Letter to Our Community

As we consider what opportunities our upcoming fall semester provides, I’d like to reflect upon a success story from one of our long-term Community Education writing students. As you probably realize, becoming an author can be difficult business. So, we are always happy when our students get published.

Student Kate Guerrero is the winner of the 2023 Soon To Be Famous Illinois Author Manuscript Project contest for her novel *Burn and Balm*. Kate has taught middle and high school English and dabbled in fiction, but during the pandemic she decided to begin a novel. To get started, Kate took a couple of Community Education classes and began getting words on paper. Having an instructor to hold her accountable and fellow students to support each other helped to keep her writing on track.

In an article announcing her contest win, Instructor Laura Ehrke said, “You feel this incredible creative energy generated during class. Ideas are sparked for both the student’s own manuscript and for their cohort’s works. Writing is such a solitary road and it’s easy to veer off course, so this engagement keeps you committed to your projects.”

Writers often tell you that being part of a community of writers is the greatest motivation, and Kate has found that at Harper College. She said she would have never finished the manuscript without check-ins during classes, feedback from her fellow authors and support from her instructor.

Maybe you are an aspiring writer, or maybe you’re interested in pursuing other interests such as playing an instrument, painting or learning another language. Or, perhaps you want to give your career a boost by learning a new skill or becoming more proficient in an area critical to your work. This catalog is full of opportunities, and I encourage you to sit down with it for a while and enroll in something that will help fulfill you.

Finally, one last thought from Kate, “These courses are just a really great way to get a boost and have support.” We hope to see you in our classes in the spring.

President, Harper College
Learning Options to Fit Your Life

**Live Online Classes**
These are classes where an online meeting is being used like an in-person classroom. Days and times for the meetings are specified, with online lectures being used as the primary way in which course content is being presented. These classes will either utilize Webex or Blackboard (with Blackboard Collaborate Ultra for class meetings). Information on your virtual classroom will come directly from your instructor via email.

**Self-Paced Online Classes**
In these classes, content (lectures, readings, videos, etc.) is placed on a protected website (Blackboard, in most instances). Some self-paced classes may have occasional class meetings, though meetings are not the primary way in which content is being presented to you. Self-paced classes will have active instructor participation and deadlines even without live meetings. You will receive instructions for accessing the class materials prior to the start of classes via email.

**In-Person Classes**
These classes meet in-person at the designated campus or offsite location. The room number and most up-to-date information is available on the course page at ce.harpercollege.edu. For information on prevention and resources related to COVID-19, please visit harpercollege.edu/advisory.

**Blended Classes**
Blended classes use a combination of in-person and online meetings. Information on the class structure will come directly from the instructor.

Botanical Relief Tiles

Make something a little different that is easy and looks terrific! You do not need to know how to draw or paint to create something beautiful. We will use clay to create an impression and then cast it in plaster. You can use leaves and flowers to develop botanical-inspired tiles, or feel free to impress other objects into the clay, such as gears, sticks, coins, and cardboard shapes; anything with a textured surface will produce a cast. Students should bring an apron.

This course helps students develop a rudimentary knowledge of the keyboard and playing skills sufficient to cope with simple, practical situations. Emphasis on tonal notation, harmonization, transposition, sight reading, improvisation, ensemble playing, and piano literature. Prerequisite MUS 165 with a grade of C or better or proficiency examination. For more questions, please get in touch with Janice Razaq at jrazaq@harpercollege.edu or 847.925.6487.

The instructor is such an outstanding instructor. I look forward to class because I know that not only will I learn basic ukulele skills, but I will have the most enjoyable time during class. There is a wide range of students in the class, from one student who has the basics down pat to those in the middle and then there is myself, who is challenged by arthritic fingers that are fused with pins. Despite my physical limitations, he has found a way to adapt my hand position so that I can execute the chords. He manages to challenge the top student so that he is not bored while making us more challenged students feel like we can do it! The camaraderie he fosters in class is amazing and we feel like a family despite the difference in our musical abilities. I have taken other community education classes but never had an instructor so knowledgeable and friendly. He is one in a million, and truly an asset to Harper College.

