CLASSES STARTING
AUGUST – DECEMBER 2023

Harper College Non-Credit Community Education
WRITE A NOVEL IN 30 DAYS WORKSHOP: THE NANOWRIMO CHALLENGE

National Novel Writing Month (NaNoWriMo) challenges you to create your first draft in thirty days. Is this possible? Yes! Many turn their NaNoWriMo drafts into published books. Take the express route to achieving your authoring dreams with this accelerated novel workshop. We will review novel elements, participate in group critiques, experiment with creative writing exercises, and take advantage of in-class novel writing time. From novel planning, to writing, to next steps, this class will help you reach your goal. Students come to this class with varying levels of preparation and goals. Whether you have no idea what to write or you have already started (or nearly completed) a novel, this class will help you boost your writing speed, creativity and confidence.

Learning never ends at Harper College! Whether you’re seeking to achieve a career goal, speak a new language or embrace the arts, our Community Education fall offerings will support your personal and professional growth. I’m excited to highlight a few upcoming opportunities:

**Google Career Certificates**: Harper has been awarded the opportunity to participate in Google’s Professional Certificates learning initiative. Give your career a boost by earning a certificate in Data Analytics, UX Design, Project Management, IT Support, Android Development, and Digital Marketing & E-commerce. These self-paced online training courses are available at no cost through December 2024.

**Reach for the sky with a career in aviation**: Explore your interest in aviation through two classes conducted by professionals at the Illinois Aviation Academy. **Examine Careers in Aviation** will take a closer look at the areas of pilot training, aviation maintenance and aviation management. In **Aviation Ground School**, students will learn about aerodynamics, weight and balance, aviation weather, regulations, and human factors; they’ll also visit an area airport to learn about aircraft systems, flight controls, the control tower and fly flight simulators.

**Lifelong Learning Institute Chautauqua**: An education and social movement popular around the turn of the 20th century, the Chautauqua brought entertainment and culture into a program that sought to spread knowledge and foster discussion. Join Harper’s first LLI Chautauqua from 1 to 5 p.m. Friday, August 25, for a gathering of performances, presentations, refreshments and community.

I invite you to visit ce.harpercollege.edu and learn the many ways you can “Advance, Discover and Play” through Community Education at Harper College.

Dr. Avis Proctor  
President, Harper College
Learning Options to Fit Your Life

**Live Online Classes**: These are classes where an online meeting is being used like an in-person classroom. Days and times for the meetings are specified, with online lectures being used as the primary way in which course content is being presented. These classes will either utilize Webex or Blackboard (with Blackboard Collaborate Ultra for class meetings). Information on your virtual classroom will come directly from your instructor via email.

**Self-Paced Online Classes**: In these classes, content (lectures, readings, videos, etc.) is placed on a protected website (Blackboard, in most instances). Some self-paced classes may have occasional class meetings, though meetings are not the primary way in which content is being presented to you. Self-paced classes will have active instructor participation and deadlines even without live meetings. You will receive instructions for accessing the class materials prior to the start of classes via email.

**In-Person Classes**: These classes meet in-person at the designated campus or offsite location. The room number and most up-to-date information is available on the course page at ce.harpercollege.edu. For information on prevention and resources related to COVID-19, please visit harpercollege.edu/advisory.

**Blended Classes**: Blended classes use a combination of in-person and online meetings. Information on the class structure will come directly from the instructor.

Our online classes are labeled as “Live Online” and “Self-Paced Online”, so that you know how each class will be conducted. In-Person classes are indicated by a campus (or offsite) location. When you register for a class, your instructor will send an email to you a few days before the start of the class with information about how the class will be taught and, if applicable, login information.

We know our print catalog is convenient but as always, the most complete and current information is online at ce.harpercollege.edu.
Digital Badges

Harper College Community Education is committed to providing you with the tools you need to reach your professional goals. One of the most exciting trends in career training these days is the digital badge movement.

Now, certain courses and training programs will earn a digital badge that you can proudly display in your resume, in an email to a potential employer, or in your social media profiles on LinkedIn, Facebook and elsewhere.

Learn more and start earning your next badge today! ce.harpercollege.edu, “Earn a Credential”

It does not necessarily reflect the views or policies of the U.S. Department of Labor, nor does mention of trade names, commercial products, or organizations imply endorsement by the U.S. government.
Free Safety Training Classes
Harper College offers a series of FREE, professional safety classes for managers and employees throughout the Chicago area. Individuals (employed or unemployed) can register for the free classes directly on the Harper College website. Businesses with 2 to 250 employees are eligible and Harper can offer custom training schedules for groups of 4 or more employees.

Safety Awareness Training

Chemical Hazards in Manufacturing and General Industry
This course is designed to help organizations in manufacturing and all general industry to get information on how to identify chemicals hazards and how they affect their employees and work locations. Participants will also learn how to identify and avoid the hazards by being proactive and less reactive with its safety programs and chemical operations. Maintaining and sustaining chemical hazard awareness, and how to evaluate and re-evaluate all chemical hazards will also be covered within manufacturing and general industry guidelines. At the conclusion of this course, students will be able to apply the requirements of OSHA’s Chemical Hazard Awareness Standards in Manufacturing and General Industry.

LSA0009-010 ONLINE-Live Meetings
09/21/23 TH 8:00 am-12:15 pm
Instructor: Brent Bryden
TUITION & FEE: FREE

Confined Space Hazards in Construction and General Industry
This course covers the requirements of the OSHA Permit-Required Confined Space Standard. Course topics include safety and health hazards associated with confined space entry, and the evaluation, prevention, and abatement of these hazards. The course covers OSHA requirements for both the General Industry and Construction standards. This course is designed for small employers or a designated representative (line supervisor or manager) with the responsibility to develop a permit-required confined space program. Upon course completion students will have a basic understanding of confined space hazards, evaluating and abatement of the hazards, the roles and responsibilities for attendants, entrants and entry supervisors, and determining when a confined space shall be classified as a permit-required confined space.

LSA0007-029 ONLINE-Live Meetings
09/08/23 FR 8:00 am-12:15 pm
Instructor: Robin Coyne
TUITION & FEE: FREE

Electrical Hazard Awareness
Electrical current can be very dangerous and even fatal. According to national workplace injury data from OSHA, electrocution is number three of the “Fatal Four” The Most Common Causes of Construction Site Deaths. Injuries in the workplace can be reduced or avoided when employees are regularly trained and more aware of their surroundings. In this class, students are taught to understand the basics of electricity, what the various types of electrical hazards are, how to recognize electrical hazards in their workplace, and OSHA rules and regulations. The class also covers worker rights, workplace safety standards, and laws that are in place to protect employees. Upon completion of the course, students will have the working knowledge necessary to recognize electrical hazards, and how to prevent injuries in the workplace.

LSA0014-009 ONLINE-Live Meetings
09/05/23 TU 8:00 am-10:00 am
Instructor: Robin Coyne
TUITION & FEE: FREE

Lockout/Tagout
What is considered a hazardous energy? Most think it involves electrical sources of energy, but hazardous energy can come in the form of steam from an uncontrolled pipe, large machinery designed to cut or crush something, conveyor belts, or any kind of equipment being repaired with exposed electrical wiring. This class will cover the practices and procedures used to power off and disable machinery to prevent injuries during service or maintenance of equipment from all sources of energy, including electricity. Upon course completion, you will have a better understanding and the working knowledge necessary to recognize hazards and reduce the possibility of workplace injuries.

LSA0015-007 ONLINE-Live Meetings
09/05/23 TU 10:15 am-12:15 pm

Peligros en Espacios Confinados en la Construcción y la Industria General: Confined Space Hazards

Este curso cubre los requisitos de la Norma para Espacios Confinados que Requieren Permiso de OSHA. Los temas del curso incluyen peligros para la seguridad y la salud asociados con la entrada a espacios confinados, y la evaluación, prevención y reducción de estos peligros. El curso cubre los requisitos de OSHA para las normas de la Industria General y la Construcción. Este curso está diseñado para pequeños empleadores o un representante designado (supervisor de línea o gerente) con la responsabilidad de desarrollar un programa de espacio confinado que requiere permiso. Al finalizar el curso, los estudiantes tendrán una comprensión básica de los peligros de los espacios confinados, la evaluación y reducción de los peligros, las funciones y responsabilidades de los asistentes, los entrantes y los supervisores de entrada, y la determinación de cuándo un espacio confinado debe clasificarse como un espacio confinado que requiere permiso.

Accounting, Bookkeeping and Finance

Online Self-Paced Digital Badge in Accounting and Finance for Non-Financial Managers

Every successful manager uses financial information to make effective decisions. Accounting and Finance for Non-Financial Managers explains the financial concepts and accounting principles used in most businesses and provides practical techniques for increasing your organization’s effectiveness. You will gain a better understanding of resource allocation and how to evaluate financial performance at the strategic and operational levels. Learn the importance of cash flow management as well as budgeting, goal setting, and performance assessment.

This Online Digital Badge requires completion of three courses: Accounting and Finance for Non-Financial Managers; Cash is King and Financial Analysis and Planning for Non-Financial Managers. Three one-month online courses. These courses may be taken individually.

LRN0023-019 ONLINE-Self Paced
09/05/23-12/01/23 TUITION & FEE: $495.00

LRN0004-023 ONLINE-Self Paced
09/05/23-09/29/23 TUITION & FEE: $195.00

Accounting - Cash is King

Cash management is one of the most important factors in the financial success of your business. D&B reports that 90% of all small business failures are due to poor cash management and inadequate cash flow, leading to more money getting paid out than collected. Non-financial managers usually make the key differences in day-to-day cash flow decision making. Learn how to optimize cash flow, uncover hidden internal and external sources of cash, and how to cultivate solid cash management in your company.

LRN0024-023 ONLINE-Self Paced
10/02/23-10/27/23 TUITION & FEE: $195.00

Basic Business Math

Gain the essential needs in Math with a business approach. Covers whole numbers, fractions, decimals, percentages, simple equations, and percentage formulas with examples of commissions, markups and markdowns, discounts, sales tax, simple and compound interest, and installment loans. Practice with bar, line and circle graphs, follow with just a touch of statistics - averages, medians, modes, and more.

LRN0084-008 Harper Learning & Career Center, PH 08/29/23-08/31/23 TU TH 5:30 pm-8:30 pm
Instructor: Javier Zaragoza
TUITION & FEE: $175.00

Finance and Budgeting for Business Professionals

Understand monetary figures which lead to the financial success of an organization. Learn the functions and tools of finance. Examine financial statements, balance sheet, income statement, cash flow statement and statement of stockholders’ equity. Learn the steps of budgeting to meet organizational goals. General end-user computer, Microsoft Office Excel and Internet skills recommended.

LRN0046-007 Harper Learning & Career Center, PH 10/16/23-10/18/23 MO WE 1:30 pm-4:30 pm
Instructor: Angela D Valentine
TUITION & FEE: $250.00

Financial Analysis and Planning for Non-Financial Managers

Designed for non-financial managers, business owners, entrepreneurs, and other decision-makers, this advanced course will take the mystery out of money matters. Throughout this course, financial information that drives your organization, as seen on the business’s reports, will be assessed and analyzed to understand it. An understanding of this information will help you make smart decisions when it comes to budgeting, setting goals, and assessing performance within your own area of influence.

LRN0139-016 ONLINE-Self Paced
11/06/23-12/01/23 TUITION & FEE: $195.00

Online Self-Paced Bookkeeping Digital Badge

This Bookkeeping Digital Badge will provide you with the knowledge needed to measure, and manage, the financial health of your business. This program focuses on cash basis accounting. No one will care more about the financial health of your business than you! Even if you plan to outsource your bookkeeping needs, you should still understand how the process works.

This digital badge requires the completion of three courses: Understanding Debits and Credits, General Ledger and Month End Procedures, Closing Procedures and Financial Statements. These courses may also be taken individually.

LRN0177-010 ONLINE-Self Paced
09/05/23-09/29/23
TUITION & FEE: $195.00

Understanding Debits and Credits

In this course, you will learn about the accounting equation and the five categories involved in every business (Assets, Liabilities, Owner’s Equity, Revenue and Expenses). Every financial transaction falls into one or more of these categories. Learn how to create a chart of accounts that meet the needs of your business. You will learn how double entry bookkeeping works and the process of recording debits and credits. This course will show you how to identify, analyze and record transactions using journal entries under the cash basis accounting method.

LRN0177-009 ONLINE-Self Paced
09/05/23-12/01/23
TUITION & FEE: $495.00

General Ledger and Month End Procedures

In this course, you will learn how to post journal entries to the correct general ledger accounts impacted by each transaction. This course will show you how to make sure your general ledger balances at the end of each month by preparing an unadjusted trial balance. You will learn how to look for errors when you don’t balance, and how to determine to correct entries. After posting correcting entries and/or adjusting entries, you will verify debits and credits equal with an adjusted trial balance. This course also goes through the steps of performing monthly bank reconciliations.

