Community Education**

## NEW CLASSES IN THE HEALTH AND RECREATION CENTER – BUILDING M

Through a new partnership with Palatine Park District, fitness and wellness classes will now be offered through the Community Education Department in Building M. The Foglia Foundation Health and Recreation Center was fully renovated in 2018 and features excellent facilities and programming. A sample of the classes to be offered includes:

- Yoga
- Dance
- Spin (indoor bicycling)
- Tabata (interval training)

Many of us began to recognize the importance of taking care of our health and wellness during the pandemic. Harper's own health and wellness expert weighed in on this recently.

"Wellness has always been an integral part of how people live, work, learn and play. The pandemic brought a spotlight to wellness and well-being as people started to better understand the critical importance of taking care of themselves. Rather than merely surviving, many people are now focusing on ways to thrive."

- Beth McPartlin, MA, Manager,  
Harper College Wellness

Now that things have opened up, we invite you to focus on your health and wellness in a supportive setting on our vibrant campus.

## What's New in Community Education

We are proud to announce that the Learning Resources Network (LERN) the largest organization for continuing education programs in North America, has certified the Community Education program at Harper College.

"We want to congratulate Scott Cashman and his staff on this achievement," noted William A. Draves, CAE, CPP, President of LERN. "Program Certification not only represents the following of benchmarks and best practices in our field. It also indicates the desire and commitment to improving the program and serving your community further.

These are rigorous standards. Not only do you have to measure outcomes, but follow best practices. The certification is elite, but not elitist. The outcomes are learner oriented and in the best interests in serving the community."

This semester we are also happy to announce our return to offering classes in M Building through a partnership with the Palatine Park District. All of these health, wellness and fitness classes are listed in the catalog. Please register through our website [ce.harpercollege.edu](http://ce.harpercollege.edu).

# Learning Options to Fit Your Life

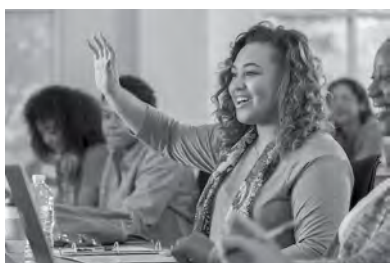

## **Live Online Classes** :

These are classes where an online meeting is being used like an in-person classroom. Days and times for the meetings are specified, with online lectures being used as the primary way in which course content is being presented. These classes will either utilize Webex or Blackboard (with Blackboard Collaborate Ultra for class meetings). Information on your virtual classroom will come directly from your instructor via email.

## **Self-Paced Online Classes** :

In these classes, content (lectures, readings, videos, etc.) is placed on a protected website (Blackboard, in most instances). Some self-paced classes may have occasional class meetings, though meetings are not the primary way in which content is being presented to you. Self-paced classes will have active instructor participation and deadlines even without live meetings. You will receive instructions for accessing the class materials prior to the start of classes via email.

## **In-Person Classes** :

These classes meet in-person at the designated campus or offsite location. The room number and most up-to-date information is available on the course page at [ce.harpercollege.edu](http://ce.harpercollege.edu). For information on prevention and resources related to COVID-19, please visit [harpercollege.edu/advisory](http://harpercollege.edu/advisory).

## **Blended Classes** :

Blended classes use a combination of in-person and online meetings. Information on the class structure will come directly from the instructor.

Our online classes are labeled as “Live Online” and “Self-Paced Online”, so that you know how each class will be conducted. In-Person classes are indicated by a campus (or offsite) location. When you register for a class, your instructor will send an email to you a few days before the start of the class with information about how the class will be taught and, if applicable, login information.

We know our print catalog is convenient but as always, the most complete and current information is online at [ce.harpercollege.edu](http://ce.harpercollege.edu).

# Digital Badges

## Sensibilización Sobre Peligros Eléctricos y Bloqueo/Etiquetado?: Electrical Hazards (SPANISH)

LIVE 

(CLASS TAUGHT IN SPANISH)

Electrical current can be very dangerous and even fatal. According to national workplace injury data from OSHA, electrocution is number three of the "Fatal Four," The Most Common Causes of Construction Site Deaths. Injuries in the workplace can be reduced or avoided when employees are regularly trained and more aware of their surroundings. In this class, students are taught to understand the basics of electricity, what the various types of electrical hazards are, how to recognize electrical hazards in their workplace, and OSHA rules and regulations.

The class will also explain what is considered a hazardous energy. Most think it involves electrical sources of energy, but hazardous energy can come in the form of steam from an uncontrolled pipe, large machinery designed to cut or crush something, conveyor belts, or any kind of equipment being repaired with exposed electrical wiring. This class will cover the practices and procedures used to power off and disable machinery (Lockout/Tagout) to prevent injuries during service or maintenance of equipment from all sources of energy, including electricity. The class also covers worker rights, workplace safety standards, and laws that are in place to protect employees. Upon completion of the course, students will have the working knowledge necessary to recognize electrical hazards, lockout/tagout procedures, and how to prevent injuries in the workplace.

