LIFELONGLEARNING (50+)

ONLINE+IN-PERSON

LIFELONG LEARNING INSTITUTE (LLI) CHAUTAUQUA FRIDAY, AUGUST 25, 1:00 PM – 5:00 PM

Brian "Fox" Ellis will host the first Harper College Lifelong Learning Institute Chautauqua. What is a Chautauqua? It began as an education and social movement that was popular in the late 19th and early 20th centuries. They brought entertainment and culture into a program that sought to spread knowledge and foster discussion through the whole community, with speakers, teachers, musicians, showmen, preachers, and specialists of the day.

The LLI Chautauqua 2023 will take place in the Amphitheatre of the Wojcik Conference Center (Building W) on Friday August 25 starting at 1:00 pm. We'll start off the day with a set by Harper's Back Porch Revue. Then you'll hear presentations from Carl Sandburg and Bob Dylan; 2 icons from our folk music past. This is an event not to be missed and we'll even serve snacks in the afternoon!

Open to the public. Tuition: \$49.00. LLI Members receive a 50% discount. Visit harpercollege.edu/IIi to register.

FITNESS AND WELLNESS CLASSES IN THE HEALTH AND RECREATION CENTER – BUILDING M

Through a partnership with Palatine Park District, fitness and wellness classes will now be offered through the Community Education Department in Building M. The Foglia Foundation Health and Recreation Center was fully renovated in 2018 and features excellent facilities and programming.

A sample of the classes to be offered includes:

- Fencing
- Zumba
- Qiqonq
- Judo

WRITE A NOVEL IN 30 DAYS WORKSHOP: THE NANOWRIMO CHALLENGE

National Novel Writing Month (NaNoWriMo) challenges you to create your first draft in thirty days. Is this possible? Yes! Many turn their NaNoWriMo drafts into published books. Take the express route to achieving your authoring dreams with this accelerated novel workshop. We will review novel elements, participate in group critiques, experiment with creative writing exercises, and take advantage of in-class novel writing time. From novel planning, to writing, to next steps, this class will help you reach your goal. Students come to this class with varying levels of preparation and goals. Whether you have no idea what to write or you have already started (or nearly completed) a novel, this class will help you boost your writing speed, creativity and confidence.

Learning never ends at Harper College! Whether you're seeking to achieve a career goal, speak a new language or embrace the arts, our Community Education fall offerings will support your personal and professional growth. I'm excited to highlight a few upcoming opportunities:

Google Career Certificates: Harper has been awarded the opportunity to participate in Google's Professional Certificates learning initiative. Give your career a boost by earning a certificate in Data Analytics, UX Design, Project Management, IT Support, Android Development, and Digital Marketing & E-commerce. These self-paced online training courses are available at no cost through December 2024.

Reach for the sky with a career in aviation: Explore your interest in aviation through two classes conducted by professionals at the Illinois Aviation Academy. Examine Careers in Aviation will take a closer look at the areas of pilot training, aviation maintenance and aviation management. In Aviation Ground School, students will learn about aerodynamics, weight and balance, aviation weather, regulations, and human factors; they'll also visit an area airport to learn about aircraft systems, flight controls, the control tower and fly flight simulators.

Lifelong Learning Institute Chautauqua: An education and social movement popular around the turn of the 20th century, the Chautauqua brought entertainment and culture into a program that sought to spread knowledge and foster discussion. Join Harper's first LLI Chautauqua from 1 to 5 p.m. Friday, August 25, for a gathering of performances, presentations, refreshments and community.

I invite you to visit ce.harpercollege.edu and learn the many ways you can "Advance, Discover and Play" through Community Education at Harper College.

President, Harper College

Learning Options to Fit Your Life

Live Online Classes LIVE 0):

These are classes where an online meeting is being used like an in-person classroom. Days and times for the meetings are specified, with online lectures being used as the primary way in which course content is being presented. These classes will either utilize Webex or Blackboard (with Blackboard Collaborate Ultra for class meetings). Information on your virtual classroom will come directly from your instructor via email.

Self-Paced Online Classes SELF-PACED :

In these classes, content (lectures, readings, videos, etc.) is placed on a protected website (Blackboard, in most instances). Some self-paced classes may have occasional class meetings, though meetings are not the primary way in which content is being presented to you. Self-paced classes will have active instructor participation and deadlines even without live meetings. You will receive instructions for accessing the class materials prior to the start of classes via email.

In-Person Classes ii:

These classes meet in-person at the designated campus or offsite location. The room number and most up-to-date information is available on the course page at ce.harpercollege.edu. For information on prevention and resources related to COVID-19, please visit harpercollege.edu/advisory.

Blended Classes LIVE 0) iii:

Blended classes use a combination of in-person and online meetings. Information on the class structure will come directly from the instructor.

Our online classes are labeled as "Live Online" and "Self-Paced Online", so that you know how each class will be conducted. In-Person classes are indicated by a campus (or offsite) location. When you register for a class, your instructor will send an email to you a few days before the start of the class with information about how the class will be taught and, if applicable, login information.

We know our print catalog is convenient but as always, the most complete and current information is online at ce.harpercollege.edu.

Digital Badges

Harper College Community Education is committed to providing you with the tools you need to reach your professional goals. One of the most exciting trends in career training these days is the digital badge movement.

Now, certain courses and training programs will earn a digital badge that you can proudly display in your resume, in an email to a potential employer, or in your social media profiles on LinkedIn, Facebook and elsewhere.

Learn more and start earning your next badge today! ce.harpercollege.edu, "Earn a Credential"

Confined Space Hazards in Construction and General Industry

LIVE O)

This course covers the requirements of the OSHA Permit-Required Confined Space Standard. Course topics include safety and health hazards associated with confined space entry. and the evaluation, prevention, and abatement of these hazards. The course covers OSHA requirements for both the General Industry and Construction standards. This course is designed for small employers or a designated representative (line supervisor or manager) with the responsibility to develop a permit-required confined space program. Upon course completion students will have a basic understanding of confined space hazards, evaluating and abatement of the hazards, the roles and responsibilities for attendants, entrants and entry supervisors, and determining when a confined space shall be classified as a permit-required confined space.

LSA0007-029 ONLINE-Live Meetings 09/08/23 FR 8:00 am-12:15 pm Instructor: Robin Coyne TUITION & FEE: FREE

Electrical Hazard Awareness

LIVE O)

Electrical current can be very dangerous and even fatal. According to national workplace injury data from OSHA, electrocution is number three of the "Fatal Four" The Most Common Causes of Construction Site Deaths. Injuries in the workplace can be reduced or avoided when employees are regularly trained and more aware of their surroundings. In this class, students are taught to understand the basics of electricity, what the various types of electrical hazards are, how to recognize electrical hazards in their workplace, and OSHA rules and regulations. The class also covers worker rights, workplace safety standards, and laws that are in place to protect employees. Upon completion of the course, students will have the working knowledge necessary to recognize electrical hazards, and how to prevent injuries in the workplace.

Accounting - Cash is King

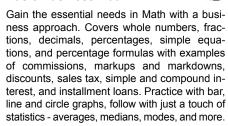

Cash management is one of the most import-

ant factors in the financial success of your business. D&B reports that 90% of all small business failures are due to poor cash management and inadequate cash flow, leading to more money getting paid out than collected. Non-financial managers usually make the key differences in day-to-day cash flow decision making. Learn how to optimize cash flow, uncover hidden internal and external sources of cash, and how to cultivate solid cash management in your company.

Online Self-Paced Bookkeeping Digital Badge SELF-PACED •

This Bookkeeping Digital Badge will provide you with the knowledge needed to measure, and manage, the financial health of your business. This program focuses on cash basis accounting. No one will care more about the financial health of your business than you! Even if you plan to outsource your bookkeeping needs, you should still understand how the process works.

This digital badge requires the completion of three courses: Understanding Debits and Credits, General Ledger and Month End Procedures, Closing Procedures and Financial Statements. These courses may also be taken individually.

LRN0176-009 ONLINE-Self Paced 09/05/23-12/01/23

TUITION & FEE: \$495.00

Understanding **Debits and Credits**

SELF-PACED

In this course, you will learn about the accounting equation and the five categories involved in every business (Assets, Liabilities, Owner's Equity, Revenue and Expenses). Every financial transaction falls into one or more of these categories. Learn how to create a chart of accounts that meet the needs of your business. You will learn how double entry bookkeeping works and the process of recording debits and credits. This course will show you how to identify, analyze and record transactions using journal entries under the cash basis accounting method.

