I’m happy to write to you again about our Community Education program. Our effort to create a community of lifelong learners is centered in CE. You can polish the skills that you need to move forward in your career and develop interests that sustain you in your free time. You’ll meet like-minded people with the same curiosity you have. You can develop some computer skills or play some music. We have all kinds of opportunities for you.

This spring you’ll see more activity returning to our campus and Community Education classes are no exception. In fact, about half of our CE classes will be held in-person including some old favorites and some new classes.

Speaking of new classes, our writing program is offering several new things including The Blues and Rap as Music and Literature and Make Your Family Story into a Movie. Our art program will show you how to master your phone’s camera in our class How to Take Good Pictures with Your Mobile Device. We will also examine contemporary issues in Social Justice in Contemporary Art.

We all know that information security is critical in our world. Introduction to Information Security will provide you the foundation to move into that field. We can help you hone your skills as a Sales Professional with a five-course series. If you want to advance into a supervisory position, consider our management series.

Have you wondered about the deep history of the Chicagoland area? You’ll keep your hands clean as you dig into the archaeology of our region in Chicagoland Archaeology: Prehistoric and Historic Sites. Archaeology reveals much about our history and we have some fascinating areas around us.

Finally, our program for mature adults 50+, the Lifelong Learning Institute is returning to campus while maintaining a strong online presence. You have some interesting choices in both methods of delivery. Delve into Native American history with The Ghost Animals of the Great Plains, Ashfall or African American history with Jazz, Civil Rights and the Avant Garde Movement. You can unravel an important part of American history in Alexander Hamilton and Thomas Jefferson.

I’m glad you are looking through this catalog and hope that you find something that captures your imagination or helps you meet your professional objectives.

Learning Options to Fit Your Life

**Live Online Classes**: These are classes where an online meeting is being used like an in-person classroom. Days and times for the meetings are specified, with online lectures being used as the primary way in which course content is being presented. These classes will either utilize Webex or Blackboard (with Blackboard Collaborate Ultra for class meetings). Information on your virtual classroom will come directly from your instructor via email.

**Self-Paced Online Classes**: In these classes, content (lectures, readings, videos, etc.) is placed on a protected website (Blackboard, in most instances). Some self-paced classes may have occasional class meetings, though meetings are not the primary way in which content is being presented to you. Self-paced classes will have active instructor participation and deadlines even without live meetings. You will receive instructions for accessing the class materials prior to the start of classes via email.

**In-Person Classes**: These classes meet in-person at the designated campus or offsite location. The room number and most up-to-date information is available on the course page at ce.harpercollege.edu. For information on prevention and resources related to COVID-19, please visit the Harper College Advisory site at harpercollege.edu/advisory.

**Blended Classes**: Blended classes use a combination of in-person and online meetings. Information on the class structure will come directly from the instructor.

Our online classes are labeled as “Live Online” and “Self-Paced Online”, so that you know how each class will be conducted. In-Person classes are indicated by a campus (or offsite) location. When you register for a class, your instructor will send an email to you a few days before the start of the class with information about how the class will be taught and, if applicable, login information.

We know our print catalog is convenient but as always, the most complete and current information is online at ce.harpercollege.edu.
Digital Badges

Harper College Community Education is committed to providing you with the tools you need to reach your professional goals. One of the most exciting trends in career training these days is the digital badge movement.

Now, certain courses and training programs will earn a digital badge that you can proudly display in your resume, in an email to a potential employer, or in your social media profiles on LinkedIn, Facebook and elsewhere.

Learn more and start earning your next badge today! ce.harpercollege.edu, “Earn a Credential”

Free Safety Training Classes

Harper College offers a series of FREE, professional safety classes for managers and employees throughout the Chicago area. Individuals (employed or unemployed) can register for the free classes directly on the Harper College website. Businesses with 2 to 250 employees are eligible and Harper can offer custom training schedules for groups of 4 or more employees.

Safety Awareness Training

Confined Space Hazards in Construction and General Industry

This course covers the requirements of the OSHA-Permit-Required Confined Space Standard. Course topics include safety and health hazards associated with confined space entry, and the evaluation, prevention, and abatement of these hazards. The course covers OSHA requirements for both the General Industry and Construction standards. This course is designed for small employers or a designated representative (line supervisor or manager) with the responsibility to develop a permit-required confined space program. Upon course completion students will have a basic understanding of confined space hazards, evaluating and abatement of the hazards, the roles and responsibilities for attendants, entrants and entry supervisors, and determining when a confined space shall be classified as a permit-required confined space.

Fall Hazard Awareness in Construction and General Industry

Learn to identify, evaluate and control fall hazards at the workplace. This course will focus on falls to a lower level and include recognizing, analyzing and preventing fall hazards utilizing OSHA's Fall Protection Standards. Identifying fall hazards and determining how to protect workers is the first step to abatement.

Electrical Hazard Awareness and Lockout/Tagout

On average, three workers die weekly from exposure to electricity and almost half of the workers injured by electricity are away from work for more than two weeks. Reducing accidental exposure to electricity can increase job safety and decrease lost production time. Workers can protect themselves by understanding sources of electrical shock, recognizing potential hazards and knowing how to mitigate or avoid electrical hazards. Lockout/Tagout is used to prevent injuries during service or maintenance of equipment from all sources of energy, including electricity. Upon course completion, you will have a better understanding and the working knowledge necessary to recognize electrical hazards.

Preventing Slips, Trips and Falls: A Training Program for Small Businesses

Did you know that slips, trips, and falls are the leading cause of accidents on the job? Additionally, according to the Occupational Safety and Health Administration (OSHA), 8% of them are fatal! This interactive class, led by an OSHA Outreach Trainer, covers recognizing risk factors AND controlling slip, trip and fall hazards. Workers, managers, and supervisors are encouraged to attend.

COVID-19 Worker Protection Including Personal Protective Equipment (PPE)

Exposure to “COVID 19” and other infectious diseases can result in significant illness or even death. Since January 21, 2020 over 18,910,000 people residing in the United States have contracted “COVID 19”, approximately 99 people per 100,000 have died from “COVID 19”. Workers can protect themselves by understanding sources of infection, recognizing potential hazards, and knowing how to mitigate or avoid the hazards through safe practices and personal protective equipment. Goal: At the completion of the course students will know sources of “COVID 19” virus and other infectious diseases, basic hazards of infection, and be able avoid/control the risk to avoid illness using safe practices and personal protective equipment.
Accounting, Bookkeeping and Finance

Finance and Budgeting for Business Professionals
Understand monetary figures which lead to the financial success of an organization. Learn the functions and tools of finance. Examine financial statements, balance sheet, income statement, cash flow statement and statement of stockholders’ equity. Learn the steps of budgeting to meet organizational goals. General end-user computer, Microsoft Office Excel and Internet skills recommended.

LBS0046-004 Harper Main Campus

Instructor: Dr. Susanne Brock
TUITION & FEE: $265.00

Online Self-Paced Digital Badge in Accounting and Finance for Non-Financial Managers
Every successful manager uses financial information to make effective decisions. Accounting and Finance for Non-Financial Managers explains the financial concepts and accounting principles used in most businesses and provides practical techniques for increasing your organization’s effectiveness. You will gain a better understanding of resource allocation and how to evaluate financial performance at the strategic and operational levels. Learn the importance of cash flow management as well as budgeting, goal setting, and performance assessment.

This Online Digital Badge requires completion of three courses: Accounting and Finance for Non-Financial Managers; Cash is King and Financial Analysis and Planning for Non-Financial Managers. Three one-month online courses. These courses may be taken individually.

LRN0023-014 ONLINE Self-Paced
02/07/22-04/29/22
TUITION & FEE: $495.00

Accounting - Cash is King
Cash management is one of the most important factors in the financial success of your business. D&B reports that 90% of all small business failures are due to poor cash management and inadequate cash flow, leading to more money getting paid out than collected. Non-financial managers usually make the key differences in day-to-day cash flow decision making. Learn how to optimize cash flow, uncover hidden internal and external sources of cash, and how to cultivate solid cash management in your company.

LRN0024-018 ONLINE Self-Paced
03/07/22-04/01/22
TUITION & FEE: $195.00

Financial Analysis and Planning for Non-Financial Managers
Designed for non-financial managers, business owners, entrepreneurs, and other decision-makers, this advanced course will take the mystery out of money matters. Throughout this course, financial information that drives your organization, as seen on the business’s reports, will be assessed and analyzed to understand it. An understanding of this information will help you make smart decisions when it comes to budgeting, setting goals, and assessing performance within your own area of influence.

LRN0139-011 ONLINE Self-Paced
04/04/22-04/29/22

Bookkeeping Digital Badge

How do you manage the finances of a business? Whether you are an entrepreneur, running a family business, or just looking to advance your career and add to your skill set, this Bookkeeping Digital Badge will provide you with the knowledge needed to measure and manage, the financial health of your business. This program focuses on cash basis accounting.

No one will care more about the financial health of your business than you! It’s imperative that you understand how the process works and are able to complete the accounting cycle accurately and in a timely fashion. Even if you plan to outsource your bookkeeping needs, you should still understand how the process works. No one should be clueless when it comes to the finances of their business.

This digital badge requires the completion of three courses: Understanding Debits and Credits, General Ledger and Month End Procedures, Closing Procedures and Financial Statements. These courses may also be taken individually.

LRN0176-004 ONLINE Self-Paced
02/07/22-04/29/22
TUITION & FEE: $495.00

Understanding Debits and Credits
In this course, you will learn about the accounting equation and the five categories involved in every business (Assets, Liabilities, Owner’s Equity, Revenue and Expenses). Every financial transaction falls into one or more of these categories. Learn how to create a chart of accounts that meet the needs of your business. You will learn how double entry bookkeeping works and the process of recording debits and credits. This course will show you how to identify, analyze and record transactions using journal entries under the cash basis accounting method.

LRN0177-005 ONLINE Self-Paced
02/07/22-03/04/22
TUITION & FEE: $195.00

General Ledger and Month End Procedures
In this course, you will learn how to post journal entries to the correct general ledger accounts impacted by each transaction. This course will show you how to make sure your general ledger balances at the end of each month by preparing an adjusted trial balance. You will learn how to look for errors when you don’t balance, and how to determine to correct entries. After posting correcting entries and/or adjusting entries, you will verify debits and credits equal with an adjusted trial balance. This course also goes through the steps of performing monthly bank reconciliations.

LRN0178-005 ONLINE Self-Paced
03/07/22-04/01/22
TUITION & FEE: $195.00

Closing Procedures and Financial Statements
This course shows you how to create a worksheet used to adjust the account balances and prepare the financial statements. Use your financial statements to measure performance, make improvements and set goals. The final step covered in this course is closing your books and preparing them for the next accounting period; this is done by journalizing and posting closing entries.

LRN0179-004 ONLINE Self-Paced
04/04/22-04/29/22
TUITION & FEE: $195.00

Online Self-Paced
Bookkeeping Digital Badge

Whether you are an entrepreneur, running a family business, or just looking to add to your skill set, this Bookkeeping Digital Badge will provide you with the knowledge needed to measure and manage the financial health of your business.

This Digital Badge requires completion of three one-month online self-paced courses. You may register for the Digital Badge, which includes all three courses, or take the courses separately:

• Bookkeeping Digital Badge
• Understanding Debits and Credits
• General Ledger and Month End Procedures
• Closing Procedures and Financial Statements
Aviation Ground School

For drones or planes this is your first step toward becoming a pilot. You will learn about aerodynamics, weight and balance, aviation weather, regulations and human factors. We will examine the function of flight controls, airports and airspace. Successful completion of the class will prepare you for the FAA Private Pilot Written Exam. Field trips to DuPage Airport will be available to: tour an active control tower, work with operational aircraft and fly a flight simulator. Finally, most new drone enthusiasts do not realize the liability risk of flying a drone without proper certification. Action is now enforceable by civil and federal authorities. This class will bring you up to date whether or not you are in actual operation.

LPA0002-010 Harper Main Campus 04/04/22-05/11/22 MO WE 7:00 pm-9:30 pm Instructor: Bob Werderich
TUITION & FEE: $250.00

Drone Pilot Ground School

You will build your knowledge about the regulations and procedures governing the legal operation of Small Unmanned Aerial Systems, sUAS, in the United States of America. Course content aligns with knowledge areas in the Federal Aviation Administration's, FAA's, Part 107 airman knowledge test for a Remote Pilot Certificate with a sUAS rating.

LPA0003-002 Harper Main Campus 01/18/22-03/13/22 Instructor: Dr. Richard Schultz
TUITION & FEE: $125.00

Residential Building Inspector (B1) (Municipal Government)

This 13-week course prepares students to take the (B1) Residential Code Building Inspector Certification exam through the International Code Council (ICC). It is not home inspection training. The course includes the use and application of basic building planning requirements for wall, floor, ceiling, roof framing, and materials in one and two-family dwellings. Also covers code requirements for soils, footing and foundations, light and ventilation, ceiling height, minimum room sizes, emergency escape and rescue opening requirements, smoke detectors, and carbon monoxide detectors. Prepare for the exam through multiple timed comprehensive practice tests. Purchase the ICC text: 2015 International Residential Code.

LBS0013-006 CLEC Enterprises, Inc. 02/15/22-05/03/22 TU 6:00 pm-9:00 pm Instructor: Will Dettmer
TUITION & FEE: $850.00

Residential Electrical Inspector E1 and Electrician Class

This 12-week course, will introduce students to the fundamental code requirements for proper installation of electrical systems in residential buildings. This test preparation class will provide students with a firm foundation of electrical equipment, materials and installation techniques that will assist the student in gaining the knowledge necessary to take the Residential Electrical Inspector Certification Exam offered by the International Code Council (ICC). All Students will be encouraged to test for ICC Residential Electrical Inspector Certification. (E1). Once the student has obtained the certification, they can get jobs in municipalities or outsourcing companies that provide real world experience and on the job training in the electrical field. Jobs in this nature come with 401K, retirement and benefits.