LRN0178-010 ONLINE-Self Paced
10/02/23-10/27/23
TUITION & FEE: $195.00

Closing Procedures and Financial Statements

This course shows you how to create a worksheet used to adjust the account balances and prepare the financial statements. Use your financial statements to measure performance, make improvements and set goals. The final step covered in this course is closing your books and preparing them for the next accounting period; this is done by journalizing and posting closing entries.

LRN0179-009 ONLINE-Self Paced
11/06/23-12/01/23
TUITION & FEE: $195.00

TUITION & FEE: $395.00
Aviation Ground School
Are you interested in becoming a professional or recreational airplane pilot? This aviation class will allow students to learn about aerodynamics, weight and balance, aviation weather, regulations, and human factors at the Harper College Campus. Further exploration will take place on field trips to DuPage Airport where students will sit in aircraft to learn about aircraft systems and flight controls, visit the control tower to see how ATC works then fly flight simulators. This is a practical class that can be used for FAA 141 credit or just an exciting life experience. This class may be eligible for credit through the Illinois Aviation Academy. Successful completion of the class will prepare you for the FAA Private Pilot Written Exam.

Aviation Ground School
Instructor: Bob Werderich
TUITION & FEE: $275.00

Examine Careers in Aviation
Aviation is a fast-growing area with many types of jobs available. In this class you will examine what is involved in each of the areas of aviation including: pilot training, aviation maintenance and aviation management. But you’ll get even more out of this workshop. Bring your laptop or tablet and get expert assistance filling out the FAA Medical application and the FAA Pilot Certification application. The workshop will be conducted by the professionals at the Illinois Aviation Academy.

Examine Careers in Aviation
Instructor: Bob Werderich
TUITION & FEE: $275.00

Forklift Operator Training
Forklift Operator Training provides students with knowledge and skills to operate a powered industrial truck (forklift) in a safe and professional manner. Training combines formal classroom instruction, practical hands-on, behind-the-wheel training, and evaluation of workplace performance. Unlike a driver’s license, there is no forklift license to obtain. Classes meet at Equipment Depot, 751 Expressway Drive, Itasca, IL 60143. Classes are conducted in English.

Forklift Operator Training
Instructor: Bob Werderich
TUITION & FEE: $275.00

Effective Business Writing

Businesses increasingly rely on technology, technological skills alone do not guarantee success in the workplace. You must still develop your ideas, express them clearly, and persuade others of their viability. This course offers effective strategies to sharpen your writing skills by structuring your ideas logically, exercising diplomacy in letters and reports, and shaping your arguments. In contemporary business environments, information overload makes it necessary for you to communicate clearly and concisely. Trying to make sense of a disorganized email message can be frustrating given the number of emails you have to answer daily. By analyzing your audience, organizing your writing, and employing effective persuasive techniques, your writing will make an impact.

Entrepreneurship and Small Business

Creating a Successful Business Plan

Turn your business ideas into a solid plan for financing and long-term success. Committing your idea to paper in the form of a business plan not only increases your chances of obtaining financing, but also in keeping your business strategically focused. You will work through all the major components of writing a business plan and emerge with your first draft in hand. And most importantly, you will have completed the first and most difficult step on the path to small business success.

The Business Plan

Whether starting a business or growing the one you have, a business plan serves as a road map and can help secure needed funding. In this course, you build your business plan one step at a time using a hands-on approach that encourages you to immerse yourself in the vision and desired outcomes of your business. Focusing on the most critical components enables you to uncover hidden risks and assess the business from marketing, management, and financial vantage points.

Start and Operate Your Own Home Based Business

Starting a home based business is the hottest trend in today’s challenging business environment. Learn how to be your own boss and eliminate the stress of having a job. The benefits of working from home are endless. Earn what you deserve, be independent, have tax deductions, do away with traffic, office politics and more! Learn how to develop the entrepreneurial qualities, motivation, discipline, creativity, that you will need to succeed. This class is a great way to start your own business or enhance the one you already have.

Education

Gender Matters: Gender in the Classroom

Discover why girls waste 30% of their study time, why boys get worse grades than girls, why boys do less homework than girls, and the time, why boys get worse grades than girls, and the time.

Start Your Own Online Business

This course will give you a solid foundation for building and growing a successful digital business. You will be given a step by step approach that is easy to follow, from building a simplified strategy to branding your business. You will learn to create a product and how to build and launch your own website, engage prospective customers, and implement a process that will drive fresh leads to your business. So whether you are looking to generate a nice side income or even to replace your current income and ditch your full time job, this course is for you.

Start Your Own Small Business

In this class, you will learn everything you need to know about starting a business. You will begin by discovering the tricks to picking the right opportunity for you. Next, you will learn how to develop proven marketing techniques to easily build sales. Since every business needs money, this course discusses traditional and non-traditional financing options. Finally, you will learn easy to implement employee management procedures and how to write business policies that help you build your business. In the final lesson, you will learn time management techniques especially for entrepreneurs.
Google Professional

Google Career Certificates

With more businesses embracing digital ways of working, it’s estimated that 50% of all employees will need reskilling by 2025. As U.S. job growth returns, Google Professional Certificates help you gain the skills needed to benefit from greater economic opportunity.

Harper College has been awarded the opportunity to participate in Google’s Career Certificates program which consists of available scholarships for the online/self-study program. Learning content will be available through Coursera until December 2024. After that date, available Google Professional Certificates in each certificate will carry a $250 cost.

Available Google Professional Certificates include: Data Analytics, UX Design, Project Management, IT Support, Android Development, and Digital Marketing and E-commerce.

Hospitality and Food Service

ServSafe Food Sanitation Manager and Exam

Learn food safety practices and knowledge to protect individuals from food-borne illness by an industry professional. Gain the knowledge needed to pass the ServSafe Manager Certification exam which validates food safety knowledge in establishments tasked with ensuring proper food safety and handling. This course is a nationally approved, ANSI accredited course and is designed to meet the requirements of local, state, and federal guidelines. As part of the course tuition and fee, students will receive a course manual and scantron for the exam on the day of class. The exam will be administered in the last 2-hours of the course. Exam results will be available in 7-10 days from the date of the course. With prior arrangement, the exam can be taken in Spanish.

Healthcare

Mental Health First Aid

Teaches how to identify, understand and respond to signs of mental illness and substance abuse disorders. Provides the skills needed to provide initial support to an individual who may be developing a mental health or a substance problem and help connect them to the appropriate care. This course is intended for Employers, Police Officers, Hospital Staff, First Responders, Faith Leaders, Community Members and Caring Individuals. The program is offered in partnership with Linden Oaks Behavioral Health group and is taught by a certified Mental Health First Aid Instructor.

## Project Management

### Online Self-Paced Project Management Digital Badge

In today’s business environment, there is a need for good project management. Project management provides visibility of project health to the business and the customer. Through continuous monitoring, early detection of variations to plan, schedule, and budget can be communicated to stakeholders for quick resolution, including project cancelation. Project management is one of the fastest paths to promotion by increasing your network through greater exposure. You will have the skills, tools, and templates to confidently develop and maintain a project. An overview of salaries, certification costs, education and experience requirements are provided.

LRN0077-021 ONLINE-Self Paced
09/05/23-12/01/23
TUITION & FEE: $495.00

### Introduction to Project Management

In today’s business environment, there is a need for good project management. Project management provides visibility of project health to the business and the customer. Through continuous monitoring, early detection of variations to plan, schedule, and budget can be communicated to stakeholders for quick resolution, including project cancelation. Project management is one of the fastest paths to promotion by increasing your network through greater exposure. You will have the skills, tools, and templates to confidently develop and maintain a project. An overview of salaries, certification costs, education and experience requirements are provided.

### Project Management Essentials

This course is designed for any individual who might need to perform project management activities in their job role on either a formal or informal basis, or any individual who wants to build upon their current project management knowledge to be more productively involved on a project team. This course is not specifically designed for students who are seeking project management-related certification. Rather, it is designed to introduce a structure to help students more effectively manage projects as well as participate fully on a project team. Basic computing and some experience in project management recommended.

11/06/23-12/01/23
TUITION & FEE: $195.00

### Introduction to Microsoft Project 2019

Familiarize with the basic features and functions of Microsoft Project. Covers the critical knowledge and skills a project manager needs to create a project plan with Microsoft Project during the planning phase of a project. This course will enable you to draft a project plan with Microsoft Project and fill in and organize the details to achieve your goals. Learn to build a new project, track progress, and analyze costs. Explore methods of fine tuning and troubleshooting your project plan for best results.

Online Self-Paced Six Sigma Green Belt
Digital Badge

Our online Six Sigma Green Belt training teaches problem-solving skills using the DMAIC, Define, Measure, Analyze, Improve and Control, model. Six Sigma Green Belts act as trained specialists in their organizations to help improve project effectiveness and efficiency. Participants are strongly encouraged to have a real-world project in mind as they complete the course. Instructors and mentors work closely with you as you work your project.

This Digital Badge (LRN0100) requires completion of three courses:

- Introduction to Six Sigma Green Belt
- Intermediate Six Sigma Green Belt
- Advanced Six Sigma Green Belt

Introduction to Six Sigma Green Belt

The Introduction to Six Sigma Green Belt course teaches critical skills required for Six Sigma practitioners. This first course explains the basic terms and proven Six Sigma problem-solving methods, team building tools, and descriptive statistics that are the basis for statistical tools that contribute to the success of improvement projects and to your organization. Topics covered include Lean Principles, Failure Mode Effects Analysis, Team Tools, Project Charters, and Basic Statistical Tools.

LRN0101-023 ONLINE-Self Paced
09/05/23-09/20/23
TUITION & FEE: $195.00

Intermediate Six Sigma Green Belt

This Intermediate Six Sigma Green Belt course builds on the ideas and skills learned in the Introduction to Six Sigma Green Belt course. In this course, participants will learn process analysis, data collection and analysis, probability and valid statistical conclusions, and hypothesis testing. Many participants find this course to be the most challenging of the certification courses.

LRN0102-023 ONLINE-Self Paced
10/02/23-10/27/23
TUITION & FEE: $195.00

Advanced Six Sigma Green Belt

Topics in this course include hypothesis testing, design of experiments, and statistical process control. Participants will have to apply the concepts learned in the Introduction and Intermediate Six Sigma Green Belt courses. The instructor will share many handouts, spreadsheets, and web links containing tools participants will use while completing Six Sigma projects.

Manufacturing and Industry

Distribution and Warehouse Essentials

Warehouses store goods and products until they are needed and, or ready for distribution. Warehousing allows for greater efficiencies and prevents goods from getting lost or stolen. Learn what distribution and warehousing practices and strategies exist within a global economy. Learn what companies do to create a competitive advantage through warehouse and distribution network design models. Explore current and future approaches companies use to integrate warehousing and distribution as a core competency within their supply chain strategy. Discuss what job roles and career paths exist in the Distribution and Warehousing field.

LBS0096-005 Harper Learning & Career Center, PH

Electrical Hazard Awareness

Electrical current can be very dangerous and even fatal. According to national workplace injury data from OSHA, electrocution is number three of the “Fatal Four” The Most Common Causes of Construction Site Deaths. Injuries in the workplace can be reduced or avoided when employees are regularly trained and more aware of their surroundings. In this class, students are taught to understand the basics of electricity, what the various types of electrical hazards are, how to recognize electrical hazards in their workplace, and OSHA rules and regulations. The class also covers worker rights, workplace safety standards, and laws that are in place to protect employees. Upon completion of the course, students will have the working knowledge necessary to recognize electrical hazards, and how to prevent injuries in the workplace.

Fall Hazard Awareness in Construction

One of the top ten workplace injuries reported by OSHA are related to fall hazards. In the construction industry, the most common causes for injuries typically involve ladders; roofs; tops of equipment, scaffolds, and other elevated work surfaces. It is also reported that the number one type of OSHA safety violation on worksites is related to fall hazards. This course will examine the various types of fall hazards, and include details on how to identify them. It will also offer information on best safety practices, to include ladder safety principles. The course follows current OSHA’s Fall Protection Standards, which provides clearly defined principles to follow on how to protect workers.

Intro to Safety and Health Management for Managers and Supervisors

Each year, approximately 6,000 employees in this country die from workplace injuries while another 50,000 die from illnesses caused by exposure to workplace hazards. In this course, you will learn how to identify machine guarding and tool safety and how they affect their employees and their work locations. Participants will learn how to evaluate and re-evaluate all machine guarding and tool safety within the general industry guidelines.

LOCKOUT/TAGOUT

What is considered a hazardous energy? Most think it involves electrical sources of energy, but hazardous energy can come in the form of steam from an uncontrolled pipe, large machinery designed to cut or crush something, conveyor belts, or any kind of equipment being repaired with exposed electrical wiring. This class will cover the practices and procedures used to power off and disable machinery to prevent injuries during service or maintenance of equipment from all sources of energy, including electricity. Upon course completion, you will have a better understanding and working knowledge necessary to implement successful and effective health and safety practices for your company.