Learn to identify, evaluate and control fall hazards at the workplace. This course will focus on falls to a lower level and include recognizing, analyzing and preventing fall hazards utilizing OSHA's Fall Protection Standards. Identifying fall hazards and determining how to protect workers is the first step to abatement.

## Electrical Hazards Awareness

LIVE 

Electrical current can be very dangerous and even fatal. According to national workplace injury data from OSHA, electrocution is number three of the "Fatal Four," The Most Common Causes of Construction Site Deaths. Injuries in the workplace can be reduced or avoided when employees are regularly trained and more aware of their surroundings. In this class, students are taught to understand the basics of electricity, what the various types of electrical hazards are, how to recognize electrical hazards in their workplace, and OSHA rules and regulations.

### Accounting - Cash is King

SELF-PACED

Cash management is one of the most important factors in the financial success of your business. D&B reports that 90% of all small business failures are due to poor cash management and inadequate cash flow, leading to more money getting paid out than collected. Non-financial managers usually make the key differences in day-to-day cash flow decision making. Learn how to optimize cash flow, uncover hidden internal and external sources of cash, and how to cultivate solid cash management in your company.

## Business Communication and Conflict Resolution

### Effective Business Writing

Businesses increasingly rely on technology, technological skills alone do not guarantee success in the workplace. You must still develop your ideas, express them clearly, and persuade others of their viability. This course offers effective strategies to sharpen your writing skills by structuring your ideas logically, exercising diplomacy in letters and reports, and shaping your arguments. In contemporary business environments, information overload makes it necessary for you to communicate clearly and concisely. Trying to make sense of a disorganized email message can be frustrating given the number of emails you have to answer daily. By analyzing your audience, organizing your writing, and employing effective persuasive techniques, your writing will make an impact.

## Cybersecurity

### Introduction to Information Security

In this course, students will be learning the foundations and fundamentals of the field of Information Security. This course will be covered in three parts that provide students with a modern perspective and approach to the vastly growing industry and its subgroups: What is information Security and why is it important?

What are the various roles and their responsibilities in the industry?

What does it take to break into a role and/or excel in a current one?

Students should expect the lectures, discussions, and assignments of this course to ground and train them in the required knowledge of Information Security. Students will also be provided strong career-based direction to set engaging and self-empowering goals to help ensure growth in both current and future roles.

This Digital badge provides you with a general introduction to what goes into the design and development of both video and analog games, with a particular focus on the use of games outside of consumer entertainment.

In the first course, you will discover resources for developing game design, identify the mechanics and verbs used in different games. You will come away with knowing the different activities that are part of game design, being able to flesh out a game idea in order to increase the chances to having a successful game design experience, and have a basic understanding of how to work with game developers.

In the second course, you will learn the basics of video game design process, learn about the main video game genres, and use a game development application to begin your journey of making games.

By successfully completing this Digital Badge in Basic Game Design, you will have taken the first steps into understanding game design, and being able to create your own games. This Digital Badge enrolls you in the following two courses: Introduction to Game Design and Intermediate Video Game Design. These courses may also be taken individually.

## Mindfulness and Holistic Living

### Digital Badge in Nutrition, Chronic Disease and Health Promotion

SELF-PACED

Understanding the role of food and water, and making appropriate changes in one's diet can have powerful effects, both positive and negative, on health throughout life. The burden of chronic diseases is rapidly increasing worldwide as traditional, largely plant based diets are quickly being replaced by high fat, energy dense diets with a substantial content of animal based foods. This digital badge addresses these issues and more and provides a solid foundation of knowledge and information to support individuals who wish to enhance their own well being as well as health care professionals who wish to evolve in their profession.

### Online Self-Paced Food, Nutrition and Health Digital Badge

SELF-PACED

Food and nutrition have a profound impact on people's health and well-being, yet many people are not aware of what foods to eat, which diets are healthy, and where their food originates. The goal of this course is to provide a holistic overview of current food and nutrition issues and their impact on physical, social, emotional, and spiritual health.

Throughout this course, you will become more conscious of what you eat, why you eat it, how it is prepared, and what consequences your food choices have on your health as well as the health of the planet.

### ■ Painting, Drawing and Calligraphy

#### Classic Roman Capitals

NEW!

In Rome, the Trajan Column and its carved capital letters, is the foundation of calligraphic studies still to this day. The classic proportions of many alphabets derives from these well-proportioned symbols that have become our calligraphic touch stone. Some scribes spend a lifetime studying these beautifully formed letters. In this class we'll start our journey in Rome, and continue right up to modern time, using pencils and broad edged pens to learn these foundational, but very challenging letters.