LRN0177-010 ONLINE-Self Paced 09/05/23-09/29/23

TUITION & FEE: \$195.00

General Ledger and Month End Procedures

In this course, you will learn how to post journal entries to the correct general ledger accounts impacted by each transaction. This course will show you how to make sure your general ledger balances at the end of each month by preparing an unadjusted trial balance. You will learn how to look for errors when you don't balance, and how to determine to correct entries. After posting correcting entries and/or adjusting entries, you will verify debits and credits equal with an adjusted trial balance. This course also goes through the steps of performing monthly bank reconciliations.

Effective Business Writing

Businesses increasingly rely on technology, technological skills alone do not guarantee success in the workplace. You must still develop your ideas, express them clearly, and persuade others of their viability. This course offers effective strategies to sharpen your writing skills by structuring your ideas logically, exercising diplomacy in letters and reports, and shaping your arguments. In contemporary business environments, information overload makes it necessary for you to communicate clearly and concisely. Trying to make sense of a disorganized email message can be frustrating given the number of emails you have to answer daily. By analyzing your audience, organizing your writing, and employing effective persuasive techniques, your writing will make an impact

■ Diversity, Equity and Inclusion

Diversity, Equity and Inclusion in the Workplace Digital Badge SELF-PACED O

75% of the world's major conflicts have a cultural dimension and the culture sector now accounts for 6.1% of the global economy. The United Nations reports that creative and cultural industries (CCI) generate annual revenues of US\$ 2,250 billion and nearly 30 million jobs worldwide, employing more people aged 15 to 29 than any other sector. To improve diversity, achieve equity, and foster inclusion one must be intentional, consistent, and courageous.

LERN's Diversity, Equity, and Inclusion (DEI) in the Workplace Certificate focuses on improving cultural competence and encourages continuous learning. Students will gain a better understanding of DEI.

Online Self-Paced Diversity, Equity, and Inclusion in the Workplace

This Digital Badge focuses on improving cultural competence and encourages continuous learning. Students will gain a better understanding of DEI to improve diversity, achieve equity, and foster inclusion. One must be intentional, consistent, and courageous.

This Digital Badge (LRN0211) requires completion of three courses:

- What is DEI
- **Inclusive Communication**
- **DEI and Organizational Success**

Digital Badge SELF-PACED ©

What is DEI?

Understanding diversity, equity, and inclusion is critical to the professional success of any individual or team. This Unit will differentiate diversity, equity, inclusion, and justice. In addition, we will discuss how these phenomena show up in the workplace and impact our interactions with others. Students will be able to define and describe various challenges related to diversity, equity, and inclusion.

I RN0212-001 09/05/23-09/29/23 ONLINE-Self Paced

TUITION & FEE: \$195.00

Inclusive Communication

Respectable communication in the workplace encourages a cohesive collaborative environment, prevents inefficiencies, and ensures the right information gets to the right person at the right time. This unit will explore how communication differs across cultures. In addition, students will come to understand how communication can impact relationships with others in both positive and negative ways.

LRN0213-001 10/02/23-10/27/23 ONLINE-Self Paced

TUITION & FEE: \$195.00

DEI and Organizational Success

Diverse organizations are found to be more creative, more productive, have higher levels of employee engagement, and experience lower rates of attrition. Diversity is also shown to return higher profits. This unit will guide students in an understanding of why diversity, equity, and inclusion are important to organizational success. Students will learn to appreciate and work effectively with diverse groups, confront unconscious biases that hinder workplace inclusion, and identify essential factors that contribute to an inclusive workplace environment.

HR Analytics Workshop

HR has a tough job. It has to serve employees; protect the business; keep up with ever-changing laws and regulations at local, state, and federal levels; and figure out how to do more with less, faster. These demands leave HR professionals with big questions: How can we make better decisions about where to invest our limited resources? How can we deliver solutions that make employees happy? How can we convince the C-suite to invest in people initiatives? How can we make sure HR helps the organization achieve business outcomes? HR analytics can help with all of these things and more. It's not a silver bullet, but it is a powerful tool for elevating the credibility of the HR function. This workshop will provide you a solid foundation in why HR Analytics is critical to helping HR provide real business value. This course will provide you with an excellent grounding in what HR analytics is and how the best companies are using analytics to become more successful and provide an exceptional

Concientización Del Peligro De Caídas

Una de las diez principales lesiones en el lugar de trabajo reportadas por OSHA está relacionada con los peligros de caídas. En la industria de la construcción, las causas más comunes de lesiones generalmente involucran escaleras; techos; partes superiores de equipos, andamios v otras superficies de trabajo elevadas. También se informa que el tipo número uno de violación de seguridad de OSHA en los lugares de trabajo está relacionado con los peligros de caídas. Este curso examinará los diversos tipos de peligros de caídas e incluirá detalles sobre cómo identificarlos. También ofrecerá información sobre las mejores prácticas de seguridad, e incluir los principios de seguridad de las escaleras. El curso sigue los estándares actuales de protección contra caídas de OSHA, que proporciona principios claramente definidos a seguir sobre cómo proteger a los trabajadores.

Peligros en Espacios Confinados en la Construcción y la Industria General

Este curso cubre los requisitos de la Norma para Espacios Confinados que Requieren Permiso de OSHA. Los temas del curso incluyen peligros para la seguridad y la salud asociados con la entrada a espacios confinados, y la evaluación, prevención y reducción de estos peligros. El curso cubre los reguisitos de OSHA para las normas de la Industria General y la Construcción. Este curso está diseñado para pequeños empleadores o un representante designado (supervisor de línea o gerente) con la responsabilidad de desarrollar un programa de espacio confinado que requiere permiso. Al finalizar el curso, los estudiantes tendrán una comprensión básica de los peligros de los espacios confinados, la evaluación y reducción de los peligros, las funciones y responsabilidades de los asistentes, los entrantes y los supervisores de entrada, y la determinación de cuándo un espacio confinado debe clasificarse como un espacio confinado que requiere permiso.

Prevencion de Resbalones, Tropezones y Caidias LIVE (O)

¿Sabía que los resbalones, tropezones y caídas son la principal causa de accidentes en el trabajo? Además, según la Administración de Salud v Seguridad Ocupacional (OSHA), ¡El 8% de ellos son fatales! Esta clase interactiva, dirigida por un Entrendor de Extensión de OSHA, cubre el reconocimiento de los factores de riesgo Y el control de los peligros de resbalones, tropiezos y caídas. Se anima a los trabajadores, gerentes y supervisores a asistir.

LOT0019-001 **ONLINE-Live Meetings** 8:00 am-12:15 pm 11/16/23 Instructor: Juan Galvan

TUITION & FEE: \$149.00

Sensibilización Sobre Peligros Eléctricos y Bloqueo/Etiquetado

La corriente eléctrica puede ser muy peligrosa e incluso fatal. De acuerdo con los datos nacionales de OSHA, sobre lesiones en el lugar de trabajo, la electrocución es el número tres de las "Cuatro Fatales" de Las Causas Más Comunes de Muerte en los Sitios de Construcción. Las lesiones en el lugar de trabajo se pueden reducir o evitar cuando los empleados reciben capacitación continua y son más conscientes de sus alrededores. En esta clase, a los alumnos se les enseña a comprender los conceptos básicos de la electricidad, cuáles son los diversos tipos de peligros eléctricos, cómo reconocer los peligros eléctricos en su lugar de trabajo y las normas y reglamentos de OSHA.

La clase también explicará lo que se considera una energía peligrosa. La mayoría piensa que involucra fuentes de energía eléctrica, pero la energía peligrosa puede venir en forma de vapor de una tubería no controlada, maquinaria grande diseñada para cortar o aplastar algo, cintas transportadoras o cualquier tipo de equipo que se repare con cableado eléctrico expuesto. Esta clase cubrirá las prácticas y procedimientos utilizados para apagar y desactivar maguinaria (bloqueo/etiquetado) para evitar lesiones durante el servicio o mantenimiento de equipos de todas las fuentes de energía, incluyendo la electricidad. La clase también cubre los derechos de los trabajadores, las normas de seguridad en el lugar de trabajo y las leyes vigentes para proteger a los empleados. Al finalizar el curso, los estudiantes tendrán el conocimiento práctico necesario para reconocer los peligros eléctricos, los procedimientos de bloqueo/etiquetado y cómo prevenir lesiones en el lugar de trabajo.

Warehouse Safety

LIVE O)

With ever increasing demands for package deliveries comes an uptick in warehouse shipping and receiving activities. The warehouse industry, and all other industries that maintain storage and delivery operations, or supply chain environments, the need for a safety program is vital. Our Warehouse Safety course offers students the opportunity to learn about the various aspects of safety standards, hazard awareness and prevention, followed by OSHA based requirements designed to protect the safety and well-being of workers. OSHA rules, regulations and other industry standards related to warehouse safety will be covered, as well as mitigation procedures and processes. Workers, managers, and supervisors are encouraged to attend.