OSHA 10 Hour Construction

Learn OSHA's best practices for reducing accidents and injuries at the workplace. Explore major hazards encountered in general industry and solutions for recognizing, controlling, and applying protections against them. Gain an understanding on employer responsibilities, filing complaints and OSHA rights for workers. Upon successful completion of the course, students will receive an OSHA 10-hour general industry card.

OSHA 10 Hour General Industry

Learn OSHA's best practices for reducing accidents and injuries at the workplace. Explore major hazards encountered in general industry and solutions for recognizing, controlling, and applying protections against them. Gain an understanding on employer responsibilities, filing complaints and OSHA rights for workers. Upon successful completion of the course, students will receive an OSHA 10-hour general industry card.

Visit CE.HARPERCOLLEGE.EDU for latest course information.
Concentración Del Peligro De Caidas

Una de las diez principales lesiones en el lugar de trabajo reportadas por OSHA está relacionada con los peligros de caídas. En la industria de la construcción, las causas más comunes de lesiones generalmente involucran escaleras; techos; partes superiores de equipos, andamios y otras superficies de trabajo elevadas. También se informa que el tipo número uno de violación de seguridad de OSHA en los lugares de trabajo está relacionado con los peligros de caídas. Este curso examinará los diversos tipos de peligros de caídas e incluirá detalles sobre cómo identificarlos. También ofrecerá información sobre las mejores prácticas de seguridad, e incluir los principios de seguridad de las escaleras. El curso sigue los estándares actuales de protección contra caídas de OSHA, que proporciona principios claramente definidos a seguir sobre cómo proteger a los trabajadores.

Peligros En Espacios Confinados en la Construcción y la Industria General

Este curso cubre los requisitos de la Norma para Espacios Confinados que Requieren Permiso de OSHA. Los temas del curso incluyen peligros para la seguridad y la salud asociados con la entrada a espacios confinados, y la evaluación, prevención y reducción de estos peligros. El curso cubre los requisitos de OSHA para las normas de la Industria General y la Construcción. Este curso está diseñado para pequeños empleadores o un representante designado (supervisor de línea o gerente) con la responsabilidad de desarrollar un programa de espacio confinado que requiere permiso. Al finalizar el curso, los estudiantes tendrán una comprensión básica de los peligros de los espacios confinados, la evaluación y reducción de los peligros, las funciones y responsabilidades de los asistentes, los entrantes y los supervisores de entrada, y la determinación de cuándo un espacio confinado debe clasificarse como un espacio confinado que requiere permiso.

Prevencion de Resbalones, Tropezones y Caidas

¿Sabía que los resbalones, tropezones y caídas son la principal causa de accidentes en el trabajo? Además, según la Administración de Salud y Seguridad Ocupacional (OSHA), ¡el 8% de ellos son fatales! Esta clase interactiva, dirigida por un Entrenador de Extensión de OSHA, cubre el reconocimiento de los factores de riesgo y el control de los peligros de resbalones, tropezos y caídas. Se anima a los trabajadores, gerentes y supervisores a asistir.

LOT0019-001 ONLINE-Live Meetings 11/16/23 TH 8:00 am-12:15 pm Instructor: Juan Galvan TUITION & FEE: $149.00

Sensibilización Sobre Peligros Eléctricos y Bloqueo/Etiquetado

La corriente eléctrica puede ser muy peligrosa e incluso fatal. De acuerdo con los datos nacionales de OSHA, sobre lesiones en el lugar de trabajo, la electrocución es el número tres de las “Cuatro Fatales” de Las Causas Más Comunes de Muerte en los Sitos de Construcción. Las lesiones en el lugar de trabajo se pueden reducir o evitar cuando los empleados reciben capacitación continua y son más conscientes de sus alrededores. En esta clase, a los alumnos se les enseña a comprender los conceptos básicos de la electricidad, cuáles son los diversos tipos de peligros eléctricos, cómo reconocer los peligros eléctricos en su lugar de trabajo y las normas y reglamentos de OSHA.

La clase también explicará lo que se considera una energía peligrosa. La mayoría piensa que involucra fuentes de energía eléctrica, pero la energía peligrosa puede venir en forma de vapor de una tubería no controlada, maquinaria grande diseñada para cortar o aplastar algo, cintas transportadoras o cualquier tipo de equipo que se repare con cableado eléctrico expuesto. Esta clase cubrirá las prácticas y procedimientos utilizados para apagar y desactivar maquinaria (bloqueo/etiquetado) para evitar lesiones durante el servicio o mantenimiento de equipos de todas las fuentes de energía, incluyendo la electricidad. La clase también cubre los derechos de los trabajadores, las normas de seguridad en el lugar de trabajo y las leyes vigentes para proteger a los empleados. Al finalizar el curso, los estudiantes tendrán el conocimiento práctico necesario para reconocer los peligros eléctricos, los procedimientos de bloqueo/etiquetado y cómo prevenir lesiones en el lugar de trabajo.

Warehouse Safety

With ever increasing demands for package deliveries comes an uptick in warehouse shipping and receiving activities. The warehouse industry, and all other industries that maintain storage and delivery operations, or supply chain environments, the need for a safety program is vital. Our Warehouse Safety course offers students the opportunity to learn about the various aspects of safety standards, hazard awareness and prevention, followed by OSHA based requirements designed to protect the safety and well-being of workers. OSHA rules, regulations and other industry standards related to warehouse safety will be covered, as well as mitigation procedures and processes. Workers, managers, and supervisors are encouraged to attend.

**Data Science**

**Data Analysis**

**Online Self-Paced Data Analysis Digital Badge**

Make a big difference in the success of your organization by acquiring data analysis skills. Begin by getting a basic understanding of how to analyze data in a business setting. Learn how your business decisions involve comparing groups for differences. Finally, learn how to perform analyses to your business or organization and communicate the results through graphs and text to your fellow employees and leaders.

LRN0059-019 ONLINE-Self Paced
09/05/23-12/01/23
TUITION & FEE: $495.00

**Intermediate Data Analysis**

Many business decisions involve comparing groups of data for differences. For example, you might examine sales records to see if men and women prefer different product features. Or, you might see whether product recognition survey data relates to subsequent purchase behavior. The Intermediate Data Analysis course introduces you to the statistical analysis methods behind these group differences and relationships. In addition, you’ll learn how to work with ratings and graphs to create user-friendly reports of statistical results.

LRN0061-024 ONLINE-Self Paced
10/02/23-10/27/23
TUITION & FEE: $195.00

**Advanced Data Analysis**

Advanced Data Analysis teaches how to perform valuable inquiries for your business or organization. You acquire skills necessary to communicate these results through graphs and text so that your fellow employees will understand the implications of decisions they make. Take the guesswork out of important decisions and make them based on statistically significant information. Whether your business is home-based or a large company, this class will take you to the next level where important decision making is concerned.

LRN0062-021 ONLINE-Self Paced
11/06/23-12/01/23

NEW!

**Power BI (Business Intelligence)**

**Online Self-Paced Power BI (Business Intelligence) Digital Badge**

Power BI is a widely used business analytics service offered by Microsoft.

Discover the process of creating interactive reports. Integrate financial, marketing, or any other source data in your accounting system, Excel, or on the Web. Create charts, maps, and other visuals to see your data in real time.

Delve further into Power Query to ETL, Extract, Transform and Load, your data. Build the Data Model using relationships and DAX, Data Analysis Expressions. Utilize Time Intelligence functions to view YoY or YTD reports. Add user friendly features to enhance your reports to enable consumers to analyze the results.

**Introduction to Power BI (Business Intelligence)**

Gain insights into your data. Power BI, business intelligence, is a widely used business analytics service offered by Microsoft. Power BI Desktop is a complete data analysis and report creation tool that you install for free.

In this course, you will discover how to quickly extract, transform, and load data with just a few clicks. You will create interactive visualizations, charts, maps, KPIs, to provide you with insights into your company’s data to make informed decisions.

**Intermediate Power BI (Business Intelligence)**

Delve further into Power Query to ETL, Extract, Transform and Load, your data. Build the Data Model using modeling features and relationships. Perform calculations using DAX, Data Analysis Expressions, functions. Utilize Time Intelligence functions to view YoY or YTD reports. Add user friendly features to enhance your reports.

**Advanced Power BI (Business Intelligence)**

Expand your knowledge of Power BI Desktop to the highest level. This course focuses on the advanced capabilities of Power Query, Data Modeling and Reports. Check for data inconsistencies, design efficient queries, create proper relationships, and write DAX code to ensure reports update quickly and accurately. Add navigation and analytical features to your reports to enable consumers to analyze the results.

**SQL (Business Intelligence)**

**Online Self-Paced SQL Digital Badge**

Structured Query Language (SQL) is the industry standard database programming language. It is one of the most in demand skills in occupations that require interaction with data and analyzing data. This Digital Badge will enhance your competitiveness in the field of database administration and data analyst jobs.

Earn a SQL Digital Badge by completing three one-month online self-paced courses. You may register for the Digital Badge, which includes all three courses, or take the courses separately:

- SQL Digital Badge
- Introduction to SQL
- Intermediate SQL
- Advanced SQL

**Online Self-Paced Power BI (Business Intelligence) Digital Badge**

Earn a Power BI (Business Intelligence) Digital Badge by completing three online self-paced courses. You may register for the Digital Badge (LRN0170), which includes all three courses, or take the courses separately:

- Introduction to Power BI
- Intermediate Power BI
- Advanced Power BI

This Digital Badge will enhance your skills in data analysis, giving you greater insight into your organization’s performance and allowing you to make more informed decisions. Power BI is a widely used business analytics service offered by Microsoft.
Introduction to SQL
Learn how to write SQL code to create and populate database tables and how to write simple SQL queries that are capable of retrieving vast amounts of information from a database. You will discover the power of the relational database, how to create and manage database tables, and how to use SQL Select statements to precisely pinpoint and retrieve data from a database.

LRN0165-027 ONLINE-Self Paced
09/05/23-09/29/23 TUITION & FEE: $245.00
LRN0165-028 ONLINE-Self Paced
10/02/23-10/27/23 TUITION & FEE: $245.00

Intermediate SQL
Discover how to write powerful SQL queries that enable you to retrieve data from one table or from multiple tables stored in the database simultaneously. In this course, you will learn how to retrieve more meaningful data from one or more tables stored in a database. You will learn how to merge data from multiple columns, how to create calculated fields, and how to order and group the results from a query. You will also learn how to create a single join query or subquery to obtain data from multiple tables simultaneously.

LRN0183-019 ONLINE-Self Paced
10/02/23-10/27/23 TUITION & FEE: $245.00
LRN0183-020 ONLINE-Self Paced
11/06/23-12/01/23 TUITION & FEE: $245.00

Advanced SQL
Take your SQL query skills to a new level by learning how to write more advanced SQL queries for enhanced decision making. In this course, you will learn how to write advanced subqueries, advanced join queries, and UNION queries that query more than one table. You will learn how to use transaction processing to ensure SQL statements execute completely or not at all and how to create stored procedures that enable you to store SQL statements for execution.

LRN0184-018 ONLINE-Self Paced
11/06/23-12/01/23 TUITION & FEE: $245.00
LRN0184-019 ONLINE-Self Paced
12/04/23-12/29/23 TUITION & FEE: $245.00

Adobe Illustrator Essentials
Adobe Illustrator is the industry standard computer illustration software. Use Illustrator to draw shapes and design logos, flyers, posters, banners, business cards or any other vector graphics for print or web. In this course, you will learn Adobe Illustrator fundamentals to set up a print document and use various tools to draw, type and color all kinds of shapes and illustrations. Learn how to efficiently manage layers and artboards, and create print ready PDF documents. Access to Adobe Illustrator software required.

LRN0181-010 ONLINE-Self Paced
09/05/23-09/29/23 TUITION & FEE: $225.00

Adobe Photoshop Essentials
This fundamental course covers Adobe Photoshop CC most commonly used tools, menus and panels. You’ll learn all the basics of Photoshop to effectively work with selection and editing tools, layers, and masks to edit, retouch and enhance existing images or create your own composite digital art work. Impress your business organization, friends and family by enhancing their photos and create magazine cover quality enhanced images. Access to Adobe Photoshop software required.

LRN0167-013 ONLINE-Self Paced
10/02/23-10/27/23 TUITION & FEE: $225.00

Adobe InDesign Essentials
Adobe InDesign is the industry standard page-layout program that works with Adobe Illustrator and Photoshop seamlessly. Use Adobe InDesign to effectively work with selection and editing tools, layers, and masks to edit, retouch and enhance existing images or create your own composite digital art work.

This Digital Badge requires completion of three courses:
• Adobe Illustrator Essentials
• Adobe Photoshop Essentials
• Adobe InDesign Essentials

Online Self-Paced Graphic Design Software Essentials Digital Badge
The Adobe software tools are the leading software for graphic design. Adobe Illustrator is the industry standard computer illustration software. Adobe InDesign is the industry standard page-layout program that works with Adobe Illustrator and Photoshop seamlessly. Use Adobe Photoshop to effectively work with selection and editing tools, layers, and masks to edit, retouch and enhance existing images or create your own composite digital art work.