#### Drawing for Beginners

Learn the fundamentals of drawing and sketching which you can apply to other mediums. Using a unique and highly effective approach, the instructor will guide you through the process of how to draw simple objects from real life. Working primarily with pencil, you will develop skills in composition, shading and one and two point perspective. You will develop an understanding of light and shadow while drawing a variety of objects of various materials. This course is designed for beginners, but it is also suitable for artists seeking a refresher. This class is online.

#### Mixed Media

Come explore ways to have fun while creating 2-D works of art! By incorporating paint, pencil, collage, image transfer, found objects and more...make something new each time or continue with a work in progress. No experience necessary! For both the beginner and more the advanced, just come and have some fun. Work on the surface of your choice, canvas board, stretched canvas, wood, panel, or bristol paper. I encourage working on more than one piece at a time as things need time to dry. I will go over materials the first day of class. If you are unsure of what to get just start with some heavy paper and paints for the first day. The point of this class is to try new things! Anyone from a beginner to a skilled artist will have fun exploring!

## Oil and Acrylic Painting: Beginning

While you learn the fundamentals of painting with both acrylic and oil paint, you will be creatively challenged to develop your skills. If you are a beginning student, you will work initially with oil, a more forgiving medium, before trying your hand with acrylic paint. Our instructor uses an individualized approach to teaching which stresses demonstration and practice of the techniques needed to achieve your desired result. Completion of Drawing 101 Beginning or a similar experience is encouraged.

## Printmaking

NEW!

Block printing on paper originated in China and is believed to date back to over 4,000 years ago! The recorded history of block printed fabrics dates to the Indus Valley civilization, around 3500 to 1300 BC. Block printing has not changed very much since then and is still a fun and straightforward way to create beautiful original works of art. No experience necessary! Block printing ranges from the simplest of patterns to complex and intricate designs. Using both paper and textiles we will cover a variety of techniques creating works on both paper and fabrics. Materials list provided to get started, after the first class you may determine any additional materials you wish to add.

## Ceramics, Jewelry, Bronze and Welding Arts

### Artistic Welding

You may have walked through an art fair and seen ornamental metal sculpture. Some are on tall rods, some wave gracefully in the wind, while others are anchored in place by planters overflowing with colors. Here you will create elements of your own design in steel and copper to make your indoor or outdoor space as individual as you are. This class will provide you with user friendly instruction in steel handling techniques including MIG welding and plasma cutting. These are the easiest and the safest methods to learn. No previous welding experience is necessary, but basic welding safety will be stressed. The instructor will assist with welding parts of your project as necessary.

## Interior Design

### The Fundamentals of Interior Design

NEW!

If you're an enthusiast wanting to learn about how to apply design ideas, or you're simply a homeowner with a passion for design, ready to embark on a renovation project, or simply adding flavor to your living space, we can help. Whether your goal is for a residential, retail, or commercial space, this course is designed specifically for those starting out in the design world. It will help you revise, reshape, reimagine, and recreate any space. The class is a five-part course that could be taken all together or a la carte: 1) Define Your Style; 2) Purpose and Function; 3) Lights, Color, Action!; 4) Blending the Elements with Function and Style; 5) Styling, Staging, and Storage.

## ■ Photography, Videography and Social Media

### Adobe for Artists

This course will help you acquire the knowledge and practical skills that you'll need to utilize digital art software to create artwork in a digital environment. It focuses on discovering art elements and design principles while using Adobe software. It will also explore current and past trends in design. You'll learn how to create digital images and graphics that express your artistic thoughts. Such skills can help you conquer challenges and enhance your message. In Photoshop, you'll learn how to use brushes, color pickers, and layers; skills necessary for photo editing, photo manipulation, and digital composition. You'll develop vector illustrations with Adobe Illustrator and layout concepts in Adobe InDesign and create professional presentations. The course gives the right tools and techniques to start with digital artwork. All artists and enthusiasts ages 15 and over are welcome.

# Music

## Music Classes

### Blues Harmonica Fundamentals

Join with others to make music in a fun, welcoming environment. We focus on the basics from producing single notes to understanding song form. Reading music is not required. You will learn basic harmonica chords, licks, and solo techniques while jamming together and receiving encouraging feedback and having fun socializing. You may repeat repertoire classes as needed. There are dozens of songs to learn at every skill level. Songs change from session to session. Students should bring a diatonic harmonica in the key of C. The Hohner Marine Band, Crossover, or Special 20 models are recommended. 'If you can breathe, you can play,' Joe Filisko.

### Introduction to Clawhammer Banjo

NEW!

