighting, composition, and color. In this fun photography, course kids will learn to create amazing photographs, beginning with a flashback through photo history and the work of famous photographers. We'll explore how to choose the best settings on the kids' cameras, and explore and discover how to compose and create unique images using camera angles and the zoom. Participants must bring a digital camera, tablet, or camera phone, No SLR or film cameras, please.

These two courses are bundled in one package. Children will attend the first course and will then be escorted to attend the second.

Ages 8-14
06/28-07/02	1:00 pm-4:00 pm	LMY0116-001	$199.00

Group Piano All Levels and
Group Guitar All Levels

Group Piano All Levels
Never played any instruments before? No worries. Play piano already but need a little more push? Join in! In a fun, relaxed, and supportive environment, our instructors will help you grow as a musician. Learn or enhance your technique. Learn or get better at reading sheet music and hone your right and left-hand skills. You will have fun playing songs and lots of music games and activities every day. Instructional materials will provided and it's strongly recommended for children to have a piano or keyboard at home.

Group Piano All Levels and Make Music on Your Computer I

Group Piano All Levels
Never played any instruments before? No worries. Play piano already but need a little more push? Join in! In a fun, relaxed, and supportive environment, our instructors will help you grow as a musician. Learn or enhance your technique. Learn or get better at reading sheet music and hone your right and left-hand skills. You will have fun playing songs and lots of music games and activities every day. Instructional materials will provided and it's strongly recommended for children to have a piano or keyboard at home.

Make Music on Your Computer I
Learn how a song evolves from an idea into a hit. You will learn the basic elements of music production for Rock, R&B, Country, Dance, Hip Hop or Pop styles. Hands-on activities will help you build your own song from the very beginning. Using loops, samples, MIDI, audio and music technology you will learn to use the tools that craft a hit song. Create beats from scratch and add your own unique melodies and sounds. No previous music experience required. This is for anyone who wants to learn about making music using computers.

Ages 8-14
06/14-06/18   9:00 am-12:00 pm   LMY0114-001 $199.00
07/06-07/09   1:00 pm-4:00 pm   LMY0114-002 $169.00

Stage / Sound / Screen

Film Acting Camp-Quiet on the Set

This extensive 3-week program will teach all aspects of film production from professionals at this intensive camp, where everyone will get in front of the camera to star in a short film, and go behind the scenes to find out what movie-making is all about. Learn about script creation, acting on film, and all the preproduction activities of a working set, including camera techniques, on-location shooting, wardrobe, make-up and editing. All participants will have roles based on their preferences. Either on film, behind the scenes and in most cases both. Experience and learn everything from producing and directing to acting. All students will receive a copy of the movie and if allowed we will premiere the film at Harper College for family and friends after editing is finished.

Ages 8-14
07/12-07/30   9:00 am-12:00 pm   LKD0025-004 $399.00

Making Documentary Films

This 2 week course dives into the world of documentaries and how to capture the real life stories of real people like you. This class will specifically document the experiences that kids have in the InZone program. You will learn film production from professionals as you move around the campus filming InZone classes. You will learn to create a storyboard and receive tips on how to conduct good interviews. You will be involved in all the pre-production activities of a working set including camera techniques and on-location shooting. All participants will participate in a variety of roles both on and off camera ranging from producing and directing to acting and editing. At the end of class, we will premiere the completed film at Harper for family, friends and the public. NOTE: While the goal is to premiere the film the last week of InZone, if more editing is required, we will show it at a later date.

Ages 8-14
06/28-07/09   1:00 pm-4:00 pm   LKD0147-005 $275.00
08/02-08/13   9:00 am-12:00 pm   LKD0147-006 $299.00

Stand Up and Sketch Comedy Creation

Comedy comes in many forms and this class will highlight and develop two of the most common. Throughout this course youwill earn how to find comedy in everyday life and work on comedy sketches and stand-up comedy routines. You will create a comedy routine with the help of the teachers that best fits your voice. Learn to spot the set-up and the punch line. Modeled (loosely) on theDrybarsocial media platform you will learn that good comedy is built from experiences, is smartand a good comic can develop material that is from the most random of subjects and be enjoyable for all. Sketch work will be solo and in teams. You will learn how to put skits together, timing and how to deliver the line that will have everyone laughing and wondering what you are going to say next.