This Digital Badge requires completion of three courses:
• Adobe Illustrator Essentials
• Adobe Photoshop Essentials
• Adobe InDesign Essentials
Emerging Technologies

Introduction to Cryptography

Cryptography can be confusing. In this class we clarify the key points of understanding needed to set up and operate commercial software with cryptographic features. After a clear and simple exposition of the key techniques and features of cryptography, you will be shown software for the enterprise in action such as ssl certificates for Web servers, secure email, disk encryption and underlying software and hardware like MS PKI, HSMs, crypto utility tools, PGP, chip card, disk encryption. You will also be shown why cryptography is a controlled technique, what regulations apply and the Do’s and Don’ts.

LEC0022-001  Harper Main Campus  09/19/23-10/24/23  TU  6:00 pm-8:00 pm  TUITION & FEE: $325.00

Online Self-Paced Excel Digital Badge

Earn an EXCEL Digital Badge by completing three one-month online self-paced courses. You may register for the Digital Badge, which includes all three courses, or take the courses separately:

- **Excel Digital Badge**
- **Mastering Microsoft Excel**
- **Intermediate Excel**
- **Advanced Excel**

A must-have skill to succeed in business, whether an entrepreneur or a valued employee, is the ability to create, edit and manage spreadsheets. Microsoft Excel is the most used spreadsheet tool in the world. This Digital Badge will help you discover how to attractively visualize your data into meaningful information with confidence.

### Microsoft Office

#### Excel

**Online Self-Paced Excel Digital Badge**

Microsoft Excel is the most widely used spreadsheet tool in the world. Discover how menu items, commands, settings, and processes affect the look of your Excel worksheets and workbooks. Learn how various data types can be best represented and formatted using different Excel options and techniques. This Digital Badge will help you discover how to attractively present your data in reports, slide shows, and more, with confidence.

**Intermediate Excel**

This course will help you learn how to organize, display and calculate your data into useful information. Find out how to consolidate your data proficiently into readable rows and columns using different table designs and styles. Create a unique style for yourself to improve your spreadsheet appearance to make the content easier to understand for your target audience. Discover how easily pivot tables can be created to quickly summarize large amounts of data. Through this course, these tasks will make your work outstanding and unique in what you do.

**Advanced Excel**

Learning Advanced Excel contains these tools that can help you prepare your worksheets accurately, examine your data for authentication, and then find those answers to your most difficult questions. This course will help you learn these required business functions along with the tools required to analyze data efficiently within the workplace. Save time for yourself by protecting your valuable data and know with assurance that the entered data is accurate without any errors. By completing the course, discover how to attractively visualize your data into meaningful information with confidence.

**Mastering Microsoft Excel**

Microsoft Excel is the most widely used spreadsheet tool in the world. Keep your Excel skills current with this class, as it changes with the features of Excel over time. Learn how to construct an Excel worksheet, populate it with content, and edit it for delivery in a variety of business situations. Master the options that will take your Excel worksheet from a collection of plain, drab numbers to an engaging multimedia presentation.

**Introduction to Excel 2019**

Become an expert in data manipulation using Excel spreadsheets. Organizations rely on information to make sound business decisions. The amount of available data growing on a daily basis, there is an urgent need to make sense of all of that data. Learn how to organize, calculate, analyze, revise, update, and present your data in ways that will help the decision makers in your organization steer you in the right direction. This course provides a foundation for Excel knowledge and skills. Prerequisite: Introduction to Microsoft Windows or equivalent experience.

**Excel 2019 Pivot Tables**

Summarize and organize raw data in a way that can be meaningfully presented to others. Gain a solid understanding of PivotTables to maximize effectiveness when analyzing data. Use Power Pivot along with Excel to analyze data from a variety of sources. To ensure success in this course, you should have experience working with Excel and PivotTables, understand spreadsheet concepts, and be comfortable creating basic PivotTables.

Visit CE.HARPERCOLLEGE.EDU for latest course information.
Office
Office Administrator Portfolio Workshop
This is a self-paced performance workshop that allows students to demonstrate their knowledge of Microsoft Office software applications. Students will meet with an experienced instructor and then complete projects incorporating Word, Excel, and PowerPoint. All Office Administrator Program required courses must be completed before starting the portfolio workshop. Call 847.925.6300 for additional information.
LCT0033-015 ONLINE-Live Meetings
Instructor: Jennie A. Johns
TUITION & FEE: $255.00

Outlook
Introduction to Outlook 2019
Learn how to use one of the most popular email applications around! Students will create, format, send, reply to, and forward messages. Also covered are working with attachments, managing contacts, and scheduling appointments and meetings. Prerequisite: Introduction to Windows or equivalent experience.
LCT0021-021 Harper Learning & Career Center, PH 11/28/23-11/30/23 T U H 5:30 pm-8:30 pm
Instructor: Angela D Valentine
TUITION & FEE: $259.00

PowerPoint
Introduction to PowerPoint 2019
Create a presentation, work with outlines, modify the slide master, use the drawing tools, create a chart and customize templates. Learn how to create a slideshow that can be used for effective presentations. See how animation can hold your audience captive. Prerequisite: Strong Microsoft Windows skills and knowledge of Microsoft Word is helpful.
LCT0015-020 Harper Learning & Career Center, PH 11/07/23-11/09/23 T U H 5:30 pm-8:30 pm
Instructor: Jennie A. Johns
TUITION & FEE: $259.00

Word
Introduction to Word 2019
Microsoft Word 2019 is designed to help you move smoothly through the task of creating professional-looking documents. Its rich features and powerful tools can make your work easy, and even fun. In this course, you’ll learn how to use Word 2019 to create and edit simple documents; format documents; add tables and lists; add design elements and layout options; and proof documents. Students need strong Windows and mouse skills to keep pace with this course. Keyboarding skills are recommended. Prerequisite: Introduction to Windows or equivalent experience.
LCT0013-023 Harper Learning & Career Center, PH 10/03/23-10/05/23 T U H 5:30 pm-8:30 pm
Instructor: Angela D Valentine
TUITION & FEE: $259.00

Intermediate Word 2019
Creating professional-looking documents can give you and your organization a competitive edge. Implementing time-saving features such as document templates and automated mailings can help reduce expenses. Mastering these techniques will make you a valued employee in your organization. Learn to work with features such as formats, styles, and templates to create professional documents with a consistent look and feel. Add visual interest to your documents by using the tables and charts features. Quick Parts and templates provide efficiency and consistency when adding content, and long complex documents can be simplified and managed in Master Documents. Use the mail merge feature to automate sending individual letters to customers.
LCT0029-021 Harper Learning & Career Center, PH 10/10/23-10/12/23 T U H 5:30 pm-8:30 pm
Instructor: Angela D Valentine
TUITION & FEE: $259.00

Web Design
Introduction to HTML & CSS
Learn to code your own web page and understand the relationship between HTML & CSS. Hands-on training walks you through the purpose, meaning, and proper structure of these foundation front-end languages. Topics include internet and website basics, commonly used HTML tags and CSS declarations, and industry standard best practices. Prerequisite: Must be comfortable typing at least 15 words a minute and a solid understanding of Internet and Computing technologies.
LCT0023-017 Harper Main Campus 09/19/23-09/28/23 T U H 6:00 pm-9:15 pm
Instructor: Jennie A. Johns
TUITION & FEE: $369.00

Intermediate HTML & CSS
Continue your HTML and CSS journey by creating responsive layouts with forms, video, and audio elements. Also, learn how to enhance design creativity with positioning, layers, and other advanced CSS techniques. Prerequisite: Introduction to HTML and CSS or equivalent experience.
LCT0027-016 Harper Main Campus 10/03/23-10/12/23 T U H 6:00 pm-9:15 pm
Instructor: Jennie A. Johns
TUITION & FEE: $369.00

Web Design and Maintenance Programming
Introduction to Coding
After taking this course in Introduction to Coding, you will be introduced to the basics of computer programming and various programming languages. New technologies allow people outside of the computer science field to be able to create their own websites through code. Students will learn the basics of HTML, CSS, and Java Script in this course, as well as the practical uses for each.
LRN0152-016 ONLINE-Self Paced 09/05/23-09/29/23
TUITION & FEE: $195.00

HTML Fundamentals
This course covers all the basics of HTML coding language. You will learn building simple web pages by hand coding, using HTML tags to create paragraphs, heading, links, insert images, tables and more. We also cover creating a simple multi-page website with images, text and a navigation bar.
LRN0153-014 ONLINE-Self Paced 10/02/23-10/27/23
TUITION & FEE: $245.00
Introduction to JavaScript Programming
Able to be embedded or integrated into HTML, JavaScript runs in the browser environment and is useful for adding interactive capabilities to web pages. Identify some guidelines to be followed while writing scripts, and manage the window using the properties and methods of the window object. You can add content to documents, create dynamic documents and navigate between layers in the document, and validate data in the form using control constructs. Examine the different approaches to validate information entered by users while submitting the form. Prerequisite: Introduction to HTML & CSS or equivalent experience.

LCT0022-013 Harper Main Campus
10/24/23-11/16/23 TU TH 6:00 pm-9:15 pm
Instructor: Jennie A. Johns
TUITION & FEE: $349.00

Responsive Website Frameworks
Learn how to create responsive websites using current and popular coding techniques. Topics include wireframes, creating a custom responsive framework, and introduction to Twitter Bootstrap and Zurb Foundation. Sass and responsive emails are also discussed. Prerequisites: JavaScript Programming

LCT0041-009 Harper Main Campus
11/28/23-12/07/23 TU TH 6:00 pm-9:15 pm
Instructor: Jennie A. Johns
TUITION & FEE: $385.00

Introduction to Web Design
Discover the basics of web design using HTML and CSS. No prior knowledge of HTML or web design is required. Throughout the course you will get the info you need to plan and design effective web pages. Come away knowing how to implement web pages by writing HTML and CSS code. And discover ways to enhance web pages with the use of page layout techniques, text formatting, graphics, and images.

LRN0108-022 ONLINE-Self Paced

En Garde Fencing
This exciting course focuses on the Epee style of fencing. Epee style fencers stalk their opponent waiting for the right opportunity and then follow with a quick attack and/or counterattack. In Epee the entire body is a valid target much like in an actual duel. Perfect for all skills levels from beginners to advanced. Participants will be divided up by experience. Sword and face mask are provided. Continuing students may wish to purchase their own equipment at some point. You should wear a sweatshirt or something similar to class. The class is co-listed with the Harper College Kinesiology department.

Learn to Ride a Bicycle: Bicycling Instruction for Adults

It is never too old to learn to ride a bicycle! If you never learned to ride a bicycle or need a basic refresher session then this is the class for you. Learn to ride instruction will get you balancing, starting, pedaling, stopping, turning, and shifting successfully in short order. Learning to ride a bicycle as an adult is fast and easy. Learning time varies from person to person, but most people are riding on their own after two to three hours of instruction. Riding will take place on Harper College campus. Participants should bring their own bike to class and a helmet. Class will be designed in a one on one setting.

TUITION & FEE: $65.00

What is Qigong?

Qigong is a mind-body exercise form that uses meditation, breathing, and movement to increase energy and enable the body to heal itself. The exercise and healing techniques used were developed in ancient China and Tibet. It is practiced for a variety of reasons and has countless health-related benefits.
Qigong Grief Release Workshop
Grief is powerful and if not allowed expression, can cause energetic blockages. First, you will create a memory/release jar to explore your grief due to trauma or any type of loss. Next, you will experience a gentle Qigong practice unblocking energy around those memories. Finally, you will experience a restorative and nurturing sound bowl healing to seal in your new found energy and intentions.

Personal Self-Defense Workshop
Personal safety, security, and protection are top of mind for just about everyone due to the elevated number of personal attacks being carried out each day. Understanding what to do in the event of a physical attack before, during, and after is very useful, and in most cases can save your life. In this class, you will learn the concepts of situational awareness, and how to mentally respond/react during and after a physical attack. In addition, you will learn how to physically respond/react to a physical attack, which will include effective self-defense movements, and various types of strikes.

Art

■ Painting, Drawing and Calligraphy

2-D Artmaking and Mixed Media

What is Mixed media? Simply put, mixed media combines two or more materials within a piece of art. For example, many people conjure images of busy art covered with collages and objects; however, you could combine ink, watercolor, and acrylic paint, which would also be mixed media. The instructor will demonstrate diverse materials and techniques to provide the practiced artist and curious beginner with a fun, hands-on experience. These sessions are designed to be enjoyable and informative, the idea being to bring something home from each class and have exposure to creating art in a new way. Most classes run as a single session three-hour class, with two exceptions for two-session sections. The course’s progression is intentional for people wishing to take either one or multiple sessions.

Classic Roman Capitals

In Rome, the Trajan Column and its carved capital letters, is the foundation of calligraphic studies still to this day. The classic proportions of many alphabets derive from these well-proportioned symbols that have become our calligraphic touch stone. Some scribes spend a lifetime studying these beautifully formed letters. In this class we'll start our journey in Rome, and continue right up to modern time, using pencils and broad edged pens to learn these foundational, but very challenging letters.