This course focuses on the down-picking banjo style known as 'clawhammer' or 'frailing.' Clawhammer-style picking traced its roots back to West Africa and was introduced to North America by enslaved Africans. It is more percussive than Bluegrass 3 Finger Picking and can be used for chordal accompaniment and melodic playing. This course will cover both right-hand (picking and strumming patterns) and left-hand techniques (Chords, scales, slides, etc.). Prior experience with string instruments is a plus but not necessary.

### Introduction to Guitar

This college level course is for the student that seeks a more in-depth adventure into the language of music as applied to guitar. Ideal for the ambitious pure beginner and experienced non reader, by rote player alike, this class covers Standard Music Notation reading, chord graph and chart reading, finger style and plectrum techniques. Also, it applies a guitar centered introduction to Fundamental music theory concepts such as intervals, triads, modes, scale building, major scales with principal chords, key signatures and key structures, chord progressions and more. There are written and playing tests to help you monitor your progress. Not to worry, this co listed, non credit course offering will not affect any GPA.

Required book: Hal Leonard Guitar Method, Book 1, second edition, by Schmid and Koch.

## Piano Pleasure, Beginners 1 and 2

This class is designed for students who have had little or no previous piano lessons. Using the Alfred Piano 101 text, Beginners 1 will focus on music notation and staff note reading, basic rhythms, finger exercises, and playing short songs in a variety of styles. For those who have had some previous piano experience, Beginners 2 will expand on previously learned concepts and will focus on advancing staff reading with key signatures, playing with both hands simultaneously, scale and chord technique, and playing music in a wider range of styles. Students will advance through the Piano 101, Book 1 by Lancaster and Refrow, published by Alfred. Tuition does not include books, students are expected to buy their own prior to the beginning of the course. Instruction includes group activities and individual attention in our state of the art Yamaha Clavinova keyboard lab.

## Concert Choir

This mixed group performs a wide ranging classical repertoire, from plainchant through to the twentieth century. The choir appears in concert in the Performing Arts Center once each semester, and the group sometimes tours. Besides performances at Carnegie Hall and on radio and television at home and abroad, the group has sung with the Elgin Symphony, the Chicago String Ensemble, the Harper Symphony Orchestra and the International Festival of Choirs in Sienna and Florence, Italy. The group has also performed in Austria, the Czech Republic, England, Germany, Hungary, Italy, Poland, Scotland and Wales. Harper's Concert Choir appeared in the culminating concert of the 2008 Summer Olympics Fine Arts Festival in Beijing and Shanghai, China prior to the 2008 Olympic Games. The choir and its members regularly participate in American Choral Directors Association festivals, honor/demonstration choirs, and clinics at the state, division and national levels. Concert choir is open to Harper students as well as members of the community. Applicants may audition with a prepared piece of their choosing. Memorization is not necessary. ## Jazz Ensemble

The Jazz Ensemble is a traditional big band of 15 to 20 players who perform under the direction of renowned Chicago jazz trumpet player and vocalist Jeff Hedberg. Open to all Harper students regardless of major, faculty, staff and community members, the band performs a range of jazz music, from standards to contemporary hits. This course focuses on the study of the standard Jazz ensemble. It is an overview of various techniques and interpretation as applied to Jazz ensemble and performance. Each semester, the band performs a concert in the Performing Arts Center. The group participates in community events and tour performances and frequently features professional guest artists from the Chicago area. A limited number of combo performance opportunities are available to members. Increase your proficiency on an instrument or as a singer while enjoying the opportunity to learn and perform music from the classic jazz repertoire. Utilize sight reading and musicianship while enhancing your skills, musical understanding and enjoyment. An audition is required and is held at the first rehearsal of each fall and spring semester. Sight reading at an intermediate (High School Jazz Band) level is required. For more information and audition music, contact Jeff Hedberg at [jhedberg@harpercollege.edu](mailto:jhedberg@harpercollege.edu) or call 847.925.6568.

All music and practice material will be provided to the students, no textbook is needed.

## Piano Ensemble

Provides students with piano proficiency the opportunity to perform in a chamber music ensemble. Stresses sight reading and musicianship. Develops skills, musical understanding, and enjoyment. May be repeated up to a maximum of four credit hours. Requires the consent of the instructor. This course is a performance based course. Ensemble members are required to attend each class, to rehearse their assigned music between classes, to rehearse outside of class time with their partner(s) or other ensemble members. The goal is to present a concert at the end of the semester in the Performing Arts Center which is well rehearsed, musically and artistically satisfying, challenging, entertaining and cohesive. Another goal is to present music which is well rounded and diverse in musical style and range of difficulty. Each ensemble member is assigned music which requires effort and intense preparation but also gives satisfaction upon accomplishment. There is an audition requirement to take the course. There is no required text for this course. Ensemble members borrow Music Department music or books or occasionally use their own previously purchased music.