“I’ve been playing bass with Harper’s Back Porch Revue since it began in the Fall of 2017. Although it’s listed as a class, it’s also a lively performing group of people of all ages, from novice to expert. We learn about and play classic old-time American folk, country, and blue music. Instructors Scott Cashman and Bekr Ali do a great job keeping it fun and letting each player create their own part to fit the songs, with gentle guidance. It’s a group learning process, and the performance vibe is friendly and collaborative. It’s always the best part of my week! R.V. “

Harper College Student wins Soon to Be Famous Statewide Author Contest

When Kate Guerrero’s children were little, she rotated among side hustles. Like other stay-at-home moms that she knew, Guerrero tried her hand at small businesses, starting an Etsy shop and selling craft kits.

Little did she know that her experience in the “momfluencer” world of essential oils and online crafts would inspire her first novel – and help her become an award-winning author.

That’s what happened when the Harper College student recently won the 2023 Soon to Be Famous Illinois Author Manuscript Project Contest for “Burn and Balm”. Her manuscript involves the early era of motherhood, along with the specific experiences that come with this period of parenting, tenuous friendships and plenty of stress.

The journey to “Burn and Balm” began in the middle of getting her children through the COVID-19 pandemic in 2020. Seeking a creative outlet for herself, Guerrero enrolled in Harper CE’s NaNoWriMo (National Novel Writing Month) Challenge course.

According to course instructor Laura Ehrke, the goal of NaNoWriMo isn’t to finish with a perfectly completed novel, but to get authors' ideas out of their heads and onto the page. Guerrero said that the rigorous word count benchmarks, along with the support of Ehrke and her classmates, served as crucial, external motivation.

“This was a lot harder than I expected and Laura is so overwhelmingly encouraging to everyone,” she said. “At first, it’s like when your mom says that kind of stuff. But then you realize she’s right – you can keep going.”

Guerrero continued to enroll in Ehrke’s 180 Day Novel Intensive and Novel Workshop Intensive classes, designed to assist authors as they develop and refine their works.

With her instructor’s encouragement, Guerrero submitted to the manuscript contest, which involves all of the libraries in Illinois. Ehrke was confident “Burn and Balm” would do well; Guerrero wasn’t as sure. Validation of Guerrero’s talent and perspective was solidified when she won the contest for unpublished Illinois authors in September. Prizes include a professional line edit and a professionally designed book cover.

Guerrero expressed gratitude for Harper’s courses and Ehrke’s counsel, as well as the enthusiasm and dedication of the cohort that formed among a handful of Harper writing students. She said that she would have never finished the manuscript without check-ins during classes (held online) and the feedback from her fellow authors. Ehrke agreed that something “magical” happens among her students and she is proud of their success.

“You feel this incredible creative energy generated during class. Ideas are sparked for both the students’ own manuscripts and for their cohorts’ projects,” she said. “Writing is such a solitary road and it’s easy to veer off course, so this engagement keeps authors committed to their work.”

Guerrero now has multiple projects of her own. A freelance copywriter by day, she estimates that she’s more than 70% done with writing her second novel, about a married mother whose high school crush reappears in her life in a way that threatens her future and livelihood. After winning the Soon to Be Famous contest, she plans to explore her options to become published – something that seemed unattainable before took her first Harper course three years ago.

“It’s been a great experience. I never considered doing anything like this before the pandemic, but I’m so glad I did,” Guerrero said. “These courses are just a really great way to get a boost and have support.”

I’ve had some experiences doing my own home repair, which is the reason I signed up to take this class -- to further my knowledge in that area. I found Ernie to be quite personable, knowledgeable, and prepared. As he moved the class through the various electrical areas he was presenting, he was always willing to accept questions as they came up and answer them satisfactorily. I appreciated his preparation for the class, the pacing he provided, and his personal connection with us in class. I am very happy I took the class and recommend him highly. J. S.

Art

Edouard Manet and Modern Beauty

Depicting the Paris of his day, the French artist Edouard Manet has been considered as the most modern among his peers. Manet frequented the city’s cafes, and admired its modern fashions, making sketches of what inspired him and turned them into ‘realist style’ oil paintings.