Online Self-Paced Data Analysis Digital Badge

Make a big difference in the success of your organization by acquiring data analysis skills. Begin by getting a basic understanding of how to analyze data in a business setting. Learn how your business decisions involve comparing groups for differences. Finally, learn how to perform inquiries to your business or organization and communicate the results through graphs and text to your fellow employees and leaders.

LRN0059-019 09/05/23-12/01/23 ONLINE-Self Paced

TUITION & FEE: \$495.00

Online Self-Paced Data Analysis Digital Badge

Data Analysis is quickly becoming one of the most sought-after skills in the workplace. Companies produce vast amounts of data, but it is rare to have someone with the vision and ability to analyze data for trends and make valid predictions.

This Digital Badge requires completion of three courses:

- Introduction to Data Analysis
- Intermediate Data Analysis
- Advanced Data Analysis

Add a whole new skill set to your portfolio, and make a big difference in the success of your organization by acquiring data analysis skills.

Introduction to Data Analysis

SELF-PACED

Data Analysis is quickly becoming one of the most sought-after skills in the workplace. Companies produce vast amounts of data, but it is rare to have someone with the ability to analyze that data, see trends, and make predictions. This course will give you a basic understanding of how to analyze data in a business setting. Businesses look for candidates with an understanding of how to analyze the data they have been collecting; this course will help you start on that journey.

LRN0060-025 09/05/23-09/29/23 ONLINE-Self Paced

TUITION & FEE: \$195.00

Intermediate Data Analysis

SELF-PACED

Many business decisions involve comparing groups of data for differences. For example, you might examine sales records to see if men and women prefer different product features. Or, you might see whether product recognition survey data relates to subsequent product purchase behavior. The Intermediate Data Analysis course introduces you to the statistical analysis methods behind these group differences and relationships. In addition, you'll learn how to work with ratings and graphs to create user-friendly reports of statistical results.

LRN0061-024 10/02/23-10/27/23 ONLINE-Self Paced

TUITION & FEE: \$195.00

Advanced Data Analysis

SELF-PACED

Advanced Data Analysis teaches how to perform valuable inquiries for your business or organization. You acquire skills necessary to communicate these results through graphs and text so that your fellow employees will understand the implications of decisions they make. Take the guesswork out of important decisions and make them based on statistically significant information. Whether your business is home-based or a large company, this class will take you to the next level where important decision making is concerned.

LRN0062-021 11/06/23-12/01/23 ONLINE-Self Paced

TUITION & FEE: \$195.00

Excel 2019 Data Analysis and Visualization

SELF-PACED

Excel can connect to a wide range of data sources, perform robust data analysis, and create diverse and robust data-backed visualizations to show insights and trends, and create reports. These capabilities enable people who use Excel for data analysis to turn data into thoughtful action. Learn how to analyze and visualize data using Microsoft Excel. Perform data analysis, present visual insights with dashboards and model data with Power Pivot. This course is intended for individuals who hold advanced knowledge in Excel and who have baseline skills in creating workbooks with formulas and functions.

LCT0065-007 ONLINE-Live Meetings 11/07/23-11/16/23 TU TH 6:00 pm-9:15 pm Instructor: John F. Chiappetta

TUITION & FEE: \$455.00

Microsoft Power BI: Data Analysis Practitioner

LIVE O

Microsoft Power BI displays data-backed visualization and is built to connect to a wide range of data sources which enables users to quickly create visualizations of connected data to gain insights, show trends, and create reports. Learn how to create interactive worksheets, dashboards and stories that bring data to life and turn data into thoughtful action. This course is intended for individuals in a variety of job roles who use desktop and web-based data-management tools such as Microsoft Excel or SQL Server reporting services to perform numerical or data analysis and who hold advanced knowledge in Excel.

LNT0020-006 ONLINE-Live Meetings 10/10/23-10/19/23 TU TH 6:00 pm-9:15 pm Instructor: John F. Chiappetta

TUITION & FEE: \$575.00

Statistics for Decision Making Digital Badge

Improve your decision making success with an advanced practical how-to process for gathering statistics. Help your organization design effective surveys to improve business and work-place effectiveness.

Come away with the ability to develop an action research plan to partner with your key stakeholders to collect data, analyze data, and make better decisions.

LRN0207-001 09/05/23-12/01/23 ONLINE-Self Paced

TUITION & FEE: \$495.00

Statistics for Decisions Using Surveys

Improve your ability to develop and deliver statistics for decision making by improving your skills in conducting reliable surveys. Help your organization design effective surveys to improve business and workplace effectiveness. You will also learn how to enter your results into Excel and how to present and explain those results.

LRN0208-001 ONLINE-Self Paced 09/05/23-09/29/23

TUITION & FEE: \$195.00

Evaluation Research

Road test evaluation research for your organization. You won't be disappointed. Evaluation research can give you and your organization a systematic assessment of the value of resources and time you commit to a project, product, or specific goal. Evaluation research can determine whether or not a process has achieved a goal or yielded the desired results.

Get introduced to the characteristics of evaluation research and how it can be directly applied to assess the impact or effectiveness of a program, policy, or procedure you want to road test in a professional setting.

LRN0209-001 ONLINE-Self Paced 10/02/23-10/27/23

TUITION & FEE: \$195.00

ONLINE REGISTRATION ASSISTANCE 847.925.6300

Action Research

Action research is a form of investigation designed to attempt to solve problems and improve professional practices. It involves systematic observations and data collection which can be then used by the practitioner-researcher in reflection and decision-making.

Discover the features of action research and how it can be directly applied to answer questions and solve problems in collaboration with others in your specific professional context.

LRN0210-001 ONLINE-Self Paced 11/06/23-12/01/23

TUITION & FEE: \$195.00

Power BI (Business Intelligence)

Online Self-Paced Power BI (Business Intelligence) **Digital Badge**

Power BI is a widely used business analytics service offered by Microsoft.

Discover the process of creating interactive reports. Integrate financial, marketing, or any other source data in your accounting system, Excel, or on the Web. Create charts, maps, and other visuals to see your data in real time.

Delve further into Power Query to ETL, Extract, Transform and Load. your data. Build the Data Model using relationships and DAX, Data Analysis Expressions. Utilize Time Intelligence functions to view YoY or YTD reports. Add user friendly features to enhance your reports and analyze your results.

LRN0170-010 09/05/23-12/01/23 **ONLINE-Self Paced**

TUITION & FEE: \$495.00

Introduction to Power BI (Business Intelligence)

SELF-PACED

Gain insights into your data. Power BI, business intelligence, is a widely used business analytics service offered by Microsoft. Power BI Desktop is a complete data analysis and report creation tool that you install for free.

In this course, you will discover how to quickly extract, transform, and load data with just a few clicks. You will create interactive visualizations, charts, maps, KPIs, to provide you with insights into your company's data to make informed decisions.

I RN0171-011 ONLINE-Self Paced 09/05/23-09/29/23

TUITION & FEE: \$195.00

Intermediate Power BI (Business Intelligence)

Delve further into Power Query to ETL, Extract, Transform and Load, your data. Build the Data Model using modeling features and relationships. Perform calculations using DAX, Data Analysis Expressions, functions. Utilize Time Intelligence functions to view YoY or YTD reports. Add user friendly features to enhance your reports.

LRN0172-011 10/02/23-10/27/23 ONLINE-Self Paced

TUITION & FEE: \$195.00

Advanced Power BI (Business Intelligence)

Expand your knowledge of Power BI Desktop to the highest level. This course focuses on the advanced capabilities of Power Query, Data Modeling and Reports. Check for data inconsistencies, design efficient queries, create proper relationships, and write DAX code to ensure reports update quickly and accurately. Add navigation and analytical features to your reports to enable consumers to analyze the results.

LRN0173-011 11/06/23-12/01/23 ONLINE-Self Paced

TUITION & FEE: \$195.00

Online Self-Paced Power BI (Business Intelligence) Digital Badge SELF-PACED O

Earn a Power BI (Business Intelligence) Digital Badge by completing three online self-paced courses. You may register for the Digital Badge (LRN0170), which includes all three courses, or take the courses separately:

- Introduction to Power BI
- Intermediate Power BI
- Advanced Power PI

This Digital Badge will enhance your skills in data analysis, giving you greater insight into your organization's performance and allowing you to make more informed decisions. Power BI is a widely used business analytics service offered by Microsoft.

Online Self-Paced SQL Digital Badge SELF-PACED O

Structured Query Language (SQL) is the industry standard database programming language. It is one of the most in demand skills in occupations that require interaction with data and analyzing data. This Digital Badge will enhance your competitiveness in the field of database administration and data analyst jobs.

Earn a SQL Digital Badge by completing three one-month online self-paced courses. You may register for the Digital Badge, which includes all three courses, or take the courses separately:

- **SQL Digital Badge**
- Introduction to SQL
- Intermediate SQL
- Advanced SQL

SQL

Online Self-Paced SQL **Digital Badge**

Structured Query Language, SQL, is the industry standard database programming language.