LBS0036-006 CLEC Enterprises, Inc. 02/16/22-05/04/22 WE 6:00 pm-9:00 pm Instructor: Will Dettmer
TUITION & FEE: $850.00

Refrigerant Handling Workshop

Increase your odds of passing the EPA Technician Certification exam allowing you to handle and recover refrigerants at all technician levels. Students who need to retake the exam or need additional certifications should register for this course. Passing the exam satisfies the refrigerant certifications and EPA requirements.

LMR0002-014 Harper Main Campus 02/03/22-02/10/22 TH 12:00 pm-3:00 pm Instructor: Jose Vital
TUITION & FEE: $160.00

Conflict Resolution Strategies: Strategies for Success

Learn how to deal effectively with others in antagonistic situations. Discover how to reduce tension or conflict. Review how to effectively settle disputes by focusing on solving the problems at hand—without offending egos. Evaluate the feasibility of alternative dispute resolution mechanisms. Understand the essentials of effective conflict resolution; Practice communication techniques to improve relationships; Learn how to communicate clearly and compassionately.

LMR0072-002 Online - Live Meetings 03/09/22 WE 6:00 pm-8:00 pm Instructor: Debra Braden
TUITION & FEE: $65.00

Cultural and Emotional Intelligence

It was once believed that intelligence was the metric that would determine a person’s success in the workplace. Intelligence matters because it contributes to your ability to do your job. But intelligence is not the best indicator of whether or not you’ll succeed. Your ability to understand and manage your own emotions, and get along well with others, has at least as much impact on your performance and effectiveness as intelligence. In this course, you’ll explore strategies to increase your awareness of your emotions, develop your ability to manage your emotions, and improve your social skills.

LMR0060-002 Harper Main Campus 05/03/22 TU 5:30 pm-8:30 pm Instructor: Dr. Susanne Brock
TUITION & FEE: $155.00
Digital Communication Skills

Though businesses increasingly rely on technology, technological skills alone do not guarantee success in the workplace. You must still develop your ideas, express them clearly, and persuade others of their viability. This course offers effective strategies to sharpen your writing skills by structuring your ideas logically, exercising diplomacy in letters and reports, and shaping your arguments.

LCT0019-013 Harper Learning & Career Center 05/13/22 FR 9:00 am-4:00 pm Instructor: Susanne Bajt
TUITION & FEE: $209.00

Managing Conflict

Cultivate the skills necessary to help manage conflict and ultimately decrease the presence of conflict in the workplace. Conflict in the workplace can take a devastating toll on productivity and morale. Managing interpersonal differences is essential to business and protects the emotional health of employees. Learn how to help others settle their differences and work constructively as individuals and groups with a common purpose. Individuals taking this course may have work experience in a variety of organizational settings. General end-user computer, Microsoft Office and Internet skills recommended.

LBS0045-003 Harper Main Campus 03/01/22 TU 5:30 pm-8:30 pm Instructor: Dr. Susanne Brock
TUITION & FEE: $265.00

Customer Service and Sales

Customer Service Essentials

Explore the background and techniques of customer interactions. Provide quality customer care to ensure everyone single contact with your organization is a positive experience. Customers can range from external consumers to internal employees in other departments. Establish positive business relationships and recognizing crucial points throughout customer interactions to increase abilities to solve problems and offer effective solutions. General end-user computer, Microsoft Office and Internet skills recommended.

Sales Professional Training

Looking to start your sales career or earn more money with your current one? In these five classes you’ll learn strategies, tactics and techniques you can use the next day to make more sales. Taught by a seasoned professional with a forty plus years of sales success, these classes offer a “nuts and bolts” approach that can create sales success for both strategic and tactical selling situations and for both tangible and intangible products. Plan on attending the whole series or choose just the subjects you need ala Carte. By completing all five sessions and receive a Sales Professional Digital Badge/Micro-Credential. Courses start February 2nd and will meet in-person on Harper’s Main Campus on Wednesdays, from 6:30 – 9 pm.

Courses in this series include:
- Sales Session 1 Prospecting, Cold Calling & Appointment Setting
- Sales Session 2 Effective Presentations
- Sales Session 3 Closing the Sale
- Sales Session 4 Handling Objections with Prospective Clients
- Sales Session 5 Time and Attitude Management in Sales

Sales Session 3 Closing the Sale

The bottom line is the dotted line, if it’s blank your commission check is too. Closing techniques to help decision-makers decide in your favor will be discussed and demonstrated. Close may count in horseshoes in sales closing, you have got to get them to say “Yes.”

LBS0081-001 Harper Main Campus 02/16/22 WE 6:00 pm-9:00 pm TUITION & FEE: $150.00

Sales Session 4 Handling Objections with Prospective Clients

“I want to think it over?” costs too much.” And “Send just me some information” are roadblocks buyers use to slow or derail the sales process. But you can, and must, learn to overcome sales objections! You’ll learn the types of objections consists and a variety of objection-handling techniques to handle objections and move the selling process forward.

LBS0082-001 Harper Main Campus 02/23/22 WE 6:00 pm-9:00 pm TUITION & FEE: $150.00

LBS0083-001 Harper Main Campus 03/02/22 WE 6:00 pm-9:00 pm TUITION & FEE: $150.00

Education

Learning While Black

In today’s public schools, the majority of teachers, 80% are white, and the majority of learners are students of color. This fact alone suggests a strong potential for a cultural and communication gap between teachers and their students. Research findings confirm that black students face significant challenges to their learning as a result of unconscious bias and lack of cultural awareness on the part of teachers. It is well documented that black students, particularly boys, are more likely to be the receiving end of disciplinary action, more likely to be suspended from school, and are at greater risk of failing than are other students. It is also well documented that black children are perceived to be older than white children of the same age and are more likely, as a result, to have expectations for behavior that are developmentally inappropriate. These factors, along with micro-aggressions that are common, and sometimes racially motivated aggression by peers render the learning environment for black students fraught with challenges that may be unseen or unrecognized by educators.

In this course, we will examine the factors that come together to create unique challenges to black students in the classroom and explore ways in which teachers can minimize those challenges and support school success for all students.

HR Certification 411

Looking to boost your HR job cred? Over a third of HR professionals have a certification to their name. Director level and above, half do. But unlike other fields, HR doesn’t just have one generally accepted track. Today, there are two major players in HR certification: The Society for Human Resource Management (SHRM) and the HR Certification Institute (HRCI). Both SHRM and HRCI offer junior and senior-level certifications, each with their own requirements and fees. If you’re weighing your options, here’s what you need to know.

TUITION & FEE: $65.00

Safely Returning to the Office After COVID

Some workers have returned to a central location, some might drop in sometimes, and some haven’t come back at all. But here is what we do know: Whenever you do come back to an office, what you see will not be exactly as you remember it. There are workers who can’t wait to go back, workers who can’t wait to go back to go back to the office, others who worry when they’ll be asked to stop working from home, and those who would like to mix it up—some days in the office, some days remote—in a post-COVID world. No matter their preferences, many don’t know what their organization’s policy will be.

Employers are still figuring that out and when it’s safe to head back to offices, the question remains: What has this forced WFH experiment shown us about the future of work? How can you ensure that employees feel safe when they return to the office? How can you protect workers for the spread of COVID-19? During this course, we will address these questions and provide some tips/suggestions for a safe return to the office.

TUITION & FEE: $229.00

Engaging Remote Workers

The COVID-19 pandemic has caused unprecedented changes for many industries. As social-distancing practices are encouraged, many employers are asking their employees to work from home or employees are apprehensive about returning to the office. For some employees, working from home is business as usual. For others, this may be the first time they’ve telecommuted. This working arrangement may seem exciting at first, but it can lose its appeal over time, resulting in disengaged employees. And, when employees aren’t engaged, their productivity and motivation can suffer. Keeping remote workers engaged and motivated doesn’t have to be complicated.

Most of the motivational methods you currently use to inspire in-house employees can be applied to employees working from home as well. During this workshop, we will explore methods and techniques used for motivating and engaging remote employees.

TUITION & FEE: $56.00

Career programs at Harper College. Taught by instructors and professors, these career programs at Harper College provide a solid foundation in why HR Analytics is critical to initiatives? How can we make sure HR helps the organization achieve business outcomes? HR analytics can help with all of these things and more. It’s not a silver bullet, but it is a powerful tool for elevating the credibility of the HR function. This workshop will provide you a solid foundation in why HR Analytics is critical to helping HR provide real business value. This course will provide you with an excellent grounding in what HR analytics is and how the best companies are using analytics to become more successful and provide an exceptional employee experience.

Automation

Automation Engineering in Robotics

Learn about next generation robotics and automation systems. Robotic Automation is the process of using physical machines, computer software and other technologies to perform tasks done by humans.

LCT0073-001 ONLINE - Live Meetings
04/12/22 TU 6:00 pm-9:00 pm
TUITION & FEE: $75.00

Automation Engineering in Industrial and Building Automation

Gain an understanding on the digital systems, sensors, electronics, hydraulics, pneumatics, programming and alarm management.

LCT0074-001 ONLINE - Live Meetings
04/12/22 -04/19/22 TU 6:00 pm-9:00 pm
Instructor: Hudson Rivera
TUITION & FEE: $75.00

Cybersecurity

Introduction to Information Security

In this course, students will be learning the foundations and fundamentals of the field of Information Security. This course will be covered in three parts that provide students with a modern perspective and approach to the vastly growing industry and its subgroups:

--What is information Security and why is it important?
--What are the various roles and their responsibilities in the industry?
--What does it take to break into a role and/or excel in a current one?

Students should expect the lectures, discussions, and assignments of this course to ground and train them in the required knowledge of Information Security. Students will also be provided strong career-based direction to set engaging and self-empowering goals to help ensure growth in both current and future roles.

LSP0001-006 ONLINE - Live Meetings
02/23/22-03/16/22 WE 6:00 pm-9:00 pm
TUITION & FEE: $295.00

LSP0001-007 ONLINE - Live Meetings
05/03/22-05/12/22 TU TH 6:00 pm-9:00 pm
TUITION & FEE: $295.00

Introduction to Cryptography

Cryptography is the practice of techniques used to protect the secure transmission of information. This course is an excellent starting point to understand what is cryptography, learn how cryptography is used, and understand hash, symmetric, and asymmetric cryptographic algorithms. You will learn the inner workings of security encryption and cryptographic systems and how to correctly use them in real-world applications through hands on experience via live virtual machine labs, lab simulations and case projects.

LPL0004-005 ONLINE Self-Paced
02/01/22-05/01/22
TUITION & FEE: $59.00

Introduction to Mobile Security

Mobile devices continue to grow in importance in managing our personal and business lives. As such, it makes them particularly vulnerable to attacks and how to defend against them. This course is an excellent starting point to understand the different types of mobile devices, understand the risks associated with mobile devices, develop a list of ways to secure mobile devices, learn how to apply mobile device app security, and learn how to implement BYOD security.

This course not only covers the fundamentals of mobile security, but also provides a hands-on experience through the use of live virtual machine labs, lab simulations, and case projects. Hands on projects will have you create and use QR codes, use software to locate a missing laptop, and install an Android emulator to test different antimalware tools.

LPL0003-005 ONLINE Self-Paced
02/01/22-05/01/22
TUITION & FEE: $59.00

Online Self-Paced Data Analysis Digital Badge

Data Analysis is quickly becoming one of the most sought-after skills in the workplace. Companies produce vast amounts of data, but it is rare to have someone with the vision and ability to analyze data for trends and make valid predictions.

This Digital Badge requires completion of three courses:

- Introduction to Data Analysis
- Intermediate Data Analysis
- Advanced Data Analysis

Add a whole new skill set to your portfolio, and make a big difference in the success of your organization by acquiring data analysis skills.

Data Science

Database Essentials

Introduces the process for effectively planning and designing a functional, efficient database.

Learn the steps in designing a relational database, including gathering requirements, data modeling, and planning implementation. Course prepares for more advanced training in database technologies such as Transact-SQL.

Instructor: Susanne Bajt
05/20/22-05/12/22
6:00 pm-9:15 pm
Tuition & Fee: $195.00

Introduction to Access 2019

Learn fundamentals of creating a relational database and explore the different table, form, query and report objects. Generate reports and learn how to extract pertinent data from your database.

PREREQUISITE: Introduction to Word, Excel or equivalent experience.

Instructor: John F. Chiappetta
04/12/22-04/14/22
6:00 pm-9:15 pm
Tuition & Fee: $239.00

Intermediate Access 2019

Expand your knowledge of relational database design and promote quality input from users. Improve database efficiency and promote data integrity. Learn to implement advanced features in tables, queries, forms, and reports. Extending your knowledge of Access will result in a robust, functional database for your users.

PREREQUISITE: Introduction to Access or equivalent experience.

Instructor: John F. Chiappetta
04/19/22-04/21/22
6:00 pm-9:15 pm
Tuition & Fee: $239.00

Data Analysis

Online Self-Paced Data Analysis Digital Badge

Add a whole new skill set to your portfolio, and make a big difference in the success of your organization by acquiring data analysis skills.

Begin by getting a basic understanding of how to analyze data in a business setting. Then, learn how many of your business decisions involve comparing groups for differences. Finally, find out how to perform inquiries useful to your business or organization and communicate the results through graphs and text to your fellow employees and leaders.

Students need to have Microsoft Excel to complete this certificate.