LEI0102-002 Harper Main Campus

Independent Art Studio
This course is for artists wanting studio space to develop their artistic practice and explore their creativity self-directedly. You’ll have access to an area enabling you to pursue any project, if it is watercolor or acrylic paints based. You must bring your paintbrushes, art pencils, and mixed-media paper (no oil paints or spray paints/spray fix permitted in this classroom). Our artistic facilitator and artist peers will provide basic guidance. Such a setting will give you the peace to focus on skills development and creative exploration in a supportive and collaborative environment. Students will also learn how to maintain a successful artistic practice.

Artistic Welding
You may have walked through an art fair and seen ornamental metal sculpture. Some are on tall rods, some wave gracefully in the wind, while others are anchored in place by planters overflowing with colors. Here you will create elements of your own design in steel and copper to make your indoor or outdoor space as individual as you are. This class will provide you with user friendly instruction in steel handling techniques including MIG welding and plasma cutting. These are the easiest and the safest methods to learn. No previous welding experience is necessary, but basic welding safety will be stressed. The instructor will assist with welding parts of your project as necessary.

Beginning Glassblowing
The Beginning Glassblowing Class consists of the following items. Each person will get a tour of the Studio, Gallery and Hot Shop. A short explanation of Peter’s background in art and glass processes. You will also receive a Demonstration of a Blown Art Glass piece at the end of class. Each person can expect to make 8 - 12 pieces in this class. Each person will be able to pick out their own colors for their art piece. Each piece will use a different technique, we will also experiment with Specialty glass. We will start out making different paperweights to build your skills to be able to learn how to blow the glass. You will have the opportunity to blow several pieces, learning different shapes/sizes.

Classes are held at Patterson Glass, 888 Tower Road, Unit E, Mundelin, IL 60060.

LEI0116-001  Patterson Glass
10/25/23  WE  6:00 pm-10:00 pm
Instructor: Peter Patterson

Beginning Crochet
Crochet is a fun and versatile hobby that is portable, quiet, relaxing, and can be used to make gifts or simply for enjoyment! This class is for beginners who are wanting to learn and develop this rewarding skill. We cover the basics including beginning (chain stitch), single crochet, finishing and some useful tips and tricks. Students will learn these new skills while making coasters to take home- perfect for gifting or using in your home! Bring at least two skeins of worsted weight cotton yarn and an I/9 (5.5mm) crochet hook. No prior crochet experience is required for this class.

LEI0119-001  Harper Main Campus
09/15/23-10/06/23  FR  10:00 am-12:00 pm
Instructor: Suzanne Labowicz
TUITION & FEE: $125.00

Crocheting in the Round
Discover the world of amigurumi (stuffed crochet toys) by learning to crochet in the round! Learn how to make a magic circle, use stitch markers, increase and decrease stitches, and use stuffing. Students will make pumpkin-themed stuffed or flat creations to take home and decorate for fall. Bring at least two skeins of worsted weight acrylic or cotton yarn and an I/9 (5.5mm) crochet hook. Previous basic crocheting experience recommended.

Creating Art through Unconventional Photography

A well-known phrase is “a picture is worth a thousand words.” But what does that mean? And how can we use photography to make creative art photographs? Every environment and every moment offers infinite possibilities for creating compelling artistic photographs. The creative process requires visualization, connecting with our views of the world, and the art of seeing photographically. This course will cultivate our ways of seeing the world through experimentation, practice, and an overview of the history of art photography. The final product will be that each student will have at least one matted and framed image finished in the class.

Immersive Photography Experience: Street Photography in Downtown Chicago

Photography in Chicago can be the most rewarding experience for both amateur and professional photographers. Chicago has endless locations to photograph that are unique and worth capturing. And Chicago is well known for its diverse population, many well-known and famous photographers have developed their street and people portfolios in this city of characters... think of Vivian Maier, Victor Skrebneski, Gordon Parks, Garry Winogrand, and even as far back as Walker Evans. Throughout the many architectural marvels and its outdoor serenity, lakes, parks, and rivers, street photography in Chicago is an absolute delight for any photographer. This course focuses on city and urban street photography. The seven session course schedule includes four on-line instruction sessions interspersed with three on-location in Chicago class meetings. The course focuses on street photography but is broader than any singular theme and includes exploring the juxtaposition of life in the city.

Adobe for Artists

This course will help you acquire the knowledge and practical skills that you will need to utilize digital art software to create artwork in a digital environment. It focuses on discovering art elements and design principles while using Adobe software. It will also explore current and past trends in design. You’ll learn how to create digital images and graphics that express your artistic thoughts. Such skills can help you conquer challenges and enhance your message. In Photoshop, you’ll learn how to use brushes, color pickers, and layers; skills necessary for photo editing, photo manipulation, and digital composition. You’ll develop vector illustrations with Adobe Illustrator and layout concepts in Adobe InDesign and create professional presentations. The course gives the right tools and techniques to start with digital artwork. All artists and enthusiasts ages 15 and over are welcome.

Floral Design

Floral Design

See what is possible with a floral design! A wide range of possibilities, materials, and techniques are shown for each workshop. You do not need specific skills as we will create designs with low effort and high impact! The focus of these classes will be to transform the norm of traditional floral arrangements into designs that bring the WOW! Everyone will create and take home their arrangement and learn how to make an impact with fresh and preservable arrangements! With grocery store flowers ranging from $40.00 for a dozen roses to upwards of $100.00 for arrangements, learn the skills to turn every day into the extraordinary! Classes are offered to coincide with the upcoming seasons and holidays to add fun to the festivities! Bring your creations to someone as a gift, sign up with friends, or show them off in your own home! (cost examples from Mariano’s). The instructor will email students a week before the class with details of what we will create. Materials for all classes will be provided! In addition, the instructor will suggest any relevant additional materials if students are interested in providing alternatives. So bring yourself and leave with something beautiful!

Music and Dance Performances and Controversies at the World’s Columbian Exposition, 1893

The well-documented performances at the World’s Columbian Exposition of 1893 along Chicago’s lakefront and Midway Plaisance are well worth revisiting at its 130th anniversary. They offer a springboard for a deeper understanding of how dance and music from other cultures were perceived in the past and give valuable insights into lingering issues of colonialism, cultural appropriation, racism, and sexism that we still address. They also provide written and visual context to changes in performance styles and presentation of these dances and musical forms today; they are a historic reminder of important Chicago cultural icons developed directly from the fair.

Music

Music Classes

Blues Harmonica Fundamentals

Join with others to make music in a fun, welcoming environment. We focus on the basics from producing simple notes to understanding song form. Reading music is not required. You will learn basic harmonica chords, licks, and solo techniques while jamming together and receiving encouraging feedback and having fun socializing. You may repeat repertoire classes as needed. There are dozens of songs to learn at every skill level. Songs change from session to session. Students should bring a diatonic harmonica in the key of C. The Hohner Marine Band, Crossover, or Special 20 models are recommended.

Classic Rock Unplugged

You can play thousands of classic rock songs with the knowledge you gain from the Classic Rock Unplugged course because it is the quickest and most comprehensive way to learn all the skills, chords, licks, rhythms, riffs, and solo ideas you need. So let’s get together and play some classic rock tunes from the era, featuring the likes of Eric Clapton, the Eagles, the Beatles, and more. We’ll put together our own acoustic band by learning chords, riffs, and arrangements. If you have a solid grasp of the guitar’s fundamentals, this course is perfect for you. By the end of the course, you’ll be able to play the most essential guitar chords and play songs with impressive strumming techniques. Open chord fluency, tablature literacy, and the aptitude to pick up barre chords are pre-requisites. Students must supply their own instruments.

LMU0138-001 Harper Main Campus 08/21/23-10/16/23 MO 7:00 pm-8:00 pm Instructor: Michael Plantan
TUITION & FEE: $169.00

Fingerstyle Guitar

In this course, we’ll examine some fundamental fingerpicking patterns used throughout fingerstyle guitar. So, put down the pick and join us for some classical/fingerstyle guitar journey. A foundation in right-hand technique for the classical guitar repertoire is laid, as is its application to modern fingerstyle guitar arrangements and the genre’s use in popular music. You need to be familiar with open chords, have an understanding of tablature, and bring your own instrument.

LMU0139-001 Harper Main Campus 08/21/23-10/16/23 MO 6:00 pm-7:00 pm Instructor: Jeremie Witz
TUITION & FEE: $169.00

Guitar I

This class is for absolute beginners. Learn the essentials needed to begin playing acoustic, classical or electric guitar. You’ll be introduced to chords, simple strums, and tuning in a fun, laid back and supportive environment. Learn about the instrument, basic music theory, and elements of rhythm and harmony. We promise that you’ll be making music almost right away. Bring your own guitar, guitar picks, a spare set of strings, a three ring notebook and dividers, and your guitar book.

Learn the Music of John Prine

John Prine, a beloved Chicago singer-songwriter, created a wonderful world of songs with a few simple chords and ordinary words, full of memorable characters and stories that are at once funny, moving, thoughtful, deep, compassionate, heartbreakingly, and hopeful. His music will be studied in this course. The teacher will supply lyrics and chord charts, and you'll delve deeper into John Prine’s music each week. The course will also examine the distinctive strumming and picking patterns that he used on guitar to create some of his most iconic songs, such as ‘Angel from Montgomery,’ ‘All the Best,’ ‘Hello in There,’ and many more. Let’s get together and learn about John Prine’s music and honor his legacy. Feel free to bring a stringed instrument or just come to sing in honor of John’s brilliant career. To participate, you must bring your own instrument, know how to read tablature, and be comfortable playing open chords.

LMU0140-001 Harper Main Campus 08/21/23-10/16/23 MO 8:00 pm-9:00 pm Instructor: Michael Plantan
TUITION & FEE: $169.00

Piano Pleasure, Beginners 3 and 4

The Beginners 3 and 4 levels of Piano Pleasure will finish the Piano 101 Book 1 and begin Piano 101 Book 2. We will continue progressing through more complex staff reading and moving freely about the keyboard, technical skills such as scales, chords and arpeggios, and move into intermediate piano repertoire. Prerequisite Piano Pleasure Beginners 2 or approval of instructor. Instruction includes group activities and individual attention in our state of the art Yamaha Clavinova keyboard lab.

TUITION & FEE: $205.00

Music Ensembles

Back Porch Revue Ensemble

Join the ensemble that explores the music of the American South during the late 19th and early 20th Centuries: early blues and country music, old time, folk, spirituals and more. Looking for string instruments of all sorts: guitars, banjos, fiddles, ukuleles, bass, harmonica, etc., and hand drummers and singers. Players should be able to play in the keys of A, C, D, E, G, at a minimum. Reading music and improvising solos are pluses, but not required. Informal auditions are held during the first meeting. Members agree to perform in public at least twice per semester. For information contact Scott Cashman, scashman@harpercollege.edu.

LMU0013-028 Harper Main Campus 08/30/23-12/13/23 WE 7:00 pm-9:00 pm Instructor: Bekr Ali
TUITION & FEE: $35.00

Chamber Ensemble

This ensemble explores and performs repertoire from standard chamber music literature, folk melodies, compositions and arrangements from underrepresented musical cultures, and other repertoires from around the globe. It is open to ages 15 and above studying the violin, viola, cello, or piano. It offers a unique platform for encouraging young and new musicians to improve their musicianship while making new friends. Examples of chamber formations include string duo, trio, quartet, and a piano trio, quartet, and quintet. The ensemble performs at Harper College’s Performing Arts Center, with Dr. Chia-Ying Hsu as director.