Learn about relational database structures, the history and uses of Structured Query Language, and how to use Structured Query Language to create a database, add records to database tables, and how to use SQL queries to extract meaningful data from database tables. You will progress from creating simple SQL queries to querying multiple tables simultaneously, how to alter data and gather statistics from data stores in a database. Finally, you'll learn techniques that will enable you to write powerful queries that perform complicated searches and sorts on your data.

LRN0164-021 09/05/23-12/01/23 **TUITION & FEE: \$595.00**

ONLINE-Self Paced

LRN0164-022 10/02/23-12/29/23 ONLINE-Self Paced

TUITION & FEE: \$595.00

Introduction to SQL

populate database tables and how to write simple SQL queries that are capable of retrieving vast amounts of information from a database. You will discover the power of the relational database, how to create and manage database tables, and how to use SQL Select statements to precisely pinpoint and retrieve data from a database.

LRN0165-027 09/05/23-09/29/23 **ONLINE-Self Paced**

Online Self-Paced **Excel Digital Badge**

SELF-PACED

Earn an EXCEL Digital Badge by completing three one-month online self-paced courses. You may register for the Digital Badge, which includes all three courses, or take the courses separately:

- **Excel Digital Badge**
- Mastering Microsoft Excel)
- Intermediate Excel
- Advanced Excel

A must-have skill to succeed in business, whether an entrepreneur or a valued employee. is the ability to create, edit and manage spreadsheets. Microsoft Excel is the most used spreadsheet tool in the world. This Digital Badge will help you discover how to attractively visualize your data into meaningful information with confidence.

■ Microsoft Office

Advanced Excel SELF-PACED Learning Advanced Excel contains these tools

that can help you prepare your worksheets ac-

curately, examine your data for authentication, and then find those answers to your most diffi-

cult questions. This course will help you learn

these required business functions along with

the tools required to analyze data efficiently

within the workplace. Save time for yourself by

protecting your valuable data and know with

assurance that the entered data is accurate

without any errors. By completing the course.

discover how to attractively visualize your data

into meaningful information with confidence.

Excel

Online Self-Paced Excel Digital Badge

Microsoft Excel is the most widely used spreadsheet tool in the world. Discover how menu items, commands, settings, and processes affect the look of your Excel worksheets and workbooks. Learn how various data types can be best represented and formatted using different Excel options and techniques. This Digital Badge will help you discover how to attractively present your data in reports, slide shows, and more, with confidence.

Microsoft Excel is the most widely used

spreadsheet tool in the world. Keep your Excel

skills current with this class, as it change with

the features of Excel over time. Learn how to

construct an Excel worksheet, populate it with

content, and edit it for delivery in a variety of

business situations. Master the options that will

take your Excel worksheet from a collection of

plain, drab numbers to an engaging multimedia

can be created to quickly summarize large amounts of data. Through this course, these tasks will make your work outstanding and

Mindfulness and Holistic Living

Skills for Making Great Decisions

SELF-PACED

Learn how to make excellent everyday decisions from an experienced counselor and life coach. You'll discover the steps necessary to achieve your goals, as well as the power that ordinary, everyday decisions can have over the quality of your life.

You will learn how to deal effectively with crisis, how to use your emotions as decision making tools, and how to work with others to make good decisions. The goal of this course is to give you the power to live the best life you can and make the very most of every opportunity.

Usui Shiki Ryoho and Holy Fire Reiki, Level 1

Reiki is the Japanese Art of stress reduction and relaxation which can also promote healing. Reiki is made up of two Japanese words, Rei and Ki, which means spiritually guided life force energy. Reiki is spiritual in nature, but it is not religious. In this first level class, some of the things you will learn include what is Reiki, what are the 5 principles or precepts of Reiki, and what is an attunement. In class you will complete some meditation and self-reflection and you will receive the attunement process.

TUITION & FEE: \$25.00

Welcoming Winter Qigong Workshop

Let Qigong help your body adjust to the changing seasons of autumn to winter in this workshop. Our focus is on the kidney system. Kidney energy is closely linked to body vitality. We will do a moving Qigong practice, gentle meditation, and introduce techniques specifically focused on strengthening this system. Learn how you can help yourself have a happy, healthy winter.

LPS0028-001 Harper Main Campus 12/09/23 SA 1:00 pm-2:30 pm TUITION & FEE: \$25.00

What is Qigong?

Qigong is a mind-body exercise form that uses meditation, breathing, and movement to increase energy and enable the body to heal itself. The exercise and healing techniques used were developed in ancient China and Tibet. It is practiced for a variety of reasons and has countless health-related benefits.

Qigong Grief Release Workshop

Grief is powerful and if not allowed expression, can cause energetic blockages. First, you will create a memory/release jar to explore your grief due to trauma or any type of loss. Next, you will experience a gentle Qigong practice unblocking energy around those memories. Finally, you will experience a restorative and nurturing sound bowl healing to seal in your new found energy and intentions.

Chair Yoga

Yoga

LIVEO)

Also called Mindfulness in Motion, Yoga means weaving or voking together of mind, body and spirit. Imagine being in a relaxed yogic state and practicing wherever you sit regardless of your age, level of activity or physical size. Chair yoga is specifically designed for those that desire an adaptive yoga program whether for personal needs, workplace stress management, etc. You will move your entire body through its full range of motion in concert with your breathing to balance the nervous system, elicit a deep sense of relaxation in your mindbody physiology, increase flexibility, improve strength and balance and so much more. No yoga experience necessary. Bring a yoga strap or flexible belt/tie for some of the poses. Age: 16+ years.

Painting, Drawing and Calligraphy

2-D Artmaking and Mixed Media

What is Mixed media? Simply put, mixed media combines two or more materials within a piece of art. For example, many people conjure images of busy art covered with collages and objects; however, you could combine ink, watercolor, and acrylic paint, which would also be mixed media. The instructor will demonstrate diverse materials and techniques to provide the practiced artist and curious beginner with a fun, hands-on experience. These sessions are designed to be enjoyable and informative, the idea being to bring something home from each class and have exposure to creating art in a new way. Most classes run as a single session three-hour class, with two exceptions for two-session sections. The course's progression is intentional for people wishing to take

either one or multiple sessions. Dynamic Layered Backgrounds

Classic Roman Capitals

In Rome, the Trajan Column and its carved capital letters, is the foundation of calligraphic studies still to this day. The classic proportions of many alphabets derives from these well-proportioned symbols that have become our calligraphic touch stone. Some scribes spend a lifetime studying these beautifully formed letters. In this class we'll start our journey in Rome, and continue right up to modern time, using pencils and broad edged pens to learn these foundational, but very challenging letters

Drawing for Beginners

SELF-PACED

Learn the fundamentals of drawing and sketching which you can apply to other mediums. Using a unique and highly effective approach, the instructor will guide you through the process of how to draw simple objects from real life. Working primarily with pencil, you will develop skills in composition, shading and one and two point perspective. You will develop an understanding of light and shadow while drawing a variety of objects of various materials. This course is designed for beginners, but it is also suitable for artists seeking a refresher. This class is online.

■ Ceramics, Jewelry, Bronze and Welding Arts

Artistic Welding

You may have walked through an art fair and seen ornamental metal sculpture. Some are on tall rods, some wave gracefully in the wind, while others are anchored in place by planters overflowing with colors. Here you will create elements of your own design in steel and copper to make your indoor or outdoor space as individual as you are. This class will provide you with user friendly instruction in steel handling techniques including MIG welding and plasma cutting. These are the easiest and the safest methods to learn. No previous welding experience is necessary, but basic welding safety will be stressed. The instructor will assist with welding parts of your project as necessary.

Photography, Videography and Social Media

Beginning Photography

Get comfortable with how your camera works and get the best photographs possible. This course will help you understand ISO, shutter speeds, f stops, depth of field, exposure, and white balance. You will explore the use of different lenses, good composition and how dramatic lighting can make your photos more exciting. You will be introduced to the concepts of photographing people along with objects. Classroom instruction and hands on practice through assignments will help you learn to get the most from your photographs. Finally, you will touch on how to best print your digital photos. You must have a 35mm SLR digital camera with manual capability, interchangeable lens mirrorless cameras are accepted. Please, no point and shoot film or cell phone cameras.

Creative Photography

LIVE O)

This course is designed for those who want to take their photography in a more focused direction, acquire some creative approaches, curate their work, attract clients, and maybe sell prints or get work in the business. As a career path or even just a fun pastime, photography offers boundless opportunities. Now, more than ever, is the time to put effort into shaping a unique creative vision for your photography, thanks to the many genres, career routes, and platforms available. Both novice and seasoned photographers who want to expand their horizons can benefit from this class, as we will learn to perceive the world in new ways via experimentation and practice.