## Rock Band Production and Recording

Rock Band Production & Recording is a one-semester course to help musicians write and arrange songs and record demos. If you have a song but can't afford to make it sound professional, you'll work with our best musicians and sound experts to record the song in our cutting-edge studio. Our instructors are all passionate songwriters from all backgrounds, just like you. What distinguishes us from other music schools is that we have professional musicians, instructors, producers, and engineers at the pinnacle of their industry and know how to create the best-sounding Rock music demos. Rock demos should have the same sound quality as a major label album when adequately recorded. Therefore, when you send your songs to labels, publishers, TV, radio, or film, they will hear first-rate production; so, the better your demo sounds, the more likely it will be picked up. You music register for the course as individuals; not as a band. During the application process, you'll have the chance to answer some questions and enter the band information. If you're not part of a band, you'll be placed with other musicians to form one.

This is an intermediate group where most of the members have played in this band for several years. Students learn new pieces in a relaxed atmosphere and a group setting. Class time is also spent listening to current steel pan recordings and discussing the history of this remarkable family of instruments. By the end of the semester, students will be ready to perform with the steel band at the end-of-semester concert. Reading music equivalent to a high school level is a prerequisite. Permission from the instructor and an audition is required to join this group. Students must be age 15 or older to enroll.

## The Eastern European Ensemble of Chicago

The Eastern European Ensemble of Chicago performs European folk music and songs. It focuses on Eastern Europe (Belarus, Bulgaria, Czech Republic, Hungary, Moldova, Poland, Romania, Russia, Slovakia, and Ukraine), but includes repertoire from Italy, Armenia, France, and Greece, as well as Romani traditions, and other world music and songs. The ensemble incorporates traditional musical instruments and aims to promote Balkan and Eastern European folklore in the Chicago area. It's a platform where community members can present the cultures they love and share their experiences with others. We foster a safe environment to enjoy and learn music and dance and welcome people of any age, interest, and background. Members agree to perform in public at least twice per semester. ### Music Appreciation

This course is an overview of classical music throughout history. It introduces standard concert repertoire through intensive guided listening. Representative works by major composers from each period are chosen to illustrate the principal styles, forms, and techniques of vocal and instrument music. The course makes every attempt to intersect with the student's real world experience with music and listening by integrating popular, colloquial, and non Western musical examples along with those of standard Western fine art musical repertoire. The intent is to provide the student with the tools and terms necessary to recognize different styles, appreciate their different functions, and to acquire a solid foundation for a lifetime of musical appreciation. Students will develop a better understanding of classical music and its genres, instruments, and eras. The required textbook is The World of Music, David Willoughby, 8th edition McGraw and Hill ISBN 978125997108.

## Wine Appreciation

### Series: Wines of France

Join award-winning wine sommelier Marcel Flori on a virtual tour of France through its regional wines. This series course enrolls you in each of the Wines of France courses in this semester: Wines of Rhone (LFS0014), Wines of Alsace (LFS0015), Wines of Bordeaux (LFS0016), Wines of Burgundy (LFS0017), Wines of Loire (LFS0018), and Wines of Provence and the Southwest of France (LFS0019). Each is taught by Marcel Flori. Each class includes a tasting. Students must be 21 years of age or older to enroll.

## Wines of France: Rhone

Syrah, Grenache, Mourvedre, Carignan, and Cinsault represent the grape varieties you encounter in the Rhone Valley region of France, well known for its wide range of grapes and wines. Chateauf-neuf-du-Pape and Cotes du Rhone may be the most often seen appellations, but the richness does not stop there. Marcel Flori will design tastings to broaden your understanding of the Rhone Valley region while explaining the interplay of its climate variations, soil, and grape varieties. The class will feature a tasting of four Rhone wines. Students must be 21 years of age or older to enroll.

## Wines of France: Alsace

Alsace is known for its white wine, but there are complexities to the region that are worth exploring. In addition to tasting, you will gain knowledge about the grapes, climate, and land that determine the taste of wines in the region. Pinot Blanc, Riesling, Pinot Gris, Gewürztraminer, and the region's sparkling Cremant d'Alsace will all be discussed. Marcel Flori will select four wines from the region for you to taste so students must be 21 years of age or older to enroll.

## Wines of France: Bordeaux

For centuries, Bordeaux has been producing some of the finest wines in the world. This is a large region, and the grape varieties, both white and red, are many. Semillon, Sauvignon Blanc, Muscadelle, Colombar, Merlot Blanc, Sauvignon Gris, Ugni Blanc, Cabernet Franc, Carmenere, Malbec, and Petit Verdot are all present, but it is the Merlot and Cabernet Sauvignon that get the most attention. By the end of this class, Marcel Flori will have helped you know how to explore the full variety of this important region. You will taste and discuss four wines from Bordeaux in the tasting. You must be 21 years of age or older to enroll.