LMU0129-004 Harper Main Campus 08/23/23-11/29/23 WE 2:00 pm-3:30 pm Instructor: Chia-Ying Hsu

Guitar Ensemble
Guitarists, here is your chance to play in an ensemble devoted to guitar music at its best. This group class will focus on performance techniques such as cueing, following a conductor and communication between players. Groups consisting of duos, trios, quartets and more will work together. Students must be able to read all the natural notes in first position and know C, G, D, A, E, a minor, e minor and d minor chords. At least one concert per semester will be presented by the group. Open to students age 16 and older.
LMU0004-018 Harper Main Campus 08/22/23-12/12/23 TU 4:30 pm-6:45 pm Instructor: Steve Vazquez TUITION & FEE: $125.00

Jazz Ensemble
The Jazz Ensemble is a traditional big band of 15 to 20 players who perform under the direction of renowned Chicago jazz trumpeter and vocalist Jeff Hedberg. Open to all Harper students regardless of major, faculty, staff and community members, the band performs a range of jazz music, from standards to contemporary hits. This course focuses on the study of the standard Jazz ensemble. It is an overview of various techniques and interpretation as applied to Jazz ensemble and performance. Each semester, the band performs a concert in the Performing Arts Center. The group participates in community events and tour performances and frequently features professional guest artists from the Chicago area. A limited number of combo performance opportunities are available to members. Increase your proficiency on an instrument or as a singer while enjoying the opportunity to learn and perform music from the classic jazz repertoire. Utilize sight reading and musicianship while enhancing your skills, musical understanding and enjoyment. An audition is required and is held at the first rehearsal of each fall and spring semester. Sight reading at an intermediate (High School Jazz Band) level is required. For more information and audition music, contact Jeff Hedberg at jhedberg@harpercollege.edu or call 847.925.6568.
LMU0015-020 Harper Main Campus 08/23/23-12/13/23 WE 7:00 pm-9:30 pm Instructor: Jeff Hedberg TUITION & FEE: $125.00

Jazz Lab Band
The Jazz Lab Band is a small jazz combo that performs a standard, professional jazz repertoire. Students practice improvisation and work on small group performance techniques. Each semester, the band produces a recording in a professional studio and performs a live concert in the Harper Performing Arts Center. Open to instrumentalists and vocalists at all levels. No audition is required, but please obtain the consent of the Instructor, Ken Spurr, prior to registering. Call 847.925.6568.
LMU0005-024 Harper Main Campus 08/23/23-12/13/23 WE 4:00 pm-6:30 pm Instructor: Darren Scorza TUITION & FEE: $125.00

Piano Ensemble
Provides students with piano proficiency the opportunity to perform in a chamber music ensemble. Stresses sight reading and musicianship. Develops skills, musical understanding, and enjoyment. May be repeated up to a maximum of four credit hours. Requires the consent of the instructor. This course is a performance based course. Ensemble members are required to attend each class, to rehearse their assigned music between classes, to rehearse outside of class time with their partner(s) or other ensemble members. The goal is to present a concert at the end of the semester in the Performing Arts Center which is well rehearsed, musically and artistically satisfying, challenging, entertaining and cohesive. Another goal is to present music which is well rounded and diverse in musical style and range of difficulty. There is an audition requirement to take the course. There is no required text for this course.
LMU0009-014 Harper Main Campus 08/23/23-12/13/23 WE 6:00 pm-8:00 pm Instructor: Janice L. Razaq TUITION & FEE: $125.00

R&B Ensemble
Each semester the R&B Ensemble focuses on the works of a different classic soul singer, writer, or label. Charts are provided for full band: singers, guitarists, horn and keyboard players, bassists, and drummers. Students can submit their own choices for songs to be learned and will gain experience in performing both old and current R&B standards. The emphasis is on style, melodic and harmonic textures, and rhythmic accuracy. Instrumentation: Bass, Drum Kit, Flute, Guitar, Piano, Saxophone, Trombone, Trumpet, Voice, Percussion.
LMU0014-006 Harper Main Campus 09/20/23-12/13/23 WE 6:30 pm-9:00 pm Instructor: Jeremie Witz TUITION & FEE: $225.00

Steel Band I
This is an intermediate group where most of the members have played in this band for several years. Students learn new pieces in a relaxed atmosphere and a group setting. Class time is also spent listening to current steel pan recordings and discussing the history of this remarkable family of instruments. By the end of the semester, students will be ready to perform with the steel band at the end-of-semester concert. Reading music equivalent to a high school level is a prerequisite. Permission from the instructor and an audition is required to join this group. Students must be 15 or older to enroll.
LMU0023-014 Harper Main Campus 08/23/23-12/13/23 WE 4:00 pm-6:30 pm Instructor: Paul Ross TUITION & FEE: $225.00

Steel Band II
Harper’s Steel Band II or intermediate steel band is available for students who have either taken Steel Band I, played in another steel band or have extensive experience on another instrument. Steel Band II is available for students who have either taken Steel Band I, played in another steel band or have extensive experience on another instrument. This ensemble will perform more involved compositions with more sophisticated musical arrangements that incorporate more difficult rhythms than Steel Band I. The goal of Steel Band II is to increase the amount and difficulty of repertoire and to prepare for the concert that takes place at the end of the semester. Permission by the instructor Paul Ross is required to join this group. He may be reached at pros@harpercollege.edu.
LMU0027-014 Harper Main Campus 09/19/23-12/12/23 TU 4:30 pm-9:30 pm Instructor: Paul Ross TUITION & FEE: $125.00
String Orchestra for Adults
Have fun playing in an ensemble for amateur adult string players. Open to violin, viola, cello, and string bass. This ensemble is for the relatively inexperienced player and music is chosen to accommodate the level of the participants. A concert will be presented by the group at the conclusion of the semester. Taught by Edgar Gabriel, well known Chicago classical and jazz violinist.

Introduction to South Indian Music

One of India’s two classical music traditions is called Carnatic Music, from South India. The tradition has ancient roots where vocal and instrumental styles have blended into a single music canon. Sculptors, painters, and authors of ancient Tamil and Sanskrit texts frequently depicted or wrote about this tradition. This course is designed for anyone who would like to learn about Carnatic music. Students will explore parallels with other global sounds and experience this tradition through various multimedia sources and text. Students are not expected to have any prior musical experience to enjoy the course.

Novel Writing
Writing Your Novel: How to Begin
Have you been talking about writing a novel ‘someday’? This workshop turns that ‘someday’ into ‘today!’ Come to class with an idea, an inkling, a character, a concept, or nothing at all, and we’ll work together to flesh out the story you want to tell. You’ll learn about the elements involved in shaping a compelling story, and we’ll get your creative juices flowing with in-class writing exercises. Then, we’ll come up with some first steps to bring your novel into existence, help you design a sustainable writing practice, and end the class with a plan (an outline, summary, synopsis, and/or the first couple chapters) for writing your first draft.
LLA0109-001 ONLINE-Live Meetings 09/13/23-10/18/23 WE 6:30 pm-8:30 pm TUITION & FEE: $289.00

The Art of the Tale
Tales: fantastic, sublime, grotesque, are among the oldest of story forms. International authors like Salman Rushdie, Akira Yoshimura, A.S. Byatt, and Terry Pratchett, and a generation of emerging writers borrow from the tale’s flexible structure and rich imagery to create dynamic “new” approaches to storytelling. Ready to explore the possibilities for your writing? Join us for a workshop that combines in-class exercises, readings, and lively discussions on craft. All levels are welcome.
LLA0110-001 Harper Main Campus 10/05/23-11/09/23 TH 7:00 pm-9:00 pm TUITION & FEE: $289.00

Writing a Novel in 30 Days Workshop: The NANOWRIMO Challenge

Writing a novel is a momentous achievement that can take years of work. National Novel Writing Month (NaNoWriMo) challenges you to create your first draft in thirty days. Is this possible? Yes! Every year, authors meet the challenge. Many turn their NaNoWriMo drafts into published books. Take the express route to achieving your authoring dreams with this accelerated novel workshop. We will review novel elements, participate in group critiques, experiment with creative writing exercises, and take advantage of in-class novel writing time. From novel planning, to writing, to next steps, this class will help you reach your goal.

Not sure about your novel plans? Already started (or stalled on) a novel? No problem! Students come to this class with varying levels of preparation and goals. Whether you have no idea what to write or you have already started (or nearly completed) a novel, this class will help you boost your writing speed, creativity and confidence. Experience the camaraderie and inspiration of writing with your classmates in this unique atmosphere, and feel the exhilaration as your dreams become reality.

### Screenwriting

**Introduction to Screenwriting**

Do you have an excellent idea for a movie but don’t know how or where to start? If you answered yes, then this class is for you. We’ll explore industry standards and standouts as we examine screenplay, form, structure, and genre to help you hone your ideas. You’ll learn story structure and the elements required to write a script utilizing industry-standard best practices and get started writing your first draft. Scenes from your screenplay will be work-shopped in class, where you’ll get to hear them read aloud and receive feedback from classmates. By the end of the course, you’ll have a firm understanding of how to write a full feature. Students should have basic computer skills.

■ Boating

Boating Skills
This introduction to the safe operation of sail and power watercraft is presented by Fox Valley Power Squadron. Topics include: boat handling under normal and adverse conditions, navigation rules and aids, knots and lines, nautical charts, basic piloting techniques, docking, proper use of the marine radio, trailering, safety equipment, personal watercraft usage and relevant state and federal regulations. Course meets standards of National Association of State Boating Law Administrators, includes proctored exam as required by many states and insurance companies for youth/adult certification (for operation of motor driven watercraft without adult supervision) and discounted insurance rates. Includes all materials.

TUITION & FEE: $99.00

Introduction to Woodworking
The skills you learn in this class transfer between fine woodworking projects. You will develop basic knowledge of wood materials, products for construction, framing, and safety as we cover techniques for measuring, layout, and the use of hand tools. After demonstrations, you will also use portable power tools.

TUITION & FEE: $299.00

Baking and Cooking

Cake Decoration
Create beautiful cakes for all occasions. Try your hand at creating fancy cake borders, flowers to adorn your cake, sugar molding and much more. Work with both buttercream and royal icings plus chocolate paste and rum sugar using the tools of the trade.

TUITION & FEE: $409.00

Garde Manger
Provides students with skills and knowledge in the preparation of cold hors d’oeuvres, sandwiches, salads, garnishes, pates, terrines, mousses, vegetable carving, chaud froid sauce, tallow and ice carving. Should have experience in food preparation.

TUITION & FEE: $275.00

■ Do It Yourself and Woodworking

Bicycle Maintenance Basics
This class will cover cleaning and lubing, basic eight-point inspection, flat repair, gear and brake adjustments, and wheel truing on and off bike. Bring your bicycle to class and get hands on experience. Additional material will be handed out in class. Tools and all cleaning supplies are provided. Rene Lawell is a long time bike enthusiast and first worked in a bicycle shop 35 years ago to help fuel her passion.

TUITION & FEE: $69.00

Welding Fundamentals
We will utilize a user friendly approach to introduce you to a potentially intimidating craft. You will practice various steel handling techniques, including MIG welding and plasma cutting, as we stress basic welding safety. You will complete a project which utilizes your new skills and allows you to develop a basic comfort level with welding and project work.

TUITION & FEE: $299.00

Electrical Repair
It is shocking, but true: you can easily handle your own minor electrical repairs. If you do not want to pay an electrician hundreds of dollars you can learn to safely test and replace light switches, outlets, light fixtures, and ceiling fans. Be trained in the basics of home electrical systems and how you can make informed decisions concerning repairs, purchases and maintenance. This presentation is taught by Ernie Hagenow Jr., a licensed electrician and president of Genuine Electric, Inc., a local contractor.

TUITION & FEE: $99.00
Introduction to Baking
This course is designed to educate students in the art of Baking. Students will learn the basics of mixing, and be introduced to the baking techniques necessary for cakes, cupcakes, fillings, and American buttercream. Students will learn how dairy, fruits, flour and chocolate come into play with baking. Custom decorated cakes and cupcakes are highlighted. In addition, students will be introduced to decorating techniques and the use of baking tools. This course includes classroom instruction and hands-on experience in the kitchen on campus.

LFS0063-002 Harper Main Campus
08/23/23-09/13/23 WE 6:30 pm-9:00 pm
Instructor: Lesliee Cimo
TUITION & FEE: $199.00

Baking II
After completing Intro to Baking, students will enhance their baking skills with an assortment of topics, such as quick breads, sugar cookies, and royal icing. Students will have the opportunity to revisit the art of cake making from the first lesson and accelerate into increased hand-on experience and advanced decorating techniques. We will focus on more complex recipes and learn how to make a mokk Swiss meringue frosting. There will also be more focus on fillings and how to achieve a smooth and silky pastry cream. This class is for the individuals who want to push themselves and achieve the type of cakes and cupcakes you see in pictures.

## Nutrition

Digital Badge in Nutrition, Chronic Disease and Health Promotion

Understanding the role of food and water, and making appropriate changes in one's diet can have powerful effects, both positive and negative, on health throughout life. The burden of chronic diseases is rapidly increasing worldwide as traditional, largely plant-based diets are quickly being replaced by high fat, energy dense diets with a substantial content of animal-based foods. This digital badge addresses these issues and more and provides a solid foundation of knowledge and information to support individuals who wish to enhance their own well being as well as health care professionals who wish to evolve in their profession.

LPL0007-011 ONLINE-Self Paced
09/05/23-12/05/23
TUITION & FEE: $105.00

### Online Self-Paced Food, Nutrition and Health Digital Badge

Food and nutrition have a profound impact on people's health and well-being, yet many people are not aware of what foods to eat, which diets are healthy, and where their food originates. The goal of this course is to provide a holistic overview of current food and nutrition issues and their impact on physical, social, emotional, and spiritual health.

Throughout this course, you will become more conscious of what you eat, why you eat it, how it is prepared, and what consequences your food choices have on your health as well as the health of the planet.

## Wine Appreciation

### How to Taste Wine

Part One: The perception of color in wine: What it tells you about the wine and how it influences your taste

Part Two: The aromas in wine: How to train yourself to enhance your ability to perceive them and identify them. Learn to recognize how the wine was made and what grape or blend was used.

Part Three: The taste components of wine: Learn how to evaluate with accuracy the texture of a wine and use that knowledge to pair wine and food more efficiently.