This Digital Badge requires completion of three courses: Introduction to Data Analysis, Intermediate Data Analysis and Advanced Data Analysis. These courses may also be taken individually.

Tuition & Fee: $495.00

Intermediate Data Analysis

Many business decisions involve comparing groups of data for differences. For example, you might examine sales records to see if men and women prefer different product features. Or, you might see whether product recognition survey data relates to subsequent product purchase behavior. The Intermediate Data Analysis course introduces you to the statistical analysis methods behind these group differences and relationships. In addition, you’ll learn how to work with ratings and graphs to create user-friendly reports of statistical results.

Students need to have Microsoft Excel to complete this certificate.

Tuition & Fee: $195.00

Advanced Data Analysis

Advanced Data Analysis teaches how to perform valuable inquiries for your business or organization. You acquire skills necessary to communicate these results through graphs and text so that your fellow employees will understand the implications of decisions they make. Take the guesswork out of important decisions and make them based on statistically significant information. Whether your business is home-based or a large company, this class will take you to the next level where important decision making is concerned.

Students need to have Microsoft Excel to complete this certificate.

Tuition & Fee: $195.00

Excel 2019 Data Analysis and Visualization

Excel can connect to a wide range of data sources, perform robust data analysis, and create diverse and robust data-backed visualizations to show insights and trends, and create reports. These capabilities enable people who use Excel for data analysis to turn data into thoughtful action. Learn how to analyze and visualize data using Microsoft Excel. Perform data analysis, present visual insights with dashboards and model data with Power Pivot. This course is intended for individuals who hold advanced knowledge in Excel and who have baseline skills in creating workbooks with formulas and functions.

Tuition & Fee: $455.00

For more information, please visit: ce.harpercollege.edu
Rapid Training:
Dashboards by Tableau

Tableau is a data visualization software application which helps people transform data into actionable insights. Explore this tool which has limitless visual analytics. Build dashboards and perform ad hoc analyses in just a few clicks. From global enterprises to early-stage startups and small businesses, people everywhere use Tableau to see and understand their data. A good business dashboard informs with a glance. A great business dashboard combines high performance and ease of use to let anybody get data-driven answers to their deeper questions. This workshop covers the basics of working with Tableau in the quest of creating your own customized dashboard.

LBS0051-003 ONLINE - Live Meetings
03/17/22 TH 6:00 pm-7:00 pm
Instructor: John F. Chiappetta
TUITION & FEE: $45.00

Power BI (Business Intelligence)

Microsoft Power BI: Data Analysis Practitioner

Microsoft Power BI displays data-backed visualization and is built to connect to a wide range of data sources which enables users to quickly create visualizations of connected data to gain insights, show trends, and create reports. Learn how to create interactive workbooks, dashboards and stories that bring data to life and turn data into thoughtful action. This course is intended for individuals in a variety of job roles who use desktop and web-based data-management tools such as Microsoft Excel or SQL Server reporting services to perform numerical or data analysis who hold advanced knowledge in Excel.

LNT0020-004 ONLINE - Live Meetings
04/26/22-05/05/22 TU TH 6:00 pm-9:15 pm
Instructor: John F. Chiappetta
TUITION & FEE: $495.00

Rapid Training: Introduction to Power Platform

Microsoft Power Platform combines the robust power of PowerApps, PowerBI, and Power Automate into one powerful business application platform - providing quick and easy app building and data insights. Each component of the Microsoft Power Platform is built on the Common Data Service for Apps. This tool creates a Platform as a Service (PaaS). This workshop will cover Power Apps at the foundational level and highlight upon Power Apps, Power BI, Power Automate, and MS Forms.

LBS0052-003 ONLINE - Live Meetings
03/10/22 TH 6:00 pm-7:00 pm
Instructor: John F. Chiappetta
TUITION & FEE: $45.00

Microsoft Power Business Intelligence (BI)

Microsoft Power BI is a business analytics service by Microsoft. It aims to provide interactive visualizations and business intelligence capabilities with an interface simple enough for end users to create their own reports and dashboards.

Online Self-Paced
Power BI (Business Intelligence) Digital Badge

Power BI is a widely used business analytics service offered by Microsoft. Power BI Desktop is a complete data analysis and report creation tool that you install for free.

Discover the process of creating interactive reports. Integrate financial, marketing, or any other source data in your accounting system, Excel, or on the Web. Create charts, maps, and other visuals to see your data in real time.

Delve further into Power Query to ETL, Extract, Transform and Load. your data. Build the Data Model using relationships and DAX, Data Analysis Expressions. Utilize Time Intelligence functions to view YoY or YTD reports. Add user friendly features to enhance your reports and analyze your results.

This digital badge requires completion of three courses: Introduction to Power BI. Intermediate Power BI and Advanced Power BI. These courses may also be taken individually.

LRN0170-005 ONLINE Self-Paced
02/07/22-04/29/22
TUITION & FEE: $495.00

Introduction to Power BI (Business Intelligence)

Gain insights into your data. Power BI, business intelligence, is a widely used business analytics service offered by Microsoft. Power BI Desktop is a complete data analysis and report creation tool that you install for free.

In this course, you will discover how to quickly extract, transform, and load data with just a few clicks. You will create interactive visualizations, charts, maps, KPIs, to provide you with insights into your company’s data to make informed decisions.

LRN0171-006 ONLINE Self-Paced
02/07/22-03/04/22
TUITION & FEE: $195.00

Intermediate Power BI (Business Intelligence)

Delve further into Power Query to ETL, Extract, Transform and Load, your data. Build the Data Model using modeling features and relationships. Perform calculations using DAX, Data Analysis Expressions, functions. Utilize Time Intelligence functions to view YoY or YTD reports. Add user friendly features to enhance your reports.

LRN0172-006 ONLINE Self-Paced
03/07/22-04/01/22
TUITION & FEE: $195.00

Advanced Power BI (Business Intelligence)

Expand your knowledge of Power BI Desktop to the highest level. This course focuses on the advanced capabilities of Power Query, Data Modeling and Reports. Check for data inconsistencies, design efficient queries, create proper relationships, and write DAX code to ensure reports update quickly and accurately. Add navigation and analytical features to your reports to enable consumers to analyze the results.

LRN0173-006 ONLINE Self-Paced
04/04/22-04/29/22
TUITION & FEE: $195.00
Online Self-Paced SQL Digital Badge

Structured Query Language (SQL) is the industry standard database programming language. It is one of the most in demand skills in occupations that require interaction with data and analyzing data. Through your knowledge of Structured Query Language, you will become more marketable in computer related career fields that pertain to database administration. Learning SQL can also lead to a job that is specific to analyzing data such as a data analyst, a quality assurance analyst, or a business analyst.

You’ll first learn about relational database structures, the history and uses of Structured Query Language, and how to use Structured Query Language to create a database, add records to database tables, and how to use SQL queries to extract meaningful data from database tables. You will quickly progress from creating simple SQL queries that query a single table to querying multiple tables simultaneously. You’ll also learn how to alter data in a database and how to gather significant statistics from data stores in a database. Finally, you’ll learn techniques that will enable you to write powerful queries that perform complicated searches and sorts on your data.

This Digital Badge requires completion of three courses: Introduction to SQL, Intermediate SQL and Advanced SQL.

03/07/22-04/01/22
TUITION & FEE: $225.00

Adobe InDesign Essentials
Adobe InDesign is the industry standard page-layout program that works with Adobe Illustrator and Photoshop seamlessly. Use Adobe Photoshop to effectively work with selection and editing tools, layers, and masks to edit, retouch and enhance existing images or create your own composite digital art work.

This Digital Badge requires completion of three courses:
- Adobe Illustrator Essentials
- Adobe Photoshop Essentials
- Adobe InDesign Essentials

Adobe Illustrator Essentials
Adobe Illustrator is the industry standard computer illustration software. Use Illustrator to draw shapes and design logos, flyers, posters, banners, business cards or any other vector graphics for print or web. In this course, you will learn Adobe Illustrator fundamentals to set up a print document and use various tools to draw, type and color all kinds of shapes and illustrations. Learn how to efficiently manage layers and artboards, and create print ready PDF documents. Access to Adobe Illustrator software required.
LRTN0181-005 ONLINE Self-Paced
02/07/22-03/04/22
TUITION & FEE: $225.00

Adobe InDesign Essentials
Adobe InDesign is the industry standard page-layout program that works with Adobe Illustrator and Photoshop seamlessly. InDesign allows you to create simple to complex multi-page documents such as brochures, flyers, books and magazines. This course is a comprehensive exploration of InDesign tools and capabilities to create professional documents. You will learn how to manage the InDesign environment, create, setup, design, enhance and finalize multi-page documents. Access to Adobe InDesign software required.
LRTN0182-004 ONLINE Self-Paced
04/04/22-04/29/22
TUITION & FEE: $225.00

Adobe for Artists
This course will help you acquire the knowledge and practical skills that you’ll need to utilize digital art software to create artwork in a digital environment. It focuses on discovering art elements and design principles while using Adobe software. It will also explore current and past trends in design. You’ll learn how to create digital images and graphics that express your artistic thoughts. Such skills can help you conquer challenges and enhance your message. In Photoshop, you’ll learn how to use brushes, color pickers, and layers; skills necessary for photo editing, photo manipulation, and digital composition. You’ll develop vector illustrations with Adobe Illustrator and layout concepts in Adobe InDesign and create professional presentations. The course gives the right tools and techniques to start with digital artwork. All artists and enthusiasts ages 15 and over are welcome.
LRTN0095-001
01/24/22-03/14/22
Instructor: Edyta Pavuliska
TUITION & FEE: $199.00

Introduction to Information Technology (IT)
If you are considering a career in Information Technology (IT), or want to gain a solid understanding of IT to help with your professional career, this course will provide you with the foundational knowledge on personal computers and Information Technology concepts. Explore which devices, operating systems and computer applications are commonly used at the workplace. Focus will also be applied to more advanced IT topics such as Networking, Databases and Security Concepts.
LRTN0072-002 ONLINE - Live Meetings
01/24/22 6:00 pm-9:15 pm

Online Self-Paced Graphic Design Software Essentials Digital Badge
The Adobe software tools are the leading software for graphic design. Adobe Illustrator is the industry standard computer illustration software. Adobe InDesign is the industry standard page-layout program that works with Adobe Illustrator and Photoshop seamlessly. Use Adobe Photoshop to effectively work with selection and editing tools, layers, and masks to edit, retouch and enhance existing images or create your own composite digital art work.

Visit CE.HARPERCOLLEGE.EDU for latest course information.
Understanding The Cloud

In this course, you will explore how the cloud works, what drives its incredible growth, and how you can use cloud services. You will start by looking at the building blocks of the cloud, where it started, and how it transitioned. You will gain a clear understanding of IaaS, infrastructure, SaaS, software, and PaaS, platforms, and examine why each may be attractive to some businesses, but not to others. You will learn about the different kinds of clouds: public, private, and hybrid.

You will also look inside the engine rooms of the cloud: data centers. You will examine the concept of big data and how the cloud infrastructure enables data to zip across the globe. You will look at how Facebook and Twitter contribute to the cloud, and how apps go from idea to app store. You will gain an understanding of how mobile devices and major mobile ecosystems continue to shape the cloud.

Online Self-Paced Excel Digital Badge

Earn an EXCEL Digital Badge by completing three one-month online self-paced courses. You may register for the Digital Badge, which includes all three courses, or take the courses separately:

- Excel Digital Badge
- Intermediate Excel
- Advanced Excel

A must-have skill to succeed in business, whether an entrepreneur or a valued employee, is the ability to create, edit and manage spreadsheets. Microsoft Excel is the most used spreadsheet tool in the world. This Digital Badge will help you discover how to attractively visualize your data into meaningful information with confidence.

Intermediate Excel 2019

Learn to analyze massive amounts of data, extract actionable information from it, and present that information to decision makers. This course builds upon the foundational knowledge presented in the Introduction to Excel course. Create advanced workbooks and worksheets that help organize organizational intelligence. Students will work with some of the advanced features in Excel including: charts, adding and formatting graphic objects and sorting and filtering data. PREREQUISITE: Introduction to Excel or equivalent experience.

LCT0030-024  Harper Learning & Career Center 03/04/22  FR  9:00 am-4:00 pm  Instructor: Susanne Bajt  TUITION & FEE: $259.00

Online Self-Paced Excel

Microsoft Excel is the most widely used spreadsheet tool in the world. Discover how menu items, commands, settings, and processes affect the look of your Excel workbooks and workbooks. Learn how various data types can be best represented and formatted using different Excel options and techniques. This Digital Badge will help you discover how to attractively present your data in reports, slide shows, and more, with confidence.

This Digital Badge requires completion of three courses: Mastering Microsoft Excel, Intermediate Excel, and Advanced Excel. These three courses may also be taken individually.

LRN0091-014  ONLINE  02/07/22-04/29/22  TUITION & FEE: $495.00

Mastering Microsoft Excel

Microsoft Excel is the most widely used spreadsheet tool in the world. Keep your Excel skills current with this class, as it change with the features of Excel over time. Learn how to construct an Excel worksheet, populate it with content, and edit it for delivery in a variety of business situations. Master the options that will take your Excel worksheet from a collection of plain, drab numbers to an engaging multimedia presentation.

LRN0013-018  ONLINE Self-Paced 02/07/22-03/04/22  TUITION & FEE: $195.00

LRN0013-019  ONLINE Self-Paced 04/04/22-04/29/22  TUITION & FEE: $195.00
Advanced Excel
Learning Advanced Excel contains tools that can help you prepare your worksheets accurately, examine your data for authentication, and then find those answers to your most difficult questions. This course will help you learn these required business functions along with the tools required to analyze data efficiently within the workplace. Save time for yourself by protecting your valuable data and know with assurance that the entered data is accurate without any errors. By completing the course, discover how to attractively visualize your data into meaningful information with confidence.