## Wines of France: Burgundy

Small in size but large in reputation and importance, Burgundy produces wines that can be expensive or affordable, if you know what you are looking for. The soil is rich in limestone, and there are really only two grapes on which to focus: Chardonnay and Pinot Noir. There are, however, five growing regions, each of which has climate and soil variations that define the taste of the wine that they produce. Marcel Flori will describe the region to you as he presents four wines in a tasting that will increase your appreciation for the region. Students must be 21 years of age or older to enroll.

## Wines of France: Loire Valley

This region derives its name from the Loire River, which has shaped the geography and influences the microclimate of the region. There is an amazing diversity of wine produced in this region. Most of the wine is white from the Chenin Blanc, Sauvignon Blanc, and Melon de Bourgogne grapes. There are, however, significant red wines made from the Cabernet Franc grape. Adding to the interest in the wines of the Loire region is a long history of winemaking going back to the 5th century. Marcel Flori will bring this to you in a manageable presentation that culminates with a tasting of four wines from the Loire Valley. You must be 21 years of age or older to enroll in wine classes.

## Wines of France: Provence and the Southwest

Provence delivers impressive reds and some fine roses made from Syrah, Cabernet-Sauvignon, Tibouren and even Grenache grapes. Whites feature Semillon, Clairette, 'Ugni-Blanc and Rolle. Each grape has its own characteristics that come together with the climate and soil to create flavors unique to this region. They may not all be household names, but there is much great wine to discover here. Marcel Flori will select four wines from the region for you to taste, so students must be 21 years of age or older to enroll.

## Wines of Chile

The Spanish conquistadors in the 16th Century, and later the French, introduced wine making to Chile. This, combined with the diversity of grape growing regions contribute to the diversity of Chilean viticulture. From the Spanish comes the Vitis vinifera family and from the French comes Cabernet Sauvignon, Merlot, Carmenere and Franc. Since the 1980s, investments to capitalize on favorable growing conditions has driven the quality of their wine up, overcoming the previous reputation. In fact, Chile is now a top 5 importer of wine to the United States while also developing other international markets. Marcel Flori will help you explore the wines of Chile with his insights. In-person classes include a tasting. Students must be 21 years of age or older to enroll.

## Wines of Argentina

Argentina is among the top five wine-producing countries. Increasingly, American retailers are stocking wine from this South American country. Malbec is the most prevalent red and Torrontés the most prevalent white but the story does not end there. In fact, the full range of wines from dry to sweet and fortified wines are present in Argentina's red, white, rose and sparkling wines. You'll experience grape varieties including: Cabernet Sauvignon, Bonarda, Merlot, Syrah, Chardonnay and Sauvignon Blanc. Students must be 21 years of age or older to enroll.

### Career Skills Institute II

The Career Skills Institute provides an educational experience for students with mild cognitive disabilities, age 18 and above. Career Skills Institute II is the second semester of the program and builds on the skills the students mastered in the first semester. Acceptance into the Institute and completion of LDD8001 or equivalent as determined by the program coordinator is required for registration. Career Skills Institute II is composed of 3 modules: English Composition, Self Management, and Workplace Communication. These modules are designed to build skills that will create success in this program and later, in the workplace. Students will learn a combination of academic and work related competencies such as how to write formally, how to manage oneself and cope in the workplace, and how to effectively communicate on the job.

Please contact Paul Schweikert at sp30287@harpercollege.edu for further information on these courses.

### Career Skills Institute IV

Career Skills Institute IV is the fourth and final semester of the Career Skills Institute program and builds on skills the students have mastered in the first three semesters. Career Skills Institute IV is composed of two modules: Career Exploration II and Workplace Experience. Career Exploration II focuses on creating resumes, finding work opportunities, filling out applications and interviewing tips. Workplace Experience gives students the opportunity to apply learned skills in a workplace setting. These modules allow for discussion of experiences and workplace practices. They are designed to build skills that will create success in the workplace. Prerequisites: acceptance into the Institute and completion of LDD8001, LDD8002 and LDD8003 or equivalent as determined by the program coordinator.

## The Life of King Tut

LIVE 

King Tut, whose full name was Tutankhamun, lived a short, but powerful life of royalty during the eighth dynasty of Egypt. He was born around c1341 BC and his father, Akhenaten, was in power, and was changing some key Egyptian beliefs. When Akhenaten died, Tutankhamun took the throne and become Pharaoh of Egypt. He was nine years old. He would continue as the King of the land for less than a decade, until his untimely death at the young age of 19. He was relatively unknown until Howard Carter and his team discovered Tut's tomb in 1922. His tomb included over 5,000 ancient artifacts. This sparked the public's interest in the history of King Tut, his golden mask, and Ancient Egypt. Historical Presenter, Jim Gibbons, will discuss the life and kingdom of King Tut of Egypt. He will explain the background of the royal family, his battle with illness throughout his life, and the discovery of his tomb. Gibbons will also discuss the popular belief of the 'Curse of the Pharaohs' for those involved in the discovery of the mummy of King Tut.