Ages 8-14
06/14-06/18   1:00 pm-4:00 pm   LKD0224-004 $199.00
07/12-07/16   1:00 pm-4:00 pm   LKD0224-005 $199.00
08/09-08/13   1:00 pm-4:00 pm   LKD0224-006 $199.00

Stars of the Stage

This 2 week program will help you fully experience every element of creating a theatrical project. Start by learning the language of theater, from the basics like stage right and stage left to more advanced concepts like arc of the narrative and raising the stakes. Utilizing a collection of short plays, you will participate in an audition, a blocking rehearsal and a technical rehearsal. The result will be a performance of live theater to share what you have learned over the course of the class.

Ages 8-14
06/21-07/02   9:00 am-12:00 pm   LKD0027-005 $325.00
07/26-08/06   1:00 pm-4:00 pm   LKD0027-006 $325.00

YouTube Streamers and Gamers

Whether you want to be the next pro gamer, streamer, or gamecaster this course will teach you the basics to get started! No longer just a hobby, eSports is the fastest growing career for the next generation. Over 400 million people watched YouTube videos and Twitch streams of video game competitions this year alone! In this course, you will develop competitive game-play skills in Black Rocketrs new eSports App, learn how to produce commentary for live tournaments, use professional streaming software, and most importantly practice online safety. You will gain full access to the eSports App and a video of the class tournament with commentary. Videos will not be broadcast publicly but will be shared with all students in the class. For Online Students Only: This online program is taught by the staff at Black Rocket Productions. Login information will be emailed a few days prior to the start date.

Ages 8-11
06/28-07/02   9:00 am-12:00 pm   LKD0169-015 $215.00

Ages 11-14
07/19-07/23   1:00 pm-4:00 pm   LKD0169-016 $215.00

Tech Knowledgy

3D Printing and Aerospace Engineering

Get an introduction to 3D printing through a focus on aerospace engineering. Learn how to use TinkerCAD to design rockets, gliders, and hand helicopters. In addition, explore the concepts behind aerospace engineering with hands-on projects.

Ages 11-14
06/28-07/02   9:00 am-12:00 pm   LKD0076-004 $249.00

3D Printing and Harry Potter

Take your love of Harry Potter to a whole new level when you learn the basics of 3D printing while completing Harry Potter themed projects. You will learn to use Computer Aided Design (CAD) to create and print 3D objects right before your eyes. Projects include Wands, a Deathly Hallows necklace, a Time Turner, and various Hogwarts house items. In addition, your Harry Potter themed activities will include a potions lesson and a Quidditch match.

Ages 11-14
06/21-06/25   9:00 am-12:00 pm   LKD0091-004 $249.00

3D Printing Through Art

Focus on the artistic aspects of 3D printing as you learn about the amazing art creations that can be developed through the use of a 3D printer. Create computer-aided-design (CAD) artworks using the TinkerCAD system and then print them in 3D right before your eyes. Projects examples include sun catchers, necklace pendants, the Eiffel Tower, and more.

Ages 11-14
07/19-07/23   9:00 am-12:00 pm   LKD0075-004 $249.00

3D Printing Through Stem

Get a great introduction to the exciting world of 3D printing by learning how to use the TinkerCAD computer-aided-design (CAD) system to create and print 3D, kid-friendly projects. Explore the world of science and engineering with hands on STEM projects including Pokemon and Minecraft characters which you'll take home.

Ages 11-14
06/14-06/18   9:00 am-12:00 pm   LKD0074-004 $249.00
07/12-07/16   9:00 am-12:00 pm   LKD0074-005 $249.00

3D Printing with Minecraft

Learn about the world of 3D printing with a Minecraft twist. Class will learn the basics of TinkerCAD while making Minecraft themed projects including Creeper, tools and more. Class will also include other non-3D printing Minecraft themed projects and games.