Intermediate Excel
This course will help you increase your efficiency by learning how to organize, display and calculate your data into useful information. Find out how you can consolidate your data proficiently into readable rows and columns using different table designs and styles. Create a unique style for yourself to improve your spreadsheet appearance to make the content easier to understand for your target audience. Learn from the trainer on how beneficial it is to become more productive in generating different everyday business functions. Discover how easily pivot tables can be created to quickly summarize large amounts of data. Through this course, these tasks will make your work outstanding and unique in what you do.

PowerPoint
Introduction to PowerPoint 2019
Create a presentation, work with outlines, modify the slide master, use the drawing tools, create a chart and customize templates. Learn how to create a slideshow that can be used for effective presentations. See how animation can hold your audience captive. PREREQUISITE: Strong Microsoft Windows skills and knowledge of Microsoft Word is helpful.

Microsoft Teams
Microsoft Teams (Desktop and Browser)
Microsoft Teams enables individuals and organizations to chat, share ideas, collaborate on files, and essentially, work together. Learn how to chat with a colleague, participate in a virtual meeting, make an online call, and share files and resources.

Outlook
Introduction to Outlook 2019
Learn how to use one of the most popular email applications around! Students will create, format, send, reply to, and forward messages. Also covered are working with attachments, managing contacts, and scheduling appointments and meetings. PREREQUISITE: Intro to Windows or equivalent experience.

Word
Introduction to Word 2019
Microsoft Word 2019 is designed to help you move smoothly through the task of creating professional-looking documents. Its rich features and powerful tools can make your work easy and even fun. In this course, you'll learn how to use Word 2019 to create and edit simple documents; format documents; add tables and lists; add design elements and layout options; and proof documents. Students need strong Windows and mouse skills to keep pace with this course. Keyboarding skills are recommended. PREREQUISITE: Introduction to Windows or equivalent experience.

Programming
Programming and Web Development
Online Self-Paced Coding Digital Badge
The highest demand is for programming languages with broad applicability. Begin by getting introduced to the basics of computer programming and various programming languages. Then go to the next level and acquire all the basics of HTML and CSS. You will learn the relationship between these two industry-standard web page coding languages and the step by step process of hand coding and building web pages. Finally, discover the advanced features of CSS and learn how to use this very powerful language.

Advanced Word 2019
Use more advanced functionalities in Microsoft Word! Learn how to use Word for image manipulation, collaboration and revision tracking, cross-referencing and linking, document security, forms, and process automation through macros. You also will modify an HTML page in Word. PREREQUISITE: Intermediate Word or equivalent experience.

Intermediate Word 2019
Creating professional-looking documents can give you and your organization a competitive edge. Implementing time-saving features such as document templates and automated mailings can help reduce expenses. Mastering these techniques will make you a valued employee in your organization. Learn to work with features such as formats, styles, and templates to create professional documents with a consistent look and feel. Add visual interest to your documents by using the tables and charts features. Quick Parts and templates provide efficiency and consistency when adding content, and long complex documents can be simplified and managed in Master Documents. Use the mail merge feature to automate sending individual letters to customers.

Rapid Training Workshop: Remote Work Basics
Be effective when working remotely. Learn how to work, communicate remotely and collaborate with remote teams. Google Meet, Zoom, Webex, and Microsoft Teams will be covered.

Web Development
Online Self-Paced Coding Digital Badge

Earn a Coding Digital Badge by completing three one-month online self-paced courses. You may register for the Digital Badge, which includes all three courses, or take the courses separately:

- Coding Digital Badge
- Introduction to Coding
- HTML Foundations
- CSS Fundamentals

Coding is becoming one of the most in-demand skills in the workplace today. Learn the basics of computer programming, various programming languages and the step-by-step process of hand coding and building web pages.

Introduction to Coding

After taking this course in Introduction to Coding, you will be introduced to the basics of computer programming and various programming languages. New technologies allow people outside of the computer science field to be able to create their own web pages using code. Students will learn the basics of HTML, CSS, and JavaScript in this course, as well as the practical uses for each.

CSS Fundamentals

In this introductory course, you will learn how to style web pages using Cascading Style Sheets, CSS, and JavaScript. Topics include using inline, internal, and external CSS, web typography, formatting text, working with web colors, using Google fonts, working with id and class selectors, working with elements, creating page layouts using elements and CSS box model.

HTML Fundamentals

This course covers all the basics of HTML coding language. You will learn building simple web pages by hand coding, using HTML tags to create paragraphs, heading, lists, links, insert images, tables and more. We also cover creating a simple multi-page website with images, text and a navigation bar.

Web Design

Introduction to HTML & CSS

Learn to code your own web page and understand the relationship between HTML & CSS. Hands-on training walks you through the purpose, meaning, and proper structure of these foundation front-end languages. Topics include internet and website basics, commonly used HTML tags and CSS declarations, and industry standard best practices. Prerequisite: Must be comfortable typing at least 15 words a minute.

Intermediate HTML & CSS

Continue your HTML and CSS journey by creating responsive layouts with forms, video, and audio elements. Also, learn how to enhance design creativity with positioning, layers, and other advanced CSS techniques. Prerequisite: Introduction to HTML and CSS or equivalent experience. Must be comfortable typing at least 15 words a minute.

Web Design and Usability Techniques

Learn important principles in user experience and web design that apply to just about any purpose or theme. Gain a variety of design tips and guidelines and explore several pitfalls of web design. PREREQUISITE: Introduction to HTML & CSS or equivalent experience.

Beginning Frontend Development with React

This course introduces the basic concepts of the ReactJS library, also known as React, which is one of the most common libraries for creating web user interfaces in JavaScript. Acquire practical knowledge of building user interfaces with React. Focuses on an application setup and user interfaces design approach in order to make full use of React’s features. Teaches students to create components and how to compose them in order to create complex user interfaces. Consolidates the acquired knowledge about React components in order to allow user interactivity. Starting from the core principles of UI design, the course helps students to understand the programming model provided by React by building a simple but practical application: a shopping cart for an online shop.

Introduction to JavaScript Programming

Able to be embedded or integrated into HTML, JavaScript runs in the browser environment and is useful for adding interactive capabilities to web pages. Identify some guidelines to be followed while writing scripts, and manage the window using the properties and methods of the window object. You can add content to documents, create dynamic documents and navigate between layers in the document, and validate data in the form using control constructs. Examine the different approaches to validate information entered by users while submitting documents, create dynamic documents and navigate between layers in the document, and validate data in the form using control constructs. Examine the different approaches to validate information entered by users while submitting form. PREREQUISITE: Introduction to HTML & CSS or equivalent experience.
Online Self-Paced Web Design Digital Badge
Online users say a website’s design is the number one criteria for deciding on the credibility of a company. Discover the basics of web design using HTML and CSS. No prior knowledge of HTML or web design is required. Throughout the course you will get the info you need to plan and design effective web pages. Come away knowing how to implement web pages by writing HTML and CSS code. And discover ways to enhance web pages with the use of page layout techniques, text formatting, graphics, and images.
The Web Design Digital Badge requires completion of three courses: Introduction to Web Design, Intermediate Web Design, and Advanced Web Design. These courses may also be taken individually.

**West Coast Swing Dance**

This beginner course will take you through the basic 6 and 8 beat patterns of West Coast Swing. It’s easy to learn dance especially through our casual approach to Swing dancing. The main goal of this course is to teach you enough about patterns and technique which will allow you to dance more towards the tempo and tone of each song.

West Coast Swing is one of the fastest growing dance genres in the world! It has been featured on So You Think You Can Dance, Dancing With the Stars, 30 Seconds to Fame, Star Search and is danced to most types of music including Blues, R and B, and top 40. You have the choice to dance an entire song with familiar or unfamiliar partners while incorporating all the fundamentals. Diane Smith, the instructor, has been dancing West Coast Swing for over 18 years and currently competes nationally. The class is open to adults and older teens of any skill level and no experience is necessary although prior dance experience helps. This class is open to singles and couples.

The course will include exercises for better turns, triple steps and triple variations, rib cage isolations, and footwork.

**Mindfulness and Holistic Living**

**Digital Badge in Nutrition, Chronic Disease and Health Promotion**

Nutrition is a major determinant of health as well as many common chronic diseases. Understanding the role of food and water, and making appropriate changes in one’s diet can have powerful effects, both positive and negative, on health throughout life. The burden of chronic diseases is rapidly increasing worldwide as traditional, largely plant based diets are quickly being replaced by high fat, energy dense diets with a substantial content of animal based foods. The relationship between nutrition and disease is irrefutable. This digital badge addresses these issues and more and provides a solid foundation of knowledge and information to support individuals who wish to enhance their own well being as well as health care professionals who wish to evolve in their profession.

The outcome of this digital badge is for the learner to describe the relationship between nutrition, chronic disease, and health promotion.

Online Self-Paced Food, Nutrition and Health Digital Badge
Food and nutrition have a profound impact on people’s health and well-being, yet many people are not aware of what foods to eat, which diets are healthy, and where their food originates. The goal of this course is to provide a holistic overview of current food and nutrition issues and their impact on physical, social, emotional, and spiritual health.
Throughout this course, you will become more conscious of what you eat, why you eat it, how it is prepared, and what consequences your food choices have on your health as well as the health of the planet. You will also learn how to change your eating habits for more healthful outcomes. Ultimately, you will gain insight into how food interacts with your body on multiple levels, physical, mental, emotional, and spiritual, as well as the impact it has globally.
LPL0007-005 ONLINE Self-Paced 02/01/22-05/01/22 TUITION & FEE: $96.00

Perfect Health: The Chopra Center For Well Being Ayurvedic Lifestyle
In this five step exploration of mind body medicine and Ayurveda, a holistic medical system practiced by millions of people around the globe, you’ll learn instruction in the practical tools and techniques to begin using in your daily life. Session topics include foundational principles, food as medicine, tools of rejuvenation, emotional freedom, and the healing power of the five senses.
LIO0001-008 Harper Main Campus 04/23/22-04/24/22 SA SU 9:00 am-4:00 pm Instructor: Mary Beth L. Janssen TUITION & FEE: $169.00

Skills For Making Great Decisions
Learn how to make excellent everyday decisions from an experienced counselor and life coach. You’ll see why your instincts and intuition sometimes deceive you and how self knowledge can help you guard against becoming overly confident. You’ll discover the steps necessary to achieve your goals, as well as the power that ordinary, everyday decisions can have over the quality of your life.
You’ll learn how to deal effectively with crisis, how to use your emotions as decision making tools, and how to work with others to make good decisions. You’ll develop some important guidelines for when to take risks, when to trust your luck, and what to do if you make a mistake. The goal of this course is to give you the power to live the best life you can and make the very most of every opportunity.

Somatic Education for Pain Relief
Experience freedom from pain, stress, trauma and tension by retraining your nervous system with Hanna Somatic Movement Education. These natural, gentle, safe movements help maximize flexibility, strength and balance restoring freedom of movement. Somatic Education in the Tradition of Thomas Hanna is a system of neuromuscular education, mind body training, that enables you to enjoy freedom from pain and more comfortable movement for the rest of your life.
Since the movements in this class are practiced both sitting, and lying on the floor, it is important that you have enough mobility to be able to lay down and rise up. Bring a mat or blanket and one or two pillows for comfort.
LIO0026-001 Harper Main Campus 04/07/22-05/12/22 TH 6:30 pm-7:45 pm Instructor: Jacqui Neurauter TUITION & FEE: $125.00
The ABC's of CBD, Cannabidiol

Over the past several years, CBD, Cannabidiol, has become so popular that it is now in every imaginable product. It is being used for everything from pain to anxiety, depression to sleep, gastrointestinal problems and neurological issues. In this introductory seminar, you will learn the basics about the plant cannabidiol CBD and it's potential for your mind body health. Although both medical marijuana and hemp contain CBD, we'll focus on the hemp plant in this seminar, given its federal legal status with the passage of the 2018 Farm Bill.

Please note that this class is not a replacement for medical attention by a health care professional as required for acute or chronic disease.

Colored Pencil Drawing for Beginners

Enhance your artwork by learning to effectively and creatively apply color to drawings in a relaxed environment. You will begin by following a step by step process to create a drawing to which you'll then apply color. Learn blending styles, color layering effects and pencil strokes for rendering realistic images. Amaze yourself when you learn the easy techniques to make a simple coloring page a work of art. Even beginners will go home with a work of art suitable for framing. No drawing experience is necessary. Bring colored pencils, a regular number 2 pencil, eraser and sketchbook.

LEI0006-002 ONLINE - Live Meetings 03/29/22-05/16/22 MO 7:00 pm-8:00 pm
Instructor: Shaad Shopnil
TUITION & FEE: $149.00

Drawing for Beginners

Learn the fundamentals of drawing and sketching which you can apply to other mediums. Using a unique and highly effective approach, the instructor will guide you through the process of how to draw simple objects from real life. Working primarily with pencil, you will develop skills in composition, shading and one and two point perspective. You will develop an understanding of light and shadow while drawing a variety of objects of various materials. This course is designed for beginners, but it is also suitable for artists seeking a refresher.

LEI0002-015 ONLINE - Live Meetings 01/25/22-03/15/22 TU 7:00 pm-9:30 pm
Instructor: Nonna L. Mynatt
TUITION & FEE: $199.00

Figure Drawing, Painting and Composition I

Beginning students will be introduced and advanced students refreshed while practicing drawing techniques via lectures, warm up drawings, and longer finished poses. Techniques may include: gesture and organizational line, contour line, shape plane volume modeling, value, foreshortening, and anatomical studies. We will work from a clothed model, and have critiques, which will show off your work and provide class supportive response. For longer poses we'll focus on composition and the figure within this space, and students may choose to work in drawing and/or painting mediums. A Drawing Material list is posted. A painting Material list will be posted when class begins, for those interested.