Manet’s life was cut short due to a painful illness from which he could not recover and died at the age of 51. It was especially his last 2 years to which the Art Institute of Chicago dedicated a recent exhibition. Considered as his last works, that also included pastels, these are rendered with detail and delicate brushwork. They are not considered lesser paintings, but a full expression of this man, whose final works demonstrate his fierce embrace of beauty and pleasure in mid-19th century Paris.

The Fabulous Dale Chihuly Glass Artist and the Studio Glass Movement In America

Our focus is on the greatest living master of the ancient medium of glass. Dale Chihuly has breathed new life into a traditional art form through his technical innovations and extravagant, large-scale, glass installations. Chihuly has sought new challenges to stimulate his creativity and imagination. The fantastic multi-shaped, colorful glass towers and temples he creates with his students incorporate out-of-doors natural settings and existing architecture into indoor glass conservatories.

The Master Builders - Gang, Gehry, Jahn, and Friends

First views, rare entries, and detailed descriptions of the latest designs by Chicago’s modern master architects and the expert who inspired them. See Gang’s skyline - dominating 101 floor St. Regis and its plush new hotel, her curvaceous five-part 82-floor Aqua and more. Revel in Frank Gehry’s ever-evolving styles, and Helmut Jahn’s last work, Michigan Avenue’s 1000M, plus conversion of the celebrated Thompson Center. Re-connect with Louis Sullivan through an insiders tour of the one-time Auditorium Hotel (Roosevelt University, assisted by Jerome O’Connor, a decades-long architectural tour guide and author.

Joseph Goebbels-
The Man Who Seduced a Nation

This year’s 85th anniversary of the beginning of World War II presents a fitting occasion to take a closer look at Hitler’s mouthpiece, Joseph Goebbels. Through his perfidious use of propaganda, this quintessential Nazi was not only able to turn the Dictator into a worshipped god-like figure, but he also seduced a whole nation and made many stubbornly believe in an essentially unwinnable war. German Historian Anette Isaacs presents fascinating insights into the life and mind of this powerful manipulator.

While Project Mercury proved that NASA could successfully launch astronauts into orbit and recover them, many lessons still needed to be learned before landing on the moon. Taking place between 1965 and 1966, Project Gemini featured a 2-man spacecraft and a more powerful rocket. Project Gemini set out to practice many of the maneuvers and techniques required to travel to and land on the moon such as learning to intercept and dock with other spacecraft, learning how to perform outside the spacecraft in a spacesuit, and testing astronauts' endurance to survive in space for weeks at a time. This is the second class of a series outlining NASA's race to the moon, but you do not have to have attended the previous session.

Theology

The Gospel of Mary of Magdalene

According to the second century Gospel of Mary of Magdala, Mary is Jesus’ confidante, his interpreter, and his replacement. She supports Jesus’ ministry financially and may have been ‘the beloved disciple’ mentioned in John’s Gospel. Jesus divulges to her teachings unknown to other disciples, and after the resurrection she occupies the position he leaves vacant. And yet early in Christianity, Mary of Magdala becomes a woman dishonored and discarded. This talk examines the woman, the myth, and the gospel that bears her name.

Benefits of Music Education for Children

Why study music?
The benefits of studying music are many and extend well beyond the joy of learning an instrument, particularly for young students. Participation in musical activities has been found to enhance:

Intellectual and Cognitive Growth
- Through music experience, the learner is involved in perceiving, making judgments and comparisons, evaluating, analyzing and synthesizing, creating and reflecting.

Creativity and Self Expression
- Music is an essential way of communicating ideas and feelings with other people, developing a better understanding, appreciation, and perception.
- Music education engages and enhances imagination

Coordination
- Playing musical instruments can improve gross motor skills, hand-eye coordination, balance and enhance long-term memory and recognition patterns.

Social Skills
- Social behaviors such as cooperation, collaboration, team-building, and sensitivity to social and cultural beliefs and practices are promoted.
- Personal growth, such as self-discipline, self-esteem, independence, and self-knowledge, are also addressed.

Retention
- Studies over the past 20 years have shown that students who study music achieve better in mathematics, reading, and learning foreign languages.
- The ability to listen actively is a benefit in all subjects.

CMAC’s Fundamental Beliefs
- Music Education is preparation for life.
- Music Education is a lifelong process.
- Everyone can engage with and enjoy music.