Ages 11-14
08/02-08/06   9:00 am-12:00 pm   LKD0186-003 $249.00

Adventures In Robot Building

The staff at Robot City Workshop return to lead you through this intense robotic adventure. Learn the basics of electronics and mechanical science, from gears and motors to the types of energy used to power robots. This year will feature a number of all the newest programmable STEM robots for children that will allow students to play and learn at the same time. The Edison, Smart Cleaner Robot and featuring Cam Robot are just a sample of the robotics projects. You will build multiple robots related science, technology and mechanics and STEM arts that you get to take them home for further experimentation.

Ages 8-11
06/14-06/18   9:00 am-12:00 pm   LKD0017-010 $299.00
07/12-07/16   9:00 am-12:00 pm   LKD0017-011 $299.00
08/02-08/06   9:00 am-12:00 pm   LKD0017-012 $299.00

Code Breakers

Calling all future coders, programmers, & designers! Learn the basics of coding languages like HTML, JavaScript, and CSS through a series of web projects and design challenges each day and be on your way to becoming the next tech star! Whether you want to be a silicon valley CEO or the high school student who just made $1 million dollars for programming in her bedroom, this course has the essentials you need to begin your journey. Projects will be available on a Black Rocket website to share with friends and family. Returning students can create more advanced projects that build on previous years.

Ages 11-14
06/21-06/25   9:00 am-12:00 pm   LKD0235-005 $215.00

Coding and Game Design

You will learn the basics of programming, creating your own characters, animated stories and apps using Tynker technology. You will build skills in problem solving, logic, physics, storytelling and design in a hands-on, fun environment. Collaborating with the instructor and other students, you will strengthen communication skills and make new friends who share similar interests.

Ages 11-14

07/06-07/09   1:00 pm-4:00 pm   LKD0043-011 $175.00

Coding for Real Life Applications

The staff at Sylvan Learning Center will help you move beyond the theory of most coding classes and into real world examples. Create your own discord bot, facial tracking system, Amazon Alexa application and hacking/security system. Python and Javascript will be used, so exposure (not proficiency) to these languages is preferred, but not required.

Ages 11-14
07/12-07/16   1:00 pm-4:00 pm   LKD0191-005 $215.00
08/02-08/06   1:00 pm-4:00 pm   LKD0191-006 $215.00

Coding: Animation Studio

The Sylvan Learning Center teachers will help you create animated cartoons just like the pros. Learn the basics of animation as you draw your own characters and bring them to life through Coding. You will use visual programming to control the speed and type of animation as you add animals, dragons, monsters and avatars to your projects. Create animated games, cartoon strips, music videos and interactive worlds to share with friends. No Coding experience required.

Ages 8-11
06/28-07/02   9:00 am-12:00 pm   LKD0154-009 $215.00
08/09-08/13   1:00 pm-4:00 pm   LKD0154-010 $215.00

Coding: Augmented Reality

Sylvan Learning Center teachers help your child learn Augmented Reality: a way to extend coding beyond the screen, using motion recognition, physics and special effects. You will discover how to use the webcam to build interactive experiences that blend the real and virtual world. Physically stand in front of the camera and participate in games thru movement. Build and play games like Human Pong, Brick Breaker and Fruit Ninja.

Ages 11-14
06/21-06/25   1:00 pm-4:00 pm   LKD0153-005 $215.00

Coding with Drones

This exciting course will allow you to program fun and useful missions using block programming on a Tello drone. You will command the drone to perform a variety of different missions as you learn how to use geometry to determine the best angle to tilt the drone camera, how to loop commands, how to fly in a star pattern, how to take panoramas using the drone camera, and much more. Students will use drones during class times, but do not get to keep their own drones at the completion of the class. You will work in small groups on all projects.

Ages 8-11
08/09-08/13   9:00 am-12:00 pm   LKD0180-012 $215.00
Ages 11-14
08/09-08/13   1:00 pm-4:00 pm   LKD0180-013 $215.00

Creative Coding

Go beyond the coding basics and incorporate sound, animation and drawing into your game creations. You will develop creativity and problem solving skills just like coders do in the real world. Staff from Sylvan Learning bring their expertise to take you into the world of coding.