### Chicago Gilded Age Unprecedented Growth and Prosperity

NEW!

The presenter, a 47-year certified Chicago tour guide, author and historian, will describe with rare images how and why a village of 400 in 1833 became the fastest growing city in the world, with 1.7 million, a mere half century later. The reason was not only in the beginning of the I & M Canal in Chicago, but in the daring of legendary industrialists, including Palmer, Pullman, McCormick, Ward, Swift, Armour, and in Louis Sullivan's dramatic architecture. This class will enhance the knowledge of even the most ardent follower of Chicago's dynamic history.

### Lewis & Clark In Illinois

LIVE 

NEW!

How do you prepare for a trip when you don't know where you are going, how long the journey will take, and who you will meet along the way? These are the questions Captains Meriwether Lewis and William Clark tried their best to answer while wintering at Camp River Dubois from December 1803 to May 1804 in the area that would later become the state of Illinois. The vital role Illinois played in the Expedition's success from gathering supplies to tracking down maps to recruiting interpreters and training soldiers will be discussed. Learn about the goals of the expedition. Ben Polard at the Lewis & Clark State Historic Site in Hartford, IL, will show what camp life was like and how it helped form the now famous Corps of Discovery. While the program will focus on Lewis & Clark in Illinois, highlights of the Expedition's 28-month journey will be celebrated throughout. Q & A to follow the presentation.

### Year of Decision, 1818: Illinois Joins the Union

LIVE!

NEW!

Illinois is an important center of politics, transportation, and commerce, extending as far north as Buffalo, New York and as far south as Norfolk, Virginia. It's surrounded by the Mississippi, Ohio, and the Wabash Rivers. Did you know its northern boundary was supposed to be located at the southern tip of Lake Michigan, with Chicago almost ending up in Wisconsin? Or that Illinois was almost admitted as a slave state? Jim Edstrom, author of Avenues for Transformation: Illinois's Path from Territory to State, tells the story of Illinois's admission in 1818 and the territorial leaders who oversaw that historic event.

### The Gospel of John

LIVE!

NEW!

The gospel of John portrays Jesus as the Divine Being (almost an alien being) who comes from above, dies willingly on the cross for humanity's salvation, and mission accomplished; returns triumphantly to the Father. In John's gospel, Jesus utters no parables, performs no exorcisms, and replaces all things Jewish by enacting seven magnificent miracles. By 200 C.E. John's gospel had become "the spiritual gospel" telling the story in symbolic ways and revealing Jesus' obvious divinity. Unfortunately, John's gospel is also saturated with anti-Semitism that later fuels and legitimizes attacks against Jews.

**Overground Railroad**  
by Candacy Taylor

**Driving While Black**  
by Gretchen Sorin

Take your pick or read both! For many, the automobile symbolizes freedom and the liberty to choose when and where we go. This was not the case for many Americans as the color of their skin robbed them of such autonomy (no pun intended). Learn about the ways in which 'travelling while Black' impacted the economic, political, and social history of the United States.

## German

### Elementary German II LIVE

Those ready to continue beyond beginning German will develop listening, speaking, reading, and writing skills in German. You will delve deeper into the cultures and people of the German-speaking world. All new students who have prior experience with or have taken classes in German should consult with Kim Jaeger - [kjaeger@harpercollege.edu](mailto:kjaeger@harpercollege.edu) before registering. Students enrolled in this class will receive all of the instruction and complete the activities that for-credit students engage in but will not be required to take quizzes or exams and will not be graded.

Synchronous, real time interactive, sessions with the instructor are expected. These sessions will be recorded and made available as needed. You must have access to a computer with reliable Internet access, web cam, a good microphone, and have basic computer skills to successfully complete this course. The textbook with an online component is used for GER 101, 102, and 201 at Harper and is available for purchase via Harper Store online.

### Suzuki Method Violin Group Class

Dr. Suzuki developed a unique approach based on his genuine belief that musical ability is not an inborn talent but an ability that can be developed. Any adequately trained child can develop musical ability, just as all children develop the ability to speak their mother tongue. Therefore, the potential of every child is unlimited. The method will use the child's listening ability, motivation, repetition, and step by step mastery to enhance students' musicality and technique. The Suzuki method violin group class is open to all ages studying violin. It offers an excellent platform for encouraging young and new musicians to improve their musicianship while making new friends. Instructed by Dr. Chia-Ying Hsu, the ensemble performs an original Suzuki repertoire. The program is energetic, diverse, and focuses on a collaborative atmosphere that emphasizes teamwork. The Suzuki Method Class performs at Harper College's Performing Arts Center. Beginners are especially welcome.