Adobe for Artists
This course will help you acquire the knowledge and practical skills that you’ll need to utilize digital art software to create artwork in a digital environment. It focuses on discovering art elements and design principles while using Adobe software. It will also explore current and past trends in design. You’ll learn how to create digital images and graphics that express your artistic thoughts. Such skills can help you conquer challenges and enhance your message. In Photoshop, you’ll learn how to use brushes, color pickers, and layers; skills necessary for photo editing, photo manipulation, and digital composition. You’ll develop vector illustrations with Adobe Illustrator and layout concepts in Adobe InDesign and create professional presentations. The course gives the right tools and techniques to start with digital artwork. All artists and enthusiasts ages 15 and over are welcome.
LEI0095-001 Harper Main Campus 01/24/22-03/14/22 MO 10:00 am-12:00 pm Instructor: Edyta Pavulsk

Gouache Painting
You will learn the fundamentals of painting in gouache an opaque watercolor. Discovering essential techniques and practicing painting in a variety of environments. You will learn about different surfaces such as mylar, toned papers, brushes, brands of gouache, and paints that use gouache and how to apply gouache at its traditional consistency of half and half and learn how to manipulate it too. From taking this course you will inform your hand eye coordination and your drawing and painting skills will improve also. All levels are welcome beginning to advance.
LEI0076-004 ONLINE - Live Meetings 01/18/22-03/08/22 TU 7:00 pm-9:00 pm Instructor: Shaad Shopnil TUITION & FEE: $199.00

Landscape Painting
If you have never painted before or have years of experience, you will enjoy a fun, relaxing and creative activity with a finished painting, ready to hang, by the end of the class. Using acrylic paints and a 16x20 canvas, create a beautiful painting through an easy, step by step, instructor guided method. A live or predetermined image maybe used and the instructor will guide you from start to completion. You will return home with your own painting and along the way, you’ll gain a deeper understanding of this genre. The class can be enjoyed with friends as social and creative activity, or individually as a way to learn about the painting process or refine skills you already have.
LEI0041-002 Harper Main Campus 01/19/22-03/09/22 WE 5:00 pm-6:30 pm TUITION & FEE: $159.00

Oil and Acrylic Painting: Beginning
While you learn the fundamentals of painting with both acrylic and oil paint, you will be creatively challenged to develop your skills. If you are a beginning student, you will work initially with oil, a more forgiving medium, before trying your hand with acrylic paint. Our instructor uses an individualized approach to teaching which stresses demonstration and practice of the techniques needed to achieve your desired result. Completion of Drawing 101 Beginning or a similar experience is encouraged.

Uncial Calligraphy
Uncial lettering is part of a group of insular scripts that were developed around the 6th to 8th centuries. It is commonly referred to as Irish script and is an alphabet that consists of only majuscules, or upper case letters. Its rounded forms are distinct from other calligraphic hands such as Italic or Blackletter and were primarily used in the writing of the Gospels. This class will begin with the basic Uncial forms and later explore its numerous variations. Participants will create a small project utilizing these letter-forms and related Celtic designs.
LEI0016-003 Harper Main Campus 02/07/22-03/14/22 MO 7:00 pm-9:00 pm Instructor: Lisa Kivland TUITION & FEE: $125.00

Watercolor Composition and Technique
Create both vibrant and subdued paintings with strong compositions using watercolor tubes, and watercolor pencils. Instruction includes demos on watercolor techniques applying watercolor washes, painting wet in wet, and painting without a sketch. Learn about staining and lightfast colors. The instructor will provide a variety of still lives, landscapes, nature images, and more that will be available online. We will have individual and group critiques for showing off your work and class supportive response.

Artistic Welding

You may have walked through an art fair and seen ornamental metal sculpture. Some are on tall rods, some wave gracefully in the wind, while others are anchored in place by planters overflowing with colors. Here you will create elements of your own design in steel and copper to make your indoor or outdoor space as individual as you are. This class will provide you with user friendly instruction in steel handling techniques including Mig welding and plasma cutting. These are the easiest and the safest methods to learn. No previous welding experience is necessary, but basic welding safety will be stressed. The instructor will assist with welding parts of your project as necessary.

Creating Art through Unconventional Photography

A well-known phrase is ‘a picture is worth a thousand words.’ But what does that really mean? And how can we use photography to make creative art photographs? Every environment and every moment offers infinite possibilities for creating compelling artistic photographs. The creative process requires visualization, connecting with our own views of the world and the art of seeing photographically. This course will cultivate our own personal ways of seeing the world through experimentation, practice and an overview of the history of art photography. The final product will be that each student will have at least one matted and framed image finished in the class.

Art Appreciation and History
Social Justice in Contemporary Art
Throughout its history, art has been used as an accessible tool for artists to communicate their views and raise an awareness about political and social justice issues. From paintings, to performance, to graffiti, to murals; artists have used their art forms as a source of activism to promote a social change. In this lecture course, students will learn about various artists who created work that inspired a dialogue within their communities about issues throughout the world.

The Art of the Protest: Aesthetics and Concepts

Art is used for self expression and fulfillment; a means to make one’s mark in the world. However, when art is employed to demand a CHANGE... it is when we have stepped into the realm of Protest Art. This course will focus on art as a means of protest, where images speak louder than words. What do you want to change in the world? You will use art to express your opinions and explore traditional and digital art practices in the course. Whether you’re fighting for social justice, equality, the environment, animal rights, or whatever you’re passionate about, this course will help you express yourself. Through lectures, you will learn about the essence of protest art and see samples of famous artworks, instructor demonstrations, and class group critiques. You will also learn about the foundation of compositions with the elements and principles of design and the gestalt laws, allowing you to create artworks that combine aesthetic qualities with conceptual meaning. Students may use acrylic paintings on canvas, collage art, sketchbooks, or software. The instructor will also provide individual assistance.

Introduction to Voice-Overs: Getting Paid to Talk

If you have been told you have a great voice, you rely on your voice in your occupations, or you are simply curious about the voice over field, then this class is for you. Learn what the pros look for and how to prepare for interviews. You will learn what a voice over is, how they are created and who is involved. You will discuss how to find your specific voice niche, where to look for work opportunities and how to avoid common mistakes. You will hear audio examples from working voice over artists, and then you will record a short commercial script for playback at the end of class. This introduction to voice overs is taught by voice coaches, a collaborative of voice acting and production professionals.

Business Writing Digital Badge

Discover the keys to successful writing for the workplace. Whether you are writing a report, memo, letter or publicity notice, business writing has some defined characteristics for success. Successful communicators in the workplace move forward, others move back. Enhance your career by improving this critical communication skill.

Begin with understanding the format, construction, and successful techniques of writing good business reports and proposals. Then improve your skills with editing and proofreading. Finally, discover what good journalists know. Learn how to write a news story, press release or other publicity notice that zings.

This Digital badge requires completion of these three courses: Business Writing, Effective Copywriting and Writing News and Press Releases. These courses may also be taken individually.

Creative Writing: Fiction and Nonfiction

Creative Nonfiction Workshop

Often called the fourth genre because of its unique combination of poetry, fiction, and journalism, this workshop is designed for beginning writers and will include work on writing essays, memoirs, and literary journalism. You will share your work, critique the work of others, study, read, and discuss published authors and learn the tenets of each style of creative nonfiction. You will also gain insight into how to submit pieces for publication. Expect to write and receive verbal critiques of a piece of up to 5,000 words. The instructor, Lincoln T. Beauchamp Jr., is a Chicago-based musician, writer, publisher, record producer, and promoter. Muddy Waters gave him the name Chicago Beau, and he has recorded and performed with some of the most respected names in music, including Memphis Slim, Archie Shepp, Pinetop Perkins, Fontella Bass, the Art Ensemble of Chicago, the African choir Amakhono We Sinto, and Frank Zappa. Assignments will be facilitated through Blackboard. For further information please contact Lincoln T. Beauchamp at mestroisbeautes at [email protected].

Introduction to Memoir

Your life is full of memorable experiences and stories. You've probably thought or been told by friends that you should write a book. In this introductory course, you'll explore the rewarding, yet challenging, memoir genre and learn the basics of memoir writing. You'll read excerpts from contemporary memoirs and discuss how each format may or may not work to tell your narrative. In-class exercises, prompts, and activities will give you the tools you need to develop ideas and begin telling your story. Whether you want to publish your work or create a legacy for future generations, this class will get you started.

Effective Copywriting

Whether you are sending out a press release, communicating internally with a memo or promoting your own skills on LinkedIn, strong writing skills are the key to success. Come away with the tools and techniques you need to improve your copywriting skills and learn how to avoid the common writing mistakes that can hold you back.

Writing News and Press Releases

Being able to write a good news story, press release or publicity notice is a skill that can set you apart in the workplace. Getting the word out is an essential activity for every organization. Acquire the skills good journalists have and learn how to craft a news story, press release or publicity notice that will get attention.

Fiction Writer's Workshop

The Fiction Writer's Workshop is designed for every level of writer who is seeking to develop the tools needed to write a story or begin a novel. By combining in-class exercises and reading your work out loud, you will gain an understanding of how to shape a compelling story. Everyone has a story. This class will give you the tools to unlock the story in you.

Using Art and Writing to Chronicle our Life Experiences

Whether you share your memories with others or keep them to yourself, expressing what you have experienced can be life changing. So let's break the barriers of believing you need excellent skills and combine your artistic desire of painting, sketching, charcoal, or other techniques, with writing to chronicle your life experiences, and if moved, share with others. You will leave the course with your own life experiences portfolio. No previous skills are required.

The Blues and Rap as Music and Literature

This course is a journey studying enlightened survival through literature and music: preserved, renewed, revised, and improvised. From the poetry of the Blues to lamentations of Blues literature, to celebrations in Rhythm and Blues, Rap, and beyond; this course will impart a knowledge of creative cultures, and nuances from within the African Diaspora. Reading, and students' writing contributions are major aspects of this course.
Writing The Fantasy Novel
In this course, you will learn what separates fantasy fiction from other types of fiction. You will also discover how to create characters and populate your world with unique, compelling, and interesting creatures. You’ll learn how to outline your book, come up with a theme, and commit to actually writing. You will learn how to revise and edit so that when you complete it, your book will essentially be a finished product. You will even learn a bit about publishing your book, including the differences between self-publishing and traditional publishing. Finally, you’ll get a number of tips about how to stay motivated and complete your novel, because writing is hard work.

Poetry
Poetry Workshop
This workshop is a supportive place for beginning poets and those curious to write poetry for the first time to sharpen their craft and receive feedback on their writing. Throughout the course, you will write poems and discuss what makes them come to life, from image, to sound and rhythm, to arrangement on the page. You will write new poems, hone your skills at revision, and learn from a mix of contemporary writers and writers from other eras. Finally, you will learn how to submit your work and about the process of getting poems published.

Add Lyrics to Your Life
Don’t miss our new poetry classes, taught by Nisha Bolsey, recipient of the 2021 Eileen Lannan Poetry Prize.

Nisha holds an MFA in poetry from Columbia College Chicago and her poems have been published in Columbia Poetry Review, LandLlocked, where is the river, and elsewhere. She teaches writing, works in publishing, and serves as a reader for Frontier Poetry.
Introduction to Screenwriting

Do you have an excellent idea for a movie but don’t know how or where to start? If you answered yes, then this class is for you. We’ll explore industry standards and standouts as we examine screenplay, form, structure, and genre to help you hone your ideas. You’ll learn story structure and the elements required to write a script utilizing industry-standard best practices and get started writing your first draft. Scenes from your screenplay will be work-shopped in class, where you’ll get to hear them read aloud and receive feedback from classmates. By the end of the course, you’ll have a firm understanding of how to write a full feature. Students should have basic computer skills.

The Instructor, Virginia Bailey, is an independent film/video writer, producer, director, and author of hardcover and softcover books, eBooks, and audiobooks for children. She teaches Introduction to Screenwriting II and Introduction to Podcasting.

LLA0004-012 ONLINE - Live Meetings 01/31/22-03/28/22 9:00 am-10:15 am Instructor: Virginia Bailey TUITION & FEE: $289.00

Screenwriting II

In this course, you’ll learn the craft from a faculty member who not only has decades of experience as a film and video writer, producer, and director but are also as passionate about storytelling as you are. This course will assist you in finding your voice while writing short and feature-length screenplays, original TV pilots and episodes, and web series. Students should have basic computer skills.

The instructor Virginia Bailey is an independent film/video writer, producer, director, and author of children’s literature, including softcover, eBooks, and audiobooks. She also teaches Introduction to Screenwriting, and Introduction to Podcasting.

Music Appreciation, and History

Introduction to American Music

This course surveys characteristic elements of American Music including classical and popular American music genres. It traces the development of music in America from colonial days to contemporary styles. This course will help you develop a stylistic frame of reference for judging American music by surveying the characteristic elements of a variety of styles. It requires no background in music and it’s not for music majors. It may be taken for credit as MUS104. Required textbook America’s Musical Landscape by By Jean Ferris ISBN10 0078025125. It can be found in the Harper College Bookstore.