Ages 8-11
07/06-07/09   9:00 am-12:00 pm   LKD0050-007 $175.00

Design a Mario Kart Style Game

On your mark, get set, create! Blast off in making your first 3D Mario Kart® and Crash Team Racing® style game! Design your own tracks and customize your karts and characters. Using a professional 3D game development software, students will combine their creations into their own kart racing game that they can play with friends and family at home. Students can participate in eSports League races against other schools across the country with a chance to have their tracks featured in the Black Rocket master build of the game! Student projects will be available on a password protected Black Rocket website to share with friends and family. Students work in pairs or teams for most of the program.

Ages 8-11
08/02-08/06   1:00 pm-4:00 pm   LKD0205-012 $215.00

Ages 11-14
06/28-07/02   1:00 pm-4:00 pm   LKD0205-011 $215.00

Girl Power: Technology for Girls

Along with other girls who are interested in technology, you will explore graphic arts, multimedia, video creation and networking. You will also learn about a variety of computer-based careers from a woman who is successful in the technology field.

Ages 8-11

| 08/02-08/06 | 9:00 am-12:00 pm | LKD0005-009 | $215.00 |

Ages 11-14
| 06/28-07/02 | 9:00 am-12:00 pm | LKD0005-008 | $215.00 |

IDEAShop: Arduino Programming Powered by TechGirlz

Funded by a grant from the Fabricators Manufacturers Association, this exciting Arduino Programming Camp puts the tools and technology into the hands of middle school girls. The students will learn programming, basic electronics, and engineering using the Arduino microcontroller. During the week-long day camp, students will build an obstacle avoiding robot controlled by an Arduino microcontroller. Students will learn about product design careers in the electronics industry. The final day will be a demo day for campers to present their robot to fellow campers and their parents.

Ages 11-15
| 07/12-07/16 | 9:00 am-4:00 pm | LKD0248-001 | $149.00 |

IDEAShop: Artificial Intelligence, the Mind in the Machine

Funded by a grant from the Fabricators and Manufacturers Association, in this high school aged program you will learn about the prevalence, applications, and potential for computers and artificial intelligence. You will gain an understanding of the importance and challenges of image analysis and build data sets to train machine learning algorithms. You will consolidate your knowledge by studying machine learning and augmented reality applications. From facial recognition to autonomous cars, you will discover that computers and artificial intelligence are everywhere around us!

Ages 14-17
| 07/19-07/23 | 9:00 am-4:00 pm | LKD0251-001 | $149.00 |

IDEAShop: Become an Entrepreneur Maker

Funded by a grant from the Fabricators & Manufacturers Association, this Entrepreneur Summer Camp puts tools and technology into the hands of middle-schoolers and lets them take the lead in creating new ideas and building their own businesses in a supportive, professional environment. During this weeklong day camp, students will go from idea generation to presentation of their prototype and business plan under the guidance of experienced facilitators and developers. On the last day, we will invite parents and the local community to attend virtually as the students present their businesses to compete for a prize!

Ages 11-15
| 07/26-07/30 | 9:00 am-4:00 pm | LKD0250-001 | $149.00 |

IDEAShop: Build Your Own 3D Printer

Have you ever dreamt of having your very own 3D printer? In this exciting class, you will build your own 3D printer from a kit and take it home when completed. Learn the fundamentals of how 3D printers work and the essentials of using CAD (computer-aided design). The first thing you print will be your own creation. A thorough discussion on the usage of your new printer and ways to upgrade it will be covered so you are comfortable using the machine once you have it at home.

Ages 11-14
| 08/02-08/06 | 9:00 am-12:00 pm | LKD0077-004 | $349.00 |

IDEASHOP: Girls in Engineering Powered by TechGirlz

Funded by a grant from theFabricators Manufacturers Association,this week-long camp for middle-school girls, will dive into the engineering design process, career opportunities, basic 3D modeling software, 3D printing, programming, and machine learning. Students will learn to think and design like an engineer by utilizing the engineering process to design a roller coaster using pipe insulation, marbles, and objects within the room. Additional activities will include designing and printing a 3D model, creating wearable electronics, and experimenting with machine learning/computer vision. The IDEAShop Girls in Engineering camp is perfect for young and creative minds who have interests in engineering.