It is open to all children 14 and younger studying the violin, viola, cello, or piano. It offers a unique platform for encouraging young and new musicians to improve their musicianship while making new friends. Examples of chamber formations include string duet, trio, quartet, and a piano trio, quartet, and quintet. The ensemble performs at Harper College's Performing Arts Center, with Dr. Chia-Ying Hsu as director.

## Youth Preparatory Piano Program 30 Minutes Private Lessons and 50 Minutes Group Sessions for 15 Weeks

This private and group instruction bundle consists of a combination of group and private instruction for children ages 6 to 15. Group lessons offer peer reinforcement, social interaction, ensemble experience and group activities. Private lessons provide the necessary individual attention for technical development and interpretive and expressive insights. By combining these two approaches you receive a comprehensive 15 week curriculum. Participate in one 30 minute private lesson and one 50 minute group lesson each week. Students are grouped according to age and level. Using the Celebrate Piano Method, developed by Dr. Cathy Albergo and Dr. Mark Mrozinski of Harper College, and the Celebration Series of intermediate through advanced literature, students learn music reading, rhythm, theory, listening skills, finger and hand development, improvisation and composition through fun classroom activities. Children progress through varied and progressive musical repertoire from leading contemporary and traditional classical composers.

## Benefits of Music Education for Children

### Why study music?

The benefits of studying music are many and extend well beyond the joy of learning an instrument, particularly for young students. Participation in musical activities has been found to enhance:

### Intellectual and Cognitive Growth

- Through music experience, the learner is involved in perceiving, making judgments and comparisons, evaluating, analyzing and synthesizing, creating and reflecting.

### Creativity and Self Expression

- Music is an essential way of communicating ideas and feelings with other people, developing a better understanding, appreciation, and perception.
- Music education engages and enhances imagination

### Coordination

- Playing musical instruments can improve gross motor skills, hand-eye coordination, balance and enhance long-term memory and recognition patterns.

### Social Skills

- Social behaviors such as cooperation, collaboration, team-building, and sensitivity to social and cultural beliefs and practices are promoted.

## PIANO PREPARATORY PIANO PROGRAM

### 30M PRIVATE LESSONS AND 50M GROUP LESSONS FOR 15 WEEKS

The program consists of a combination of group and private instruction. Group lessons offer peer reinforcement, social interaction, ensemble experience, and group activities. Private lessons provide individual attention for technical development and interpretive and expressive insights. Combining these approaches give you a comprehensive 15-week curriculum. Participate in one 30-minute private lesson and one 50-minute group lesson each week. In addition to learning an instrument, students will enhance playing technique and develop listening skills, intonation, rhythmic accuracy, and expression. Returning students must receive the CRN from their instructors. New students must complete the First-Time Student Application at [bit.ly/cmacprivatelessons](http://bit.ly/cmacprivatelessons). You may register after the Piano Facilitator reviews their application and assesses their level. For more information, contact Kathy Sbarboro at [ksbarbor@harpercollege.edu](mailto:ksbarbor@harpercollege.edu).

## Youth String Orchestra

The Youth String Orchestra is open to all children, 18 or younger, studying the violin, viola, cello, or bass. It offers a unique platform for encouraging young and new musicians to improve their musicianship while making new friends. Conducted by Dr. Chia-Ying Hsu, the orchestra performs an exciting repertoire. It explores the standard string orchestra literature, folk, ethnic, and global musical traditions and cultures, including compositions and arrangements from underrepresented communities. It is an energetic, diverse, collaborative, and unique ensemble that emphasizes teamwork. The Youth String Orchestra performs at Harper College's Performing Arts Center. No auditions are needed; however, a note from the instrumental teacher is encouraged.

#### Camp Ooey Gooy

Are we going to make slime? The answer is: Yes, but so much more! What students get is a whole bunch of science (chemistry, physics and biology) but think they are just playing! Decorate lab coats with chromatography; get into some biology outside and do a Make-n-Take using air plants; design t-shirts and painting with polymers, a liquid latex that results in the rubbery texture you see on t-shirts everywhere. This program is a real favorite.

## ACT/SAT Practice Test

In this three-hour prerequisite class, students take a full-length ACT or SAT practice exam to establish their baseline score. Sylvan analyzes the score, reviews the results with students and parents, and makes recommendations about preparation options. If a student would like to take both the ACT and SAT in a Practice 101 class, they should enroll in two separate ACT/SAT Practice 101 classes. Students must complete a Practice 101 class to be eligible to enroll in an ACT or SAT Exam Prep course. Classes may meet at Sylvan Centers in Schaumburg or Lake Zurich.