Creating Art through Unconventional Photography

A well-known phrase is "a picture is worth a thousand words." But what does that mean? And how can we use photography to make creative art photographs? Every environment and every moment offers infinite possibilities for creating compelling artistic photographs. The creative process requires visualization, connecting with our views of the world, and the art of seeing photographically. This course will cultivate our ways of seeing the world through experimentation, practice, and an overview of the history of art photography. The final product will be that each student will have at least one matted and framed image finished in the class.

Immersive Photography **Experience: Street Photography Downtown Chicago**

Photographing in Chicago can be the most rewarding experience for both amateur and professional photographers. Chicago has endless locations to photograph that are unique and worth capturing. And Chicago is well known for its diverse population, many well-known and famous photographers have developed their street and people portfolios in this city of characters... think of Vivian Maier, Victor Skrebneski, Gordon Parks, Garry Winogrand, and even as far back as Walker Evans. Throughout the many architectural marvels and its outdoor serenity, lakes, parks, and rivers, street photography in Chicago is an absolute delight for any photographer. This course focuses on city and urban street photography. The seven session course schedule includes four on-line instruction sessions interspersed with three on-location in Chicago class meetings. The course focuses on street photography but is broader than any singular theme and includes exploring the juxtaposition of life in the city.

Adobe for Artists

This course will help you acquire the knowledge and practical skills that you'll need to utilize digital art software to create artwork in a digital environment. It focuses on discovering art elements and design principles while using Adobe software. It will also explore current and past trends in design. You'll learn how to create digital images and graphics that express your artistic thoughts. Such skills can help you conquer challenges and enhance your message. In Photoshop, you'll learn how to use brushes, color pickers, and layers; skills necessary for photo editing, photo manipulation, and digital composition. You'll develop vector illustrations with Adobe Illustrator and layout concepts in Adobe InDesign and create professional presentations. The course gives the right tools and techniques to start with digital artwork. All artists and enthusiasts ages 15 and over are welcome.

Floral Design

Floral Design

See what is possible with a floral design! A wide range of possibilities, materials, and techniques are shown for each workshop. You do not need specific skills as we will create designs with low effort and high impact! The focus of these classes will be to transform the norm of traditional floral arrangements into designs that bring the WOW! Everyone will create and take home their arrangement and learn how to make an impact with fresh and preservable arrangements! With grocery store flowers ranging from *40.00 for a dozen roses to upwards of 100.00 for arrangements, learn the skills to turn every day into the extraordinary! Classes are offered to coincide with the upcoming seasons and holidays to add fun to the festivities! Bring your creations to someone as a gift, sign up with friends, or show them off in your own home! (cost examples from Mariano's). The instructor will email students a week before the class with details of what we will create. Materials for all classes will be provided! In addition, the instructor will suggest any relevant additional materials if students are interested in providing alternatives. So bring yourself and leave with something beautiful!

Music and Dance Performances and Controversies at the World's Columbian Exposition, 1893

The well-documented performances at the World's Columbian Exposition of 1893 along Chicago's lakefront and Midway Plaisance are well worth revisiting at its 130th anniversary. They offer a springboard for a deeper understanding of how dance and music from other cultures were perceived in the past and give valuable insights into lingering issues of co-Ionialism, cultural appropriation, racism, and sexism that we still address. They also provide written and visual context to changes in performance styles and presentation of these dances and musical forms today; they are a historic reminder of important Chicago cultural icons developed directly from the fair.

Music Classes

Blues Harmonica Fundamentals LIVE 0)

Join with others to make music in a fun, welcoming environment. We focus on the basics from producing single notes to understanding song form. Reading music is not required. You will learn basic harmonica chords, licks, and solo techniques while jamming together and receiving encouraging feedback and having fun socializing. You may repeat repertoire classes as needed. There are dozens of songs to learn at every skill level. Songs change from session to session. Students should bring a diatonic harmonica in the key of C. The Hohner Marine Band, Crossover, or Special 20 models are recommended.

Classic Rock Unplugged

You can play thousands of classic rock songs with the knowledge you gain from the Classic Rock Unplugged course because it is the quickest and most comprehensive way to learn all the skills, chords, licks, rhythms, riffs, and solo ideas you need. So let's get together and play some classic rock tunes from the era. featuring the likes of Eric Clapton, the Eagles, the Beatles, and more. We'll put together our own acoustic band by learning chords, riffs, and arrangements. If you have a solid grasp of the guitar's fundamentals, this course is perfect for you. By the end of the course, you'll be able to play the most essential guitar chords and play songs with impressive strumming techniques. Open chord fluency, tablature literacy, and the aptitude to pick up barre chords are pre-requisites. Students must supply their own instruments.

LIVE O)

Learn the Music of **John Prine**

John Prine, a beloved Chicago singer-songwriter, created a wonderful world of songs with a few simple chords and ordinary words, full of memorable characters and stories that are at once funny, moving, thoughtful, deep, compassionate, heartbreaking, and hopeful. His music will be studied in this course. The teacher will supply lyrics and chord charts, and you'll delve deeper into John Prine's music each week. The course will also examine the distinctive strumming and picking patterns that he used on guitar to create some of his most iconic songs, such as 'Angel from Montgomery,' 'All the Best,' 'Hello in There,' and many more. Let's get together and learn about John Prine's music and honor his legacy. Feel free to bring a stringed instrument or just come to sing in honor of John's brilliant career. To participate, you must bring your own instrument, know how to read tablature, and be comfortable playing open chords.

Concert Choir

This mixed group performs a wide ranging classical repertoire, from plainchant through to the twentieth century. The choir appears in concert in the Performing Arts Center once each semester, and the group sometimes tours. Concert choir is open to Harper students as well as members of the community. Applicants may audition with a prepared piece of their choosing. Memorization is not necessary. To schedule an audition appointment, contact Professor Tim Filliman at 847.925.6566 or by email to tfillima@harpercollege.edu.

LMU0010-018 Harper Main Campus 08/21/23-12/13/23 MO WE 11:30 am-12:45 pm Instructor: Timothy E. Filliman

TUITION & FEE: \$125.00

Flute Ensemble

This course provides students with proficiency on the flute and extends the opportunity to perform in various chamber ensembles. It stresses sight-reading and musicianship and develops skills and musical understanding in an enjoyable and approachable atmosphere. Explore the repertoire of flute trio, quartet, quintet, and flute choir music from the baroque, classical. and contemporary eras. Work as a group and enhance your teamwork skills through stabilizing tempo, intonations, technique, and tuning. There will be a final concert at the end of the course at the Performing Arts Center (PAC). This class is not for beginners. If you play the flute and not sure of your level, please contact the instructor Hideko Amano at hamanoka@ harpercollege.edu; you may be asked to submit a recording of your playing.

LMU0011-013 Harper Main Campus 08/25/23-12/15/23 FR 3:30 pm-6:00 pm Instructor: Hideko Amano-Katsma

TUITION & FEE: \$125.00

Guitar Ensemble

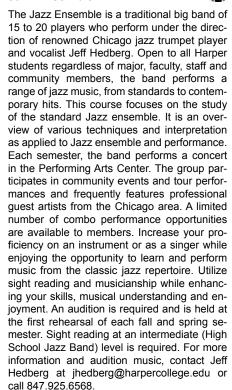

Guitarists, here is your chance to play in an ensemble devoted to guitar music at its best. This group class will focus on performance techniques such as cueing, following a conductor and communication between players. Groups consisting of duos, trios, quartets and more will work together. Students must be able to read all the natural notes in first position and know C, G, D, A, E, a minor, e minor and d minor chords. At least one concert per semester will be presented by the group. Open to students age 16 and older.

Jazz Lab Band

The Jazz Lab Band is a small jazz combo that performs a standard, professional jazz repertoire. Students practice improvisation and work on small group performance techniques. Each semester, the band produces a recording in a professional studio and performs a live concert in the Harper Performing Arts Center. Open to instrumentalists and vocalists at all levels. No audition is required, but please obtain the consent of the Instructor, Ken Spurr, prior to registering. Call 847.925.6568.

LMU0005-024 Harper Main Campus 08/23/23-12/13/23 WE 4:00 pm-6:30 pm Instructor: Darren Scorza

TUITION & FEE: \$125.00

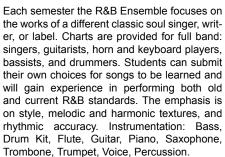

Piano Ensemble

Provides students with piano proficiency the opportunity to perform in a chamber music ensemble. Stresses sight reading and musicianship. Develops skills, musical understanding, and enjoyment. May be repeated up to a maximum of four credit hours. Requires the consent of the instructor. This course is a performance based course. Ensemble members are required to attend each class, to rehearse their assigned music between classes, to rehearse outside of class time with their partner(s) or other ensemble members. The goal is to present a concert at the end of the semester in the Performing Arts Center which is well rehearsed, musically and artistically satisfying, challenging, entertaining and cohesive. Another goal is to present music which is well rounded and diverse in musical style and range of difficulty. There is an audition requirement to take the course. There is no required text for this course.