Ages 11-15
| 07/19-07/23 | 9:00 am-4:00 pm | LKD0249-001 | $149.00 |

Innovative Robot Building

The robot revolution has arrived from the future, and generations of artists and engineers must be prepared! Explore robotics led by the Robot City Workshop staff, learn the concepts of electricity, mechanics, sensors, programming, and how to apply them artistically while building Do-It-Yourself robot kits you get to take home! This year will feature a number of all newest interactive educational robots such as Edison, Moto Bot and the Chain Robot is just a sample of the robotics projects. You will build multiple robots related to science, technology and mechanics and STEM arts that you get to take them home for further experimentation.

Ages 11-14
06/21-06/25	9:00 am-12:00 pm	LKD0048-009	$299.00
07/19-07/23	9:00 am-12:00 pm	LKD0048-010	$299.00
08/09-08/13	9:00 am-12:00 pm	LKD0048-011	$299.00

Java Coding

Sylvan Learning Center staff will help you learn about Java Coding, including syntax, IDE's, binary systems, variables, loops and arrays. This is an excellent class for students with exposure to and interest in coding, who might be considering AP level Coding classes in high school.

Ages 11-14
06/28-07/02	1:00 pm-4:00 pm	LKD0192-005	$215.00
08/09-08/13	9:00 am-12:00 pm	LKD0192-006	$215.00

JavaScript Developer Jam

Learn programming tools so powerful they seem like magic! Start off by learning an array of core programming concepts with JavaScript by experimenting in a series of digital challenges. Start with programming your first animated memes, then tackle more advanced skills such as interactive 3D experiences and game creation. Projects will be available on a password protected Black Rocket website to share with friends and family. Compatible with MAC, Windows and Chrome OS.

Ages 11-14
08/02-08/06	9:00 am-12:00 pm	LKD0236-007	$215.00

Let's Build It: Robotics

Enter into the fascinating world of robotics. In this exciting STEAM program, students will design, build and test their very own robots under the guidance of an experienced AES instructor. Projects include remote control cars, claws, cranes, crawlers, and battle bots. Educational components include gear ratios, mechanical design, electronics, and robotics engineering. No previous experience is necessary- just a desire to have fun, build, and learn.

Ages 8-11
06/14-06/18	1:00 pm-4:00 pm	LKD0246-001	$215.00
06/28-07/02	1:00 pm-4:00 pm	LKD0246-002	$215.00
07/06-07/09	9:00 am-12:00 pm	LKD0246-003	$175.00

Let's Build It: Snap Circuits

Wacky Waves is an exhilarating, cutting-edge area of engineering. In this unit, students will design, build, and test various circuits and electronic projects. Instructors will guide students through core concepts of electrical engineering, introducing them to circuits and electrical components. Students will use hands-on projects and experiments to explore how electricity is part of our daily lives. No previous experience is necessary, just a desire to learn and build. Projects will include: various sound producing circuits, musical instruments, a simulated telephone, and even both their own radio...and radio station!

Ages 8-11
06/21-06/25	1:00 pm-4:00 pm	LKD0247-001	$215.00
07/12-07/16	9:00 am-12:00 pm	LKD0247-002	$215.00
07/26-07/30	1:00 pm-4:00 pm	LKD0247-003	$215.00

Let's Code It: Digital Design

You will have a blast in this exciting new STEM based program. Our innovative approach to coding is sure to spark your interest in computer science. This fun-filled curriculum is designed around the block-based system called Scratch and stresses critical thinking, creativity, confidence, teamwork, and problem solving skills. Class topics will include video game design, loops, control structures, conditional expressions, control statements, object-oriented design concepts, data structures, and variables as well as mathematical expressions.