LFS0003-003 Harper Main Campus
08/24/23-09/07/23 TH 7:00 pm-9:00 pm
Instructor: Marcel G. Flori
TUITION & FEE: $139.00

### Wine and Cheese Pairings

Wine and cheese are natural partners but some pairings can be disastrous while others can bring out the subtle beauty of taste in each. You will prepare you for making the appropriate pairings with various wines. You will taste a variety of both wine and cheese while developing your understanding of both. You will then be able to create the wine and cheese experiences you seek in a variety of settings. Students must be at least 21 years old to enroll.

### Series: Wines of Italy

Join award winning wine sommelier Marcel Flori on a virtual tour of Italy through its regional wines. This series course enrolls you in each of the Wines of Italy courses in this semester: Northern Italy, Northeastern Italy, Central Italy and Southern Italy. Each class includes a tasting. Students must be 21 years of age or older to enroll.

LFS0032-003 Harper Main Campus
10/05/23-11/30/23 TH 7:00 pm-9:00 pm
Instructor: Marcel G. Flori
TUITION & FEE: $340.00

Wines of Italy: Northern Italy

Marcel Flori will show you how to navigate the great variety of Italian wine. Northern Italy is primarily known for its red wine though there are some whites to discover. Some of the most well known reds include Nebbiolo and Amarone. You will get to know the Piedmont region where Barolo and Barbaresco command a high price tag. The same regions’ Dolcetto and Barbera come at a relatively better price. Valpolicella is both a distinct viticultural wine and wine. You will also try some very drinkable white wines. The omnipresent Chardonnay is present though not thought of as the highest quality in Italy. Gewurtztraminer isn’t always German but is of good quality in Northern Italy. Piedmont enters the white discussion with its sweet and popular Moscato which can be either a still or sparkling wine. Students must be at least 21 years of age or older to enroll. Each week features a tasting.

LFS0033-004 Harper Main Campus
10/05/23-10/12/23 TH 7:00 pm-9:00 pm
Instructor: Marcel G. Flori
TUITION & FEE: $99.00

Wines of Italy: Northeastern Italy

You will continue to explore Marcel Flori’s ideas about the wine of Italy as you focus on Northeast Italy. Fine, elegant whites from Alto Adige compliment the fuller examples in Friuli Venezia Giulia, where there are interesting local varieties along with the expected international varieties. This is also the land of perhaps Italy’s finest sweet wines. Finally, each of the three provinces have high quality reds. You can find Cabernet Sauvignon, Merlot and Pinot Nero but, originality comes from the native grapes: Corvina Valpolicella, the powerful Amarone, Lagrein and Teroldego and the previously obscure Pignolo and Schiopettino. Students must be 21 years of age or older to enroll. Each week includes a tasting.

LFS0034-003 Harper Main Campus
10/19/23-10/26/23 TH 7:00 pm-9:00 pm
Instructor: Marcel G. Flori
TUITION & FEE: $99.00

Wines of Italy: Central Italy

It is in Central Italy that you will discover Chianti, home to the Brunello wines and the Super Tuscan. Sangiovese is the superstar grape of this region. With all this star power comes the classic straw covered bottles of Chianti in the blending recipe for Chianti. This creates some of the variability in styles among Chiantis. Lighter bodied styles have a higher proportion of white grape varieties blended in, while red Chiantis are fuller and richer. Super Tuscan is an unofficial classification that started as a reaction to mandatory red/white blends. Their Sangiovese/Cabernet Sauvignon blends were coveted. Let Marcel Flori untangle this web for you while you taste the best the region has to offer. Students must be 21 years of age or older to enroll. Each week features a tasting.

LFS0035-004 Harper Main Campus
11/02/23-11/09/23 TH 7:00 pm-9:00 pm
Instructor: Marcel G. Flori
TUITION & FEE: $99.00

Wines of Italy: Southern Italy

Southern Italy is known for its archaeology and wine. Long ago Greeks brought non native grape varieties to this region creating one of the greatest areas of diversity on the earth. Fiano is a creamy white. Greco is another white that thrives in the south. Aglianoico is a red, once saved from extinction, that is now known for its aging potential. Gaglioppo is a ruby colored red while Negroamaro is known as the ‘bitter black’. Primitivo might be a relative of California’s Zinfandel and is one to this regions most popular varieties. Students must be 21 years of age or older to enroll. Each week features a tasting.

### Makerspace Workshops

**Getting Started with Arduino**

Learn the basics of Arduino Hardware. Using the IDE, software development and interfacing. We will combine lecture and multiple hands-on mini projects to work with digital and analog interfacing examples. Note: This is not a “C” programming course, and we will edit sample programs to complete the projects. Some programming experience would be helpful.

**LMK0047-010** Harper Main Campus 09/19/23 TU 6:30 pm-8:30 pm  
TUITION & FEE: $25.00

**LMK0047-011** Harper Main Campus 11/07/23 TU 6:30 pm-8:30 pm  
TUITION & FEE: $25.00

**Arduino Motor Controller**

Learn how to control servos, DC motors and stepper motors with an Arduino computer. We will explain how these devices work and how to select an appropriate driver. Then we will complete a mini project to build an interface and complete the software to operate the device. Note: Some Arduino experience is required and knowledge using the IDE.

**LMK0084-010** Harper Main Campus 09/21/23 TH 6:30 pm-8:30 pm  
TUITION & FEE: $25.00

**Arduino Program Wearable LEDs**

Learn the basics of programming and how to program Wearable LEDs in any color of the rainbow using an Arduino IDE microcontroller. Your expert instructor will lead you through hands-on exercises to give you the skills needed to program and control the LEDs, a one-of-a-kind accessory. You will be provided hardware to use in class: an Arduino Uno equivalent computer, a 12-LED ring, a USB cable and the programming tools and examples used in class. Additionally, a copy of the slides and a list of resources to purchase additional materials will be provided.

### Paranormal Studies

**Occult Aspects of the UFO Enigma**

Join thirty-year paranormal investigator, historian, and author Ursula Bielski for a look into the strange personalities and practices behind the UFO enigma. We’ll look at the ties between Alistair Crowley, L. Ron Hubbard and Jack Parsons—the brain trust of the Jet Propulsion Laboratories. We’ll look at how some of the most compelling phenomena of the UFO movement—including the explosion of ‘contactee’ and ‘abduction’ experiences—were reportedly initiated by Ouija boards and ancient conjuring. And we’ll delve into the shrouded myth of the so-called Collins Elite: a group of government agents who reportedly vowed to stop the American government from a diabolical pact with fraudulent extraterrestrials.

**Spectral Studies by Renowned Paranormal Expert Ursula Bielski**

Don’t miss your chance to add some spirit to the season with our new paranormal classes taught by Ursula Bielski, the founder of Chicago Hauntings, Inc. and the host of PBS “The Hauntings of Chicago” (WYCC). An historian, author, and parapsychologist, Ursula has been writing and lecturing about Chicago’s supernatural folklore and the paranormal for nearly 20 years, and is recognized as a leading authority on the Chicago region’s ghostlore and cemetery history. She is the author of ten popular and critically acclaimed books, including the Chicago Hauntings series and Graveyards of Chicago.
How to Buy a Vacation Home or Retirement Property

Ready to spend some time in the sunshine, or ski slopes or the beach? Learn the best way to purchase your second home or vacation property in this course. Discussion will include learning to make owning your second/retirement home a reality. During the class, we will also go over the minimum down payments, credit requirements, affordability and the underwriting criteria needed for your purchase. This is not a class on buying or renting a timeshare.

Career Skills Classes

Career Skills Institute I

The Career Skills Institute provides an educational experience for students with mild cognitive disabilities, age 18 and above. Acceptance into the Institute is required prior to registration. The first semester program is composed of three modules: self-advocacy, fundamentals of reading, and arithmetic of whole numbers. The modules are designed to build skills that will create success in the workplace. The advocacy module identifies personal strengths to increase self-efficacy relative to persistence and responsibility. The reading module includes fundamental skill development designed to improve comprehension in a typical workplace setting. The arithmetic module covers reading and writing whole numbers and operations including addition, subtraction, multiplication and division. Please contact Eric Wiebe at we38933@harpercollege.edu for detailed information on this class.

Career Skills Institute III

Career Skills Institute III is composed of 3 modules: Career exploration, employment/life survival skills, and workplace communication. These modules are designed to build skills that will create success in the workplace. Students will learn self-assessment of career interests and qualifications, interviewing skills, and use of written and spoken communication in the workplace. Career Skills Institute III builds on skills the students have mastered in the first two semesters. Acceptance into the Institute and completion of LDD8001 and LDD8002 (or equivalent as determined by the program coordinator) is required for registration. Please contact Eric Wiebe at we38933@harpercollege.edu for detailed information on this class.

Card Making Using East Asian Motifs

Educator Yvonne Wolf takes attendees to expand cardmaking experiences to East Asia. First, she will give a brief understanding of three principles of order in the East Asian world. After applying these principles in Asian architecture, seasons, and two positive characters, attendees are invited to make five different blank greeting cards and envelopes using templates, scissors, and glue. This experience will enrich your future exploration in the East Asian arts.

Genealogy

Writing Family History for the Nonwriters

We all have family stories that give insights into the lives of our ancestors. Some are entertaining, others celebrate our cultural heritage, and others are more historical. We need to save all of them. So they can accurately pass them down to future generations. If you fear writing, this program will help overcome your fears. It will discuss a process that makes transforming your genealogy efforts into a written family history all your family can enjoy. Try this method to easily save your information and see your ancestor’s memories “come alive.” If you do not preserve the memories and stories of your ancestors for future generations, who will?

History

A Bite of History of Chinatown: Arriving in San Francisco

The history of any Chinatown in the US is rich with immigration legal difficulties, Chinese food history, illicit opium and gambling activities, and unconventional family ties. The history of San Francisco Chinatown embodies all these dramatic elements and more. Educator Yvonne Wolf will give a brief history of San Francisco Chinatown starting with how Chinese immigrants were impelled to leave China in mid-1800s, how they skirted around The Chinese Exclusion Act after 1882, and what they contributed to the greater American cultural history. Join Yvonne in taking a journey back in time to Old Gold Mountain.

Living Behind the Iron Curtain

Pursued by the Americans and British from the West and Soviet forces from the east, Nazi forces in Europe were in retreat by early 1945. Areas occupied since 1940-41 found themselves freed from Nazi control and oppression. Nations in Eastern Europe - Poland, Czechoslovakia, Hungary, Romania and Bulgaria - were liberated by the Soviet Red Army. After the war ended, the Soviets remained in these countries longer than expected. By the late 1940s, most of Eastern Europe was cloaked behind what would become known as the Iron Curtain. What was is like to live behind the Iron Curtain? Alina Warner shares from her experience as a child growing up in Romania, witnessing the isolation of the people and the hardship of the totalitarian regime. As a teenager she remembers living through the 1989 Revolution that freed the people from the dictatorship of Nicolae Ceausescu. That was the spark of her desire to reach the ‘free world.’ The session will end with a Q&A.

The Yin and Yang of Mindfulness

Mindfulness is often explained as having far-away Asian roots embedded in the past. Yet there are many accessible examples of yin and yang that you can find in contemporary life. Join cultural educator Yvonne Wolf to learn the basic principles of Daoism, the balance of the two energies, yin and yang, and the visible versus the invisible energies. Then experience mindfulness practice with these principles in mind. Participate in light stretches as you reach for the positive and let go of the negative. This workshop involves a low range of physical motion. Depending on the weather, this workshop will be held in a classroom with a window facing room.

The Presidency of Harry Truman

He was a compromise candidate for Vice President. FDR met with him twice once he began his fourth term. He inherited a Cabinet dedicated to continuing FDR’s policies and burnishing FDR’s image rather than helping a new President. He faced an unending series of critical issues demanding accurate decisions. He fought for what he believed to be correct regardless of the political consequences. He left office with a low approval rating and poor grades from political analysts and American historians. And yet he has come to be recognized as one of our 5 best Presidents.

Extreme Hauntings in American History

America has no shortage of true hauntings among the nation's colorful supernatural tales, but some of these authentic tales are deeply disturbing, featuring phenomena far beyond ordinary ghost stories. Talking animals, disembodied voices, 'hands of death,' letters dropping from thin air, and even a pair of phantom hair clippers that terrorized a tiny West Virginia town: These and other bizarre incidents will keep you up long after class time when you explore the strange world of extreme hauntings with ghostlorist Ursula Bielski.

Situational Spanish

This Spanish course is a one hour class that meets once a week, for eight weeks, and will provide the student with the ability to use their original thoughts to express their needs and wants, in the Spanish language, using basic inter-communicative skills (BICS). The lessons are tailored to provide the student with situational opportunities to use the Spanish language. The structure utilizes phrases, vocabulary, and oral practice that are useful in everyday activities, and especially at particular situations outlined in the theme for each weekly meeting. Students will have an opportunity to develop their own dialogues working in pairs using the materials learned in the lessons, and become familiar with basic usage of Spanish to express their wants, preferences, and needs in a fun and interactive manner. This is an 8 week course.