LMU0009-036 Harper Main Campus 01/18/22-05/17/22 6:30 pm-9:10 pm Instructor: Thomas Stauch TUITION & FEE: $365.00

Music Appreciation

This course is an overview of classical music throughout history. It introduces standard concert repertory through intensive guided listening. Representative works by major composers from each period are chosen to illustrate the principal styles, forms, and techniques of vocal and instrument music. The course makes every attempt to intersect with the student’s real-world experience with music and listening by integrating popular, colloquial, and non-Western musical examples along with those of standard Western fine art musical repertoire. The intent is to provide the student with the tools and terms necessary to recognize different styles, appreciate their different functions, and to acquire a solid foundation for a lifetime of musical appreciation. Students will develop a better understanding of classical music and its genres, instruments, and eras. The required textbook is The World of Music, David Willoughby, 8th edition McGraw and Hill ISBN 978125997108.

LMU0004-030 Harper Main Campus
01/18/22-05/19/22  MO WE  9:30 am-10:45 am

Chamber Ensemble

This ensemble explores and performs repertoire from standard chamber music literature, folk melodies, compositions and arrangements from underrepresented musical cultures, and other repertoires from around the globe. It is open to ages 15 and above studying the violin, viola, cello, or piano. It offers a unique platform for encouraging young and new musicians to improve their musicianship while making new friends. Examples of chamber formations include string duo, trio, quartet, and a piano trio, quartet, and quintet. The ensemble performs at Harper College’s Performing Arts Center, with Dr. Chia-Ying Hsu as director.

- Blues Harmonica
- Ukulele Pleasure I
Concert Choir
This mixed group performs a wide ranging classical repertoire, from plainchant through to the twentieth century. The choir appears in concert in the Performing Arts Center once each semester, and the group sometimes tours. Besides performances at Carnegie Hall and on radio and television at home and abroad, the group has sung with the Elgin Symphony, the Chicago String Ensemble, the Harper Symphony Orchestra and the International Festival of Choirs in Sienna and Florence, Italy. The group has also performed in Austria, the Czech Republic, England, Germany, Hungary, Italy, Poland, Scotland and Wales. Harper’s Concert Choir appeared in the culminating concert of the 2008 Summer Olympics Fine Arts Festival in Beijing and Shanghai, China prior to the 2008 Olympic Games. The choir and its members regularly participate in American Choral Directors Association festivals, honor/ demonstration choirs, and clinics at the state, division and national levels. Concert choir is open to Harper students as well as members of the community. Applicants may audition with a prepared piece of their choosing. Memorization is not necessary. To schedule an audition appointment, contact Adam Stevens at 847.925.6403 or by email: asteven1@harpercollege.edu.

Harper College Festival Chorus
The Festival Chorus is a community choral ensemble open to anyone with a love of singing. There are no auditions required. Rehearsals are on Monday nights from mid August through the first week in May with a break for the holiday season. The Festival Chorus performs a diverse repertoire ranging from the classics to Broadway standards and is accompanied by a professional orchestra. Concerts at Harper College are performed on the first Sunday in December and the first Sunday in May. Outreach concerts are scheduled at various times during the year in the northwest suburbs. There is a 115 dollar registration fee to join the chorus with an additional charge for music, which varies by semester. The required dress is a tuxedo for the men and a long black dress with jacket and pearls for the women. The cost of the women’s ensemble is 115 dollars. A full tuxedo is 125 dollars. We will order the apparel for you. For additional information, please contact Maryc_Heston at mh1947atgmail.com. Registration for the Chorus takes place at the first meeting. register for the class. You may also click on Add to Cart or all 847.925.6300 for your name to be added to the list of participants. Fees are paid directly to the Festival Chorus.

Jazz Ensemble
The Jazz Ensemble is a traditional big band of 15 to 20 players who perform under the direction of renowned Chicago jazz trumpet player and vocalist Jeff Hedberg. Open to all Harper students regardless of major, faculty, staff and community members, the band performs a range of jazz music, from standards to contemporary hits. This course focuses on the study of the standard Jazz ensemble. It is an overview of various techniques and interpretation as applied to Jazz ensemble and performance. Each semester, the band performs a concert in the Performing Arts Center. The group participates in community events and tour performances and frequently features professional guest artists from the Chicago area. A limited number of combo performance opportunities are available to members. Increase your proficiency on an instrument or as a singer while enjoying the opportunity to learn and perform music from the classic jazz repertoire. Utilize sight reading and musicianship while enhancing your skills, musical understanding and enjoyment. An audition is required and is held at the first rehearsal of each fall and spring semester. Sight reading at an intermediate (High School Jazz Band) level is required. For more information and audition music, contact Jeff Hedberg at jhedberg@harpercollege.edu or call 847.925.6568.

All music and practice material will be provided to the students, no textbook is needed.

Piano Ensemble
Provides students with piano proficiency the opportunity to perform in a chamber music ensemble. Stresses sight reading and musicianship. Develops skills, musical understanding, and enjoyment. May be repeated up to a maximum of four credit hours. Requires the consent of the instructor. This course is a performance based course. Ensemble members are required to attend each class, to rehearse their assigned music between classes, to rehearse outside of class time with their partner(s) or other ensemble members. The goal is to present a concert at the end of the semester in the Performing Arts Center which is well rehearsed, musically and artistically satisfying, challenging, entertaining and cohesive. Another goal is to present music which is well rounded and diverse in musical style and range of difficulty. Each ensemble member is assigned music which requires effort and intense preparation but also gives satisfaction upon accomplishment. There is an audition requirement to take the course. There is no required text for this course. Ensemble members borrow Music Department music or books or occasionally use their own previously purchased music.

Sound Recording III
Mixing and Editing Techniques

Students in this course work with previously recorded material, often the material they recorded in Sound Recording II Recording Techniques, and are taught the fundamental principles of good mixing and editing. Each student gets hands-on experience processing the sound using the latest software technology, focusing on blending and balancing the final mix. Discussion of effects processors, such as compression, gating, reverb, and delays also takes place. This course concludes with a discussion of mastering techniques. Prerequisites: Sound Recording I and Sound Recording II.

#### Introduction to Woodworking and Carpentry

The skills you learn in this class transfer between carpentry and fine woodworking projects. You will develop basic knowledge of wood materials, products for construction, framing, and safety as we cover techniques for measuring, layout, and the use of hand tools. After demonstrations, you will also use portable power tools including pneumatic nailers, miter saw, and drills. The class collectively develops goals to incorporate into the topical outline and hands on projects. Students will be required to bring their own safety glasses and dust masks.

### Aviation and Boating

#### Boating Skills

This introduction to the safe operation of sail and power watercraft is presented by Fox Valley Power Squadron. Topics include: boat handling under normal and adverse conditions, navigation rules and aids, knots and lines, nautical charts, basic piloting techniques, docking, proper use of the marine radio, trailering, safety equipment, personal watercraft usage and relevant state and federal regulations. Course meets standards of National Association of State Boating Law Administrators, includes proctored exam as required by many states and insurance companies for youth/adult certification (for operation of motor driven watercraft without adult supervision) and discounted insurance rates. Includes all materials.

Series: Wines of Italy

Join award winning wine sommelier Marcel Flori on a virtual tour of Italy through its regional wines. This series course enroll you in each of the Wines of Italy courses in this semester: Northern Italy, Northeastern Italy, Central Italy and Southern Italy. Each class includes a tasting. Students must be 21 years of age or older to enroll.

LFS0032-002 Harper Main Campus 03/31/22-05/19/22 TH 7:00 pm-9:00 pm Instructor: Marcel G. Flori TUITION & FEE: $339.00

Wines of Italy: Northern Italy

Marcel Flori will show you how to navigate the great variety of Italian wine. Northern Italy is primarily known for its red wine though there are some whites to discover. Some of the most well known reds include Nebbiolo and Amarone. You will get to know the Piedmont region where Barolo and Barbaresco command a high price tag. The same region’s Dolcetto and Barbera come at a relatively better price. Valpolicella is both a distinct viticultural zone and wine. You will also try some very drinkable whites. The omnipresent Chardonnay is present though not thought of as the highest quality in Italy. Gewurztraminer is always German but is of good quality in Northern Italy. Piedmont enters the white discussion with its sweet and popular Moscato which can be either a still or sparkling wine. Students must be at least 21 years of age or older to enroll. Each week features a tasting.

LFS0033-003 Harper Main Campus 03/31/22-04/07/22 TH 7:00 pm-9:00 pm Instructor: Marcel G. Flori TUITION & FEE: $79.00

Wines of Italy: Northeastern Italy

You will continue to explore Marcel Flori’s ideas about the wine of Italy as you focus on Northeast Italy. Fine, elegant whites from Alto Adige compliment the fuller examples in Friuli Venezia Giulia, where there are interesting local varieties along with the expected international varieties. This is also the land of perhaps Italy’s finest sweet wines. Finally, each of the three provinces have high quality reds. You can find Cabernet Sauvignon, Merlot and Pinot Nero but, originality comes from the native grapes: Corvina Valpolicella, the powerful Amarone, Lagrein and Teroldego and the previously obscure Pignolo and Schioppettino. Students must be 21 years of age or older to enroll. Each week includes a tasting.

LFS0034-002 Harper Main Campus 04/14/22-04/21/22 TH 7:00 pm-9:00 pm Instructor: Marcel G. Flori TUITION & FEE: $100.00

Wines of Italy: Central Italy

It is in Central Italy that you will discover Chianti, home to the Brunello wines and the Super Tuscans. Sangiovese is the superstar grape of this region. With all this star power comes the classic straw covered bottles of Chianti in the blending recipe for Chianti. This creates some of the variability in styles among Chiantis. Lighter bodied styles have a higher proportion of white grape varieties blended in, while red Chiantis are fuller and richer. Super Tuscan is an unofficial classification that started as a reaction to mandatory red/white blends. Their Sangiovese/Cabernet Sauvignon blends were coveted. Let Marcel Flori untangle this web for you while you taste the best the region has to offer. Students must be 21 years of age or older to enroll. Each week features a tasting.

LFS0035-003 Harper Main Campus 04/28/22-05/05/22 TH 7:00 pm-9:00 pm Instructor: Marcel G. Flori TUITION & FEE: $79.00

Wines of Italy: Southern Italy

Southern Italy is known for its archaeology and wine. Long ago Greeks brought native grape varieties to this region creating one of the greatest areas of diversity on the earth. Fiano Giulia, where there are interesting local varieties which thrives in the south. Aglianico is a red, once saved from extinction, that is now known for its aging potential. Gaglioppo is a ruby colored red while Negroamaro is known as the ‘black blab’. Primitivo might be a relative of California’s Zinfandel and is one to this regions most popular varieties. Students must be 21 years of age or older to enroll. Each week features a tasting.

LFS0036-003 Harper Main Campus 05/12/22-05/19/22 TH 7:00 pm-9:00 pm Instructor: Marcel G. Flori TUITION & FEE: $79.00

Humanities

Chicagoland Archaeology: Prehistoric and Historic Sites

Learn what the Chicagoland area was like before its current settlement while being introduced to important concepts in archaeology and don’t worry if you don’t know any of the terminology used in archaeology. Great Lakes Archaeologist, Dan Melone, will discuss the people of the pre-settlement and contact periods, early pioneer Chicago, and what was left behind. He will emphasize Indigenous cultures and early farm settlements with discussions about how archaeological field methods preserve local archaeological sites. Dan will also discuss his current archaeological investigations of sites throughout the Chicagoland area, adding to the growing knowledge of our great city’s past.

Immigrant Voices: Diaspora and Literature

Imagine leaving home and never returning. This course explores the literature and media that chronicles the trauma of forced migration and the unique experiences accompanying immigrants and refugees. Mary Antin, Chimamanda Adichie, Imbolo Mbue, Jeanine Cummins, and Viet Nguyen write on the human difficulties of communities trapped in inequitable, corrupt, and sometimes oppressive systems. They illustrate the visceral interplay of characters facing impossible situations and unforgiving sacrifices made in the name of opportunity and hope for a better life. We’ll explore how such events impact us and examine how literature shapes and challenges our cultural expectations and intersections.

**Makerspace Workshops**

**Arduino Program Wearable LEDs**

Learn the basics of programming and how to program Wearable LEDs in any color of the rainbow, using an Arduino IDE microcontroller. Your expert instructor will lead you through hands-on exercises to give you the skills needed to program and control the LEDs - a one-of-a-kind accessory! You will be provided hardware to use in class: an Arduino Uno equivalent computer, a 12- LED ring, a USB cable and the programming tools and examples used in class. Additionally, a copy of the slides and a list of resources to purchase additional materials will be provided.

LMK0007-012  
Instructor: Donald Bak  
**TUITION & FEE:** $45.00

**Crafts: Wedding Decor, Favors & More!**

Love never dies and weddings never end! Have an idea in your head for a personalized decoration or need a bridal shower or bachelor party favor? Come use the Cricut cutting machine and make that perfect item. Create a guest book, seating chart, table numbers or personalized party favors. You'll learn how to use Design Space to design your items and then you'll learn how to use the Cricut cutter to cut vinyl for your creations. Your wedding or exclusive party before the wedding will no longer be a party without your one-of-a-kind accessory! You will be provided hardware to use in class: an Arduino Uno equivalent computer, a 12- LED ring, a USB cable and the programming tools and examples used in class. Additionally, a copy of the slides and a list of resources to purchase additional materials will be provided.

LMK0007-012  
Instructor: Donald Bak  
**TUITION & FEE:** $45.00

**Cricut: Custom Drinkware**

Don't drink out of a boring old cup every again! Even if you misplace your drink, there will be no mistaking it's yours after you personalize your own glassware, mug or tumbler. After all, who doesn't need more personalized beverages to show off at school or work. Learn how to cut and apply heat transfer vinyl to various types of fabric and acrylic to ensure your drinks always stay cool in the summer and hot in the winter.