Ages 8-11
06/21-06/25	9:00 am-12:00 pm	LKD0066-006	$215.00
07/19-07/23	9:00 am-12:00 pm	LKD0066-007	$215.00

Ages 11-14
08/02-08/06	1:00 pm-4:00 pm	LKD0066-008	$215.00

Make Your First Fortnite Style Video Game

Fans of Fortnite we need you! Instead of playing the game, design your own. Using a professional 3D game development software, build levels and assets inspired by popular battle royale games like Fortnite. This course includes cartoonish action and battle sequences. Student-created games will be available on a password protected Black Rocket website to share with friends and family. Please note, this class uses Fortnite for inspiration, but you will not be playing Fortnite as part of the curriculum.

Ages 8-11
07/06-07/09	1:00 pm-4:00 pm	LKD0168-017	$175.00

Ages 11-14
07/12-07/16	9:00 am-12:00 pm	LKD0168-018	$215.00
Make Your First Video Game

If you love playing video games, this is the camp for you! Make your first video game in this one-of-a-kind class that shows you the keys to designing your first 2D platformer game. Conceptualization, play experience, level design, graphics, sounds, and simple coding are just some of the concepts that we'll explore. No prior experience necessary, just a desire to have fun. Student projects will be available on a password protected Black Rocket website to share with friends and family. Games are only compatible on PC computers. Returning students can create more advanced projects that build on previous years. Compatible with Windows OS only.

Ages 8-11
07/19-07/23   9:00 am-12:00 pm   LKD0237-005 $215.00

Ages 11-14
08/09-08/13   1:00 pm-4:00 pm   LKD0237-006 $215.00

Minecraft Modders

Use your favorite game to learn the basics of modding and foundations of programming. Learn scripting and logic statements as you create your first mod! Introductory coding will also be taught through a simulated environment inspired by Minecraft. Your projects will be available on a Black Rocket website to share with friends and family.

Ages 8-11
08/09-08/13   9:00 am-12:00 pm   LKD0046-013 $215.00

Minecraft: Redstone Engineers

Create the next popular animated Minecraft video on YouTube! Practice the same skills professionals at Pixar and Disney Animation Studios use. Discover the process of keyframing and tweening, how to use it to bring your own animated stories to life, and how to publish your content on YouTube. Student projects will be available on a password protected Black Rocket website to share with friends and family. Students will work in pairs or teams for most of the program. Mac users can play their project athome, butwill not be able to edit the project without a PC. Returning students can create more advanced projects that build on previous years.

Ages 8-11
06/14-06/18   1:00 pm-4:00 pm   LKD0204-009 $215.00

Python Coding

Sylvan Learning Center staff will introduce you to Python syntax and programming logic as you solve fun puzzles, build your own projects and stories, and create a portfolio of Python games, including Connect 4, Snake and Tetris. By learning Python, you get a taste of what people who code for a living use in the real world.

Ages 11-14
06/14-06/18   1:00 pm-4:00 pm   LKD0104-013 $215.00
07/26-07/30   1:00 pm-4:00 pm   LKD0104-014 $215.00

Python Coding: The Next Level

Sylvan Learning Center staff will challenge coders who have been exposed to Python before, moving into arrays, algorithms, math operators and functions. With hands-on coding practice, students learn to design, build, and debug programs, and independently solve advanced coding challenges

Ages 11-14
08/02-08/06   9:00 am-12:00 pm   LKD0193-005 $215.00

Python Programmers

Want to learn the world's fastest-growing programming language favored by Google, NASA, YouTube, and the CIA? Learn how to code with Python to create engaging apps and games. Each lesson takes you step-by-step on a programming path that will let you challenge friends with fun content you create from start to finish!?   Returning students can create more advanced projects that build on previous years.

Ages 8-11
07/12-07/16   1:00 pm-4:00 pm   LKD0085-020 $215.00

Ages 11-14
06/14-06/18   9:00 am-12:00 pm   LKD0085-019 $215.00

Roblox Makers

Unlock the power of ROBLOX Studio, the world creation tool used by real-world ROBLOX developers! Learn how to build 3D models and create an adventure in your ROBLOX world. Bring characters to life with unique animations you design. Student-created projects will be available on a password protected Black Rocket website to share with friends and family.