Science and Technology

Ai Artificial Intelligence
How this Technology Became a Household Topic

The beginning of Ai can be traced to the early 1950’s when programmers made checkers and chess playing computers. Then came Shakey, the first Ai robot which was basically a box on wheels. What are some other Ai breakthroughs? What is the current status of Ai development? What do scientists envision for the future of Ai? This course will present a timeline on the scientific development of artificial intelligence and uses in our world.

Stem Cells from Our First Discovery to Current Applications in Medicine

Science and the medical field discovered the unique aspect of what we now call stem cells. We have learned these cells have the capability to become specific cells for organ and tissue repair and treatment of diseases and conditions through their naive cellular beginnings. The discovery and the research and testing have provided us with a new flexibility for treatment and even cures. However, this discovery has been marked with very crucial social and ethical debates. This course will cover the first discovery and the ethical issues as well as the current and potential medical applications in the future.

Race to the Moon Project Mercury

Project Mercury was the first manned space program in the United States. These early space missions taught NASA many important lessons—how to reach orbit, how man can survive and function while in orbit, and how to both launch and recover astronauts and their vehicles. From 1958 to 1963, NASA conducted 20 unmanned test flights and 6 successful manned flights. Find out what the objectives and goals of the Mercury Program were and its importance to landing man on the moon. Join us as we discuss these missions, the original 7 astronauts nicknamed the Mercury 7, and find out why they truly had ‘the right stuff’. This will be a hybrid class offering from Rock Valley College and the first in a series of three classes.

Say Sí to Success
Earn the Conversational Spanish Digital Badge
Understanding and speaking Spanish has become increasingly important in the job market. Many employees see these skills as a preferred or even a necessary job requirement. Proficiency in Spanish might give you that complete advantage as you seek your next job or promotion.
Completion requirements:

- Conversational Spanish I
- Conversational Spanish II
- Conversational Spanish III
- Conversational Spanish IV
- Digital Badge in Spanish - Online Component

The Spanish

Conversational Spanish I
Conversational Spanish I is for beginners. Start with the alphabet, numbers and greetings to learn the essentials of pronunciation as well as basic grammar and vocabulary needed to greet people, talk about yourself and express needs. By the end of the course you will have some knowledge of the culture and should be able to speak at least 10 percent of your conversation in this language.

Conversational Spanish II
After you complete Conversational Spanish I, or if you learned basic skills in this language from prior study, take Conversational Spanish II. You’re comfortable with some grammar and especially present tense. Now learn how to communicate what you have done via past tense. Build on your basic linguistic skills as you explore more topics related to life and travel. By the end of the course you will possess an increase in ability to speak the language, from 10 percent to at least 25 percent of your conversation.

Conversational Spanish III
You’ve completed Conversational Spanish I and II or from another program you’ve become comfortable engaging in a simple dialogue by using proper grammar with present and past tense. Enroll in Conversational Spanish III for proficiency in past tense and begin to learn future tense. By the end of the eight-week course you will be comfortable in conjugating new words and you should be able to compare how your knowledge in the language grew from 25 percent to at least 45 percent of your conversation.

Conversational Spanish IV
Complete the lessons and build upon the fundamentals you’ve learned with longer dialogues and translations in Conversational Spanish IV. At the end of this course you should feel superior to your initial skill by now speaking at least 70 percent of the language during conversations. Follow up Conversational Spanish IV with the immersion environment of a Discussion course to hone your skills and avoid losing what you’ve gained in your language studies.

Digital Badge in Spanish - Online Component
This component of the Digital Badge in Spanish incorporates audiovisual exercises, quizzes, and tests to hone speaking, listening, reading and writing skills via an online multimedia Supersite. Instructor works with you in the background assigning, correcting, and providing feedback. This course requires enrollment in Conversational Spanish I, II, III or IV each time, and cannot be taken alone. The purchase of a Supersite Plus Code is required to access the online site for assignments. Attendance to an orientation session is mandatory where course requirements will be explained.

Spanish

Spanish for Medical Professionals
Are you frustrated by the communication gap that can occur between you and your Spanish speaking patients? This Spanish class, designed specifically for healthcare professionals, will help you bridge that gap. Practice the basic, practical language skills needed to effectively communicate with your Spanish speaking patients and their families. Learn the basics, gain an understanding of the culture, and know how to ask the questions crucial to quality healthcare. For those who speak some Spanish and need a refresher or speak no Spanish, you will gain the skills to effectively communicate with your Spanish speaking patients.

Spanish incorporates audiovisual exercises, quizzes, and tests to hone speaking, listening, reading and writing skills via an online multimedia Supersite. Instructor works with you in the background assigning, correcting, and providing feedback. This course requires enrollment in Conversational Spanish I, II, III or IV each time, and cannot be taken alone. The purchase of a Supersite Plus Code is required to access the online site for assignments. Attendance to an orientation session is mandatory where course requirements will be explained.

Youth Music

Broadway Musicals (Ages 8-15)

This course will cover the most influential musicals of the 20th and 21st Century and how they influenced the musicals of today. We will learn the roles and jobs that work together to create a production and try our hands at playwriting and design. In addition, each student will choose to present either a report on a favorite musical and/or a solo performance of a song from a show. The presentations will be viewed by the class on our final day.

LMY0037-025    Harper Main Campus
08/26-12/16/23  SA  11:00 am-12:30 pm
Instructor: Zarui Vardanean
TUITION & FEE: $325.00

Fiddle Violin for Kids

In this friendly and supportive group atmosphere, children will learn how to play the violin that is rooted in folk traditions. The repertoire emphasizes social music-making, learning by ear, and our methods follow best practices in active music education. Your children will learn how the violin is held and how a bow is balanced to achieve a pleasing sound. They’ll also learn how to care for their instruments. Children will need to rent a fractional violin sized for your child, from The Strings Project in Palatine. You can also pick up rosin, shoulder rest sponges, and practice books. To inquire about what violin size students must bring in, please contact Mr. Gabriel at gar@ameritech.net.

Group Preparatory Strings, 50 Minutes for 15 Weeks

This private and group instruction bundle combines group and private instruction for children ages 6 to 15. Group lessons offer peer reinforcement, social interaction, ensemble experience, and group activities. Private lessons provide individual attention for technical development and interpretive and expressive insights. By combining these two approaches, you receive a comprehensive 15-week curriculum. Participate in one 30-minute private lesson and one 50-minute group lesson each week. Students are grouped according to age and level. Instructors will use the Associated Board of the Royal Schools of Music – ABRSM theory Method, delivering over 650000 music exams and assessments annually in 93 countries. Students learn music reading, rhythm, theory, listening skills, finger and hand development, improvisation, and composition through fun classroom activities. Children progress through varied and progressive musical repertoire from leading contemporary and traditional classical composers.

LMY0134-001    Harper Main Campus

Students learn music reading, rhythm, theory, listening skills, finger and hand development, improvisation, and composition through fun classroom activities. Children progress through varied and progressive musical repertoire from leading contemporary and traditional classical composers. For more information contact us at cmad@harpercollege.edu.
Benefits of Music Education for Children

Why study music?
The benefits of studying music are many and extend well beyond the joy of learning an instrument, particularly for young students. Participation in musical activities has been found to enhance:

Intellectual and Cognitive Growth
- Through music experience, the learner is involved in perceiving, making judgments and comparisons, evaluating, analyzing and synthesizing, creating and reflecting.

Creativity and Self Expression
- Music is an essential way of communicating ideas and feelings with other people, developing a better understanding, appreciation, and perception.
- Music education engages and enhances imagination

Coordination
- Playing musical instruments can improve gross motor skills, hand-eye coordination, balance and enhance long-term memory and recognition patterns.

Social Skills
- Social behaviors such as cooperation, collaboration, team-building, and sensitivity to social and cultural beliefs and practices are promoted.
- Personal growth, such as self-discipline, self-esteem, independence, and self-knowledge, are also addressed.

Retention
- Studies over the past 20 years have shown that students who study music achieve better in mathematics, reading, and learning foreign languages.
- The ability to listen actively is a benefit in all subjects.

CMAC’s Fundamental Beliefs
- Music Education is preparation for life.
- Music Education is a lifelong process.
- Everyone can engage with and enjoy music.

Youth Brass Ensemble
The Youth Brass Ensemble is a performance group for Middle and High School Brass players to get excited about making music specifically for their instrument family. Members of the group will learn inspiring lessons, make musical connections, and enjoy performing in public.

TUITION & FEE: $245.00

Youth Chamber Ensemble
This ensemble explores and performs repertoire from standard chamber music literature, folk melodies, compositions and arrangements from underrepresented musical cultures, and other repertoires from around the globe. It is open to all children 14 and younger studying the violin, viola, cello, or piano. It offers a unique platform for encouraging young and new musicians to improve their musicianship while making new friends. Instructed by Dr. Chia-Ying Hsu, the ensemble performs an original Suzuki repertoire. The program is energetic, diverse, and focuses on a collaborative atmosphere that emphasizes teamwork. The Suzuki Method Class performs at Harper College’s Performing Arts Center. Beginners are especially welcome.

TUITION & FEE: $245.00

Visit CE.HARPERCOLLEGE.EDU for latest course information.
Youth String Orchestra

The Youth String Orchestra is open to all children, 18 or younger, studying the violin, viola, cello, or bass. It offers a unique platform for encouraging young and new musicians to improve their musicianship while making new friends. Conducted by Dr. Chia-Ying Hsu, the orchestra performs an exciting repertoire. It explores the standard string orchestra literature, folk, ethnic, and global musical traditions and cultures, including compositions and arrangements from underrepresented communities. It is an energetic, diverse, collaborative, and unique ensemble that emphasizes teamwork. The Youth String Orchestra performs at Harper College’s Performing Arts Center. No auditions are needed; however, a note from the instrumental teacher is encouraged.

Sylvan ACT Exam Prep

It’s proven that students can increase their ACT scores in a matter of weeks. Harper partners with Sylvan Learning to offer the ACT exam prep at Sylvan locations within the Harper community. With small group instruction, practice tests, and the SylvanPrep online tool, students cover all areas of the ACT exam. Sylvan guarantees increased scores when students attend a minimum of 80% of scheduled in-class time and complete eight hours of online instruction. Students are awarded six complimentary hours of Sylvan instruction if they do not meet this goal. Prerequisite: LAS 0003 ACT/SAT Practice 101.

LAS0003-082  Sylvan LRC
09/16/23  SA  10:00 am-1:00 pm
Instructor: Ken Frysztak
TUITION & FEE: $20.00

Sylvan SAT Exam Prep

It’s proven that students can increase their SAT scores in a matter of weeks. Harper partners with Sylvan Learning to offer the SAT exam prep on the College campus. With small group instruction, practice tests, and the SylvanPrep online tool, students cover all areas of the SAT exam. Sylvan guarantees increased scores when students attend a minimum of 80% of scheduled in-class time and complete eight hours of online instruction. Students are awarded six complimentary hours of Sylvan instruction if they do not meet this goal. Prerequisite: LAS 0003 ACT/SAT Practice 101.

LAS0003-027  Sylvan LRC
10/08/23-11/19/23  SU  2:00 pm-6:00 pm
Instructor: Ken Frysztak
TUITION & FEE: $589.00

PRIVATE MUSIC LESSONS

Registration for private music lessons is open throughout the year - for more information call 847.925.6659.

Details can be found in the Music, Arts & Writing section, p 46.

ACT/SAT Practice Test

In this three-hour prerequisite class, students take a full-length ACT or SAT practice exam to establish their baseline score. Sylvan analyzes the score, reviews the results with students and parents, and makes recommendations about preparation options. If a student would like to take both the ACT and SAT in a Practice 101 class, they should enroll in two separate ACT/SAT Practice 101 classes. Students must complete a Practice 101 class to be eligible to enroll in an ACT or SAT Exam Prep course. Classes may meet at Sylvan Centers in Schaumburg or Lake Zurich.
Mrs. Fanella has plans to scare up some really spooky treats and ghoulish mouth-watering recipes in this Halloween themed cooking class. Come ready to create scary appetizers and desserts designed to make you shriek with excitement. Halloween costumes are encouraged, but make sure they are safe for the kitchen and cooking. No Halloween masks allowed.

REACH FOR THE SKY WITH A CAREER IN AVIATION!

Are you interested in becoming a professional or recreational airplane pilot? Aviation is a fast-growing area with many types of jobs available. View our classes conducted by the professionals at the Illinois Aviation Academy.

EXAMINE CAREERS IN AVIATION
In this class you will examine what is involved in each of the areas of aviation including: pilot training, aviation maintenance and aviation management. But you’ll get even more out of this workshop.

AVIATION GROUND SCHOOL
This aviation class will allow students to learn about aerodynamics, weight and balance, aviation weather, regulations, and human factors at the Harper College Campus. Further exploration will take place on field trips to DuPage Airport where students will sit in aircraft to learn about aircraft systems and flight controls, visit the control tower to see how ATC works then fly flight simulators.