LMK0005-001  
Instructor: Jeffrey Moy  
**TUITION & FEE:** $45.00

**Cricut: Design Your Own Tote, Drawstring Bag or Cosmetic Pouch**

Need something that's a little more your style? In this workshop you'll learn how to use the Cricut cutting machine to create your own tote, drawstring bag, or cosmetic pouch. After all, who doesn't need more personalized bags to show off at school or work. Your peers and coworkers will ask where you ordered your custom bag and be amazed when you tell them you made it yourself! Learn how to cut and apply heat transfer vinyl to various types of fabric items and take your skills to the max.

LMK0049-001  
Instructor: Jeffrey Moy  
**TUITION & FEE:** $45.00

**Getting Started with 3D Printing**

This class is designed to provide an overview of basic 3D printing technology. You will learn basic design principles to create your own 3D models and how to prepare a model for 3D printing. You will also troubleshoot common problems with 3D printing and how to overcome them as you create at least two 3D printed objects of your very own.

LMK0014-005  
Instructor: Jeffrey Moy  
**TUITION & FEE:** $25.00

**Getting Started with Cricut Maker**

This workshop will quickly get you up and running with the Cricut Maker or Air Explore smart cutting machines. After completing this workshop, you will be able to create your own design in Design Space and to cut a basic project. You'll be ready to take off on your own or move on to more advanced workshops.

LMK0001-012  
Instructor: Jeffrey Moy  
**TUITION & FEE:** $25.00
Laser 101: Create Your Very Own LED Lamp

This workshop will introduce you to the world of laser engraving and cutting. This is your chance to make one of a kind LED lamp for any event. Make your lamp with your name, favorite animal, flower or zodiac sign. The options are endless. You'll learn how to use Coreldraw to design your acrylic sheet and use the Universal Laser to emboss and your acrylic creations. Then all you have to do is place it in the base and pick a color to watch your creation light up any night. Give it as a one of a kind gift or keep it for yourself. Some items may take longer to engrave or cut. Items not completed during the workshop can be picked up at a later date.

Laser 101: Make Your Own Earrings and Necklace

This workshop will introduce you to the world of laser engraving and cutting. This is your chance to make one of a kind dazzling jewelry you can wear to any event. Have a special someone's birthday coming up or don't know what to get mom for Mother's Day? This is your chance to wow them and leave them speechless! You'll learn how to use Coreldraw to design some earrings and a necklace and how to use the Universal Laser to emboss and cut your creations. Finally, you'll add the ear wires and chain to complete your one of a kind gifts or keep them for yourself. Some items may take longer to engrave or cut. Items not completed during the workshop can be picked up at a later date.

Spectral Studies by Renowned Paranormal Expert Ursula Bielski

Don’t miss your chance to add some spirit to the season with our new paranormal classes taught by Ursula Bielski, the founder of Chicago Hauntings, Inc. and the host of PBS’ “The Hauntings of Chicago” (WYCC). An historian, author, and parapsychologist, Ursula has been writing and lecturing about Chicago’s supernatural folklore and the paranormal for nearly 20 years, and is recognized as a leading authority on the Chicago region’s ghostlore and cemetery history. She is the author of ten popular and critically acclaimed books, including the Chicago Haunts series and Graveyards of Chicago.

Paranormal Studies

Chicago’s Irish Ghost Stories

From the Great Chicago Fire to the Ghost of Bishop Muldoon . . . from the specter of bootlegger Bugs Moran to the Banshee of Kean Avenue, Chicago’s Irish ghosts are a big part of what makes the city one of the world’s most haunted. Explore this fascinating cast of departed characters with Chicago’s ghost lore expert, Ursula Bielski, author of twelve books on the paranormal.

Three-wheel Motorcycle Safety Program
First Time Home Buyer: What You Need to Know

Buying a home for the first time can be overwhelming and especially confusing. This course offers valuable insights into the process of home ownership. Get a head start to obtain the knowledge needed to buy your very first home. Learn how to budget for your first purchase. Educate yourself on the home buying process, from start to finish. Familiarize yourself with contracts, down payments needed, gifts for your down payment, closing costs, inspections, appraisals, credit requirements, and negotiating with sellers.

Career Skills Institute II

The Career Skills Institute provides an educational experience for students with mild cognitive disabilities, age 18 and above. Career Skills Institute II is the second semester of the program and builds on the skills the students mastered in the first semester. Acceptance into the Institute and completion of LDD8001 or equivalent as determined by the program coordinator is required for registration. Career Skills Institute II is composed of 3 modules: English Composition, Computers in the Workplace, and Workplace Communication. These modules are designed to build skills that will create success in this program and later, in the workplace. Students will learn a combination of academic and work-related competencies such as how to write formally, how to use a computer in a simulated workplace setting, and how to effectively communicate on the job.

Career Skills Institute IV

Career Skills Institute IV is the fourth and final semester of the Career Skills Institute program and builds on skills the students have mastered in the first three semesters. Career Skills Institute IV is composed of two modules: Career Exploration II and Workplace Experience. Career Exploration II focuses on creating resumes, finding work opportunities, filling out applications and interviewing tips. Workplace Experience gives students the opportunity to apply learned skills in a workplace setting. These modules allow for discussion of experiences and workplace practices. They are designed to build skills that will create success in the workplace. Prerequisites: acceptance into the Institute and completion of LDD8001, LDD8002 and LDD8003 or equivalent as determined by the program coordinator.

THE CAREER SKILLS INSTITUTE

The Harper College Career Skills Institute (CSI) is an educational program for students with mild cognitive disabilities, ages 18 and above. CSI assesses and strengthens basic employability skills and helps students develop realistic career plans.

A Learning Community: Cohorts of not more than fifteen students stay together for two years, trained by professional support staff and instructors. Year One focuses on basic academics and communication. Year Two focuses on career exploration with a guided vocational experience.

How CSI Students Benefit:

- Build academic, occupational, and social skills
- Learn appropriate work behavior and problem-solving skills for the workplace
- Develop career-related interests
- Receive an honest assessment of their career potentials
- Better understand the continuing supports they will require in the workplace.

For More Information, visit ce.harpercollege.edu or contact Sharon Basten, CSI Coordinator at 847.925.6000 x2076 or sbasten@harpercollege.edu.

Instructor: Gary E. Midkiff
TUITION & FEE: $304.00

A History of the Electric Vehicle

You might be surprised to learn that Elon Musk and Tesla did NOT invent the electric car! More than one hundred years ago electric vehicles EV were the most popular automobiles in the world! In the late nineteenth century and at the start of the twentieth century, they out-sold every other type of car including steam or internal combustion engine ICE powered vehicles. And yet, within a couple of decades of the start of the twentieth century, thousands of battery-powered cars disappeared from the streets, replaced by the internal combustion engine, and their place in the history of the automobile was quietly erased. Join me as we explore the economic, political, and societal forces that caused electric vehicles to fail in the early 1900s as well as the recent comeback of the electric car and the current challenges that it faces.

History

1945 to 1948 - The Greatest Generation Comes Home

Our soldiers were victorious in Europe and the Pacific. Then they came home by the tens of thousands and found a country different than the one they left. Rosie the Riveter and other women had different perspectives on their roles. There was not enough housing or cars or consumer goods. Unions wanted their members to achieve wage gains postponed by the war effort. And Harry Truman had to respond to all of this plus significant international challenges.

Alexander Hamilton and Thomas Jefferson

This class will offer a perspective of the differences and similarities between two founding fathers that forged our nation. This will be a lively discussion about these memorable founding fathers whose vision for our country was equally grand, unique, and compelling. Although the vision that each individual held for America was fiercely different and would divide them personally throughout their lifetime, each held the same convictions for our country that formed the bedrock for our nation. We will look through a window of history to explore their heated and turbulent lives.

Book Discussion

The Creation of the U.S. Army and the Invasion That Opened the West

Author William Hogeland brings the people and events of the 1790s to life with vigorous and colorful prose. This book relates the struggle between the United States and the united tribes of the Northwest Territory, for the prize of the Ohio Valley. Far more than a military history, it brings to life both familiar historical characters as well as less familiar ones like Little Turtle, Blue Jacket, and Mad Anthony Wayne. Truly, no conflict is ever black and white. Please read the book beforehand to get the most out of the discussion.

Color and Meaning in Renaissance Art

Confronting a Painting

Did colors have meaning? Unlock the role of color and technique used by artists in Renaissance painting 1300-1600. How did artists use color to communicate to an uneducated public? How did the understanding of optics contribute to color theory, style and the role of viewer? What pigments were available and how did the introduction of oil revolutionize painting? From Giotto (Florence) to Michelangelo (Rome) to Titian (Venice) - examine the contribution of great Renaissance artists to the material, emotional and spiritual world of color and cultural history.

Movie Music Elvis Presley
Elvis Presley was a pioneer of the music industry in the 1950s, much as Bing Crosby was in the 1930s and The Beatles were in the 1960s. Elvis had all the tools: a distinctive style, good looks, a passion for his craft, and an absolutely beautiful voice. And he put them all together as few have done in history. In Movie Music Elvis we focus on his early years, 1957 to 1968, and strive to capture his natural joy of doing what he did better than anyone else: singing from the depths of his soul. You also may notice that we’ve split much of the screen time between The King and his leading ladies. Elvis would have liked that.
LLI0419-001 Harper Main Campus 01/13/22 TH 10:30 am-12:00 pm Instructor: John LeGear TUITON & FEE: $38.00

Movie Music Romance II
Join us for another presentation of sensational songs and dances spanning the past 100 years of film history as John LeGear showcases more of the most creatively conceived movie scenes, love songs, and dance pairings ever seen on the silver screen. Little-known insights and behind-the-scenes stories make these memorable film clips appear as if you’re seeing them for the first time. Look for more familiar faces such as those you may have seen in the original Movie Music Romance, including Fred Astaire, Cyrd Charisie, Marilyn Monroe, Audrey Hepburn, Rex Harrison, and James Cagney. Come join us for Movie Music Romance II, a joyous journey down memory lane.

Stone Monuments Made by Nature and by Man
Stone: a material that is hard to carve. Yet man and natural forces have been doing so for millennia. This enduring material can give us a look into the past and wonder how and why these monuments were created. What natural forces were at work? What people thought enough about the monuments to create them out of stone to last for thousands and thousands of years? Stonehenge or the pyramids and the sphinx are just a small sample of what monuments remain to excite our curiosity. But let us not forget the monuments that nature creates that arouse our curiosity as well!

Stories Aboard the Titanic
On April 14, 1912, the H.M.S. Titanic strikes an iceberg and sends out a S.O.S. At 1:30 a.m. Managing Editor Carr Van Anda of the NY Times reads that wireless message. Van Anda presents a slide program detailing the ship’s construction: its luxurious accommodations and modern safety features. Then he recounts the hour-and-half events of the dramatic maiden voyage that led to the fateful iceberg collision. As the ship sinks Van Anda tells the stories of several passengers from First, Second, and Third Class: Who were they? Why were they onboard? What fate awaited them?

Thomas Paine
The Voice of the American Revolution America’s first best-selling author tells his story of rising from working class roots to the pinnacle of world fame. His pamphlet titles, Common Sense inspired the people to support independence. His words These are the times that try men’s souls inspired Washington’s army to continue the fight. Paine dramatically describes the pivotal Battle of Trenton where George Washington, against all odds, defeated the Hessian mercenaries after crossing the Delaware River. Paine speaks of his writings Common Sense, The Rights of Man and the controversial criticism of revealed religion Age of Reason.

**Personal Interest**

**Discover Your Ancestors**

An Introduction to Genealogy Research

Have you been putting off tracing your family history? Do you want to learn about their story in their homeland as well as in the United States? In this class you'll learn all about the techniques and tools of genealogical research. You'll learn how to find and use a wide range of resources: census records, county histories, birth and marriage certificates, church records and many others. You'll learn how to find genealogical resources on the Internet in databases such as Ancestry.com and familysearch.org. And you'll learn how to organize your research to tell the full story of your family.

**Identity Theft:**

Are You the Only You

Identity Theft - Are You the Only You

This class will cover the most recent AARP information on identity theft including current coronavirus-related frauds and scams. Learn how the scammers are targeting your personal information needed to steal your identity. Specific examples will be provided and ways to avoid being a victim. There will be time for Q&A and sharing of experiences.

**Optical Illusions & Deception!**

Fool the eyes & trick the brain! We'll explore different types of illusions created by scientists and artists across the world. You'll discover how & why they work in two-dimensional or three-dimensional formats. Think you know what you're looking at? Good luck with that! Join our group and try to figure out what you are seeing and fool your friends & family!

**Philosophy as a Counseling Tool**

Early philosophers generally all thought of philosophy as inseparable from living. Philosophies were always grounded in thinking about how we should live. Now we tend to think of psychology or religion as the two places to which people turn to try to improve their lives. Come and explore the question of whether and how philosophy can still be useful, perhaps even as a form of counseling, in our everyday lives. Class dates: 1/18, 1/25, and 2/1/22.

**Photo Editing for Social Media**

You will learn easy ways to crop, clean, and edit your photos prior to posting on Facebook and other social media sites, and in preparation for use in albums and photo scrapbooks. Techniques for altering backgrounds and eliminating unwanted images within a picture will be shown. Techniques for restoration of old photos will also be demonstrated. Built in, as well as free standing editors will be discussed and demonstrated. For better understanding of course material, participants should have at least basic computer experience.

**Unique Festivals Around the World**

Most of us are familiar with Mardi Gras or Carnival. These popular festivals attract millions of people ready to join the fun and festivities. Many of you might be aware of The Running of the Bulls in Pamplona or the Balloon fest in Albuquerque. But there are many MANY festivals around the world that are truly unique. Have you heard about the Boryeong Mud Festival or the Burning Man Festival or the International Hair Freezing Festival? Join this class as we learn about some of the unusual ways people celebrate just to have fun!