Ages 11-14

07/06-07/09   9:00 am-12:00 pm   LKD0171-015 $175.00

Roblox: Coders and Entrepreneurs

Discover how to code in the Lua language while playing and designing worlds in ROBLOX an online universe where you can create anything you dream of. This class combines game design concepts, coding, and fun! Young entrepreneurs will also learn how to navigate Robloxrs fast growing marketplace to publish their games. Games will be available on a password protected Black Rocket website to share with friends and family. You will work in pairs or teams for most of the program.

Ages 8-11
06/21-06/25   1:00 pm-4:00 pm   LKD0086-014 $215.00

Virtual Reality: The Future is Now

Embark on an EPIC adventure in virtual reality! In this cutting-edge class, you will learn the foundations of VR design by creating your own virtual worlds, exploring simulated environments, and crafting memorable 3D experiences. VR projects will be available on a password protected Black Rocket website to share with friends and family.

Ages 8-11
07/26-07/30   9:00 am-12:00 pm   LKD0087-017 $215.00

Ages 11-14
07/26-07/30   1:00 pm-4:00 pm   LKD0087-018 $215.00

The World Around Us

American Sign Language

Imagine that you are working in a school, hospital, or court and helping people by translating between two languages. Interpreters do this each day. This class uses interactive activities to teach you how to communicate using American Sign Language, the sixth-most used language in the U.S.A. with more than a million users. You will be introduced to Deaf culture as you learn the alphabet and more than 250 ASL signs.

Ages 8-11
06/14-06/18   1:00 pm-4:00 pm   LKD0003-007 $199.00

American Sign Language Expressive

The goal of class is to get you to become more fluid in signing. Previous introduction to American Sign Language is helpful, especially in the area of the alphabet, numbers, and greetings. You will increase speed in fingerspelling and concentrate on expressive and receptive skills while communicating with American Sign Language as each of us explains what we have done in the past day and see stories, as well. You will leave with more comfort socializing with people who regularly use ASL. This is a great course to follow LKD0010 American Sign Language.

Ages 11-14
06/21-06/25   1:00 pm-4:00 pm   LKD0189-004 $199.00
07/19-07/23   1:00 pm-4:00 pm   LKD0189-005 $199.00

Writing and Stories

Comic Book Creations

Do Wolverine or Batman inspire you to create a comic book series of your own? Join the pros! Develop your own characters and stories as you learn composition rules, the importance of detail, and the techniques of line, perspective and balance used in the graphic novel world of comic books. Learn to draw movements using watercolors, color pencils, ink pens and more. Basic drawing skills and previous figure drawing are helpful, but not required.

Ages 8-11
06/14-06/18   1:00 pm-4:00 pm   LKD0132-011 $215.00

Ages 11-14
07/06-07/09   1:00 pm-4:00 pm   LKD0132-012 $175.00

Harry Potter: Second Year

As a Second Year Hogwarts student, you will sew a wizard hat, create a wizard chess set, start Quidditch practice and make your own Nimbus 2009. You will also attend classes, including The Care and Handling of Magical Creatures (with an introduction to Pygmie Puffs) and Potions and Transfiguration. Watch out! The traditional competition for the House Cup gets a bit more difficult.

Ages 8-14
06/21-06/25   1:00 pm-4:00 pm   LKD0052-004 $199.00

Harry Potter: Third Year

Third Year Hogwarts students create spell books to use in class and house badges. They also get to write for the wizarding newspaper (The Daily Prophet), finger-knit house book scarves, and attend classes like Advanced Care of Magical Creatures and The History of Hogwarts and Divination. The competition for the House Cup rivals the Tri-wizard tournament in difficulty!

Ages 8-14
06/28-07/02   9:00 am-12:00 pm   LKD0144-004 $199.00

Harry Potter: Storytelling and RPG

Delve into the world of Harry Potter with this pen and paper game. Learn the basic rules of roleplaying, while writing one shot adventures that take place in the Wizarding World. Youwill learn the art of story-telling, create unique characters, and play through their adventures!

Ages 8-14
07/06-07/09   1:00 pm-4:00 pm   LKD0245-001 $175.00

On the Case: Detective Fiction

If bumps in the night, missing jewelry, or false suspects and crazy plot twists has you donning your best hat and searching for your spyglass, then this class is for you. Learn about different types of crime stories and the detectives who solve them. Then, try your hand at solving a few whodunits yourself. Play a game of Clue and create mysteries for your family and friends to solve!