Steel Band I

This is an intermediate group where most of the members have played in this band for several years. Students learn new pieces in a relaxed atmosphere and a group setting. Class time is also spent listening to current steel pan recordings and discussing the history of this remarkable family of instruments. By the end of the semester, students will be ready to perform with the steel banc at the end-of-semester concert. Reading music equivalent to a high school level is a prerequisite. Permission from the instructor and an audition is required to join this group. Students must be age 15 or older to enroll.

LMU0023-014 Harper Main Campus WE 09/20/23-12/13/23 6:30 pm-9:00 pm Instructor: Paul Ross

TUITION & FEE: \$125.00

Steel Band II

Harper's Steel Band II or intermediate steel band is available for students who have either taken Steel Band I, played in another steel band or have extensive experience on another musical instrument. This ensemble will perform more involved compositions with more sophisticated musical arrangements that incorporate more difficult rhythms than Steel Band I. The goal of Steel Band II is to increase the amount and difficulty of repertoire and to prepare for the concert that takes place at the end of the semester. Permission by the instructor Paul Ross is required to join this group. He may be reached at pross@harpercollege.edu.

LMU0027-014 Harper Main Campus 09/19/23-12/12/23 6:30 pm-9:30 pm Instructor: Paul Ross

TUITION & FEE: \$125.00

String Orchestra for Adults

Have fun playing in an ensemble for amateur adult string players. Open to violin, viola, cello and string bass. This ensemble is for the relatively inexperienced player and music is chosen to accommodate the level of the participants. A concert will be presented by the group at the conclusion of the semester. Taught by Edgar Gabriel, well known Chicago classical and jazz violinist.

Harper Main Campus LMU0025-018 08/29/23-12/05/23 TU 7:00 pm-8:00 pm Instructor: Edgar Gabriel

TUITION & FEE: \$259.00

Symphony Orchestra

The Harper Symphony Orchestra, HSO, performs under the talented direction of William Anthony Porter and is comprised of professional, community and college musicians. The group's five concert season is performed from October through May and includes an impressive range of orchestral literature featuring collaborations with soloists of national and international renown. The HSO is open to professional, Harper College student, faculty, staff, and community musicians. An audition is required. The group typically rehearses on Monday evenings and performs five concerts every season, September through May. For auditions, prepare three to five minutes of a standard concerto or solo work. At the discretion of the conductor, sight reading may be included as part of the audition. To schedule an audition appointment, contact William Anthony Porter at wporter@harpercollege.edu.

LMU0051-013 Harper Main Campus MO 08/21/23-12/11/23 7:30 pm-10:00 pm Instructor: William (Tony) Porter **TUITION & FEE: \$125.00**

Wind Symphony

If you are proficient in playing band instruments the Wind Symphony provides you the opportunity to perform music of various styles and types with your peers. You will work diligently on your sight reading and musicianship. Develop your skills, musical understanding, and enjoyment. May be repeated in subsequent semesters. You must obtain the consent of instructor to enroll. Contact Conductor Gregory Tipps at gtipps@ harpercollege.edu for information.

LMU0044-011 Harper Main Campus 08/24/23-12/14/23 TH 7:00 pm-9:30 pm Instructor: Gregory Tipps **TUITION & FEE: \$125.00**

World Music Ensemble

The World Music Ensemble combines Western and non-Western instruments to create unique interpretations of melodies through performing, composing, rearranging, and improvisation. It highlights the various techniques and variations applied to the different genres from all corners of the world. Through playing, students will enhance their understanding of other musical traditions and the practices associated with them and boost their technical and artistic abilities. The World Music Ensemble is open to music majors and non music majors and community members with experience in music. Interested students must be able to play any instrument. Enrollments subject to audition. The ability to read music is a plus.

In-Person

Sound Recording Digital Badge

Learn audio recording and production and earn a Digital Badge.

Whether our interest is in launching a career in the audio industry or you want to maximize your home, school, or professional recording studio, you will gain the knowledge you need with this program. The Sound Recording Digital Badge program builds your knowledge and expertise in the fundamentals of sound recording and acoustics as well as studio recording technologies and techniques. Gain hands-on experience working with a professional recording engineer in a professional environment. Learn techniques in music recording, post-production, audio for video, voice over, and more.

This Digital Badge requires completion of three courses:

- LMU0018 Sound Recording I Introduction
- LMU0020 Sound Recording II **Recording Techniques**
- LMU0019 Sound Recording III Mixing and Editing Techniques

Sound Recording III Mixing and Editing Techniques

Students in this course work with previously recorded material, often the material they recorded in Sound Recording II Recording Techniques, and are taught the fundamental principles of good mixing and editing. Each student gets hands-on experience processing the sound using the latest software technology, focusing on blending and balancing the final mix. Discussion of effects processors, such as compression, gating, reverb, and delays also takes place. This course concludes with a discussion of mastering techniques. Prerequisites Sound Recording I and Sound Recording II.

TUITION & FEE: \$299.00

Music Appreciation, History, Theory

Introduction to **South Indian Music**

One of India's two classical music traditions is called Carnatic Music, from South India. The tradition has ancient roots where vocal and instrumental styles have blended into a single music canon. Sculptors, painters, and authors of ancient Tamil and Sanskrit texts frequently depicted or wrote about this tradition. This course is designed for anyone who would like to learn about Carnatic music. Students will explore parallels with other global sounds and experience this tradition through various multimedia sources and text. Students are not expected to have any prior musical experience to enjoy the course.

Introduction to Baking

This course is designed to educate students in the art of Baking. Students will learn the basics of mixing, and be introduced to the baking techniques necessary for cakes, cupcakes, fillings, and American buttercream. Students will learn how dairy, fruits, flour and chocolate come into play with baking. Custom decorated cakes and cupcakes are highlighted. In addition, students will be introduced to decorating techniques and the use of baking tools. This course includes classroom instruction and hands-on experience in the kitchen on campus.

LFS0063-002 Harper Main Campus WE 08/23/23-09/13/23 6:30 pm-9:00 pm Instructor: Lesliee Cimo

TUITION & FEE: \$199.00

Baking II

After completing Intro to Baking, students will enhance their baking skills with an assortment of topics, such as quick breads, sugar cookies and royal icing. Students will have the opportunity to revisit the art of cake making from the first lesson and accelerate into increased hand-on experience and advanced decorating techniques. We will focus on more complex recipes and learn how to make a mock Swiss meringue frosting. There will also be more focus on fillings and how to achieve a smooth and silky pastry cream. This class is for the individuals who want to push themselves and achieve the type of cakes and cupcakes you see in pictures.

LFS0064-002 Harper Main Campus 09/20/23-10/11/23 WF 6:30 pm-9:00 pm Instructor: Lesliee Cimo **TUITION & FEE: \$199.00**

Healthy and Delicious Cooking

Whether you want to experiment with new recipes beyond your usual or elevate your family meals or date nights, this course is for you. Learn new techniques from an experienced chef such as: how to cook from scratch and make real food with whole, natural ingredients and what to stock in your pantry. Together we will prepare a variety of soups, pasta sauces, salad dressings, breads, and make foods that are both healthy and delicious.

LFS0065-002 Harper Main Campus 08/23/23-09/27/23 WE 6:30 pm-9:00 pm Instructor: Samantha Segura **TUITION & FEE: \$239.00**

Viva Italia

Enjoy a three course Italian dinner in the comfort of your home. Chef Susan will walk you through every step. We will start with a simple caprese salad with fresh mozzarella, and move onto a pasta course of farfalle with pistachio pesto. Onto an easy but delicious entree of chicken vesuvio, moist marinated chicken with rosemary, oregano and olive oil, and we will end with a delicious apple crostata for dessert. Buon Appetito.

Digital Badge in Nutrition, **Chronic Disease and Health Promotion**

Understanding the role of food and water, and making appropriate changes in one's diet can have powerful effects, both positive and negative, on health throughout life. The burden of chronic diseases is rapidly increasing worldwide as traditional, largely plant based diets are quickly being replaced by high fat, energy dense diets with a substantial content of animal based foods. This digital badge addresses these issues and more and provides a solid foundation of knowledge and information to support individuals who wish to enhance their own well being as well as health care professionals who wish to evolve in their profession.

LPL0015-009 09/05/23-12/05/23 **TUITION & FEE: \$125.00**

blend was used.