**Writing Your Life Stories**

Your joyous, loving, and challenging life experiences are valuable. What you have experienced can be an inspiration to others and can help future generations understand who you are in a more personal manner. This course is designed to help chronicle your life experiences, and if moved, allow for sharing with your classmates. You will leave the course with your own Life Experiences Memoir Portfolio to share with whom you choose.

French

Conversational French I

Conversational French I is for beginners. Start with the alphabet, numbers and greetings to learn the essentials of pronunciation as well as basic grammar and vocabulary needed to greet people, talk about yourself and express needs. By the end of the course you will have some knowledge of the culture and should be able to speak at least 10 percent of your conversation in this language.

LLL0009-016 ONLINE - Live Meetings 01/19/22-03/09/22 WE 6:30 pm-8:30 pm
Instructor: Chantal E. Rainey
TUITION & FEE: $199.00

LLL0009-017 Harper Main Campus 03/17/22-05/12/22 TH 6:30 pm-8:30 pm
Instructor: Chantal E. Rainey
TUITION & FEE: $199.00

Conversational French II

After you complete Conversational French I, or if you learned basic skills in this language from prior study, take Conversational French II. You are comfortable with some grammar and especially present tense and will now learn how to communicate what you have done via past tense. Build on your basic linguistic skills as you explore more topics related to life and travel. By the end of the course you will possess an increase in ability to speak the language, from 10 percent to at least 25 percent of your conversation.

LLL0009-012 ONLINE - Live Meetings 01/20/22-03/10/22 TH 6:30 pm-8:30 pm
Instructor: Chantal E. Rainey

**German**

### Elementary German II

Those ready to continue beyond beginning German will develop listening, speaking, reading, and writing skills in German. You will delve deeper into the cultures and people of the German-speaking world. All new students who have prior experience with or have taken classes in German should consult with Kim Jaeger at kjaeger@harpercollege.edu before registering. Students enrolled in this class will receive all of the instruction and complete the activities that for-credit students engage in but will not be required to take quizzes or exams and will not be graded.

Synchronous, real time interactive, sessions with the instructor are expected. These sessions will be recorded and made available as needed. You must have access to a computer with reliable Internet access, web cam, a good microphone, and have basic computer skills to successfully complete this course. The textbook with an online component is used for GER 101, 102, and 201 at Harper and is available for purchase via Harper Store online.

Youth Music

Instrumental Group Music Classes

Beginning Group Violin with Edgar Gabriel

In this friendly and supportive group atmosphere, children learn the basics of the violin, and how it is held and how a bow is balanced to achieve a pleasing sound. They’ll also learn how to care for the instrument and how to read music. This is a great short term learning opportunity to let you see if the violin is an instrument for you. Students must bring their appropriately sized instruments for the whole duration of the course.

LMY0044-011 Harper Main Campus
01/24/22-05/02/22 TH 6:00 pm-7:00 pm
Instructor: Edgar Gabriel

Music Moves for Piano, Ages 4 to 6

Music Moves for Piano is designed for 4 to 6 year old children who, at this developmental stage, can make music at the keyboard by improvising and playing short songs. With lots of singing and moving, children will learn how to listen to music and begin a great foundation for piano lessons or future instrument study. These courses can be offered online, but students will need a piano or keyboard and printer at home and adult assistance during the class.

Suzuki Method Violin Group Class

Dr. Suzuki developed a unique approach based on his genuine belief that musical ability is not an inborn talent but an ability that can be developed. Any adequately trained child can develop musical ability, just as all children develop the ability to speak their mother tongue. Therefore, the potential of every child is unlimited. The method will use the child’s listening ability, motivation, repetition, and step by step mastery to enhance students’ musicality and technique. The Suzuki method violin group class is open to all ages studying violin. It offers an excellent platform for encouraging young and new musicians to improve their musicianship while making new friends. Instructed by Dr. Chia-Ying Hsu, the ensemble performs an original Suzuki repertoire. The program is energetic, diverse, and focuses on a collaborative atmosphere that emphasizes teamwork. The Suzuki Method Class performs at Harper College’s Performing Arts Center. Beginners are especially welcome.

LMY0119-001 Harper Main Campus

Youth Preparatory Piano Program
30 Minutes Private Lessons and
50 Minutes Group Sessions
for 15 Weeks

This private and group instruction bundle consists of a combination of group and private instruction for children ages 6 to 15. Group lessons offer peer reinforcement, social interaction, ensemble experience and group activities. Private lessons provide the necessary individual attention for technical development and interpretive and expressive insights. By combining these two approaches you receive a comprehensive 15 week curriculum. Participate in one 30 minute private lesson and one 50 minute group lesson each week. Students are grouped according to age and level. Using the Celebrate Piano Method, developed by Dr. Cathy Albergo and Dr. Mark Mrozinski of Harper College, and the Celebration Series of intermediate through advanced literature, students learn music reading, rhythm, theory, listening skills, finger and hand development, improvisation and composition through fun classroom activities. Children progress through varied and progressive musical repertoire from leading contemporary and traditional classical composers.

Benefits of Music Education for Children

Why study music?
The benefits of studying music are many and extend well beyond the joy of learning an instrument, particularly for young students. Participation in musical activities has been found to enhance:

Intellectual and Cognitive Growth
- Through music experience, the learner is involved in perceiving, making judgments and comparisons, evaluating, analyzing and synthesizing, creating and reflecting.

Creativity and Self Expression
- Music is an essential way of communicating ideas and feelings with other people, developing a better understanding, appreciation, and perception.
- Music education engages and enhances imagination

Coordination
- Playing musical instruments can improve gross motor skills, hand-eye coordination, balance and enhance long-term memory and recognition patterns.

Social Skills
- Social behaviors such as cooperation, collaboration, team-building, and sensitivity to social and cultural beliefs and practices are promoted.
- Personal growth, such as self-discipline, self-esteem, independence, and self-knowledge, are also addressed.

Retention
- Studies over the past 20 years have shown that students who study music achieve better in mathematics, reading, and learning foreign languages. The ability to listen actively is a benefit in all subjects.

CMAC’s Fundamental Beliefs
- Music Education is preparation for life
- Music Education is a lifelong process
- Everyone can engage with and enjoy music.

Ensembles

Youth String Orchestra

The Youth String Orchestra is open to all children, 18 or younger, studying the violin, viola, cello, or bass. It offers a unique platform for encouraging young and new musicians to improve their musicianship while making new friends. Conducted by Dr. Chia-Ying Hsu, the orchestra performs an exciting repertoire. It explores the standard string orchestra literature, folk, ethnic, and global musical traditions and cultures, including compositions and arrangements from underrepresented communities. It is an energetic, diverse, collaborative, and unique ensemble that emphasizes teamwork. The Youth String Orchestra performs at Harper College’s Performing Arts Center. No auditions are needed; however, a note from the instrumental teacher is encouraged.

Youth Chamber Ensemble

This ensemble explores and performs repertoire from standard chamber music literature, folk melodies, compositions and arrangements from underrepresented musical traditions and other repertoires from around the globe. It is open to all children 14 and younger studying the violin, viola, cello, or piano. It offers a unique platform for encouraging young and new musicians to improve their musicianship while making new friends. Examples of chamber formations include string duet, trio, quartet, and a piano trio, quartet, and quintet. The ensemble performs at Harper College’s Performing Arts Center, with Dr. Chia-Ying Hsu as director.

ACT/SAT Practice Test

In this three-hour prerequisite class, students take a full-length ACT or SAT practice exam to establish their baseline score. Sylvan analyzes the score, reviews the results with students and parents, and makes recommendations about preparation options. If a student would like to take both the ACT and SAT in a Practice 101 class, they should enroll in two separate ACT/SAT Practice 101 classes. Students must complete a Practice 101 class to be eligible to enroll in an ACT or SAT Exam Prep course. Classes may meet at Sylvan Centers in Schaumburg or Lake Zurich.

Sylvan ACT Exam Prep

It’s proven that students can increase their ACT scores in a matter of weeks. Harper partners with Sylvan Learning to offer the ACT exam prep on the College campus. With small group instruction, practice tests, and the SylvanPrep online tool, students cover all areas of the ACT exam. Sylvan guarantees increased scores when students attend a minimum of 80% of scheduled in-class time and complete eight hours of online instruction. Students are awarded six complimentary hours of Sylvan instruction if they do not meet this goal. Prerequisite: LAS 0003 ACT/SAT Practice 101.

Sylvan SAT Exam Prep

It’s proven that students can increase their SAT scores in a matter of weeks. Harper partners with Sylvan Learning to offer the SAT exam prep on the College campus. With small group instruction, practice tests, and the SylvanPrep online tool, students cover all areas of the SAT exam. Sylvan guarantees increased scores when students attend a minimum of 80% of scheduled in-class time and complete eight hours of online instruction. Students are awarded six complimentary hours of Sylvan instruction if they do not meet this goal. Prerequisite: LAS 0003, ACT/SAT Practice 101.

Many of our spring classes are Online Live or Online Self-Paced. In-person classes are indicated when a location (such as Harper Main Campus) is included in the course listing.

If you need to find a classroom on campus, visit our virtual campus map at: maps.harpercollege.edu

---

Books and Supplies
Supply lists for courses may be found on individual course pages at ce.harpercollege.edu.

Emergency Text Alert Service
Harper College has implemented a cell phone text alert service that will help keep students, parents, faculty, and staff informed in the event of an emergency on campus or its facilities. To sign up for the Emergency Text Alerts, visit harpercollege.edu. Click on the red Emergency Alert System button on the bottom left; then click the Text Alert Sign Up link and follow the instructions.

Tuition and Fees Information
Tuition and fees are payable at the time of registration and are subject to change without notice.

Drops and Withdrawals
A student must drop a class at least 3 days or more before it begins in order to receive a full refund. There are no refunds for withdrawals.

Appeals: Appeals to the refund policy may be submitted via email to ce@harpercollege.edu.

Refund and Withdrawal Policy
The College reserves the right to cancel any section of any course for any reason including insufficient enrollment. If a class is cancelled, a full refund will be given reflecting the customer’s original payment method.

Courses Offered by Third Parties
Tuition waivers do not apply to classes offered by third parties, including courses that begin with the prefixes LRN and LPL.

Senior Citizen Discount
Seniors can receive discounts on tuition (fees are not discounted) for certain Community Education courses (see below). Senior discounts cannot be combined with other discounts and do not apply to courses delivered by a third-party provider (i.e. courses that begin with the prefix LRN or LPL).

If a senior citizen discount is available, it will appear as an option in the shopping cart during checkout.

We’re Ready to Assist You

Our Mission
The Harper College Community Education and Business Outreach Division enriches its diverse communities by providing quality, professional and accessible education and training. In collaboration with its partners, Community Education and Business Outreach inspires the transformation of individual lives, the workforce, and society. We accomplish this through:

• Our commitment to the success of each student from registration to evaluation.
• Excellence in program content, instructional talent, and the learning environment.
• Comprehensive, need-driven programs and activities.

Covid-19 Vaccination and Testing Requirement
Pursuant to the governor’s executive order, all higher education personnel, as well as students who are on campus, are required to be fully vaccinated or test weekly for COVID-19.

You will receive an email with a personal link to your account to record your status and upload your vaccination card or negative test result. Look for the email 2 to 3 weeks prior to the first day of your class. For more information, visit harpercollege.edu/cleared.

For information on prevention and resources related to COVID-19, please visit the Harper College Advisory site at harpercollege.edu/advisory.
MANAGEMENT ESSENTIALS

Are you seeking to advance into a supervisory role? Learn and develop the skills needed to be an effective supervisor or manager. Gain knowledge in what manager responsibilities entail, including methods of communication, problem-solving, delegation, and motivation. Develop capabilities of all team members and know how to address issues and manage conflicts as they arise, including an additional emphasis on financial and budgeting functions to meet organizational goals.

Upon successful completion of the Management Essentials Series, students will receive a Digital Badge Micro-Credential.

Courses start February 1 and will meet in-person on Harper’s Main Campus on Tuesdays, from 5:30 – 8:30 pm.

Courses in the series include:

- Effective Management
- Employee Motivation and Performance Management
- Managing Conflict
- Finance and Budgeting for Business Professionals

MICROSOFT OFFICE
IN-PERSON TRAINING OPTIONS
RETURN IN SPRING 2022!

To remain competitive in today’s workforce, employees and individuals must demonstrate a strong working knowledge of many software applications. Harper CE’s Microsoft Office courses and Microsoft Office Administrator Digital Badge Micro-Credential documents your comprehensive knowledge of key software applications utilized in the business world and benchmarks your skill level to your employer. Other integral topics include working with collaboration platforms such as Microsoft Teams and Remote Working Skills.

- Introduction to Computers using Windows 10
- Microsoft Word 2019
- Microsoft Access 2019
- Microsoft Outlook 2019
- Digital Communication Skills
- Microsoft Excel 2019
- Microsoft Excel PivotTables
- Microsoft Excel Data Analysis and Visualization
- Microsoft PowerPoint 2019
- Microsoft Teams
- Remote Work Basics
SAVE 10% WITH EARLY BIRD REGISTRATION

From now through December 31, 2021, save 10% on Spring CE tuition* by entering the discount coupon code “save10spring22” at checkout for qualifying courses.

*10% discount is valid on new Spring 22 CE course registrations only and applies to tuition only.
Discount does not apply to courses provided by third parties (course numbers beginning with LRN, LPL, LMT, LSA and LLI and InZone courses are not discountable). This offer is not valid with other discounts.