Ages 11-14
06/21-06/25   9:00 am-12:00 pm   LKD0092-004 $199.00

Step Into Tolkien's World: Lord of the Rings

Join Bilbo, Frodo, and all their friends in the Shire! Create your own map of Middle Earth, learn how mythril is made, write a song for the dwarves, and learn a little Elvish. You will explore the mythology of Middle Earth and learn what inspired J.R.R. Tolkien to write The Hobbit and The Lord of the Rings.

Ages 11-14
06/14-06/18   1:00 pm-4:00 pm   LKD0093-003 $199.00

Summary Reading: Catch-up, Keep-up and Get-ahead

The Sylvan Learning instructors can help your child bridge the gaps that might be in place due to Covid-19.Students will build key reading foundational skills like Vocabulary and Comprehension, and learn to apply those skills through extended response (writing activities). We work with both Informational Text (like Social Studies) and Literary Test (like non-fiction) to give your child broad exposure. Prior to the class, we will gather parent input on goals and reading levels. Have fun this summer, while building reading skills and getting ready for next school year!

Ages 8-11
06/14-06/18   9:00 am-12:00 pm   LKD0222-006 $199.00
07/19-07/23   1:00 pm-4:00 pm   LKD0222-008 $199.00

Ages 11-14
06/21-06/25   9:00 am-12:00 pm   LKD0222-007 $199.00

InZone Junior Explorers

This exciting new addition to the InZone program is designed for students 6-8 years of age and is intended to focus on the already established principles of the InZone camp for older students. Rooted in hands-on exploration students will participate in activities structured around science, technology, art, music and play. The program will be designed to rotate between multiple topics on a daily basis with some projects spanning a number of days before completion. Students will be placed in groups and assigned specific staff members throughout the session. This program will be housed in a specific location on campus and does not involve the students moving from building to building like the InZone students. Students staying on campus during the lunch period will be walked by staff members to the designated lunch area.Kids are supervised during lunch and walked back to class if taking afternoon classes. New activities all summer long.

Ages 6-8
06/14-06/18   9:00 am-12:00 pm   LKD0182-027 $175.00
06/14-06/18   1:00 pm-4:00 pm   LKD0182-028 $175.00
06/21-06/25   9:00 am-12:00 pm   LKD0182-029 $175.00
06/21-06/25   1:00 pm-4:00 pm   LKD0182-030 $175.00
06/28-07/02   9:00 am-12:00 pm   LKD0182-031 $175.00
06/28-07/02   1:00 pm-4:00 pm   LKD0182-032 $175.00
07/06-07/09   9:00 am-12:00 pm   LKD0182-033 $139.00

Before and After Care

Extend the fun with InZoners Before and After Care program. Organized activities will be provided under the supervision of InZone staff. Choose Before Care, After Care or both. Register for Before and After Care just as you register for other InZone programs. NOTE: Students will meet in the Foglia Foundation Health Recreation Center (Building M) for both programs. Staff will be on hand to provide help with scheduled program locations.

The Amazing Voyage Through STEM Camp

Come experience this wonderful camp developed in partnership with District 214 Community Education Program in Arlington Heights. Staffed by Harper College InZone employees, you will explore new things, develop new interests, and strengthen existing skills as you make new friends in a fun environment. Get an introduction to engineering through hands-on work and develop coding skills designed to impress are just a few of the subjects touched upon. This camp will include both computer-based STEM experiences and fun engaging outdoor based STEM themed activities as well. Students will be separated into activities by age. Each 1-week session will include new activities and experiences. Children should bring their own lunches each day. Vending machines may also be able for use. This camp takes place at District 214 Community Education Building, 2121 S. Goebbert Rd., Arlington Heights, IL 60005. This camp is Monday-Thursday.

Ages 8-14

06/14-06/17	9:00 am-4:00 pm	LKD0181-005	$249.00
06/21-06/24	9:00 am-4:00 pm	LKD0181-006	$249.00