■ Wine Appreciation

Part One: The perception of color in wine:

What it tells you about the wine and how it in-

Part two: The aromas in wine: How to train

vourself to enhance your ability to perceive

them and identify them. Learn to recognize

how the wine was made and what grape or

Part three: The taste components of wine:

Learn how to evaluate with accuracy the tex-

ture of a wine and use that knowledge to pair

TH

wine and food more efficiently.

Wine and Cheese Pairings

Wine and cheese are natural partners but some pairings can be disastrous while others can bring out the subtle beauty of taste in each. You will prepare you for making the appropriate pairings with various wines. You will taste a variety of both wine and cheese while developing your understanding of both. You will then be able to create the wine and cheese experiences you seek in a variety of settings. Students must be at least 21 years old to enroll.

Series: Wines of Italy

Join award winning wine sommelier Marcel Flori on a virtual tour of Italy through its regional wines. This series course enrolls you in each of the Wines of Italy courses in this semester: Northern Italy, Northeastern Italy, Central Italy and Southern Italy. Each class includes a tasting. Students must be 21 years of age or older to enroll

LFS0032-003 Harper Main Campus 10/05/23-11/30/23 TH 7:00 pm-9:00 pm Instructor: Marcel G. Flori

TUITION & FEE: \$349.00

Wines of Italy: Northern Italy

Marcel Flori will show you how to navigate the great variety of Italian wine. Northern Italy is primarily known for its red wine though there are some whites to discover. Some of the most well known reds include Nebbiolo and Amarone. You will get to know the Piedmont region where Barolo and Barbaresco command a high price tag. The same region's Dolcetto and Barbera come at a relatively better price. Valpolicella is boht a distinct viticultural zone and wine. You will also try some very drinkable white wines. The omnipresent Chardonnay is present though not thought of as the highest quality in Italy. Gewurztraminer isn't always German but is of good quality in Northern Italy. Piedmont enters the white discussion with its sweet and popular Moscato which can be either a still or sparkling wine. Students must be at least 21 years of age or older to enroll. Each week features a tasting.

LFS0033-004 10/05/23-10/12/23 TH Instructor: Marcel G. Flori

Harper Main Campus 7:00 pm-9:00 pm

TUITION & FEE: \$99.00

Wines of Italy: Northeastern Italy

You will continue to explore Marcel Flori's ideas about the wine of Italy as you focus on Northeast Italy. Fine, elegant whites from Alto Adige compliment the fuller examples in Friuli Venezia Giulia, where there are interesting local varieties along with the expected international varieties. This is also the land of perhaps Italy's finest sweet wines. Finally, each of the three provinces have high quality reds. You can find Cabernet Sauvignon, Merlot and Pinot Nero but, originality comes from the native grapes: Corvina Valpolicella, the powerful Amarone, Lagrein and Teroldego and the previously obscure Pignolo and Schiopettino. Students must be 21 years of age or older to enroll. Each week includes a tasting.

LFS0034-003 Harper Main Campus 10/19/23-10/26/23 TH 7:00 pm-9:00 pm Instructor: Marcel G. Flori

TUITION & FEE: \$99.00

Wines of Italy: Central Italy

It is in Central Italy that you will discover Chianti, home to the Brunello wines and the Super Tuscans. Sangiovese is the superstar grape of this region. With all this star power comes the classic straw covered bottles of Chianti in the blending recipe for Chianti. This creates some of the variability in styles among Chiantis. Lighter bodied styles have a higher proportion of white grape varieties blended in, while red Chiantis are fuller and richer. Super Tuscan is an unofficial classification that started as a reaction to mandatory red/white blends. Their Sangiovese/Cabernet Sauvignon blends were coveted. Let Marcel Flori untangle this web for you while you taste the best the region has to offer. Students must be 21 years of age or older to enroll. Each week features a tasting.

LFS0035-004 Harper Main Campus 11/02/23-11/09/23 7:00 pm-9:00 pm Instructor: Marcel G. Flori

TUITION & FEE: \$99.00

Wines of Italy: Southern Italy

Southern Italy is know for its archaeology and wine. Long ago Greeks brought non native grape varieties to this region creating one of the greatest areas of diversity on the earth. Fiano is a creamy white. Greco is another white that thrives in the south. Aglianico is a red, once saved from extinction, that is now known for its aging potential. Gaglioppo is a ruby colored red while Negroamaro is known as the 'bitter black'. Primitivo might be a relative of California's Zinfandel and is one to this regions most popular varieties. Students must be 21 vears of age or older to enroll. Each week features a tasting.

Students with **Intellectual Disabilities**

Career Skills Classes

Career Skills Institute I

The Career Skills Institute provides an educational experience for students with mild cognitive disabilities, age 18 and above. Acceptance into the Institute is required prior to registration. The first semester program is composed of three modules: self-advocacy, fundamentals of reading, and arithmetic of whole numbers. The modules are designed to build skills that will create success in the workplace. The advocacy module identifies personal strengths to increase self-efficacy relative to persistence and responsibility. The reading module includes fundamental skill development designed to improve comprehension in a typical workplace setting. The arithmetic module covers reading and writing whole numbers and operations including addition, subtraction, multiplication and division. Please contact Eric Wiebe at we38933@harpercollege.edu for detailed information on this class.

LDD0003-009 Harper Main Campus 09/06/23-12/15/23 MO WE FR 9:00 am-1:45 pm Instructor: Conor Deal

TUITION & FEE: \$2499.00

Career Skills Institute III

Career Skills Institute III is composed of 3 modules: Career exploration, employment/life survival skills, and workplace communication. These modules are designed to build skills that will create success in the workplace. Students will learn self-assessment of career interests and qualifications, interviewing skills, and use of written and spoken communication in the workplace. Career Skills Institute III builds on skills the students have mastered in the first two semesters. Acceptance into the Institute and completion of LDD8001 and LDD8002 (or equivalent as determined by the program coordinator) is required for registration. Please contact Eric Wiebe at we38933@harpercollege.edu for detailed information on this class.

Card Making Using East Asian Motifs

Educator Yvonne Wolf takes attendees to expand cardmaking experiences to East Asia. First, she will give a brief understanding of three principles of order in the East Asian world. After applying these principles in Asian architecture, seasons, and two positive characters, attendees are invited to make five different blank greeting cards and envelopes using templates, scissors, and glue. This experience will enrich your future exploration in the East Asian arts.

Genealogy

Writing Family History for the Nonwriters

We all have family stories that give insights into the lives of our ancestors. Some are entertaining, others celebrate our cultural heritage, and others are more historical. We need to save all of them. So they can accurately pass them down to future generations. If you fear writing, this program will help overcome your fears. It will discuss a process that makes transforming your genealogy efforts into a written family history all your family can enjoy. Try this method to easily save your information and see your ancestor's memories "come alive." If you do not preserve the memories and stories of your ancestors for future generations, who will?

Living Behind the Iron Curtain

Pursued by the Americans and British from the West and Soviet forces from the east, Nazi forces in Europe were in retreat by early 1945. Areas occupied since 1940-41 found themselves freed from Nazi control and oppression. Nations in Eastern Europe - Poland, Czechoslovakia, Hungary, Romania and Bulgaria were liberated by the Soviet Red Army. After the war ended, the Soviets remained in these countries longer than expected. By the late 1940s, most of eastern Europe was cloaked behind what would become known as the Iron Curtain. What was is like to live behind the Iron Curtain? Alina Warner shares from her experience as a child growing up in Romania, witnessing the isolation of the people and the hardship of the totalitarian regime. As a teenager she remembers living through the 1989 Revolution that freed the people from the dictatorship of Nicolae Ceausescu. That was the spark of her desire to reach the 'free world.' The session will end with a Q&A.

The First Man to Cross the South Pole the Endurance Adventure

The amazing 1914 - 16 expedition of Sir Ernest Shackleton the first to cross the South Pole. Assumed lost with his crew of 28 men. He managed to live in the Antarctic cold winter where no one had ever survived. The only source of food were penguins and seals. Shackleton made a small boat crossing 800-mile during the worst sea of the season. While his men waited on a tiny hell hole island. Against all odds, he rescued them. Shackleton is considered the greatest leader of men. The ship, The Endurance was discovered in 2022. With fully documented with photographs.

TUITION & FEE: \$39.00

The Presidency of Harry Truman

He was a compromise candidate for Vice President. FDR met with him twice once he began his fourth term. He inherited a Cabinet dedicated to continuing FDR's policies and burnishing FDR's image rather than helping a new President. He faced an unending series of critical issues demanding accurate decisions. He fought for what he believed to be correct regardless of the political consequences. He left office with a low approval rating and poor grades from political analysts and American historians. And yet he has come to be recognized as one of our 5 best Presidents.

Extreme Hauntings in American History

America has no shortage of true hauntings among the nation's colorful supernatural tales, but some of these authentic tales are deeply disturbing, featuring phenomena far beyond ordinary ghost stories. Talking animals, disembodied voices, 'hands of death,' letters dropping from thin air, and even a pair of phantom hair clippers that terrorized a tiny West Virginia town: These and other bizarre incidents will keep you up long after class time when you explore the strange world of extreme hauntings with ghostlorist Ursula Bielski.

Situational Spanish

This Spanish course is a one hour class that meets once a week, for eight weeks, and will provide the student with the ability to use their original thoughts to express their needs and wants, in the Spanish language, using basic inter-communicative skills (BICS). The lessons are tailored to provide the student with situational opportunities to use the Spanish language. The structure utilizes phrases, vocabulary, and oral practice that are useful in everyday activities, and especially at particular situations outlined in the theme for each weekly meeting. Students will have an opportunity to develop their own dialogs working in pairs using the materials learned in the lessons, and become familiar with basic usage of Spanish to express their wants, preferences, and needs in a fun and interactive manner. This is an 8 week course.

Stem Cells from Our First **Discovery to Current** Applications in Medicine

Science and the medical field discovered the unique aspect of what we now call stem cells. We have learned these cells have the capability to become specific cells for organ and tissue repair and treatment of diseases and conditions through their naive cellular beginnings. The discovery and the research and testing have provided us with a new flexibility for treatment and even cures. However, this discovery has been marked with very crucial social and ethical debates. This course will cover the first discovery and the ethical issues as well as the current and potential medical applications in the future.

Race to the Moon **Project Mercury**

Project Mercury was the first manned space program in the United States. These early space missions taught NASA many important lessons&mdash:how to reach orbit, how man can survive and function while in orbit, and how to both launch and recover astronauts and their vehicles. From 1958 to 1963, NASA conducted 20 unmanned test flights and 6 successful manned flights. Find out what the objectives and goals of the Mercury Program were and its importance to landing man on the moon. Join us as we discuss these missions, the original 7 astronauts nicknamed the Mercury 7, and find out why they truly had 'the right stuff'. This will be a hybrid class offering from Rock Valley College and the first in a series of three classes.

Theology

The Gospel of Mary of Magdala

According to the second century Gospel of Mary of Magdala, Mary is Jesus' confidente, his interpreter, and his replacement. She supports Jesus' ministry financially and may have been "the beloved disciple" mentioned in John's Gospel. Jesus divulges to her teachings unknown to other disciples, and after the resurrection she occupies the position he leaves vacant. And yet early in Christianity, Mary of Magdala becomes a woman dishonored and discarded. This talk examines the woman, the myth, and the gospel that bears her name.

Digital Badge in Spanish -**Online Component**

SELF-PACED

This component of the Digital Badge in Spanish incorporates audiovisual exercises, quizzes, and tests to hone speaking, listening, reading and writing skills via an online multimedia Supersite. Instructor works with you in the background assigning, correcting, and providing feedback. This course requires enrollment in Conversational Spanish I, II, III or IV each time, and cannot be taken alone. The purchase of a Supersite Plus Code is required to access the online site for assignments. Attendance to an orientation session is mandatory where course requirements will be explained.

Spanish for Medical Professionals

Are you frustrated by the communication gap that can occur between you and your Spanish speaking patients? This Spanish class, designed specifically for healthcare professionals, will help you bridge that gap. Practice the basic, practical language skills needed to effectively communicate with your Spanish speaking patients and their families. Learn the basics, gain an understanding of the culture, and know how to ask the guestions crucial to quality healthcare. For those who speak some Spanish and need a refresher or speak no Spanish, you will gain the skills to effectively communicate with your Spanish speaking patients.

Youth Music

Broadway Musicals (Ages 8-15)

This course will cover the most influential musicals of the 20th and 21st Century and how they influenced the musicals of today. We will learn the roles and jobs that work together to create a production and try our hands at playwriting and design. In addition, each student will choose to present either a report on a favorite musical and/or a solo performance of a song from a show. The presentations will be viewed by the class on our final day.

Harper Main Campus 11:00 am-12:30 pm

Instructor: Zarui Vardanean **TUITION & FEE: \$325.00**

Fiddle Violin for Kids

In this friendly and supportive group atmosphere, children will learn how to play the violin that is rooted in folk traditions. The repertoire emphasizes social music-making, learning by ear, an our methods follow best practices in active music education. Your children will learn how the violin is held and how a bow is balanced to achieve a pleasing sound. They'll also learn how to care for their instruments. Children will need to rent a fractional violin sized for your child, from The Strings Project in Palatine. You can also pick up rosin, shoulder rest sponges, and practice books. To inquire about what violin size students must bring in, please contact Mr. Gabriel at gar@ameritech.

Group Preparatory Strings. 50 Minutes for 15 Weeks

This private and group instruction bundle combines group and private instruction for children ages 6 to 15. Group lessons offer peer reinforcement, social interaction, ensemble experience, and group activities. Private lessons provide individual attention for technical development and interpretive and expressive insights. By combining these two approaches, you receive a comprehensive 15-week curriculum. Participate in one 30-minute private lesson and one 50-minute group lesson each week. Students are grouped according to age and level. Instructors will use the Associated Board of the Royal Schools of Music - ABRSM theory Method, delivering over 650000 music exams and assessments annually in 93 countries. Students learn music reading, rhythm. theory, listening skills, finger and hand development, improvisation, and composition through fun classroom activities. Children progress through varied and progressive musical repertoire from leading contemporary and traditional classical composers.

Children progress through varied and progressive musical repertoire from leading contemporary and traditional classical composers. For more information contact us at cmad@harpercollege.edu.

Benefits of Music Education for Children

Why study music?

The benefits of studying music are many and extend well beyond the joy of learning an instrument, particularly for young students. Participation in musical activities has been found to enhance:

Intellectual and Cognitive Growth

Through music experience, the learner is involved in perceiving, making judgments and comparisons, evaluating, analyzing and synthesizing, creating and reflecting.

Creativity and Self Expression

- Music is an essential way of communicating ideas and feelings with other people, developing a better understanding, appreciation, and perception.
- Music education engages and enhances imagination

Coordination

 Playing musical instruments can improve gross motor skills, hand-eye coordination, balance and enhance long-term memory and recognition patterns.

Social Skills

- Social behaviors such as cooperation, collaboration, team-building, and sensitivity to social and cultural beliefs and practices are promoted.
- Personal growth, such as self-discipline, self-esteem, independence, and self-knowledge, are also addressed.

Retention

- Studies over the past 20 years have shown that students who study music achieve better in mathematics, reading, and learning foreign languages.
- The ability to listen actively is a benefit in all subjects.

CMAC's Fundamental Beliefs

- Music Education is preparation for life.
- Music Education is a lifelong process.
- Everyone can engage with and enjoy music.

Harper College Community Band

The Harper College Community Band welcomes all musicians looking to make music after high school. The mission of the band is to provide concerts to the public and performance opportunities to musicians. Maintaining active membership in the band requires reasonable attendance at rehearsals and performances. Rehearsals are held indoors.

Harper Main Campus 5:15 pm-5:55 pm

Suzuki Method Violin **Group Class**

Dr. Suzuki developed a unique approach based on his genuine belief that musical ability is not an inborn talent but an ability that can be developed. Any adequately trained child can develop musical ability, just as all children develop the ability to speak their mother tongue. Therefore, the potential of every child is unlimited. The method will use the child's listening ability, motivation, repetition, and step by step mastery to enhance students' musicality and technique. The Suzuki method violin group class is open to all ages studying violin. It offers an excellent platform for encouraging young and new musicians to improve their musicianship while making new friends. Instructed by Dr. Chia-Ying Hsu, the ensemble performs an original Suzuki repertoire. The program is energetic, diverse, and focuses on a collaborative atmosphere that emphasizes teamwork. The Suzuki Method Class performs at Harper College's Performing Arts Center. Beginners are especially welcome.

THIS IS HARPER COLLEGE

REACH FOR THE SKY WITH A CAREER IN AVIATION!

Are you interested in becoming a professional or recreational airplane pilot? Aviation is a fast-growing area with many types of jobs available. View our classes conducted by the professionals at the Illinois Aviation Academy.

EXAMINE CAREERS IN AVIATION

In this class you will examine what is involved in each of the areas of aviation including: pilot training, aviation maintenance and aviation management. But you'll get even more out of this workshop.

AVIATION GROUND SCHOOL

This aviation class will allow students to learn about aerodynamics, weight and balance, aviation weather, regulations, and human factors at the Harper College Campus. Further exploration will take place on field trips to DuPage Airport where students will sit in aircraft to learn about aircraft systems and flight controls, visit the control tower to see how ATC works then fly flight simulators.
